

FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

As at December 31, 2020 and 2019

And for the year ended December 31, 2020 and the period from incorporation on
July 30, 2019 to December 31, 2019

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board. Financial statements include certain amounts based on estimates and judgments. When an alternative method exists under IFRS, management has chosen a policy it deems most appropriate in the circumstances in order to ensure that the consolidated financial statements are presented fairly, in all material respects, in accordance with IFRS.

The Company maintains adequate systems of internal controls. Such systems are designed to provide reasonable assurance that transactions are properly authorized and recorded, the Company's assets are appropriately accounted for and adequately safeguarded and that the financial information is relevant and reliable.

The Board of Directors of the Company is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements and the accompanying management's discussion and analysis. The Board of Directors carries out this responsibility principally through its Audit Committee.

The Audit Committee is appointed by the Board of Directors and all of its members are non-management directors. The Audit Committee meets periodically with management and the external auditors to discuss internal controls, auditing matters and financial reporting issues, and to satisfy itself that each party is properly discharging its responsibilities. The Audit Committee also reviews the consolidated financial statements, management's discussion and analysis, the external auditors' reports, examines the fees and expenses for audit services, and considers the engagement or reappointment of the external auditors. The Audit Committee reports its findings to the Board of Directors for its consideration when approving the consolidated financial statements for issuance to the shareholders. Davidson & Company LLP, the external auditors, have full and free access to the Audit Committee.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Mayfair Gold Corp.

Opinion

We have audited the accompanying financial statements of Mayfair Gold Corp. (the "Company"), which comprise the statements of financial position as at December 31, 2020 and 2019, and the statements of loss and comprehensive loss, changes in shareholders' equity (deficiency), and cash flows for the year ended December 31, 2020 and the period from incorporation on July 30, 2019 to December 31, 2019, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020 and 2019, and its financial performance and its cash flows for the year ended December 31, 2020 and the period from incorporation on July 30, 2019 to December 31, 2019 in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Glenn Parchomchuk.

Non-cash transactions:

Common shares with a fair value of \$373,778 were issued to settle consulting services provided to the Company for the year ended December 31, 2020 (\$Nil for the period from incorporation on July 30, 2019 to December 31, 2019).

The accompanying notes to the financial statements are an integral part of these financial statements.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

1. NATURE OF OPERATIONS

Mayfair Gold Corp. ("Mayfair Gold" or "the Company") was incorporated on July 30, 2019, under the British Columbia Business Corporation Act.

The address of the Company's registered office and its principal place of business is 1055 West Georgia Street, Suite 1500, Vancouver, BC, Canada, V6E 4N7.

The principal business of the Company is to acquire, explore, evaluate and develop mineral properties.

These financial statements were authorized for issue by the Company's Board of Directors on April 26, 2021.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally. The international response to the spread of COVID-19 has led to significant restrictions on travel; temporary business closures; quarantines; global stock market and financial market volatility; a general reduction in consumer activity; operating, supply chain and project development delays and disruptions; and declining trade and market sentiment; all of which have and could further affect commodity prices, interest rates, credit ratings and credit risk.

Current global financial and economic conditions can be unpredictable. Many industries are impacted by these market conditions and the COVID-19 virus. Some key impacts of the current financial market turmoil arising from the COVID-19 virus include contraction in credit markets resulting in a widening of credit risk, devaluations and high volatility in global equity, commodity, foreign exchange, novel fiscal policy and monetary policy and monetary markets and a lack of market liquidity. Additionally, global economic conditions arising from the COVID-19 virus may cause a long-term decrease in asset values. If such global volatility and market turmoil continue, the Company's operations and financial condition could be adversely impacted. The overall severity and duration of COVID-19-related adverse impacts on the Company's business will depend on future developments, which cannot currently be predicted, including directives of the federal and provincial governments and health authorities.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

(i) Basis of preparation

These financial statements have been prepared on a historical cost basis, except for financial instruments which are classified as fair value through profit or loss ("FVTPL"). In addition, these financial statements have been prepared using the accrual basis of accounting.

