FORWARD LOOKING INFORMATION

Included in this Annual Information Form, and the information incorporated by reference herein, is certain forward-looking information, as such term is defined under securities laws. This information relates to future events or future performance and reflects management's expectations and assumptions regarding the growth, results of operations, performance and business prospects and opportunities of the Corporation (defined herein) and First National (defined herein). Such forward-looking information reflects management's current beliefs and is based on information currently available to management of the Corporation and a number of assumptions that management believed were reasonable on the day such forward-looking information was presented. Refer, in particular, to the sections of the Corporation's 2025 management's discussion and analysis (the "**2025 MD&A**") entitled "*Vision and Strategy*", "*Forward-Looking Information*" and "*Outlook*", for a discussion of certain assumptions management has made in presenting forward-looking information, which sections are incorporated by reference herein. In some cases, forward-looking information can be identified by terminology such as "may", "will", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential", "continue" or the negative of these terms or other similar expressions concerning matters that are not historical facts. In particular, information regarding the Corporation's or First National's future operating results and economic performance is forward-looking information. A number of factors could cause actual events or results to differ materially from the events and results discussed in the forward-looking information.

In evaluating this forward-looking information, investors should specifically consider various factors, including the risks outlined under "*Risk Factors*" of this Annual Information Form and under the section entitled "*Risks and Uncertainties Affecting the Business*" in the 2025 MD&A, which may cause actual events or results to differ materially from any forward-looking information. These and other risk factors that could cause actual results to differ materially from our expectations expressed in or implied by such forward-looking information are discussed throughout this Annual Information Form and in the 2025 MD&A, including in the section entitled "*Risks and Uncertainties Affecting the Business*", which section is incorporated by reference herein.

Although the forward-looking information contained in this Annual Information Form, and the information incorporated by reference herein, is based on what management of the Corporation considers reasonable assumptions based on information currently available to it, there can be no assurance that actual events or results will be consistent with this forward-looking information, and management's assumptions may prove to be incorrect.

Except as may be required by Canadian securities law, the Corporation disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise. Unless otherwise stated in this Annual Information Form, the information contained herein is as at December 31, 2025, and all currency references are in Canadian dollars.

CORPORATE STRUCTURE

Name, Address and Incorporation

First National Financial Corporation (the "**Corporation**") is the successor to First National Financial Income Fund (the "**Fund**"), following completion of the conversion of the Fund from an income trust to a corporate structure by way of a court-approved plan of arrangement under the *Business Corporations Act* (Ontario) (the "**OBCA**") on January 1, 2011. Immediately subsequent to the completion of the conversion, the resulting corporation amalgamated to form the Corporation. The Corporation's head and registered office is located at Suite 1900, 16 York Street, Toronto, Ontario, M5J 0E6.

On January 1, 2011, the Corporation became a reporting issuer in all of the provinces and territories of Canada and became subject to the informational reporting requirements under the securities laws of such jurisdictions.

On October 22, 2025, Regal Bidco Inc. (“**Bidco**”), a newly-formed acquisition vehicle controlled by private equity funds managed by Birch Hill Equity Partners Management Inc. (“**Birch Hill**”) and private equity funds managed by Brookfield Asset Management (“**Brookfield**”), acquired all of the outstanding common shares of the Corporation, other than certain Shares held by the Corporation’s founders Messrs. Smith and Tawse, for \$48.00 per common share in cash (the “**Arrangement**”). As a result of the Arrangement, Messrs. Smith and Tawse each retained an indirect approximate 19% interest in the Corporation, with Birch Hill and Brookfield holding the remaining approximate 62% interest. On October 24, 2025, the Corporation was amalgamated with Bidco under the OBCA and continued as First National Financial Corporation.

On February 19, 2026, the Corporation announced its intention to redeem for cash all of its outstanding Class A Preference Shares, Series 1 and outstanding Class A Preferences Shares, Series 2 on March 31, 2026.

Following the completion of the redemption of the Preferred Shares, the Corporation will be a “venture issuer” (as defined under National Instrument 51-102—*Continuous Disclosure Obligations*) and will no longer be required to file an annual information form. The Corporation has filed an application with Canadian securities regulators to cease being a reporting issuer following the redemption of the Preferred Shares. The application is under review; there can be no assurance that the Corporation will obtain the requested relief.

Inter-Corporate Relationships

The Corporation holds a 99.99% voting interest in First National Financial LP (the “**Limited Partner**”) and a 100% voting interest in First National Financial GP Corporation (the “**General Partner**”), the general partner of the Limited Partner. The Corporation also holds a 100% interest in First National Mortgage Corporation. References in this Annual Information Form to “**First National**” are to the Limited Partner (together, as applicable, with the General Partner).

The Limited Partner is a limited partnership established under the laws of the Province of Ontario pursuant to a limited partnership agreement dated as of April 19, 2006, as amended and restated on June 15, 2006, and further amended and restated on January 1, 2011.

The General Partner is a corporation incorporated under the laws of the Province of Ontario. The General Partner holds a 0.01% voting interest in the Limited Partner. The General Partner also holds a 100% voting interest in First National Asset Management Inc.

Both First National Asset Management Inc. and First National Mortgage Corporation are corporations incorporated under the laws of the Province of Ontario.

GENERAL DEVELOPMENT OF THE BUSINESS

Three-Year History

First National is a Canadian-based originator, underwriter and servicer of predominantly prime single-family residential, multi-unit residential and commercial mortgages. First National sources its single-family residential mortgages almost exclusively through independent mortgage brokers and its existing customer base and sources its multi-unit residential and commercial mortgages largely through its experienced in-house mortgage underwriters, who are employees of First National. First National funds the mortgages it originates primarily through institutional placements and a diversified range of securitization alternatives. Since its initial public offering, First National has experienced stable and consistent growth in revenue and earnings supportive of a growing dividend rate on its common shares. An important source of First National’s stable and growing revenue and performance is its mortgage servicing business. First National services virtually all mortgages generated through its mortgage origination activities and management believes that First National is the largest third-party servicer of multi-unit residential and commercial mortgages in Canada.

Two of First National's key performance metrics are the amount of its mortgage origination and the size of its portfolio of mortgages under administration ("MUA"). Including renewals, First National's origination in both 2023 and 2024 was \$37.5 billion. In 2025 this grew to \$47.0 billion. At the end of 2023, First National's MUA was \$143.5 billion. At the end of 2024, MUA was \$153.7 billion. At the end of 2025, MUA grew to \$166.2 billion.

For more than 10 years, the Corporation has arranged credit facilities with syndicates of financial institutions which it has used primarily to fund mortgages accumulated for sale and securitization. First National entered into a revolving credit facility with a syndicate of lenders on January 27, 2014. The facility has been amended from time to time to increase the aggregate commitment to \$1.5 billion and to extend the maturity date (the "**Credit Facility**").

In October 2025, prior to the closing of the Arrangement, Bidco entered into a credit agreement with a syndicate of banks for a total commitment of \$1.85 billion including a \$400 million term facility and a \$1.45 billion variable (prime and CORRA) based facility (the "**Acquisition Facility**"). The Acquisition Facility is unsecured and matures on October 22, 2029. On October 22, 2025, Bidco borrowed \$1.75 billion on the Acquisition Facility to raise a portion of the funds required for the Arrangement. On October 23, 2025, Bidco repaid \$800 million of the facility including the full amount of the term facility and reduced the commitment to \$1.1 billion. At December 31, 2025, approximately \$911 million of this bank indebtedness is outstanding. The Acquisition Facility is subject to financial covenants, including a maximum leverage ratio for debt to Adjusted EBITDA, minimum interest coverage and minimum shareholders equity. The Corporation was in compliance with all these covenants at December 31, 2025.

On completion of the Arrangement, the Corporation redeemed all of its outstanding 2.961% Series 3 Senior Unsecured Notes (the "**Series 3 Notes**") due November 17, 2025, 7.293% Series 4 Senior Unsecured Notes (the "**Series 4 Notes**") due September 8, 2026 and 6.261% Series 5 Senior Unsecured Notes (the "**Series 5 Notes**") due November 1, 2027.

On October 23, 2025, the Corporation issued 250,000 4.288% Series 2025-1 Senior Unsecured Notes (the "**Series 2025-1 Notes**") due October 23, 2028, for gross proceeds of \$250,000,000, 300,000 4.891% Series 2025-2 Senior Unsecured Notes (the "**Series 2025-2 Notes**") due October 23, 2030, for gross proceeds of \$300,000,000 and 250,000 5.443% Series 2025-3 Senior Unsecured Notes (the "**Series 2025-3 Notes**") due October 25, 2032, for gross proceeds of \$250,000,000.

On March 12, 2026, the Corporation announced that Jason Ellis, President and Chief Executive Officer, has informed the Board of Directors of his intention to retire by the end of 2026, following more than 22 years with the Corporation. The Board of Directors has initiated a comprehensive search process to identify the Corporation's next Chief Executive Officer. Mr. Ellis will continue to serve in his current role while the Board conducts the search. Mr. Ellis has also agreed to support the incoming CEO in an advisory capacity, as needed, following his retirement, to help ensure a smooth and orderly leadership transition.

DESCRIPTION OF THE BUSINESS

Overview

For the year ended December 31, 2025, mortgages under administration grew to \$166.2 billion from \$153.7 billion as at December 31, 2024, a rate of increase of 8%. During the fourth quarter of 2025, mortgages under administration grew to \$166.2 billion from \$165.3 billion at the end of September 30, 2025, an annualized increase of 2%. This growth is primarily organic, created from new originations and solid retention rates on renewals. Together, new originations and renewals totaled \$47.0 billion generated in the year ended December 31, 2025. This represents an increase of about 25% from the year ended December 31, 2024 when these volumes totaled \$37.5 billion. Commercial segment origination increased by 13% and residential origination

First National Financial Corporation

volumes in the single-family segment, including First National's alternative single-family mortgage product, increased by 33%. For the year ended December 31, 2025, non-originated servicing business amounted to \$21.9 billion of MUA. As at December 31, 2025, approximately 60% of First National's total mortgages under administration (by \$ mortgage amount) were single-family residential mortgages and 40% were multi-unit residential or commercial mortgages.

