

Summary 2015

ALBION VENTURES

SUMMARY

Summaries are made up of disclosure requirements known as “Elements”. These Elements are numbered in Sections A to E. This summary contains all of the Elements required to be included in a summary for the type of shares being issued pursuant to the prospectus issued by the Companies on 17 November 2015 (the “**Prospectus**”) containing an offer for subscription (the “**Offer**”) of ordinary shares of 1p (or 10p in the case of Crown Place VCT) each in the capital of each of the Companies (the “**Shares**”) and the Companies being closed-ended investment funds. Some of the Elements are not required to be addressed and, as a result, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in this summary, it is possible that no relevant information can be given regarding that Element. In these instances, a short description of the Element is included, together with an appropriate ‘Not applicable’ statement.

A		Introduction and Warnings
A1	Warning	This summary should be read as an introduction to the Prospectus. Any decision to invest in the securities of the Companies should be based on consideration of the Prospectus as a whole by the investor. Where a claim relating to the information contained in the Prospectus is brought before a Court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled this summary including any translation thereof, but only if this summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with other parts of the Prospectus, key information in order to aid investors when considering whether to invest in such securities.
A2	Use of the Prospectus by financial intermediaries for subsequent resale or final placement	<p>Each Company and their respective Directors consent to the use of the Prospectus, and accept responsibility for the content of the Prospectus, with respect to subsequent resale or final placement of securities by financial intermediaries from the date of the Prospectus until the close of the offers. The offers are expected to close on or before 30 September 2016, unless fully subscribed early or otherwise closed earlier or extended by the respective Board to a date not later than 16 November 2016. There are no conditions attaching to this consent.</p> <p>Financial intermediaries must give investors information on the terms and conditions of the offer at the time they introduce the offer to investors. Any financial intermediary using the Prospectus must state on its website that it is using the Prospectus in accordance with the consent set out in the above paragraph.</p>

		<ul style="list-style-type: none"> ● Through investment in a number of higher risk companies with greater growth prospects in sectors such as software and computer services and medical technology. ● This is balanced by investment in more stable, often asset-backed investments that provide a strong income stream. These include freehold-based businesses in the leisure sector, such as pubs and health clubs, as well as stable and profitable businesses in other sectors including business services and healthcare. Such investments will constitute the majority of investments by cost. ● In neither category do portfolio companies normally have any external borrowings with a prior charge ranking ahead of the VCT. ● Up to two-thirds of qualifying investments by cost comprise loan stock secured with a first charge over the portfolio company's assets. <p>Funds held pending investment or for liquidity purposes will be held as cash on deposit or in floating rate notes or similar instruments with banks or other financial institutions with high credit ratings assigned by international credit rating agencies.</p> <p>As defined by its Articles of Association, Albion Development VCT's maximum exposure in relation to gearing is restricted to 10 per cent. of the adjusted share capital and reserves.</p> <p>The Albion Development VCT Directors do not currently have any intention to utilise long-term gearing.</p> <p>Albion Enterprise VCT</p> <p>Albion Enterprise VCT's investment objective is to provide investors with a regular and predictable source of income combined with the prospect of longer term capital growth. The Company intends to achieve this by investing up to 50 per cent. of the net funds raised in an asset-based portfolio of more stable, ungeared businesses (the "Asset-based Portfolio"). The balance of the net funds raised, other than funds retained for liquidity purposes, are invested in a portfolio of higher growth businesses across a variety of sectors of the UK economy. These range from more stable, income producing businesses to higher risk technology companies (the "Growth Portfolio"). In neither category do portfolio companies normally have any external borrowing with a charge ranking ahead of the Company. Up to two-thirds of qualifying investments by cost comprise loan stock secured with a first charge on the portfolio company's assets. Funds held pending investment or for liquidity purposes will be held as cash on deposit or in floating rate notes or similar instruments with banks or other financial institutions with high credit ratings assigned by international credit rating agencies.</p> <p>The Company's investment portfolio is structured to provide a balance between income and capital growth for the longer term. The Asset-based Portfolio is designed to provide stability and income whilst still maintaining the potential for capital growth. The Growth Portfolio is intended to provide diversified exposure through its portfolio of investments in unquoted UK companies. Stock specific risk will be reduced by the Company's policy of holding a diversified portfolio of Qualifying Investments.</p>

