About Doseology Sciences Inc. (CSE: **MOOD** | OTCQB: **DOSEF** | FSE: **VU70**)

Doseology Sciences Inc. specializes in pouch-based oral stimulant and cognitive support products. The rapidly expanding oral stimulant pouch sector is gaining momentum as consumers seek modern, discreet alternatives to traditional delivery formats. Unlike combustible tobacco or vape products, oral stimulant pouches are smokeless and vapor-free, providing an alternative delivery method without inhalation.

From a market perspective, the oral pouch category is experiencing strong global growth as consumers increasingly prioritize convenience, portability, and format innovation. The pouch sector represents one of the most dynamic and high-growth areas in modern functional consumer products.

Forward Looking Statements

This news release contains "forward-looking information" within the meaning of applicable Canadian securities laws ("**FLI**"). In this news release, FLI includes statements regarding, among other things: the completion and timing of the Offering; the receipt of required regulatory approvals, including approval of the CSE; the intended use of proceeds of the Offering; the Company's ability to advance its commercialization strategy for oral pouch products (including the acquisition of production equipment, development of a pilot manufacturing facility, initial production runs, inventory build, and marketing and distribution expansion); and the Company's business and growth plans relating to its oral pouch and functional stimulant product technologies.

FLI is based on management's current expectations, estimates, projections and assumptions as of the date hereof. Assumptions include, among other things: that the Company will be able to complete the Offering on the terms described (or at all); that the Company will satisfy customary closing conditions; that market conditions will remain conducive to the Offering; that suppliers, contractors and other third parties will perform as expected in connection with equipment procurement and facility development; and that the Company will be able to execute its commercialization plans and deploy the net proceeds as intended.

FLI is subject to known and unknown risks and uncertainties that could cause actual results or events to differ materially from those expressed or implied by FLI. These risks include, among other things: the risk that the Offering is not completed on the proposed terms or within the anticipated timeframe (or at all); the risk that required regulatory approvals, including approval of the CSE, are not obtained; changes in general economic, financial market and business conditions; supply chain disruptions and cost increases affecting equipment procurement, facility development, production and inventory; and other risks described in the Company's continuous disclosure filings available on SEDAR+ at https://www.sedarplus.ca.

Readers are cautioned not to place undue reliance on FLI. The Company does not undertake to update or revise any FLI, except as required by applicable securities laws.

No securities regulatory authority has either approved or disapproved of the contents of this press release.

The securities offered have not been registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements.
