Optimi Health Completes Largest-to-Date MDMA Export to Australia for PTSD Therapy

1,000 GMP doses of MDMA now reaching patients with PTSD under Australia's Authorised Prescriber Scheme; Department of Veterans' Affairs to fund treatment for veterans

VANCOUVER, British Columbia – May 8, 2025 – Optimi Health Corp. (CSE: OPTI | OTCQX: OPTHF | FRA: 8BN) ("**Optimi**" or the "**Company**"), a Canadian drug manufacturer and formulator of GMP-grade MDMA and natural psilocybin, has completed its largest international export to date of MDMA capsules to Australia, supporting the treatment of Post-Traumatic Stress Disorder (**PTSD**) under the country's Authorised Prescriber Scheme.

The shipment, conducted in partnership with Mind Medicine Australia, included 1,000 GMP MDMA capsules in both 40mg and 60mg strengths. Import approval was granted by Australia's Therapeutic Goods Administration (**TGA**), with matching export permits issued from Health Canada. The capsules were manufactured and shipped under Optimi's Drug Establishment Licence (**DEL**), authorizing global distribution for PTSD treatment through licensed pharmacy networks and authorised clinics across Australia.

In a major step forward for access, the Australian Department of Veterans' Affairs (**DVA**) recently announced that it will fund MDMA-assisted therapy for veterans diagnosed with PTSD. This marks the first time a federal agency in Australia has committed to reimbursing psychedelic-assisted treatment, reinforcing national momentum toward broader mental health care solutions and highlighting the need for safe, GMP-supplied medicines.

Mind Medicine Australia welcomed the announcement as a meaningful step toward broadening access to care for those who need it most.

"The announcement from the Department of Veterans' Affairs to fund MDMA-assisted therapy is a major endorsement of this treatment approach," said Peter Hunt AM, Chair of Mind Medicine Australia. "It demonstrates growing recognition at the highest levels of government that these therapies can offer meaningful recovery for people living with PTSD."

"Our team has worked hard to reach this point, and it's incredibly meaningful to know that patients are now being treated with the MDMA capsules we've manufactured and delivered into the country," said Dane Stevens, CEO of Optimi. "The support of the Department of Veterans' Affairs is a major step forward for patient access, and we're proud to work alongside Mind Medicine Australia to ensure this treatment is delivered safely and responsibly within a regulated framework."

Key Highlights

- Shipment includes 1,000 GMP-certified MDMA capsules in 40mg and 60mg strengths
- Department of Veterans' Affairs to fund MDMA-assisted therapy for Australian veterans with PTSD
- Import approval granted by Australia's TGA, with matching export permits from Health Canada

- Export conducted under Optimi's Drug Establishment Licence, authorizing prescription for the defined therapeutic indication of PTSD

- Capsules to be dispensed through authorised pharmacy networks and clinics nationwide

Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information within the meaning of Canadian securities legislation (collectively, "forward-looking statements"). Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management, are inherently subject to significant business, economic and competitive uncertainties, and contingencies, certain of which are unknown. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions, or future events or performance (often, but not always, through the use of words or phrases such as “will likely result,” “are expected to,” “expects,” “will continue,” “is anticipated,” “anticipates,” “believes,” “estimated,” “intends,” “plans,” “forecast,” “projection,” “strategy,” “objective,” and “outlook”) are not historical facts and may be forward-looking statements. These statements may involve estimates, assumptions, and uncertainties that could cause actual results or outcomes to differ materially from those expressed in such forward-looking statements. No assurance can be given that these expectations will prove to be correct, and such forward-looking statements included in this news release should not be unduly relied upon. These statements speak only as of the date of this news release.

Forward-looking statements are based on a number of assumptions and are subject to a number of risks and uncertainties, many of which are beyond Optimi’s control, which could cause actual results and events to differ materially from those that are disclosed in or implied by such forward-looking statements. Such risk factors include but are not limited to those factors which are discussed in the Company’s long form prospectus dated February 12, 2021, a copy of which is available on SEDAR+ at www.sedarplus.com. Except as expressly required by applicable law, Optimi undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required by law. New factors emerge from time to time, and it is not possible for Optimi to predict all of them or assess the impact of each factor or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. Any forward-looking statements contained in this news release are expressly qualified in their entirety by this cautionary statement.