All amounts on the financial statements are presented in Canadian dollars.

The significant accounting policies adopted in the preparation of these financial statements are set out below.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

(ii) Functional currency

The functional currency of the Company is the Canadian dollar.

In preparing the financial statements, transactions in currencies other than the Company's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at that date. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences are recognized in profit or loss in the period in which they arise or presented in the statements of loss and comprehensive loss.

(iii) Interest income

Interest income from financial assets is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on the basis of time that has passed by reference to the principal outstanding and at the effective interest rate.

(iv) Financial instruments

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. Financial liabilities are measured at amortized cost unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has opted to measure them at FVTPL.

Recognition

The Company recognizes financial assets and financial liabilities on the date the Company becomes a party to the contractual provisions of the instruments.

Measurement**Financial assets at FVTOCI**

Elected investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive income.

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value, plus transaction costs, and subsequently carried at amortized cost less any impairment. Financial liabilities carried at amortized cost utilize the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of loss and comprehensive loss. Realized and unrealized gains and losses arising

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation on July 30, 2019 to December 31, 2019

In Canadian Dollars

from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of loss and comprehensive loss in the period in which they arise.

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the statements of loss and comprehensive loss. However, gains and losses on derecognition of financial assets classified as FVTOCI are reclassified to retained earnings (deficit) as a reclassification within equity.

Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled, or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the statements of comprehensive loss.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

The Company has classified its financial instruments as follows:

Asset/Liability	Classification	Measurement
Cash	Assets	Fair value
Amounts receivable	Amortized cost	Amortized cost
Accounts payable and accrued liabilities	Amortized cost	Amortized cost

Impairment of financial assets

The Company assesses all information available, including on a forward-looking basis, the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the asset at the reporting date, with the risk of default as at the date of initial recognition, based on all information available, and reasonable and supportive forward-looking information.

The Company's cash consists of balances with banks.

The fair values of the Company's amounts receivable, and accounts payable and accrued liabilities approximate their carrying values because of the immediate or short-term to maturity of these financial instruments.

(v) *Mineral property and exploration and evaluation costs*

Exploration and evaluation ("E&E") costs are those costs required to find a mineral property and determine commercial viability and technical feasibility. E&E costs include costs to establish an initial mineral resource and determine whether inferred mineral resources can be upgraded to measured and indicated mineral resources and whether measured and indicated mineral resources can be converted to proven and probable reserves.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

Exploration and evaluation costs consist of:

- gathering exploration data through topographical and geological studies;
- exploratory drilling, trenching and sampling;
- determining the volume and grade of the resource;
- test work on geology, metallurgy, mining, geotechnical and environmental; and
- conducting and refining engineering, marketing and financial studies.

Costs in relation to these activities are expensed as incurred until such time that technical feasibility and commercial viability are demonstrable. At such time, mineral properties are assessed for impairment, and an impairment loss, if any, is recognized. Capitalized acquisition costs included in mineral properties are transferred to capitalized costs within property, plant and equipment, or intangible assets, as appropriate. Determination of technical feasibility and commercial viability require management's judgment and include assessment of legal, environmental, social and governmental factors.

The Company recognizes E&E costs as assets when acquired as part of a business combination, or asset purchase, or as a result of rights acquired relating to a mineral property. These assets are recognized at fair value or relative fair value if applicable. Capitalized E&E consists of:

- acquired interest in exploration properties;
- amounts paid for acquired rights associated with exploration properties; and
- changes in decommissioning and restoration amounts capitalized during the period.

Management reviews its mineral property at each reporting period for signs of impairment and annually after each exploration season to consider if there is impairment in value taking into consideration current year exploration results and management's assessment of the future probability of profitable operations from the property, or likely gains from the disposition or option of the property. If a property is abandoned or inactive for a prolonged period, or considered to have no future economic potential, the acquisition costs are written off to profit or loss.