First National's revenues and earnings are driven by the value of its mortgage origination, the number of mortgages pledged under securitization, and its mortgages under administration. During the fiscal year ended December 31, 2025, First National generated revenues of approximately \$2,355 million and net income of approximately \$126.9 million.

First National's origination activities are funded through a variety of sources, providing First National with the opportunity to earn stable and recurring income from servicing mortgages it originates on behalf of institutional investors and others.

First National also focuses on the capital markets to meet its funding requirements. This focus has provided First National with the flexibility to finance mortgages in a cost-effective and efficient manner. First National has developed access to, and utilizes, institutional placements and several securitization programs, including asset backed commercial paper ("ABCP"), National Housing Act – Mortgage Backed Securities ("NHA-MBS"), the Canada Mortgage Bonds Program (the "CMB") and commercial mortgage backed securities ("CMBS"), as funding sources. First National's ABCP, NHA-MBS, and CMBS conduits, together with the CMB, have permitted First National to expand the scope of funding sources available to it for further mortgage origination and to continue to grow the value of its mortgages under administration. Since late 2007, First National has been an approved issuer of NHA-MBS and a seller into the CMB, which gives First National access to these capital markets as a funding source. Since 2012, First National has established several arrangements with bank-sponsored ABCP conduits, providing First National with an additional source of funding. Historically, First National used the CMBS market to directly fund commercial mortgages. However, following economic turmoil in 2008, First National changed its strategy such that it only continued to originate mortgages on an agency basis for one large CMBS issuer. In 2017, First National Asset Management Inc. became an approved issuer of NHA-MBS and a seller into the CMB. This development allowed First National to securitize mortgages purchased from other lenders and leverage its expertise in NHA- MBS securitization.

First National services virtually all mortgages generated through its mortgage origination activities. Mortgage servicing is a key component of First National's overall business strategy, and revenues in this line of business are driven directly by the value of First National's mortgages under administration. Mortgage servicing is a significant source of stable and recurring income as First National benefits from servicing the original loan as well as having the opportunity to renew the mortgage after the initial term. Substantial value accrues to First National upon the renewal of a mortgage relative to a new origination as generally no fees are payable to mortgage brokers on the renewal of an existing mortgage.

First National offers a wide range of products in the single-family residential, multi-unit residential and commercial mortgage markets. This range of products offered by First National enables it to take advantage of the cross-referral opportunities between the various markets (including enhanced broker convenience and increased product exposure) and to leverage operational synergies such as shared management, risk analysis, information technology, accounting and finance, capital markets and servicing and administration, which support First National's range of products.

In 2014, First National entered into a strategic agreement with a large Canadian schedule I bank (the "**Bank**") to provide underwriting and fulfillment processing services for mortgages originated by the Bank through the single-family residential mortgage broker channel. Under the strategic agreement, First National employs a customized software solution based on its industry leading MERLIN® technology to accept mortgage applications from the Bank in the mortgage broker channel and underwrite these mortgages in accordance with the Bank's underwriting guidelines. The Bank funds all the mortgages underwritten under the agreement

and retains full responsibility for mortgage servicing and the client relationship. First National considers the agreement a way to leverage its capabilities and strengths in the mortgage broker channel and add diversity to First National's service offerings. In each year of this mandate the amount of volume underwritten has increased.

First National has further expanded its third-party underwriting services line of business by securing strategic agreements with an additional three Canadian schedule I banks to provide underwriting and fulfillment processing services for mortgages originated by the banks through the single-family residential mortgage broker channel. Under this arrangement, First National will be providing services similar to the services it provides to the Bank.

First National has always used technology to ensure the efficiency and effectiveness of its operations, both during the origination process and then subsequently in the servicing and administration phase. This is particularly true for its MERLIN® underwriting system, Canada's first web-based real-time broker information system. By creating a paperless, 24/7 commitment management platform for mortgage brokers, First National is consistently ranked among the top three lenders by market share in the broker channel. This has translated into increased single-family origination volumes and higher closing ratios (the percentage of mortgage commitments First National issues that become closed mortgages). The investment in business processes and technology has resulted in lower costs of origination, servicing and administration, and provides First National with an operational cost advantage. Management expects continued productivity improvements and lower per unit costs as First National's mortgage origination volume and mortgages under administration continue to grow.

First National employs various techniques to manage risk and is committed to the origination of high quality, low risk mortgages and the minimization of credit and interest rate risk to First National. Approximately 96% of First National's mortgages under administration are funded through sources that result in no residual credit risk to First National. First National also engages in an extensive interest rate management program with respect to all mortgages originated by First National with the objective of eliminating the economic impact of any changes in interest rates to which First National may be exposed.

Lines of Business

First National's two primary lines of business are the origination and underwriting of predominantly prime single-family residential, multi-unit residential and commercial mortgages and the servicing of mortgages under administration.

Originating and Underwriting Single-Family Residential Mortgages

First National originates and underwrites predominantly prime single-family residential mortgages through its residential underwriting branches in Toronto, Calgary, Vancouver and Montreal. Single-family residential mortgages are sourced almost exclusively from an extensive network of third-party residential mortgage brokers. First National's principal markets are the large urban areas of Ontario, Alberta, British Columbia and Quebec.

Single-family residential mortgage originators provide mortgage financing to purchasers and owners of single-family dwellings. For mortgage classification purposes, single-family dwellings consist of residential properties containing up to four dwelling units. Single-family residential mortgages are generally categorized by the underwriting criteria applied by the originator. "Prime" or "A" describes single-family residential mortgages originated under lending criteria traditionally applied by Canadian chartered banks, and generally includes mortgages that secure principal amounts that do not exceed 80% of the value of the related mortgaged properties (or 95% in cases where the mortgages are insured by qualified mortgage insurers such as Canada Mortgage and Housing Corporation ("CMHC"), Sagen MI Canada Inc. (formerly Genworth Financial Mortgage Insurance Company Canada) ("Sagen") or Canada Guaranty Mortgage Insurance Company ("Canada Guaranty")). "Alt-A" describes single-family residential mortgages that are originated using

broad underwriting criteria than those applied in originating prime mortgages. Alt-A borrowers are generally considered “A” quality borrowers in terms of their credit histories (e.g., no prior bankruptcies or other significant credit issues), but do not qualify for a prime mortgage because of non-conformities, such as the types of property being financed (e.g., vacation homes) and the degree of income disclosure and verification required (e.g., where the borrower is self-employed or receives commission-based income). Finally, “sub-prime” describes single-family residential mortgages that are provided to credit impaired borrowers who do not meet the standard underwriting criteria for prime quality borrowers. Management believes that prime single-family residential mortgages currently account for the largest part of the single-family residential mortgage market, with Alt-A mortgages and sub-prime mortgages accounting for the balance.

In 2018, new mortgage qualification rules under the Office of the Superintendent of Financial Institution’s (“OSFI”) B-20 guidelines (the “**B-20 Guidelines**”) affected First National’s single-family origination business. The B-20 Guidelines introduced stricter regulatory requirements for OSFI-regulated mortgage lenders in the underwriting of uninsured single-family mortgages. In particular, the B-20 Guidelines require that prospective borrowers have enough income to qualify for a mortgage using an interest rate that is the greater of the actual interest rate on the mortgage plus 2% and the 5-year benchmark rate published by the BoC. While compliance with the B-20 Guidelines is not required of First National, First National adopted the B-20 Guidelines to ensure that mortgages originated by it are considered “B-20 compliant”. Generally, B-20 Guidelines reduce housing affordability as borrowers require more income to support a comparable sized mortgage arranged under the previous rules. Given its customer base of regulated financial institutions, First National will be effectively subject to the B-20 Guidelines so long as they are in effect.

In June 2021, the Minister of Finance of the Government of Canada announced changes to the mortgage qualification rules under the B-20 Guidelines. The change was largely made to change the second benchmark for the qualifying rate from the 5-year benchmark rate published by the BoC to a set rate of 5.25%. This rate was confirmed by the Minister of Finance in December 2025 as part of its annual review.

In September, 2024, OSFI announced its decision to end the policy that required OSFI-regulated lenders to apply the minimum qualifying rate on straight switches of uninsured mortgages at renewal. This change will specifically apply in situations where a borrower is maintaining the same amortization schedule and loan amount.

The year ended December 31, 2025, showed single-family origination volumes including renewals of \$30.1 billion, which compares to \$22.6 billion for the year ended December 31, 2024. Approximately 39% of new prime single-family mortgages originated during the fiscal period ended December 31, 2025, were insured through CMHC, Sagen or Canada Guaranty including mortgages insured using portfolio insurance. The percentage of insured mortgages in First National’s overall single-family residential mortgage portfolio is approximately 61%.

First National focuses its mortgage origination activity on predominantly prime residential mortgages due in part to the inherent quality of this type of portfolio and its expertise in servicing this type of portfolio, resulting in a relatively low arrears rate. Management believes that the high percentage of CMHC, Sagen and Canada Guaranty insured mortgages, together with the relatively low arrears rate of its prime single-family residential mortgages under administration, is indicative of the high quality of the residential mortgages originated by First National.