		<p>As defined by its Articles of Association, Albion Enterprise VCT's maximum exposure in relation to gearing is restricted to 10 per cent. of the adjusted share capital and reserves.</p> <p>The Directors do not currently have any intention to utilise long term gearing.</p> <p>Albion Technology & General VCT</p> <p>Albion Technology & General VCT's investment strategy is to provide investors with a regular and predictable source of dividend income combined with the prospect of longer term capital growth through allowing investors the opportunity to participate in a balanced portfolio of technology and non-technology businesses. It is intended that the Company's investment portfolio will be split approximately as follows:</p> <ul style="list-style-type: none"> ● 40 per cent. in unquoted UK technology related companies; and ● 60 per cent. in unquoted UK non-technology companies. <p>This split is subject to the availability of good quality new investment opportunities arising within the UK technology and non-technology sectors.</p> <p>The Company pursues a longer term investment approach, with a view to providing shareholders with a strong, predictable dividend flow, combined with the prospects of capital growth. This is achieved in two ways. First, controlling the Company's exposure to technology risk by ensuring that many of the companies in the non-technology portfolio have property as their major asset, with no external borrowings. Second, by balancing the investment portfolio by sector, so that those areas such as leisure and business services, which are susceptible to changes in consumer sentiment, are complemented by sectors with more predictable long term characteristics, such as healthcare and the environment.</p> <p>As defined by its Articles of Association, Albion Technology & General's maximum exposure in relation to gearing is restricted to 10 per cent. of the adjusted share capital and reserves. The Albion Technology & General VCT Directors do not currently have any intention to utilise long term gearing.</p> <p>Albion Venture Capital Trust</p> <p>Albion Venture Capital Trust's investment strategy is to manage the risk normally associated with investments in smaller, unquoted companies whilst maintaining an attractive yield, through allowing investors the opportunity to participate in a balanced portfolio of asset-backed businesses. The Company's investment portfolio will thus be structured to provide a balance between income and capital growth for the longer term.</p> <p>This is achieved as follows:</p> <ul style="list-style-type: none"> ● Qualifying unquoted investments are predominantly in specially-formed companies which provide a high level of asset backing for the capital value of the investment; ● The Company invests alongside selected partners with proven experience in the sectors concerned; ● Investments are normally structured as a mixture of equity and loan stock. The loan stock represents the majority of the finance provided and is secured on the assets of the investee company. Funds managed or advised by Albion Ventures typically own 50 per cent. of the equity of the investee company; and ● Other than the loan stock issued to funds managed or advised by Albion Ventures, the Company's policy remains that its portfolio companies should not normally have external borrowings, and for the Company to have first charge over portfolio companies' assets. However, on an exceptional basis, certain portfolio companies may take on external