(vi) Environmental rehabilitation

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the exploration, development or ongoing production of a mineral property. The estimated costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are determined, and capitalized at the start of each project to the carrying amount of the asset, as soon as the obligation to incur such costs arises. Discount rates, using a pre-tax rate that reflects the time value of money, are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either the unit of production or the straight-line method. The related liability is adjusted at each reporting date for the unwinding of the discount rate, for changes to the current market-based discount rate, and for changes to the amount or timing of the underlying cash flows needed to settle the obligation. Costs of restoration of subsequent site damage which is created on an ongoing basis during production are provided for at their net present values and charged to profit or loss as extraction progresses.

(vii) Impairment of non-financial assets

Non-financial assets are reviewed quarterly by management for indicators that carrying value is impaired and may not be recoverable. When indicators of impairment are present the recoverable amount of an asset is evaluated at the cash generating unit ("CGU") level, which is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of a CGU is the greater of the CGU's fair value less costs to sell and its value in use. An impairment loss is recognized in profit or loss to the extent that the carrying amount exceeds the recoverable amount.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

(viii) Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects. Common shares issued for consideration other than cash, are valued based on their market value at the date the shares are issued. Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

(ix) Flow-through shares

Under Canadian income tax legislation, a company is permitted to issue flow-through shares whereby the Company agrees to incur qualifying expenditures and renounce the related income tax deductions to the investors. The proceeds from issuance of these shares are allocated between the offering of shares and the sale of tax benefits. The allocation is made based on the difference between the quoted price of the existing shares and the amount the investor pays for the flow-through shares. A deferred premium liability is recognized for this difference. The Company renounces the deductions for tax purposes related to the eligible exploration and evaluation expenditures on the date the flow-through shares are issued. The premium liability is reduced on a pro-rata basis and recorded in other income based on the corresponding eligible expenditures that have been incurred.

(x) Share-based payment transactions

The Company has a stock option plan that provides for the granting of options to Officers, Directors, employees and consultants to acquire shares of the Company. The fair value of the options is measured on grant date and is recognized as an expense with a corresponding increase in contributed surplus as the options vest.

Options granted to employees and others providing similar services are measured at grant date at the fair value of instruments issued. Fair value is determined using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. The amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest. Each tranche in an award with graded vesting is considered a separate grant with a different vesting date and fair value. Each grant is accounted for on that basis.

Options granted to non-employees are measured at the fair value of the goods or services received, unless that fair value cannot be estimated reliably, in which case the fair value of the equity instruments issued is used. The value of goods or services is recorded at the earlier of the vesting date, or the date the goods or services are received.

Over the vesting period, share-based payments are recorded as an operating expense and as contributed surplus. When options are exercised the consideration received is recorded as share capital and the related share-based payments originally recorded as contributed surplus are transferred to share capital. When an option is cancelled or expires, the initial recorded value is reversed from contributed surplus and credited to deficit.

(xi) Loss per share

Basic loss or earnings per share is calculated by dividing loss or earnings attributable to common shares by the weighted average number of shares outstanding during the period.

Diluted loss or earnings per share is calculated using the denominator of the basic loss or earnings calculation described above adjusted to include the potentially dilutive effect of outstanding stock options.

(xii) Income taxes and deferred taxes

The income tax expense is comprised of current and deferred income taxes. Current and deferred income tax are recognized in profit or loss, except to the extent that they relate to items recognized directly in equity or equity instruments.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

Current income tax is the expected tax payable or receivable on the taxable profit or loss for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods. Deferred income tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred income tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred income tax assets and liabilities are offset if there is a legally enforceable right to offset current income tax liabilities and assets, and they relate to income taxes levied by the same tax authority for the same taxable entity. A deferred income tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable income will be available against which they can be utilized. Deferred income tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related income tax benefit will be realized.