Excalibur Mortgage Product

In 2018, First National relaunched its “Alt-A” alternative single-family mortgage products (“**Excalibur**”). Alternative lending describes single-family residential mortgages that are originated using broader underwriting criteria than the underwriting criteria applied in originating prime mortgages. Alternative borrowers are generally considered “A” quality borrowers in terms of their credit histories but do not qualify for a prime mortgage because of non-conformities, such as the degree of income disclosure and verification

required. The Excalibur program also includes a product for borrowers with recently remediated credit. These mortgages generally have higher interest rates than prime mortgages. When it was first launched in 2018, the product was originated solely for placement with institutional investors and First National earned a one-time placement fee and servicing income over the term of the mortgages. In 2019, First National began securitizing a portion of its Excalibur origination.

In 2021, First National entered into an agreement with a Schedule I bank for the launch of a co-branded secured credit card product. Under this arrangement, First National will provide underwriting and fulfillment services to the bank. The bank will issue the secured credit cards, fund all cash advances and will be fully responsible for servicing the secured credit cards. This arrangement leverages First National's distribution in the mortgage brokerage channel and will expand the product options under the Excalibur program. This program was launched in the first quarter of 2021.

Management believes that one of the principal reasons mortgage brokers continue to refer business to First National is because of First National's superior service level and its proprietary technology systems. First National has always used technology to ensure the efficiency and effectiveness of its operations, both during the origination process and then subsequently in the servicing and administration phase. In the fourth quarter of 2017, First National launched its Merlin by First National application for use with Apple and Android devices. The application provides mortgage brokers with real time information on all current mortgage applications submitted to First National including status of applications, outstanding closing conditions and messaging options.

First National's single-family residential mortgage origination activities provide a number of substantial benefits to First National, which include:

- generating a significant, continuing and regular source of revenue through placement, securitization and servicing activities;
- increasing First National's portfolio of mortgages under administration, thereby allowing First National to lower its per unit origination and servicing costs and increase its servicing revenue; and
- in the case of certain securitization programs, accrual of substantial residual value to First National upon the maturity of the mortgages.

In the prime segment of the residential mortgage market, First National's principal competitors are the federally regulated banks and other entities originating mortgages from mortgage brokers.

Originating and Underwriting of Multi-Unit Residential and Commercial Mortgages

Management believes First National is one of the largest multi-unit residential and commercial mortgage originators in Canada. First National originates and underwrites two categories of multi-unit residential and commercial mortgages: (i) conventional multi-unit residential and commercial mortgages, and (ii) CMHC-insured multi-unit residential mortgages.

First National's multi-unit residential and commercial origination activities provide a number of substantial benefits to First National, which include:

- generating a significant, continuing and regular source of revenue through placement, securitization and servicing activities;

- increasing First National's portfolio of mortgages under administration, thereby allowing First National to lower its per unit origination and servicing costs and increase its servicing revenue; and
- generating business relationships with borrowers across Canada for renewal and refinance opportunities.

During the fiscal year ended December 31, 2025, First National originated, including renewed mortgages, \$16.9 billion of multi-unit residential and commercial mortgages. 94% of new origination was CMHC-insured. As at December 31, 2025, First National had \$66.0 billion of multi-unit residential and commercial mortgages under administration of which 92% were CMHC-insured. Management believes that the percentage of CMHC-insured multi-unit residential and commercial mortgages, together with the low arrears rate of its multi-unit residential and commercial mortgages under administration, is indicative of the high quality of the multi-unit residential and commercial mortgages originated by First National.

Conventional Multi-Unit Residential and Commercial Mortgages

First National originates a range of conventional first mortgages, which management characterizes as multi-unit residential mortgages and commercial mortgages, including industrial, retail, office and other commercial properties, with a full range of loan amounts. First National relies on its experienced in-house commercial mortgage underwriters, who are employees of First National, to source and underwrite these mortgages. Many borrowers seeking small multi-unit residential and commercial mortgages approach single-family residential brokers. As such, First National's network of mortgage broker relationships is also an important origination source for smaller sized multi-unit residential and commercial mortgage products.

During the year ended December 31, 2025, First National originated, including renewals, approximately \$1.3 billion of conventional multi-unit residential and commercial mortgages and as at December 31, 2025, had approximately \$3.7 billion of conventional multi-unit residential and commercial mortgages under administration. In the last three years these mortgages have largely been placed with institutional investors. In virtually all cases, mortgage servicing is retained by First National. The majority of conventional commercial mortgages are originated for institutional investors and First National earns a placement fee upon placement. First National did not participate in any CMBS transactions in 2025.

For conventional commercial mortgages, First National's principal competitors tend to be the major life insurance companies and the federally regulated banks.

CMHC-Insured Multi-Unit Residential Mortgages

As an approved lender under the National Housing Act, First National originates CMHC-insured multi-unit residential mortgages on apartment buildings, and also on long-term residential care facilities. First National relies on its experienced in-house commercial mortgage underwriters, who are employees of First National, to source and underwrite these mortgages. Management believes that First National is the largest originator of CMHC-insured multi-unit residential mortgages in Canada.

During the year ended December 31, 2025, First National originated, including renewals, approximately \$15.6 billion of CMHC-insured multi-unit residential mortgages and as at December 31, 2025, had approximately \$62.3 billion of CMHC-insured multi-unit residential mortgages under administration. These mortgages are either: (i) securitized directly through the CMB; (ii) securitized directly through the NHA-MBS market; (iii) placed with institutions; or (iv) securitized through First National's ABCP program. In virtually all cases, the mortgage servicing is retained by First National. When mortgages are securitized directly, either through the CMB, the NHA-MBS market or an ABCP Conduit, First National effectively secures long-term matched funding for the related mortgages and earns an ongoing net interest margin over the term. This margin is based on the spread between the interest rate on the mortgage and the net yield to the investors in the security. In the case of placement with institutional investors, First National earns a one-time placement fee upon

placement with the institution. In addition, First National may at times recognize a deferred placement fee on that portion of the spread between the interest rate on the mortgage and the net yield to the institution.

First National's principal competition in this sector are the federally regulated banks, life insurance companies and other non-bank originators involved in origination for CMB funding. For CMHC-insured multi-unit residential mortgages, First National competes primarily on price combined with a high standard of service and expertise. Management believes that First National's established relationship with CMHC and knowledge of CMHC's underwriting policies and procedures, particularly in the long-term residential care facility area, as well as its ability to make commitment decisions quickly, are important competitive advantages in this segment.

Other Mortgage Origination Activities

Over the past several years, First National has developed a program for providing short-term secured bridge mortgages in support of its multi-unit residential and commercial mortgage origination activities. By providing a bridge mortgage, First National is often able to secure the ensuing traditional insured long-term mortgage. First National competes with the federally regulated banks in this area. This program evolved as existing borrowers of First National required short-term mortgages to fund acquisitions and renovations in advance of becoming eligible for term mortgage financing. All transactions are approved by First National's Commercial Credit Committee or the Senior Executive Vice President, the most senior lending authority in First National. Almost all transactions are with existing borrowers of First National and have terms of less than 18 months.

First National generally provides bridge loans where term replacement funding has been identified. Given the short-term nature and relatively low credit risk, these mortgages are not placed with institutions but are financed with First National's internal resources. First National generally earns a fee for providing the bridge financing and generally places the ensuing term mortgage financing with one of First National's institutional investors or its securitization conduits.

During the year ended December 31, 2025, First National originated approximately \$190 million in short term bridge mortgages. In comparison, during the fiscal year ended December 31, 2024, First National originated approximately \$112 million in short term bridge mortgages.

Servicing of Mortgages

First National services substantially all of the single-family residential and multi-unit residential and commercial mortgages that it originates whether the mortgage is placed with an institutional investor or through one of First National's securitization vehicles. In addition, First National services mortgages, which have not been originated by First National, on behalf of third-party institutional investors and securitization structures. Many institutions and securitization structures do not have in-house mortgage servicing capabilities and require external providers for this function. Mortgage servicing provides First National with a stable and consistent source of revenue. First National earns a monthly servicing fee based on the value of its mortgages under administration. This fee is earned each month during the term of the mortgage. The amount of the fee is dependent on the type of the mortgage (single-family residential, multi-unit residential or commercial), the size of the mortgage and the obligations under the servicing contract. The average term of the mortgages in First National's portfolio of mortgages under administration is 41 months.

The principal functions of mortgage servicing are: (i) the collection of mortgage payments from the borrower and the remittance of these payments to the investor; (ii) accounting of the amounts due under the mortgage; (iii) verifying that the borrower fulfills its obligations (such as maintaining property insurance and paying realty taxes) under the mortgage; (iv) enforcing the mortgage security in the event of a borrower default; and (v) otherwise administering the mortgage on behalf of the investor in accordance with the mortgage servicing agreement.

First National's mortgage servicing activities provide a number of substantial benefits to First National, which include:

- a stable and consistent source of revenue which grows over time as the value of serviced mortgages under administration increases;
- economies of scale result in increasing profit margins as the value of serviced mortgages under administration increases;
- ongoing contact with the borrower enhancing the opportunities for further mortgage originations;
- generally, upon the maturity of the mortgage, the opportunity for First National to again place or securitize the renewed mortgage, thereby earning renewal origination income and ensuring the continuation of servicing income; and
- the ability to earn interest income on funds held in trust.

Management views First National's major competition in the servicing sector as being MCAP Service Corporation in the case of single-family residential mortgages and U.S. based third party servicers in the case of multi-unit residential and commercial mortgages.

In addition to First National's own and third-party securitization vehicles, First National's portfolio of servicing clients includes a broad range of Canadian institutional investors. In total, First National services mortgages for 77 different institutional investors, including federally regulated banks, life insurance companies, trust companies, pension funds and securitization vehicles.

