4. Summary of Material Change:

The Company announced that it has staked additional claims at the Lemhi Gold Project and that Tom Panoulis has been added to management.

5. Full Description of Material Change:

Freeman Gold Corp. (formerly Lodge Resources Inc.) (“Freeman” or the “Company”) announced the staking of 219 additional claims at its Lemhi Gold Project. The newly staked claims cover highly prospective areas in the vicinity and along strike of the known near surface, oxide gold mineralization outlined by over 355 drill holes between 1980 and 2013. The Lemhi Gold Project now consists of 7,515 acres of highly prospective ground that has gone largely unexplored despite the discovery of the historical resource.

Freeman announced the appointment of Tom Panoulis as Vice President, Corporate Development, effective June 10, 2020. Mr. Panoulis is a capital markets professional with over 15 years of experience. Mr. Panoulis has previously worked at Echelon Wealth Partners, Fraser Mackenzie, and Dundee Capital Markets, raising over one billion dollars for issuers in the mining sector and advising senior management teams on numerous merger and acquisition transactions. Prior to entering capital markets, Mr. Panoulis held senior roles at Kinross Gold Corporation and TVX Gold Inc. in corporate development, responsible for managing various acquisition and divestiture activities. Mr. Panoulis holds an Honours Bachelor of Commerce degree from the University of Toronto and is a member of the Canadian Institution of Mining and Metallurgy and the Toronto Society of Financial Analysts.

FREEMAN GOLD CORP. STAKES ADDITIONAL CLAIMS AT THE LEMHI GOLD PROPERTY AND ADDS TOM PANOULIAS TO MANAGEMENT

CANADIAN SECURITIES EXCHANGE: FMAN

FOR IMMEDIATE RELEASE

VANCOUVER, BRITISH COLUMBIA – June 11, 2020 – Freeman Gold Corp. (formerly Lodge Resources Inc.) (“Freeman” or the “Company”) (CSE:FMAN) (FSE:3WU) is pleased to announce the staking of 219 additional claims at its Lemhi Gold Project. The newly staked claims cover highly prospective areas in the vicinity and along strike of the known near surface, oxide gold mineralization outlined by over 355 drill holes between 1980 and 2013. The Lemhi Gold Project now consists of 7,515 acres of highly prospective ground that has gone largely unexplored despite the discovery of the historical resource.

Dean Besserer, VP Exploration, commented, “having secured a total property package of approximately 30 square kilometers surrounding the historical Lemhi oxide gold mineralization allows the Company to increase its chances of discovering further satellite deposits. Given the current geological interpretation and the magnitude of the mineralized body, we feel that securing this additional land was imperative, as it will allow the Company to pursue an aggressive exploration program in conjunction with resource focused drilling.”

Freeman is pleased to announce the appointment of Tom Panoulis as Vice President, Corporate Development, effective June 10, 2020. Mr. Panoulis is a capital markets professional with over 15 years of experience. Mr. Panoulis has previously worked at Echelon Wealth Partners, Fraser Mackenzie, and Dundee Capital Markets, raising over one billion dollars for issuers in the mining sector and advising senior management teams on numerous merger and acquisition transactions. Prior to entering capital markets, Mr. Panoulis held senior roles at Kinross Gold Corporation and TVX Gold Inc. in corporate development, responsible for managing various acquisition and divestiture activities. Mr. Panoulis holds an Honours Bachelor of Commerce degree from the University of Toronto and is a member of the Canadian Institution of Mining and Metallurgy and the Toronto Society of Financial Analysts.

William Randall, President & CEO, continued, “I would like to welcome Tom to the Freeman team. We are pleased to have Tom’s experience and expertise as we get working on the Lemhi Gold Project. Our initial focus will be to complete a maiden NI 43-101 compliant resource estimate within the historical resource area, focusing on the near surface, oxide material by following up on the voluminous work completed by previous operators.”

This news release has been reviewed and approved by Dean Besserer, P. Geo., VP Exploration with Freeman Gold Corp., a "Qualified Person", under National Instrument 43-101 Standard for Disclosure for Mineral Projects.