(xiii) *Significant accounting estimates and judgments*

The preparation of financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and expenses during the year. Actual results could differ from those estimates and judgments. Those areas requiring the use of management estimates and judgments include:

i) Significant Judgments in Applying Accounting Policies

The areas which require management to make significant judgments in applying the Company's accounting policies in determining carrying values include, but are not limited to:

a) *Impairment analysis – Mineral Properties*

The Company reviews its mineral properties for impairment based on results to date and when events and changes in circumstances indicate that the carrying value of the assets may not be recoverable. IFRS 6 - *Exploration for and evaluation of mineral resources* requires the Company to make certain judgments in respect of such events and changes in circumstances, and in assessing their impact on the valuations of the affected assets. The Company's assessment is that as at December 31, 2020, no indicators of an impairment in the carrying value of its mineral properties had occurred.

ii) Significant Accounting Estimates and Assumptions

The areas which require management to make significant estimates and assumptions in determining carrying values include, but are not limited to:

a) *Impairment analysis – Mineral Properties*

The Company reviews its mineral properties for impairment based on results to date and when events and changes in circumstances indicate that the carrying value of the assets may not be recoverable. If indicators of impairment are identified, management will perform an impairment test in accordance with IAS 36 – *Impairment of assets* ("IAS 36"). IAS 36 requires the Company to make certain judgments, assumptions, and estimates in determining the estimate of the net recoverable amount. Impairments are recognized when the carrying values exceed management's estimate of the net recoverable amounts associated with the affected assets. The values shown on the statement of financial position for Mineral Properties represents the Company's assumption that the amounts are recoverable. As a result of the numerous variables associated with the Company's judgments and assumptions, the precision and accuracy of estimates of the recoverable amount is subject to significant uncertainties, and may change significantly as additional information becomes known.

b) *Stock options*

The stock option pricing model requires the input of highly subjective assumptions including the expected life and volatility. Changes in the subjective input assumptions can materially affect the fair value estimate.

MAYFAIR GOLD CORP.

Notes to Financial Statements

on July 30, 2019 to December 31, 2019

In Canadian Dollars

c) *Provision for decommissioning and restoration*

The decommissioning and restoration liability and the accretion recorded are based on estimates of future cash flows, discount rates, and assumptions regarding timing. The estimates are subject to change and the actual costs for the decommissioning and restoration liability may change significantly.

d) *Deferred taxes*

Deferred income tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and on unused losses carried forward, and are measured using the substantively enacted tax rates that are expected to be in effect when the differences are expected to reverse or losses are expected to be utilized. Deferred tax assets are recorded to recognize tax benefits only to the extent that, based on available evidence, including forecasts, it is probable that they will be realized. The Company has not recorded the benefit of tax losses or deductible temporary differences.

(xiv) *Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Company*

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective and have not been adopted early by the Company.

3. PROPERTY, PLANT AND EQUIPMENT

The Company's property, plant and equipment as at December 31, 2020, and December 31, 2019, is as follows:

	Computers	Furnitures and Fixtures	Building Exploration Office	Land Exploration Office	Machinery and Equipment	Total

4. MINERAL PROPERTIES

On June 8, 2020, the Company entered into a binding asset purchase agreement (the "Asset Purchase Agreement") with Lake Shore Gold Corp. ("Lake Shore"). Pursuant to the terms of the Asset Purchase Agreement, the Company agreed to acquire 21 fee simple patented properties, 153 unpatented mining claims, and 144 patented leasehold mining claims located in the Guibord, Munro, Michaud and McCool Townships in northeast Ontario, Canada (collectively, the "Fenn-Gib Property"). As consideration for the acquisition of the Fenn-Gib Property (the "Acquisition"), the Company will: (i) pay Lake Shore a cash payment of US\$11,000,000; and (ii) grant Lake Shore a 1.0% net smelter returns royalty derived from the future production of minerals from the Fenn-Gib Property. On August 28, 2020, the Company placed US\$11,000,000 in escrow and on December 31, 2020, the transaction closed and \$13,997,500 (US\$11,000,000) was recorded as mineral properties on the statement of financial position.