The mortgage servicing related to CMBS is more complex than traditional mortgage servicing. Instead of a single entity performing the mortgage servicing function there is a "*Master Servicer*", a "*Primary Servicer*" and a "*Special Servicer*". The Master Servicer enters into an agreement with the trustee of the CMBS pool to service and administer the mortgages in the pool for the benefit of the investors in the various classes of the CMBS. The Master Servicer is responsible for: (i) the collection of the mortgage payments from the borrower and the remittance of these payments to the trustee; (ii) an accounting of the amounts due under the mortgage; (iii) verifying that the borrower fulfills its obligations (such as maintaining property insurance and paying realty taxes) under the mortgage; and (iv) making certain decisions with respect to the mortgages in the pool on behalf of the CMBS investors.

A Primary Servicer performs a subset of the Master Servicer's obligations. The Primary Servicer is the principal point of contact with the borrower and often is a mortgage originator who wishes to maintain contact with the borrower for relationship reasons. The Master Servicer and Primary Servicer are the same entity for the majority of CMBS pools where there is a single originator. The Special Servicer is responsible for enforcing the mortgage security in the event of borrower default. The Master Servicer and Special Servicer are often different entities.

First National has been rated and/or approved as a Master, Primary and Special Servicer for CMBS by Standard & Poor's ("**S&P**") and Fitch Ratings, Ltd. ("**Fitch**"). In addition to recognizing high standards of commercial mortgage servicing, these ratings are a pre-requisite for servicers wishing to service mortgages on behalf of vehicles issuing investment and non-investment grade debt rated by these agencies. First National is also rated by S&P as "ABOVE AVERAGE", which is S&P's second highest of five possible ratings, for residential and commercial mortgage servicing. First National has paid customary rating fees to S&P and Fitch in connection with some or all of the above-mentioned ratings. In addition, the Corporation has made customary payments in respect of certain services provided to First National by each of S&P and Fitch.

Since 2002, First National has been appointed the Master Servicer or Primary Servicer for approximately \$6 billion of multi-unit residential and commercial mortgages in CMBS pools. From time to time, First National is presented with opportunities to acquire the mortgage servicing businesses of third parties in respect of defined portfolios. First National intends to opportunistically pursue portfolio acquisitions that have long-term benefits to it.

First National has also expanded its servicing business to include the provision of mortgage administration services to other mortgage originators. In 2009, First National expanded into this sector, and entered into arrangements with another mortgage originator to provide mortgage administration services to a substantial portion of that originator's ongoing mortgage portfolio. Since 2022, First National has entered into new agreements with several mortgage lenders to provide mortgage administration services.

Third Party Underwriting Services

In 2014, First National expanded its lines of business to include third party underwriting and processing services for third parties. This began with one Schedule I chartered bank. This line of business has grown to include mandates from three other Canadian chartered banks for similar services.

First National may further expand this line of business as additional opportunities arise.

Sources of Funding

First National utilizes the capital markets to meet a large component of its funding requirements. First National is not an OSFI-regulated, deposit-taking institution and, as such, does not finance its originations through CDIC-insured deposits. First National has diverse sources of funding for the mortgages it originates, including institutional placements and securitizations including NHA-MBS, CMB and ABCP.

Institutional Placements

During the fiscal period ended December 31, 2025, including renewed mortgages, First National placed \$30.5 billion of single-family residential mortgages and multi-unit residential and commercial mortgages with institutional investors. Upon the placement of a mortgage with an institutional investor, First National receives cash proceeds equal to the principal amount of the mortgage plus a placement fee that is based on that principal amount. In addition, during the term of the mortgage, First National earns a servicing fee for administering the mortgage. Upon the placement of a mortgage with an institutional investor, the institutional investor takes on all credit risk. In addition, First National may recognize a gain on sale from the portion of the spread between the interest rate on the mortgage and the net yield to the institution which is earned as a deferred placement fee and received over the term of the mortgage.

Mortgage placements with institutional investors provide a number of substantial benefits to First National, including:

- institutional investors acquire the obligations and entitlements of mortgages at the time of commitment and assume any interest rate risk associated with the commitment period (being the exposure to changes in interest rates between the commitment date and funding date on fixed rate mortgages);
- all of the income earned from institutional placements, other than future servicing fees, is received in cash at the time of placement;
- placement fees received tend to be consistent over a range of capital markets conditions; and
- institutional investors generally have substantial ongoing demand for residential mortgages.

First National has strategically cultivated mutually beneficial relationships with a select number of institutional investors for the placement of its mortgages. While management believes there is extensive demand from other potential institutional investors in the market for First National's mortgages at competitive pricing, First National has chosen to enter into relationships with institutional investors who have the ability to enter into relatively larger scale transactions. Benefits to this approach include: large and consistent demand, ease of processing, minimization of relationship management needs, alignment of credit criteria and system integration.

During the commitment period prior to closing a mortgage, borrowers typically have the option of accepting a lower mortgage interest rate should interest rates decline during this period. First National manages this "pipeline" risk through hedging activity.

Securitization by First National

Securitization involves selling mortgages to special purpose entities (including trusts) referred to as securitization vehicles, which buy the mortgages and then issue interest bearing mortgage-backed notes or ownership certificates. Currently, First National participates in four securitization programs: NHA-MBS, CMB, ABCP and CMBS.

NHA-MBS Program

First National has been involved in the issuance of NHA-MBS since 1995. In December 2007, First National was approved by CMHC as an issuer of NHA-MBS and as a seller into the CMB program, one of the first non-OSFI regulated companies in Canada to be so approved. Issuer status provides First National with another funding source that it is able to access independently.

In November 2017, First National Asset Management Inc. was approved by CMHC as an issuer of NHA-MBS and as a seller into the CMB, further expanding First National's funding options. As First National and First National Asset Management Inc. are related, more allocation into the CMB is not obtained through such approval. Instead, by purchasing mortgages from arms' length lenders First National Asset Management Inc. will gain access to the CMB using the CMB allocations of the originating lenders. It is hoped that by buying mortgages from such arms length's lenders, First National Asset Management Inc. can participate in the CMB utilizing First National's expertise.

The direct securitization of NHA-MBS provides a number of benefits to First National:

- First National retains the entirety of the mortgage spread on each transaction;
- First National has less reliance on another company in executing its business strategy; and
- the market can more easily assess the strength of First National as NHA-MBS issuance is recorded publicly.

Perhaps the only significant disadvantage is that direct securitization by First National requires an investment of First National's capital.

CMHC, as the administrator of the NHA-MBS program, allocates the amount of guarantees it issues for market NHA-MBS thereby limiting the amount of market pools an issuer can issue. Generally, First National has been allocated sufficient guarantees such that its plans related to issuance were not affected significantly. First National is subject to future allocation decisions by CMHC and there can be no assurance that it will be allocated sufficient guarantees such that its plans related to future issuances will not be affected. Furthermore, future allocation decisions by CMHC, or expectations of future allocation decisions by CMHC, may necessitate that First National adapt its origination and distribution activities based on the expected allocation of guarantees resulting from such decisions.

Since 2014, CMHC has announced from time to time increases to the price of guarantee fees charged to issuers of NHA-MBS, including volume-related increases. Such price increases may affect the profitability of NHA-MBS securitization, unless spreads on insured mortgages increase to offset these fees. In 2022, CMHC released Advice 18 to NHA-MBS issuers that changed the definition of aggregators. In 2024, CMHC released Advice 3 to clarify the definition of “originator”. In 2025, CMHC released Advice 4 pertaining to certain types of multi-family residential MBS pools. In conjunction, these Advices provide that, under certain conditions, CMHC may deem an issuer to be acting as an “aggregator”. These program changes may affect the demand of certain types of investors who make use of NHA-MBS funding for insured mortgages.

Currently there is a tiered NHA-MBS guarantee fee pricing structure such that guarantees issued to one issuer over \$9 billion of issuance have a higher price.

CMB

The CMB program is a CMHC initiative whereby the Canada Housing Trust (“**CHT**”) issues securities to investors in the form of semi-annual interest-yielding five (5) and ten (10) year bonds. The proceeds of these bonds are used to buy NHA-MBS. As an approved CMB seller, First National can make direct sales into the program. Because of the similarities to a traditional Government of Canada bond (both have fixed period unamortizing terms with a government guarantee), the CMB trades in the capital markets at a modest premium to the yields on Government of Canada bonds. First National’s ability to sell into the CMB has given First National access to lower cost of funds on both single-family and multi-family mortgage securitizations. Because these funding structures do not amortize, First National can fund future mortgages through this channel as the original mortgages amortize or pay out. First National also enjoys some demand for mortgages from investment dealers who sell directly into the CMB.

In the federal budget announced in March 2023, the Government of Canada introduced the possibility that the CMB program may be discontinued in its current form. The immediate outcome was increased volatility in the bond market and uncertainty among mortgage borrowers. Consultations with market participants were held and in September 2023 the government announced an increase of \$20 billion to the existing program for the purpose of funding CMHC insured multi-unit residential mortgages. For 2024, the Minister of Finance of the Government of Canada has authorized CMHC to provide up to \$170 billion of new guarantees to market NHA-MBS and up to \$60 billion of new guarantees for CMB, \$20 billion under each limit will be for the purpose of funding CMHC insured multi-unit residential mortgages. In support of the increased size of the CMB, the BoC, on behalf of the Government of Canada, was appointed to purchase up to 50% of the CMB bonds issued in 2024.

In the federal budget announced in November 2025, the Government of Canada increased the CMB annual issuance limit from \$60 billion to \$80 billion starting in 2026. This includes \$40 billion of dedicated allocation to support multi-unit residential mortgages. The Government also confirmed that they will maintain their purchases of CMB up to \$30 billion annually.

ABCP Programs

First National currently sponsors one special purpose vehicle, FNFC Trust, which finances a portion of its originated mortgages through the issuance of ABCP. FNFC Trust does not issue ABCP directly. Instead, it receives loans against its mortgage collateral from direct ABCP issuers, which currently include several ABCP issuing special purpose entities sponsored by several banks. First National also sells its originated mortgages directly to several bank-sponsored special purpose vehicles which issue ABCP. These lenders to FNFC Trust and the other bank-sponsored conduits (collectively, “**ABCP Conduits**”) issue securities to investors.