		<p>borrowings, where the board considers this will offer significant benefit to the Company.</p> <p>As defined by its Articles of Association, Albion Venture Capital Trust's maximum exposure in relation to gearing is restricted to 10 per cent. of the adjusted share capital and reserves. The Albion Venture Capital Trust Directors do not currently have any intention to utilise long term gearing.</p> <p>Crown Place VCT</p> <p>Crown Place VCT's investment policy is to achieve long term capital and income growth principally through investment in smaller unquoted companies in the United Kingdom. In pursuing this policy, the Manager aims to build a portfolio which concentrates on two complementary investment areas. The first are more mature or asset-based investments that can provide a strong income stream combined with a degree of capital protection. These will be balanced by a lesser proportion of the portfolio being invested in higher risk companies with greater growth prospects.</p> <p>As defined by its Articles of Association, Crown Place VCT's maximum exposure in relation to gearing is restricted to the amount of the adjusted capital and reserves of the latest published audited consolidated balance sheet. The Directors do not currently have any intention to utilise long term gearing.</p> <p>Kings Arms Yard VCT</p> <p>Kings Arms Yard VCT's investment policy is intended to produce a regular and predictable dividend stream with an appreciation in capital value as set out below.</p> <p>The Company intends to achieve its strategy by adopting an investment policy for new investments which over time will rebalance the portfolio such that approximately 50 per cent. of the portfolio comprises an asset-backed portfolio of more stable, ungeared businesses, principally operating in the healthcare, environmental and leisure sectors (the "Asset-Backed Portfolio"). The balance of the portfolio, other than funds retained for liquidity purposes, will be invested in a portfolio of higher growth businesses across a variety of sectors of the UK economy. These will range from more stable, income producing businesses to a limited number of higher risk technology companies (the "Growth Portfolio").</p> <p>In neither category would portfolio companies normally have any external borrowing with a charge ranking ahead of the Company. Up to two-thirds of qualifying investments by cost will comprise loan stock secured with a first charge on the portfolio company's assets.</p> <p>The Company's investment portfolio will thus be structured to provide a balance between income and capital growth for the longer term. The Asset-Backed Portfolio is designed to provide stability and income whilst still maintaining the potential for capital growth. The Growth Portfolio is intended to provide highly diversified exposure through its portfolio of investments in unquoted UK companies.</p> <p>Funds held pending investment or for liquidity purposes will be held as cash on deposit or in floating rate notes or similar instruments with banks or other financial institutions with high credit ratings assigned by international credit rating agencies.</p> <p>As defined by its Articles of Association, Kings Arms Yard's maximum exposure in relation to gearing is restricted to the amount equal to the Adjusted Capital and Reserves. Gearing will not normally be employed. The Directors do not currently have any intention to utilise long term gearing.</p>

D		Risks
D1	Key information on the key risks specific to the Companies	<ul style="list-style-type: none"> ● There can be no guarantee that the respective investment objectives of the Companies will be achieved or that suitable investment opportunities will be available. The success of each Company will depend on the Manager's ability to identify, acquire and realise investments in accordance with each Company's investment policy and there can be no assurance that the Manager will be able to do so. ● Investment in unquoted companies involves a higher degree of risk than investment in companies traded on the main market of the London Stock Exchange. Smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on a smaller number of key individuals. In addition, the market for stock in smaller companies is often less liquid than that for stock in larger companies, bringing with it potential difficulties in acquiring, valuing and disposing of such stock. Full information for determining their value or the risks to which they are exposed may also not be available. ● Changes in legislation concerning VCTs may limit the number of qualifying investment opportunities, reduce the level of returns which would otherwise have been achievable or result in a Company not being able to meet its investment objective. ● The value of an investment in a Company, and the dividend stream, may go down as well as up. Shareholders may get back less than the amount originally invested in a Company, even taking into account the available tax reliefs.

D3	Key information on the risks specific to the securities	<ul style="list-style-type: none"> ● The value of Shares in a Company depends on the performance of its underlying assets. ● The market price of the New Shares may not fully reflect their underlying net asset value. ● Trading in VCT shares is not active, so shares tend to be valued at a discount to their net asset value and may be difficult to realise. As a result, Shareholders may be offered a price which is less than the full value of a Company's underlying assets. ● It is likely that there will not be a liquid market in the New Shares (which may be partly due to up front tax relief not being available for VCT shares bought in the market and as VCT shares generally trade at a discount to net asset value) and Shareholders may have difficulty in selling their Shares as a result. Shareholders may not be able to realise their investment at Net Asset Value or at all.