The continuity of the Mineral Properties is as follows:

Balance, January 1, 2020	\$	-
Acquired mineral rights and claims		13,997,500
Balance, December 31, 2020	\$	13,997,500

5. SHARE CAPITAL

i. Authorized share capital

Unlimited common shares, without par value. Each common share entitles the holder to one shareholder vote.

There is no other class of shares in the Company.

ii. Share capital

The number of shares issued and fully paid as at December 31, 2020 is 67,511,485. No preferred shares issued or outstanding.

Transactions for the issue of share capital during the period ended December 31, 2020:

- (a) In March 2020, the Company issued 19,819,926 common shares at a fair value of \$0.01 per share for total consideration of \$198,200. The shares were issued in connection with consulting services provided to the Company.
- (b) On March 10, 2020, the Company issued 5,000,000 common shares at a fair value of \$0.01 per share for total consideration of \$50,000 cash. The shares were issued as founders' shares.
- (c) In April 2020, the Company issued 1,441,565 common shares at a fair value of \$0.05 per share for total consideration of \$72,078. The shares were issued in connection with consulting services provided to the Company.
- (d) In May 2020, the Company completed a private placement consisting of the issue of 2,400,000 common shares at a price of \$0.06 per share for total consideration of \$144,000.
- (e) In August 2020, the Company issued 220,213 common shares at a fair value of \$0.47 per share for total consideration of \$103,500. The shares were issued in connection with consulting services provided to the Company.
- (f) In August and September 2020, the Company completed a private placement consisting of the issue of 38,629,780 common shares at a price of \$0.47 per share for gross proceeds of \$18,155,996. Share issuance costs of \$229,028 were incurred in connection with the private placement.

MAYFAIR GOLD CORP.

Notes to Financial Statements

on July 30, 2019 to December 31, 2019
In Canadian Dollars

iii. Stock options

The Company, through its Board of Directors and shareholders, adopted a long-term equity incentive plan (the "Plan") which, among other things, allows for the maximum number of shares that may be reserved for issuance under the Plan to be 10% of the Company's issued and outstanding shares at the time of the grant. The Board of Directors has the authority and discretion to grant stock options as identified in the Plan, which includes provisions limiting the issuance of options to qualified persons and employees of the Company to maximums identified in the Plan and the vesting terms.

The following table summarizes information about the stock options outstanding and exercisable at December 31, 2020, and December 31, 2019:

	December 31, 2020		December 31, 2019	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
Balance at beginning of year	-	\$ -	-	\$ -
Granted during the year	3,650,000	0.47	-	-
Balance at end of the year	3,650,000	\$ 0.47	-	\$ -
Options exercisable at the end of the year	2,750,000	\$ 0.47	-	\$ -

The fair value of the 3,650,000 stock options granted for the year ended December 31, 2020, has been estimated on the date of grant using the Black-Scholes option pricing model, using the assumptions below, and total \$1,435,180 or \$0.39 per option. The stock options granted in the year ended December 31, 2020, 2,750,000 vested immediately and 900,000 vest 50% on December 31, 2021, and 50% on December 31, 2022.

	December 31, 2020
Exercise price	\$0.47
Expected volatility	87%
Expected option life	10 years
Expected forfeiture	-
Expected dividend yield	0%
Risk-free interest rate	0.75%
Fair value per option	\$0.39

The following tables reflect the Black-Scholes values, the number of stock options outstanding, the weighted average of options outstanding, and the exercise price of stock options outstanding at December 31, 2020.

At December 31, 2020			
Expiry Date	Black-Scholes Value	Number of Options	Exercise Price
December 31, 2030	\$ 1,435,180	3,650,000	\$ 0.47

The weighted average remaining contractual life of the options outstanding at December 31, 2020, is 10 years.

on July 30, 2019 to December 31, 2019
In Canadian Dollars

The share-based payments recognized as an expense for the year ended December 31, 2020, and for the period from incorporation from July 30, 2019, to December 31, 2019, are as follows:

	Year ended December 31, 2020	For the period from incorporation on July 30, 2019 to December 31, 2019
Expense recognized for share-based payments	\$ 1,081,300	\$ -

6. RELATED PARTIES

The Company's related parties include key management personnel and their close family members, and the Company's directors and their close family members and Heeney Capital Corp, a corporation co-owned by a director of the Company.