First National has entered into a series of purchase and sale agreements with the ABCP Conduits with respect to First National’s prime residential CMHC-insured multi-unit residential, and Excalibur origination business. Pursuant to the purchase and sale agreements, First National sells an undivided interest in an underlying mortgage pool to the ABCP Conduits. The cash received from the sale of ABCP flows directly back to First

National. Upon the sale of a mortgage to an ABCP Conduit, First National receives cash proceeds against the principal amount of the mortgages and is entitled to receive the difference between the yield on the mortgages and the cost of funds over the remaining life of the mortgages. This stream of income is known as an “*Interest Only strip*” or “*I/O strip*” and is retained by First National. First National records net interest margin as the interest strip is received each month. First National is required to post cash collateral and finance over-collateralization or short-term notes (referred to as “*credit enhancements*”), based on the principal amount of the mortgages within the ABCP Conduits. Except for these credit enhancements and First National’s retained co-ownership interest in the applicable ABCP mortgage pool, the ABCP investors and FNFC Trust have no recourse to First National in the event of a default of the mortgages. The cash collateral is shown as an asset on the balance sheet and is generally returned to First National upon the repayment of the mortgage.

When fixed rate mortgages are sold into ABCP Conduits an interest rate swap is entered into, effectively converting the floating rate funding into fixed rate term funding. This strategy protects First National from changes in interest rates and is designed to lock in First National’s spread over the full term of the mortgages.

Securitizations through the ABCP program provide a number of substantial benefits to First National, including:

- the economic value of such a securitization can be higher than the placement fees otherwise earned from institutional placements; and
- the securitizations are transacted through the broader capital markets rather than with private institutions, providing a diverse and independent source of funding.

CMBS Conduits

First National became a participant in the CMBS industry in Canada in 2002 when it entered into a non-exclusive arrangement with a Canadian federally regulated bank. Under the terms of that arrangement, First National and the federally regulated bank originated multi-unit residential and commercial mortgages for inclusion in CMBS pools issued by Schooner Trust, a special purpose trust created and sponsored by the federally regulated bank for the purpose of issuing CMBS. Under this arrangement, First National participated in the profits of the issuance based on the mortgages it contributed to the issue. During the intervening period, First National originated various amounts of mortgages for CMBS transactions sponsored by various Canadian banks.

Upon the securitization of mortgages into a CMBS pool, various classes (AAA, AA etc.) of bonds secured by, or certificates representing co-ownership interests in, mortgages in the pool are issued. A final class of bonds, known as “*Interest Only strips*” or “*I/O strips*”, representing the cash flows from the difference between the interest rate on the mortgages in the CMBS pool and coupon rates on the bonds or certificates, is sold at the time of issue. First National’s share of the proceeds from the sale of all these classes less the face value of the mortgages, any costs of origination and the costs of issuance is recognized as a placement fee. During the term of the mortgages in the CMBS pool, First National earns a servicing fee for acting as the Primary Servicer and frequently administration fees for acting as the Master Servicer. As of December 31, 2025, First National was either Primary or Master Servicer for approximately \$0.5 billion of multi-unit residential and commercial mortgages in CMBS pools.

Generally, First National is positioned to originate mortgages for CMBS pools and may participate as a Seller, Primary Servicer, or Master Servicer based on market conditions.

Intangible Property

First National is the owner of a number of trademarks including the First National Financial Corporation design, First National Financial LP and Acorn design, MERLIN®, MERLIN design, EXCALIBUR®, and EXCALIBUR design.

First National regards all of its trademarks as having substantial value and as being an important factor in the marketing of its products. First National's policy is to pursue registration of its trademarks whenever appropriate and to vigorously oppose any infringement of its trademark rights.

Employees

As of December 31, 2025, First National had approximately 1873 active employees in offices located in Toronto, Montreal, Halifax, Calgary and Vancouver.

Risk Factors

An investment in the Corporation's securities involves a number of risks. In addition to the other information contained in this Annual Information Form and the Corporation's other publicly filed disclosure documents, prospective purchasers should give careful consideration to the following factors, which are qualified in their entirety by reference to, and must be read in conjunction with, the detailed information appearing elsewhere in this Annual Information Form. Any of the matters highlighted in these risk factors could have a material adverse effect on the Corporation's business, financial condition or results of operations. Additional risks and uncertainties not currently known to the Corporation, or that the Corporation currently considers immaterial, may also have a material adverse effect on the Corporation's business, financial condition, or results of operations.

Risks Related to the Business

Geopolitical Events

Events such as war and occupation, terrorism and related geopolitical risks may lead to increased market volatility and may have adverse short-term and long-term effects on world economies and markets generally, including Canadian, U.S., European and other economies and securities markets. For example, in response to the current conflict between Russia and Ukraine, Canada has implemented economic sanctions against Russia and/or certain Russian individuals or organizations and may impose further sanctions or other restrictive actions against governmental or other individuals or organizations in Russia or elsewhere. The effects of disruptive events could affect the economies and securities markets of countries in ways that cannot necessarily be foreseen at the present time. These events could also exacerbate other pre-existing political, social and economic risks. Such events could also cause substantial market volatility, exchange trading suspensions and closures and affect the Corporation's performance, the price of its securities and its ability to successfully raise capital at reasonable rates.

Reliance on Sources of Funding and Credit Market Disruption

First National uses primarily institutional placements and securitization vehicles and, to a lesser extent, its own equity and available secured and unsecured debt as sources of capital for financing mortgages. First National's securitization programs access the capital markets for the issuance of NHA-MBS, CMB, ABCP and CMBS. First National's ability to continue to fund and securitize mortgages, to honour its mortgage commitments to borrowers and to ultimately collect on its retained interests is dependent upon the performance of existing securitization structures, on market conditions for these types of instruments and on commitments of institutional investors. Changes in market conditions, rating agency ratings or requirements, accounting standards, the commitments of institutional investors, the performance of the mortgage portfolio or regulatory requirements could result in an increase in the costs within the securitization structures, temporary periods in which the structures or institutional placements are not available or permanent unavailability of the structures or institutional placements. First National's retained interest in securitization structures may be adversely affected by these changes or the underlying performance of the assets in the structure. Any such adverse changes may require First National to recognize a write down of the retained interest in future periods due to First National's gain on sale accounting.

If the mortgages First National has placed or securitized in the past perform poorly, such mortgages may adversely affect the perceived value of any future mortgages First National attempts to place or securitize. First National's access to the mortgage placement and securitization markets depends upon a number of factors, including general economic conditions, spreads on mortgages relative to other investments, conditions in the securities markets generally and conditions in the asset-backed securities market specifically. Accordingly, a decline in the securitization or placement markets or a change in either market's demand for First National's mortgages could adversely affect First National's ability to place or securitize its mortgages, which could negatively impact First National's financial condition and results of operations and decrease the amount of cash available for distribution. In addition, in order to permit growth in First National's value of mortgage originations, First National will need access to higher levels of funding from institutional placements and securitizations.

First National cannot predict the duration of its funding sources, nor can it predict the extent to which a future credit market disruption could affect First National's ability to raise capital for financing mortgages. Since First National is unable to predict if the capital markets (including ABCP) will continue to function at levels experienced in the previous year, it is also unable to predict whether funding spreads and liquidity will continue to provide First National with cost efficient funding for its mortgages.

The Credit Facility is used primarily to fund mortgages accumulated for sale and securitization and for general corporate purposes. The lenders under the Credit Facility have a charge over First National's assets, including its mortgage assets, and the Credit Facility requires that First National adhere to certain financial covenants. Failure to adhere to these financial covenants could result in the cancellation and requirement to repay the debt facilities. If the lenders under the Credit Facility terminate or do not renew the facilities, or First National cannot replace the maturing facilities on favourable terms, First National may not be able to continue to fund mortgage originations and securitization receivables, which could have a material adverse effect on First National's business, financial condition and results of operations.

The Acquisition Facility was used to partially fund the Arrangement transaction and to pay related fees and expenses. It will also be used by the Corporation for working capital and general corporate purposes. The Acquisition Facility requires that the Corporation adhere to certain financial covenants. Failure to adhere to these financial covenants could result in the cancellation and requirement to repay the debt facilities. If the lenders under the Acquisition Facility terminate or do not renew the facilities, or the Corporation cannot replace the maturing facilities on favourable terms, this could have a material adverse effect on the Corporation's business and financial condition.

The Corporation may need to increase the borrowing capacity available under the credit facilities in order to increase mortgage originations and grow the business of First National. If the Corporation is unable to increase its borrowing capacity, its ability to grow First National's business may be impaired.

Customer Concentration Risk

If First National placed a significant amount of new mortgages with a particular institutional investor who terminates its relationship with First National or reduces its acquisitions of mortgages from First National and First National was unable to replace such institutional investor with another institutional investor or obtain alternative securitization sales at similar pricing for mortgages purchased, this could have a material adverse effect on First National's business, financial condition and results of operations. First National also has the risk that one or more institutional investors do not honour the mortgage purchase commitments made to First National. Due to the large size of such commitments, any termination or failure to honour such commitments could result in a significant adverse financial impact on the Corporation.

Reliance on Independent Mortgage Brokers

First National's mortgage operations are dependent on a network of mortgage brokers. The mortgage brokers with whom First National does business are not contractually obligated to do business with First National.

Further, First National's competitors also have relationships with the same brokers and actively compete with First National in its efforts to expand its broker network and originate mortgage loans. First National may find it difficult to attract new mortgage business from this network of brokers, or sustain current levels, to meet its needs. The failure by First National to sustain or increase its current level of mortgage origination from these sources could have a material adverse effect on First National's business, financial condition and results of operations.