		<p>Each Offer will open on 17 November 2015 and will close at 2p.m. on 30 September 2016. Each Board may close its Company's Offer earlier than this date or may extend its Company's Offer to a date up to and including 16 November 2016. Applications under each Offer will be accepted on a first come, first served basis, subject always to the discretion of the relevant Board. Subscribers must subscribe a minimum in aggregate of £6,000, with a minimum per elected Offer of £1,000 and thereafter in multiples of £1,000 per elected Offer. The first allotments of Shares under the Offers are expected to occur on 29 January 2016.</p> <p>In relation to each allotment, the Offer Price at which the relevant New Shares will be allotted will be calculated by using the pricing formula set out below and will be announced to the London Stock Exchange through a Regulatory Information Service on the date of allotment.</p> <p>The number of New Shares to be allotted under each Offer will be determined by dividing the Subscription amount for that Offer by a subscription price calculated on the basis of the following formula ("the Pricing Formula") applied to the relevant Company ("Offer Price"):</p> <p>Latest published NAV of an existing Share at the time of allotment (adjusted, as necessary, for dividends subsequently paid or in respect of which the record date has passed) divided by 0.97 (to allow for issue costs of 3.0 per cent.) and rounded up to the nearest 0.1p per Share.</p> <p>The number of New Shares to be issued under each Offer will be rounded down to the nearest whole number and fractions of New Shares will not be allotted. If there is a surplus of funds from an investor's subscription amount, the balance will be returned (without interest) in the form of a cheque or by bank transfer, save where the surplus amount per Offer is less than £1, in which case such surplus will be retained by the relevant Company.</p> <p>Early Bird Discount Investors who apply by 2p.m. on 29 January 2016 will be eligible for an Early Bird Discount as follows:</p> <ul style="list-style-type: none"> ● Existing Shareholders in any of the Albion VCTs will benefit from a 1 per cent. discount, such that the issue price of their shares will be calculated by reference to the latest net asset value per share divided by 0.98. ● New investors who are not existing Shareholders in any Albion VCTs will benefit from a 0.5 per cent. discount, such that the issue price of their shares will be calculated by reference to the latest net asset value per share divided by 0.975.
E4	Description of any interest that is material to the issue	Not applicable. There are no interests that are material to the issue.
E5	Name of persons selling securities	Not applicable. No person or entity is selling securities in the Companies under the Offers.
E6	Amount and percentage of dilution	Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 73.6p, 5,774,456 Shares would be issued by Albion Development VCT. If 5,774,456 Shares were to be issued by Albion Development VCT, the existing 54,806,943 Ordinary Shares (ignoring those held in treasury) would represent 90.5 per cent. of the enlarged issued share capital of Albion Development VCT.

		<p>Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 99.5p, 4,271,356 Shares would be issued by Albion Enterprise VCT. If 4,271,356 Shares were to be issued by Albion Enterprise VCT, the existing 40,414,613 Shares (ignoring those held in treasury) would represent 90.4 per cent. of the enlarged issued share capital of Albion Enterprise VCT.</p> <p>Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 79.5p, 5,345,911 Shares would be issued by Albion Technology & General VCT. If 5,345,911 Shares were to be issued by Albion Technology & General VCT, the existing 83,830,934 Shares (ignoring those held in treasury) would represent 94.0 per cent. of the enlarged issued share capital of Albion Technology & General VCT.</p> <p>Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 72.0p, 5,902,777 Shares would be issued by Albion Venture Capital Trust. If 5,902,777 Shares were to be issued by Albion Venture Capital Trust, the existing 71,271,113 Shares (ignoring those held in treasury) would represent 92.4 per cent. of the enlarged issued share capital of Albion Venture Capital Trust.</p> <p>Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 31.3p, 13,578,274 Shares would be issued by Crown Place VCT. If 13,578,274 Shares were to be issued by Crown Place VCT, the existing 108,227,657 Shares (ignoring those held in treasury) would represent 88.9 per cent. of the enlarged issued share capital of Crown Place VCT.</p> <p>Assuming full subscription under its Offer (ignoring the over allotment facility) and an issue price of 20.4p, 20,833,333 Shares would be issued by Kings Arms Yard VCT. If 20,833,333 Shares were to be issued by Kings Arms Yard VCT, the existing 221,840,558 Shares (ignoring those held in treasury) would represent 91.4 per cent. of the enlarged issued share capital of Kings Arms Yard VCT.</p>
E7	Expenses charged to investors	<p>All expenses of the Offers will be paid by the Manager out of the gross proceeds of the Offers. To the extent that the expenses of an Offer exceed 3.0 per cent. of the total proceeds of that Offer, Albion Ventures will bear the excess. However, investors will indirectly bear the costs of the Offers in which they participate through the application of the Pricing Formula which determines the Offer Price to be paid for the New Shares for which an investor subscribes and includes an allowance for issue costs of 3.0 per cent. (or 2.0 or 2.5 per cent. in respect of applications which qualify for the Early Bird Discount).</p> <p>For financial intermediaries who act on an “execution only” basis, i.e. do not provide financial advice to their clients, permissible trail commission can be paid which will be borne by Albion Ventures.</p>