Related party transactions are recorded at their exchange amount, being the amount agreed to by the parties.

The Company had transactions and balances with Heeney Capital Corp. and with directors of the Company during the year ended December 31, 2020. Transactions with Heeney Capital Corp are in the nature of monthly consulting services. Transactions with directors are in the nature of consulting services provided to the Company.

The transactions for the year ended December 31, 2020, and for the period from incorporation on July 30, 2019, to December 31, 2019, were as follows:

	December 31, 2020	For the period from incorporation on July 30, 2019 to December 31, 2019
The total of the transactions:		
Funds owed to the Company's co-founders	\$ 75,415	\$ 122,785
Consulting services charged by Heeney Capital Corp.	112,500	-
Remuneration of key management personnel	1,114,378	-

The amounts payable at December 31, 2020, and 2019 were included in accounts payable and accrued liabilities as follows:

	December 31, 2020	December 31, 2019
Payable to Heeney Capital Corp.	\$ 25,000	\$ -
Payable to co-founders	-	122,785
Payable to key management personnel	17,868	-

The remuneration expense of key management personnel for the year ended December 31, 2020, and for the period from incorporation on July 30, 2019, to December 31, 2019, were as follows:

Share-based payment expense	983,000	-
	\$ 1,114,378	\$ -

7. FINANCIAL INSTRUMENTS**Fair value measurement**

The Company categorizes each of its fair value measurements in accordance with a fair value hierarchy. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The fair value hierarchy consists of the following inputs:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The fair values of the amounts receivable and accounts payable and accrued liabilities approximate their carrying values due to the relatively short-term maturity of these financial instruments.

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019

In Canadian Dollars

The following table shows the carrying amounts and fair values of the Company's financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

	Carrying amount				Fair value			
	Assets at amortized cost	Fair value through profit and loss	Liabilities at amortized cost	Total	Level 1	Level 2	Level 3	Total
December 31, 2020								
Financial assets measured at fair value								
Cash	\$ -	\$ 2,132,245	\$ -	\$ 2,132,245	\$ 2,132,245	\$ -	\$ -	\$ 2,132,245
Amounts receivable	15,094	-	-	15,094	\$ -	\$ -	\$ -	\$ -
	\$ 15,094	\$ 2,132,245	\$ -	\$ 2,147,339				
Financial liabilities not measured at fair value								
Accounts payable and accrued liabilities	\$ -	\$ -	\$ 339,575	\$ 339,575	\$ -	\$ -	\$ -	\$ -
	\$ -	\$ -	\$ 339,575	\$ 339,575				

	Note	Carrying amount				Fair value			
		Assets at amortized cost	Fair value through profit and loss	Liabilities at amortized cost	Total	Level 1	Level 2	Level 3	Total
December 31, 2019

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

Financial instruments risks

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks include credit risk, liquidity risk and market risk.

Credit risk

The Company is exposed to credit risk by holding cash. This risk is minimized by holding the funds in Canadian Schedule 1 banks. The Company has minimal accounts receivable exposure as its refundable credits are due from the Canadian Government.

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources. The Company's ability to fund its operations and capital expenditures and other obligations as they become due is dependent on market conditions.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates will affect the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing returns.

(i) Foreign currency

The Company is exposed to market risk related to foreign exchange rates. The Company operates in Canada and has foreign currency exposure to transactions in U.S. dollars. The majority of the ongoing operational costs are in Canadian dollars, and are funded through operating and financing cash flows.

As at December 31, 2020 and 2019, the Company had cash, accounts payable and accrued liabilities that are in U.S. dollars. The Canadian dollar equivalent is as follows:

	December 31, 2020	December 31, 2019
Cash	\$ 635,805	\$ -
Accounts payable and accrued liabilities	(4,428)	-
Total	\$ 631,377	\$ -

A 10% appreciation or depreciation of the Canadian dollar relative to the U.S. dollar at December 31, 2020, would have resulted in an increase or decrease to net income for the year of approximately \$63,100.