Changes in Interest Rates and Hedging Activity

Rising interest rates generally reduce the demand for credit, including mortgages, increase the cost of borrowing and may discourage potential borrowers from purchasing new properties, refinancing their existing mortgages or obtaining cash to retire other debt. Consequently, First National may originate fewer mortgages, or a lower dollar amount of mortgages, in a period of rising interest rates. Increases in interest rates may also cause a lack of liquidity among First National's institutional investors, potentially reducing the number of mortgages such purchasers would otherwise buy. Increases in interest rates could have a material adverse effect on First National's business, financial condition and results of operations.

In order to reduce the risk of interest rate fluctuations, First National engages in hedging activity in the capital markets during the period between the time a residential or commercial mortgage is committed to the borrower and the time the mortgage is funded and placed with an institutional investor or sold to a securitization vehicle. First National's hedging strategies generally involve large notional values of Government of Canada or Canada Housing Trust issued bonds. Accordingly, this activity has certain risks, as the reliance on an unsuccessful hedging strategy, or the use of ineffective hedges may result in or magnify losses and could have a material adverse effect on First National's business, financial condition and results of operations. These risks include but are not limited to bond market liquidity and the Corporation's ability to transact at market rates.

First National attempts to always match floating rate yields on mortgage assets with floating interest rate funding. While the funding interest rates offered by the ABCP market are considered to be floating rate, and the yields offered on mortgage assets may also be floating rates (or swapped into floating rates), the actual benchmarks used to set these rates are not the same and the differences between the benchmarks fluctuate from time to time. Single-family residential mortgages are typically priced with reference to a prime rate. Fixed rate single-family residential mortgages are typically swapped to a banker's acceptance-linked rate. Multi-unit residential and commercial mortgages are typically priced with reference to the previous month's actual cost of funds provided by the bank sponsored ABCP conduits. The mortgage assets generate yields tied to different market reference rates while the cost of funds is based on actual ABCP rates set in the market based on supply and demand. The difference between these market reference rates and actual ABCP rates paid will vary. This variability is called "*basis risk*". While this variability is often minimal, it is difficult to economically hedge or entirely eliminate such variability and First National does incur this basis risk as part of its normal course operations.

In periods of declining interest rates, prepayments on mortgages tend to increase as a result of borrowers taking advantage of lower interest rates to refinance higher interest rate mortgages, or as a result of borrowers purchasing new properties and prepaying their existing mortgages. A reduction in the number of mortgages under First National's administration could result in a decrease in the amount of funds received from servicing these mortgages. This could have a material adverse effect on First National's business, financial condition and results of operations. Significant declines in bond yields also result in losses on account of the change in value of financial instruments employed for First National's hedging activities. First National's hedging program is designed to mitigate the interest rate risk of holding mortgages from commitment date to the date of securitization. However, the offsetting gain on the hedged mortgages will be realized over the 5 and 10-year terms of the mortgages as interest rate spread is earned. The mismatch between the payment of cash on the close out of hedge positions and longer payback period realized on the mortgages impacts First National's liquidity. First National is also exposed to widening credit spreads between the date of hedging and the ultimate securitization of the related mortgage.

Reliance on Financial Models

First National uses internal financial models that utilize, wherever possible, market data to value certain of First National's assets and liabilities, including a portion of mortgages pledged under securitization, mortgage and loan investments, deferred placement fees receivable and swap derivatives. These models are complex and use asset-specific data and market inputs for interest and discount rates. If the estimates or assumptions used in these models prove to be incorrect, First National may be required to record impairment charges. Even if the general accuracy of First National's value models is validated, valuations are highly dependent upon the reasonableness of First National's assumptions and the predictability of the relationships that drive the results of the models. In preparing these models, First National makes certain assumptions, many of which are beyond its control, including, among other things:

- the rates of prepayment and repayment for mortgage loans;
- projected rates of delinquencies, defaults and liquidations;
- future interest rates;
- future credit spreads; and
- discount rates.

If these assumptions or relationships prove to be inaccurate, market conditions change or if errors are found in First National's models, the value of certain of First National's assets may decrease. First National may be required to record impairment charges, which could impact First National's ability to satisfy minimum net worth covenants and borrowing conditions in debt agreements and may adversely affect First National's business, financial condition or results of operations.

Repurchase Obligations and Breach of Representations and Warranties on Mortgage Placements

First National places the mortgages it originates as soon as is practicable after committing to the mortgages. Mortgage placements are made under agreements with institutional investors and securitization conduits which are, in many respects, favourable to the mortgage purchaser. When placing mortgages, First National makes a variety of customary representations and warranties regarding itself, its mortgage origination activities and the mortgages that are placed. These representations and warranties survive for the life of the mortgages and relate to, among other things, compliance with laws, mortgage underwriting and origination practices and standards, the accuracy and completeness of information in the mortgage documents and mortgage files, and the characteristics and enforceability of the mortgages. In many cases, these provisions do not have any cure periods and are not subject to any materiality threshold.

Through its mortgage origination and underwriting processes, First National attempts to verify that its mortgages are originated and underwritten in accordance with the applicable requirements and comply with representations and warranties made by First National. There can be no assurance, however, that First National will not make mistakes or that certain employees or brokers will not deliberately violate First National's underwriting or other policies, and breaches of representations and warranties may occur from time to time. First National's mortgage sale agreements generally require it to repurchase or substitute mortgages in the event it has breached a representation or warranty made to the mortgage purchaser, and/or to indemnify the mortgage purchaser against any loss or damage it may suffer. Any requirement for First National to repurchase or substitute a significant number of mortgages that it has placed or to indemnify mortgage purchasers could have a negative impact on First National's financial condition and results of operations and could decrease the amount of cash available for distribution. Significant breaches of mortgage sale agreements may also discourage mortgage purchasers from doing business with First National, which could have a negative impact on First National's ability to sell mortgages and could have a material adverse effect on First National's business, financial condition and results of operations.

When First National funds mortgages, it relies heavily upon information supplied by third parties including the information contained in the mortgage application, property appraisal, title information and employment

First National Financial Corporation

and income documentation. If any of this information is misrepresented and the misrepresentation is not detected before mortgage funding, the value of the mortgage may be significantly lower than expected. Whether the mortgage applicant, the mortgage broker, another third party or one of First National's employees makes a misrepresentation, First National generally bears the risk of loss associated with the misrepresentation. A mortgage subject to a misrepresentation may be unsaleable in the ordinary course of business or may be subject to repurchase or substitution if it is sold before detection of the misrepresentation or may require First National to indemnify the mortgage purchaser. The persons and entities that made a misrepresentation are often difficult to locate and it may be difficult to collect from them any monetary losses First National may have suffered. While First National has controls and processes designed to help it identify misrepresented information in its mortgage origination operations, there can be no assurance these controls and processes have detected or will detect all misrepresented information.

Servicing Advances

During any period in which a borrower does not make contractual payments, First National may be required under certain servicing agreements to advance its own funds to meet contractual principal and interest remittance requirements for investors, pay property taxes and insurance premiums, legal expenses and other protective amounts. First National may also advance funds to maintain, repair and market real estate properties on behalf of investors and insurance companies. As home values change, First National may have to reconsider certain of the assumptions underlying its decisions to make advances, and in certain situations contractual obligations may require First National to make certain advances for which it may not be reimbursed. In addition, in the event a mortgage loan serviced by First National defaults or becomes delinquent, the repayment to First National of any advance may be delayed until the mortgage loan is repaid or refinanced or liquidated. A delay in First National's ability to collect advances may adversely affect First National's liquidity. To the extent First National is not reimbursed for advances, First National's business, financial condition and results of operations could be adversely affected.

Risk of Servicer Termination Events and Trigger Events

Under First National's servicing arrangements, there are circumstances that may result in a "servicer termination event" which can provide the investor or securitization conduit with the option to replace First National as its servicer. Further, such servicing arrangements may include provisions that permit the investor or securitization conduit to terminate First National on convenience and without cause. Such an event could result in a reduction of First National's total mortgages under administration and loss of future servicing revenue and customer relationships leading to a loss of potential mortgage renewals. Examples of servicer termination events include failures by the servicer to make payments or deposits within the time required, and servicer representations or warranties which prove to be false or incorrect in any material respect, and remain unremedied for a stipulated period after notice to the servicer. Servicer termination events could have a material adverse effect on First National's business, financial condition and results of operations.

A servicer termination event could also lead to a "trigger event." In certain circumstances, the occurrence of a trigger event can result in an accelerated repayment of an ABCP loan made to FNFC Trust or the other ABCP conduits with which First National has agreements, causing an early termination of the securitization program. Upon the occurrence of a trigger event, no amounts in respect of First National's retained co-ownership interest and interest spread in the applicable mortgage pool would be paid to First National until the relevant ABCP loan has been repaid. Instead, such amount would be used to repay the affected ABCP loan. Upon the occurrence of a trigger event, First National could be required, at its own expense, to execute and deliver registrable transfers for the mortgages and related security to the ABCP conduit, and would not be able to carry out any further sales under the affected program unless and until the trigger event is cured. Such trigger events could have a material adverse effect on First National's business, financial condition and results of operations.

Cash Collateral and Retained Interest

Securitization of mortgages may involve First National entering into a series of purchase and sale agreements with special purpose vehicles created or used by First National to finance its originated mortgages through the issuance of ABCP. As part of the transactions, First National is required to post cash collateral and the “credit enhancements” which are based on the principal amount of the mortgages. Upon the default of a mortgage, the ABCP investors and the special purpose vehicles have recourse to this cash collateral. A rise in the level of mortgage defaults leading to the loss of cash collateral amounts would result in a decrease in First National’s funds, and could have a material adverse effect on First National’s business, financial condition and results of operations. First National’s retained interest in securitization structures may be adversely affected by changes in market conditions, rating agency ratings or requirements, accounting standards, the performance of the mortgage portfolio or regulatory requirements.

