EdgeTI Secures Renewal with North Wind Group for Multi-Company Digital Twin of an Organization

January 27, 2026 3:01AM EST| Source: Edge Total Intelligence

ARLINGTON, VA, USA -- (Newsfile Corp. – January 27, 2026) - Edge Total Intelligence Inc. (“edgeTI”, “Edge Technologies”, “Company”) (TSXV: CTRL, OTCQB: UNFYF, FSE: Q5i), a leading real-time Digital Twins platform, announces a one-year renewal of North Wind Group’s digital twin that delivers a unified view of 20 operating companies, which started nearly five ago.

North Wind Group created its digital twin to deliver real-time insights across its four business lines of environmental, engineering, mission support, and construction that represent dozens of separately run P&L centers. With edgeTI’s edgeCore™ platform, North Wind Group’s multiple instances of Human Capital Management, Financial Management, and Program Management applications come together to report status and more importantly, identify upcoming resource bottlenecks, delivery constraints, and uncollected revenue.

“The adoption of Digital Twins to gain insight and manage operations based on real-time data and future intention is essential to a complex organization like North Wind Group,” said Jim Barrett, CEO of EdgeTI. “North Wind Group’s ever evolving commitment to real-time actionable decision making demonstrates the true power and value of an operational Digital Twin. I’m proud that our commercial off-the-shelf solution, edgeCore, is delivering these benefits to North Wind Group at a fraction of the time and cost of legacy solutions. North Wind’s ongoing success is further validation that we are on the right track!”

North Wind Group is also an edgeTI Integration Partner that resells, designs, and integrates edgeCore™ solutions. Their solutions can be sold separately or integrated with existing contracts for periods from one to five years.

About edgeTI

Edge Total Intelligence Inc. empowers enterprises, service providers, and governments to operate decisively with real-time clarity in complex, mission-critical environments. Its edgeCore™ Digital Twin and industry-specific platforms dynamically and cost-effectively unite data, applications, third-party services, business models, AI, automation, and domain expertise to orchestrate real-time actions and drive targeted outcomes—enabling faster, more effective decisions across continually evolving defense, business, and lifecycle operations.

Forward-Looking Information and Statements

Certain statements in this news release are forward-looking statements or information for the purposes of applicable Canadian and US securities law. Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations, or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, TSXV not approving the Option grants, the Company being unable to find a satisfactory replacement CFO, business, economic and capital market conditions.

Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the demand for its products, anticipated costs, and the ability to achieve goals. Factors that could cause the actual results to differ materially from those in forward-looking statements include the competition and general economic, and market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information. The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