8. EXPLORATION AND EVALUATION EXPENSES

Details on exploration and evaluation expenses are as follows:

	Year ended December 31, 2020	For the period from incorporation on July 30, 2019 to December 31, 2019
Exploration personnel and program support	\$ 137,720	\$ -
Consulting fees	196,378	-
Technical report	55,000	-
Camp maintenance, supplies, mobilization, general costs	32,104	-
	\$ 421,202	\$ -

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019
In Canadian Dollars

9. INCOME TAXES

A reconciliation of income taxes at statutory rate with the reported taxes is as follows:

	December 31, 2020	December 31, 2019
Loss for the year	\$ (3,261,852)	\$ (122,785)
Expected income tax	(881,000)	(33,000)
Share issue cost	12,000	-
Change in unrecognized deductible temporary differences	869,000	33,000
Total income tax expenses (recovery)	\$ -	\$ -

The significant components of the Company's deferred tax assets that have not been included on the statement of financial position are as follows:

	December 31, 2020	December 31, 2019
Deferred tax assets		
Exploration and evaluation assets	\$ 114,000	\$ -
Property and equipment	2,000	-
Share issue cost	49,000	
Non-capital losses available for future period	519,000	33,000
	684,000	33,000
Unrecognized deferred tax assets	(684,000)	(33,000)
Net deferred tax assets	\$ -	\$ -

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the statement of financial position are as follows:

	December 31, 2020	Expiry Date Range	December 31, 2019	Expiry Date Range
Temporary differences				
Exploration and evaluation assets	\$ 421,000	No expiry date	\$ -	No expiry date
Property and equipment	7,000	No expiry date	-	No expiry date
Share issue costs	183,000	2041 to 2044	-	No expiry date
Non-capital losses available for future periods	3,430,000	2039 to 2040	\$ 123,000	2039

Tax attributes are subject to review, and potential adjustment, by tax authorities.

10. CAPITAL MANAGEMENT

The capital of Mayfair Gold consists of its shareholders' equity. The Company's objectives when managing capital are to safeguard the Company's ability to continue to pursue the exploration and evaluation of its mineral properties and to maintain optimal returns to shareholders and benefits for other stakeholders. The Company manages its capital structure and makes adjustments to it, in order to have the funds available to support the acquisition and exploration and evaluation

MAYFAIR GOLD CORP.

Notes to Financial Statements

For the year ended December 31, 2020 and the period from incorporation
on July 30, 2019 to December 31, 2019

In Canadian Dollars

of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company's capital consists of:

	December 31, 2020	December 31, 2019
Share capital	\$ 18,494,747	\$ 1
Share-based payments reserve	1,081,300	-
Deficit	(3,384,637)	(122,785)
	\$ 16,191,410	\$ (122,784)

In order to carry out the planned management of the Company and to pay for administrative costs, the Company will utilize its existing working capital and, as required, raise additional funds.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the year ended December 31, 2020.

11. SEGMENTED REPORTING

The Company has determined that it has only one operating segment.

12. SUBSEQUENT EVENTS

Subsequent to the year ended December 31, 2020, the Company closed its initial public offering on March 11, 2021. The Company issued 5,406,900 common shares, which includes 1,191,111 common shares issued pursuant to the exercise of the over-allotment option, at a price of \$1.85 per common shares, for gross proceeds of \$10,002,765; and 3,731,000 common shares issued as "flow-through shares" within the meaning of the Income Tax Act (Canada), at a price of \$2.62 per "flow-through share", for gross proceeds of \$9,775,220. The Company received \$18,437,706 in net proceeds from the initial public offering. The TSX Venture Exchange accepted the Company's listing application and the Company's common shares commenced trading on March 22, 2021.

On March 24, 2021, the Company issued 1,622 common shares at a fair value of \$1.85 per common share for services provided by a consultant.