Reliance on Multi-Unit Residential and Commercial Mortgages

The number of multi-unit residential and commercial properties developed or resold each year tends to be cyclical, and depends on a number of factors, including overall economic growth, interest rates and business and population growth. For the last several years, First National has benefited from low interest rates, and a lack of competition. There is no guarantee that these trends will continue or that First National will be able to originate the same volume of multi-unit residential and commercial mortgages it has in the past. Any reduction in the levels of multi-unit residential or commercial mortgages administered by First National could have a material adverse effect on First National’s business, financial condition and results of operations.

General Economic Conditions

In the pandemic period from 2020 through part of 2022, the mortgage financing industry in Canada benefited from historically low interest rates and generally housing activity increased significantly. In early 2022, the BoC began what became a series of decisions to increase its overnight target interest rate which, in turn, led to increased mortgage rates. Between March 2, 2022 and December 31, 2023, the overnight rate was increased ten times from 0.25% at the beginning of March 2022 to 5.0% at the end of December 2023. The Corporation believes these increases contributed to significantly higher mortgage rates and reduced the affordability of housing across the country. There is a risk that increases in interest rates could slow the pace of property sales and adversely affect growth in the mortgage market, which could adversely affect First National’s operations and stated growth initiatives. In addition, risks associated with high Canadian household indebtedness remain elevated. A decline in general economic conditions could also cause default rates to increase as creditworthiness decreases for borrowers. This could have a material adverse effect on First National’s business, financial condition and results of operations.

In addition, a significant decline in real estate values could negatively affect First National’s operating results and growth prospects as this would result in a decrease in the value of mortgage transactions. As property values decline, security on mortgages could also be adversely affected, thereby reducing the ability to liquidate properties held by defaulting borrowers at favourable prices. While this may not have a significant immediate effect on First National’s operating results, given the nature of First National’s business and the relatively low proportion of mortgages First National finances with its internal resources (either through bridge lending or a retained interest on securitized mortgage pools), First National’s servicing performance could be adversely affected, as would its ability to sell mortgages in the future, either through institutional placements or securitization vehicles, thereby adversely affecting First National’s profitability and distributable cash.

The profits earned on mortgage sales depend, in part, on the spread between mortgage rates and capital market funding rates and any fee income derived therefrom. First National’s mortgage portfolios include assets whose value can fluctuate because of changing interest rates and economic and market conditions. In addition, some of these assets could be difficult to sell at any given time. Changes in interest rates and other market factors such as stock market prices and demographics could affect the preferences of its customers for different types of products and adversely impact First National’s profitability. A reduction in positive spreads between

mortgage rates and capital market funding rates could have a material adverse effect on First National's business, financial condition and results of operations.

Further, there are economic trends and factors that are beyond First National's control and which may affect its operations and business. Such trends and factors include adverse changes in the conditions in the specific markets for First National's products and services (including oil-dependent provincial economies), the conditions in the broader market for residential and commercial mortgages and the conditions in the domestic or global economy generally. The U.S. administration has imposed tariffs on goods imported into the U.S. from Canada. There is no assurance that any discussions taking place between U.S. and Canadian officials regarding resolution of the tariffs, will result in a permanent withdrawal of the tariff proposals or a reduction in tariff rates or scope. It remains unclear the extent to which additional tariffs or other trade restrictions, or similar measures may be imposed by the United States or other countries, whether and if any changes to the currently announced tariffs will be applied, how long they may be in effect and the extent to which further retaliatory measures will be imposed. As a result, the extent of the impact to the economy, employment, and the housing market in Canada remains uncertain. Although First National's performance is affected by the general condition of the economy, not all of its service areas are affected equally. It is not possible for management to accurately predict economic fluctuations and the impact of such fluctuations on performance. There is no guarantee that the revenue, asset and profit growth that First National has historically generated will continue or that any of First National's targets for distributable cash or other performance expectations will be achieved.

Government Regulation

First National is currently regulated under mortgage broker, lending and other legislation in all of the jurisdictions in which it conducts business and is licensed or registered in those jurisdictions where licensing or registration is required by law. Changes in regulatory legislation or the interpretation thereof, or the introduction of any new regulatory requirements could have a negative effect on First National and its operating results. There are different regulatory and registration requirements in each of the jurisdictions in Canada. First National takes the position that it is appropriately registered in the jurisdictions in which it conducts business, however, it may voluntarily seek additional registration in respect of its activities or from time-to-time regulators may adopt a different view that may require First National to seek additional registration. Failure to be appropriately registered could result in enforcement action and potential interruption of certain of First National's servicing or other activities and may result in a default under servicing agreements. This could have a material adverse effect on First National's business, financial condition and results of operations.

In addition, as an approved lender under the National Housing Act, First National can originate CMHC, Sagen and Canada Guaranty insured mortgages. Any change in First National's status as an approved lender under the National Housing Act could have a material adverse effect on First National's business, financial condition and results of operations.

Finally, as an approved NHA-MBS issuer and CMB seller, First National, together with an agreement with an investment grade swap counter party, is able to access these markets. Any change in First National's status as an approved issuer or seller, or inability to engage a swap counter party, or any occurrence which would result in the limitation of First National's access to the CMB, could have a material adverse effect on First National's business, financial condition and results of operations. As an approved NHA-MBS Issuer and CMB Seller, First National Asset Management Inc. will share similar risks in respect of its NHA-MBS and CMB programs once operations commence.

Future changes to the NHA-MBS and CMB programs by CMHC may limit the extent to which First National and First National Asset Management Inc. participate in and receive financial benefits of such programs or may increase First National's or First National Asset Management Inc.'s operating costs and the expense of participation in such programs. Such modifications could have a material adverse effect on First National's and First National Asset Management Inc.'s business, financial condition and results of operations.

Competition

First National's products compete with those offered by banks, insurance companies, trust companies and other financial services companies. Some of these competitors are better capitalized, hold a larger percentage of the Canadian mortgage market, have greater financial, technical and marketing resources than First National and have greater name recognition than First National. First National experiences competition in all aspects of its business, including price competition. If price competition increases, First National may not be able to raise the interest rates it charges in response to a rising cost of funds or may be forced to lower the interest rates that it is able to charge borrowers, which has the potential to reduce the value of the mortgages First National places with institutional mortgage purchasers or securitization vehicles. Price-cutting or discounting may reduce profits. This could have a material adverse effect on First National's business, financial condition and results of operations.

Reliance on Mortgage Insurers

First National relies to a great extent on mortgage insurance provided by CMHC, Sagen and Canada Guaranty to carry on its business. Should such insurance not be available in the future including as a result of the loss of First National's "approved lender" status or should the current credit ratings for CMHC, Sagen or Canada Guaranty decline or should CMHC, Sagen or Canada Guaranty be unable to fulfill their insurance payment obligations, such event would have an adverse effect on First National's ability to place and syndicate or sell mortgages originated by it. This could have a material adverse effect on First National's business, financial condition and results of operations.

Reliance on Key Personnel

First National's operations are dependent on the abilities, experience and efforts of its management and other key employees including Jason Ellis, President and Chief Executive Officer, Moray Tawse, Senior Executive Vice-President and other members of the senior management team. Should any of these persons be unable or unwilling to continue in their employment, this could have a material adverse effect on First National's business, financial condition and results of operations.

Conduct and Compensation of Independent Mortgage Brokers

The mortgage brokers through whom First National originates residential mortgages have parallel and separate legal obligations to which they are subject. While these laws may not explicitly hold mortgage lenders, such as First National, responsible for the non-compliance of mortgage brokers, there is a risk that liability could be imposed onto the mortgage lender. First National exercises little or no control over the activities of the independent mortgage brokers through whom it originates its residential mortgages. Nevertheless, First National may be subject to claims for fines or other penalties or liabilities based upon the conduct of independent mortgage brokers which may have a material adverse effect on First National's business, financial condition and results of operations.

Failure or Unavailability of Computer and Data Processing Systems and Software

First National is dependent upon the successful and uninterrupted functioning of its computer and data processing systems and software including MERLIN® as well as the customized software developed by First National as part of its third-party underwriting services. The failure or unavailability of these systems could interrupt operations or materially impact First National's ability to originate, monitor or service customer accounts or comply with contractual obligations to third parties. If sustained or repeated, a system failure or loss of data could negatively affect the operating results of First National. In addition, First National depends on automated software to match the terms of its liabilities and asset maturities. If such software fails or is unavailable on a prolonged basis, First National could be required to manually complete such activities, which could have a material adverse effect on First National's business, financial condition and results of operations.

Cyber Risk

By the nature of its business, First National maintains confidential and personal information regarding customers in its computer systems and with third party service providers. Cyber-security breaches and attacks may have a material adverse effect on First National's business, financial condition and operations or result in a breach of personal information of First National's customers which may damage First National's reputation or result in liability to customers and third parties. Cyber-security breaches experienced by counterparties or third-party service providers or inadequate levels of security by such parties pose a risk for all companies including First National. First National has not experienced any material losses to date relating to cyber-attacks, but there can be no assurance that it will not incur such losses in the future. First National's risk and exposure to these matters cannot be fully mitigated because of, among other things, the evolving nature of these threats. As these crimes increase in scope and complexity, First National must continue to advance and strengthen its cyber defense program and review the cyber security programs of its service providers and counterparties to assess their ability to respond to existing and emerging threats.

