

NOTE TO READER

These consolidated financial statements for the years ended December 31, 2025 and 2024 are being refiled to replace the one filed on March 26, 2026, as such earlier version had inadvertently included the auditor's report being reproduced twice.

Other than removing the second instance of the auditor's report described above, there are no changes to the auditor's report or the consolidated financial statements for the years ended December 31, 2025 and 2024 as filed on March 26, 2026.
