NU E POWER CORP. CLOSES FIRST TRANCHE OF NON-BROKERED PRIVATE PLACEMENT, RAISING \$1.97 MILLION TO ACCELERATE POWER INFRASTRUCTURE GROWTH

Vancouver, BC & CALGARY, Alberta – July 8, 2026 – NU E Power Corp. (CSE: NUE | FSE: NUE1) ("**NUE**" or the "**Company**") is pleased to announce the successful closing of the first tranche of its previously announced non-brokered private placement (the "**Offering**"), raising gross proceeds of **\$1,968,700** through the issuance of **13,124,667 Units** at a price of **\$0.15 per Unit**.

The first tranche represents approximately **66%** of the Company's previously announced **\$3.0 million** financing and reflects strong participation from investors who share management's long-term vision for NUE's expanding power infrastructure platform. Subject to receipt of additional subscriptions, customary closing conditions and regulatory approvals, the Company expects to complete one or more additional tranches for aggregate gross proceeds of up to **\$3,000,000**.

Each Unit consists of one common share of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder to purchase one additional common share of the Company at an exercise price of **\$0.25** for a period of **three years** from the applicable closing date, subject to the acceleration provisions described below.

Positioning NUE for Continued Growth

The proceeds from the Offering will provide additional financial flexibility as the Company advances its growing portfolio of energy infrastructure projects and evaluates new development opportunities.

Net proceeds from the First Tranche are expected to be used for:

- Advancement of the Company's project portfolio and Acquisition and evaluation of additional power infrastructure opportunities;
- Working capital; and
- General corporate purposes.

Management believes reliable power infrastructure continues to be one of the most important enabling assets supporting the rapid expansion of artificial intelligence, data centres, industrial electrification and other large-scale energy users throughout North America. The Company continues to focus on identifying, originating and advancing projects capable of serving these rapidly growing markets.

Warrant Acceleration

If the closing price of the Company's common shares on the Canadian Securities Exchange equals or exceeds **\$0.40** for ten consecutive trading days at any time after the date that is four months and one day following the applicable closing date and before the expiry of the Warrants, the Company may accelerate the expiry of the Warrants by providing written notice to holders. In such event, the Warrants will expire 30 calendar days following the date of the notice. The Company will issue a news release on the same day any acceleration notice is delivered.

Finder's Fees

In connection with the First Tranche, the Company paid eligible finders aggregate cash fees of **\$32,472** and issued **716,680 broker warrants**. Each broker warrant entitles the holder to acquire one Unit of the Company at an exercise price of **\$0.15** for a period of **24 months** from the closing date, in accordance with applicable securities laws and the policies of the Canadian Securities Exchange.

All securities issued under the First Tranche are subject to a statutory hold period of four months and one day from the closing date in accordance with applicable Canadian securities laws and the policies of the Canadian Securities Exchange. The Warrants will not be listed on the Canadian Securities Exchange or any other exchange.

The Offering is being completed pursuant to available prospectus exemptions under National Instrument 45-106 *Prospectus Exemptions*, including the accredited investor exemption and, where applicable, the minimum amount investment exemption.

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any applicable state securities laws. Accordingly, the securities may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an applicable exemption from the registration requirements of the United States Securities Act of 1933, as amended, and applicable state securities laws. This news release does not constitute an offer to sell or the solicitation of an offer to buy any securities in any jurisdiction where such offer or sale would be unlawful.

Forward-Looking Information

This news release contains forward-looking information and forward-looking statements (collectively, "forward-looking information"). Such forward-looking information is provided to inform the Company's shareholders and potential investors about management's current expectations and plans relating to the future. Readers are cautioned that reliance on such information may not be appropriate for other purposes. Any such forward-looking information may be identified by words such as "anticipate", "intends", "expects", "may", "will", and similar expressions, although not all forward-looking information contains these identifying words.

More particularly and without limitation, the forward-looking information in this news release includes statements regarding: the completion of one or more additional tranches of the private placement; the expected aggregate size of the private placement; the anticipated use of proceeds from the First Tranche and any additional tranches; the potential acceleration of the Warrant expiry date; the availability of applicable prospectus exemptions; compliance with applicable securities laws and CSE policies; the Company's ability to advance its growing portfolio of power and energy infrastructure projects and to evaluate and pursue new development and acquisition opportunities; management's expectations regarding continued growth in demand for reliable power infrastructure from artificial intelligence, data centres, industrial electrification and other large-scale energy users throughout North America; and the Company's ability to fund general working capital and administrative requirements.

Such forward-looking information is based on a number of assumptions, including the Company's ability to complete additional tranches of the private placement on the anticipated terms or at all; receipt of additional subscriptions; satisfaction of applicable closing conditions; continued availability of applicable prospectus exemptions; compliance with applicable securities laws and CSE policies; the Company's ability to apply the proceeds of the private placement as currently intended; and continued growth in demand for reliable power infrastructure from artificial intelligence, data centres, industrial electrification and other large-scale energy users.

Although the Company believes that the expectations reflected in such forward-looking information are reasonable, undue reliance should not be placed on forward-looking information because the Company can give no assurance that such expectations will prove to be correct. Actual results may differ materially from those expressed or implied by forward-looking information. Such risks and uncertainties include, but are not limited to: the Company may not complete additional tranches of the private placement on anticipated terms or at all; additional subscriptions may not be received; required conditions may not be satisfied; applicable regulatory requirements may not be met; the Company may use proceeds differently than currently intended as circumstances change; project advancement, development and acquisition activities may not proceed as expected; anticipated demand growth from artificial intelligence, data centres, industrial electrification and other large-scale energy users may not materialize as expected or on the anticipated timeline; additional financing may be required; and other risks customary to CSE-listed issuers.

Additional risk factors are described in the Company's continuous disclosure documents available on SEDAR+ at www.sedarplus.ca. No assurance can be given that any of the events anticipated by the forward-looking statements will occur or, if they do occur, what benefits the Company will obtain from them. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy of this release.