Insufficient Insurance Coverage

First National maintains property, general liability, mortgage impairment, forced placed property, errors and omissions, business interruption, cyber and directors and officers' liability insurance on such terms as it deems appropriate. This may result in insurance coverage that, in the event of a substantial loss, would not be sufficient to pay the full current market value or current replacement cost of First National's lost investment. This insurance may not remain available to it at commercially reasonable rates. Future increases in insurance costs, coupled with the increase in deductibles, will result in higher operating costs and increased risk. Not all risks faced by First National are insured.

Change in or Loss of Ratings

First National is rated and/or approved as a Master, Primary and Special Servicer for CMBS by S&P and Fitch rating agencies. These ratings are a pre-requisite for servicers wishing to service mortgages on behalf of vehicles issuing investment and non-investment grade debt rated by these agencies. First National is also rated by DBRS as an issuer of public securities. This rating is required by the Corporation to issue share or debt capital. Counterparties also rely on this rating as part of their credit assessment of the Corporation and First National. An adverse change in or loss of First National's ratings by these agencies would constitute a default under First National's servicing agreements and may result in a "servicer termination event" or "trigger event" thereunder. In addition, First National's future servicing revenue would decline, and customer relationships would deteriorate, resulting in a loss of investor renewals, which may have a material adverse effect on First National's business, financial condition and results of operations.

Impact of Natural Disasters and Other Events

Various events, including natural disasters, extreme weather conditions, climate change, global health crises, war and terrorism may cause a significant decline in the value of the properties underlying First National's mortgages under administration and/or adversely affect the capacity of borrowers to repay mortgages, capital resources of borrowers that can be used to cover any shortfalls, collateral in support of mortgages and conditions of mortgages. Deterioration in these factors could lead to difficulties in repayment of mortgages or a decline in the performance of mortgage portfolios or of assets in securitization structures, possibly resulting in higher loan losses and a decline in the return of First National's securitization vehicles, thereby having a material adverse effect on First National's business, financial condition and results of operations.

Environmental Liability

If First National exercises its remedies as a mortgagee on properties securing mortgage loans that are in default, there is a risk that hazardous or toxic waste could be found on those properties, and First National could be held liable to a governmental entity or to third parties for property damage, personal injury,

investigation and cleanup costs incurred in connection with the contamination. As the owner or lender, or former owner or lender of a contaminated site, First National could be subject to common law claims by third parties based on damages and costs resulting from environmental contamination emanating from the property. If First National were to become subject to significant environmental liabilities, it could have a material adverse effect on First National's business, financial condition and results of operations.

Legal and Regulatory Risk

First National may, from time to time, become party to legal actions or regulatory proceedings in the course of ordinary business including disputes regarding its products, licensing, disclosures, regulatory compliance and business practices; disputes with third parties, vendors, subcontractors, employees, agents or brokers over contractual terms, termination of contract, compensation and related claims or disputes with taxing authorities regarding its taxing liabilities and tax assets. The existence of such claims against First National or its affiliates, directors or officers, enforcement action by a regulator or a significant monetary judgement against First National in a legal action could have an adverse effect on First National's business, financial condition and results of operations and the amount of cash available to shareholders.

Ability to Sustain Performance and Growth

First National's revenue and income have grown significantly over the past decade. First National's future operating results will depend on a number of factors, including its ability to maintain its level of performance and successfully execute First National's growth strategies. First National's past results and growth may not be indicative of its prospects and there can be no assurance that First National will sustain its level of performance or grow profitably in future periods. In addition, continued growth by First National may result in additional operating expenses and capital expenditures. There can be no assurance that First National will be able to effectively manage growth, and any failure to do so could have a material adverse effect on First National's business, financial condition and results of operations.

Third Party Administration Services

One of First National's lines of business is the provision of mortgage administration services to third party originators. The servicing fees charged under these administration arrangements, while typically lower than the standard servicing fees charged by First National when servicing First National originated mortgages, are nevertheless significant. Such arrangements are subject to various termination rights. Although management has been successful in the operation of this line of business there can be no assurance that any third-party administration contract will continue or be renewed.

Third Party Underwriting Services

Since the launch in 2014 of First National's third-party underwriting services division, First National has agreed to provide underwriting and fulfillment services to third parties on terms and conditions set out in the contracts between First National and such parties. There can be no assurance, however, that First National will not make underwriting errors or that certain employees will not deliberately violate the underwriting policies or other requirements of the third parties and breaches of representations and warranties may occur from time to time. Any requirement for First National to indemnify such third parties for breaches in any significant amount may have a material adverse effect on First National's business, financial condition and results of operations.

Although management has been successful in operating its third-party underwriting department, First National may be required to implement changes in certain aspects of its business, improve and expand its management information systems and develop, manage and train management level and other employees to comply with the contracts requirements. Failure to take such actions, or delay in the implementation thereof, could have a material adverse effect on First National's business, financial condition and results of operations.

Risks Related to the Structure of the Corporation

Dependence on First National Financial LP

The Corporation is entirely dependent on the operations and assets of First National and will be dependent on the ability of First National to pay distributions to the Corporation. The ability of First National to pay distributions or make other payments or advances to the Corporation will be subject, among other things, to applicable laws and contractual restrictions contained in the instruments governing any indebtedness (including the Credit Facility).

Taxation Risks

The Corporation is subject to Canadian federal and provincial income and commodity tax laws and pays such taxes as it determines are compliant with such legislation. Among the risks of all potential tax matters, there is a risk that tax legislation changes to the detriment of the Corporation or that Canadian tax authorities interpret legislation differently than the Corporation's filing positions.

Leverage and Restrictive Covenants

The degree to which First National is leveraged could have important consequences to stakeholders of the Corporation, including the following: (i) the ability of First National to obtain additional financing for mortgage originations by First National, working capital, capital expenditures or acquisitions in the future may be limited; (ii) a material portion of First National's cash flow from operations may need to be dedicated to payment of the principal of and interest on indebtedness, thereby reducing funds available for future operations and to pay distributions; (iii) the borrowings under the Credit Facility are at variable rates of interest, which exposes First National to the risk of increased interest rates; and (iv) First National may be more vulnerable to economic downturns and be limited in its ability to withstand competitive pressures. First National's ability to make scheduled payments of principal and interest on, or to refinance, its indebtedness will depend on its' future operating performance and cash flows, which are subject to prevailing economic conditions, prevailing interest rate levels, and financial, competitive, business and other factors, many of which are beyond its control.

The ability of First National to make distributions, pay dividends or make other payments or advances will be subject to applicable laws and contractual restrictions contained in the instruments governing any indebtedness of First National or the Corporation, where First National is a borrower or covenantor including the agreements governing the Credit Facility, Acquisition Facility, Series 2025-1 Notes, Series 2025-2 Notes and Series 2025-3 Notes. Each of the Credit Facility and Acquisition Facility contains restrictive covenants customary for credit facilities of this nature, including covenants that limit the discretion of management with respect to certain business matters. These covenants place restrictions on, among other things, the ability of the First National and the Corporation, respectively, to incur additional indebtedness, to pay distributions or make certain other payments and to sell or otherwise dispose of material assets. In addition, each of the Credit Facility and Acquisition Facility contains a number of financial covenants that require First National and the Corporation, respectively, to meet certain financial ratios and financial tests. Failure to comply with the obligations in the Credit Facility or Acquisition Facility could result in an event of default that, if not cured or waived, could permit acceleration of the relevant indebtedness. If the indebtedness under the Credit Facility or Acquisition Facility were to be accelerated, there can be no assurance that the assets of First National and the Corporation would be sufficient to repay in full that indebtedness.

The trust indenture governing the Series 2025-1 Notes, Series 2025-2 Notes and Series 2025-3 Notes contains restrictive covenants that limit the discretion of management of the Corporation with respect to certain business matters including a restriction on the ability of the Corporation and First National to incur additional indebtedness. The trust indenture also requires that the Corporation adhere to certain financial covenants. Failure to comply with the obligations or covenants in the trust indenture could result in an event of default that, if not cured or waived, could permit acceleration of the relevant indebtedness. If the indebtedness under

the trust indenture were to be accelerated, there can be no assurance that the assets of the Corporation, or its subsidiaries, as guarantor, would be sufficient to repay in full that indebtedness.

DESCRIPTION OF CAPITAL STRUCTURE

Description of Capital Structure

The authorized capital of the Corporation consists of: unlimited common shares (“**Common Shares**”); unlimited Class A Preference Shares (the “**Preferred Shares**”, each a “**Preferred Share**”), issuable in series.

As at December 31, 2025, the Corporation had issued and outstanding 37,136,026 Common Shares, 2,984,835 Class A Preference Shares, Series 1 (the “**Series 1 Preference Shares**”) and 1,015,165 Class A Preference Shares Series 2 (the “**Series 2 Preference Shares**”). On closing of the Arrangement, Bidco acquired all of the outstanding Common Shares and, as of the date hereof, Messrs. Smith and Tawse each hold an indirect approximate 19% interest in the Corporation, with Birch Hill and Brookfield holding the remaining approximate 62% interest. All of the currently outstanding Preferred Shares are scheduled for redemption on March 31, 2026.

The summary below of the rights, privileges, restrictions and conditions attaching to the Common Shares and to the Preferred Shares, respectively, is subject to, and qualified in its entirety by reference to, the Corporation’s articles and by-laws which are available on SEDAR+ at www.sedarplus.ca.

Common Shares

Each Common Share entitles the holder thereof to one (1) vote at all meetings of Shareholders, except where holders of another class are entitled to vote separately as a class as provided by law or the rules of any applicable stock exchange. Subject to the rights of the holders of the Preferred Shares and of any other class of shares ranking senior to the Common Shares, the holders of Common Shares are entitled to such dividends as the Directors may have declared from time to time, which dividends are payable in money or property or by issuing fully paid shares of the Corporation.

Subject to the prior rights of the holders of the Preferred Shares and of any other class of shares ranking senior to the Common Shares, in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of assets of the Corporation among its shareholders for the purpose of winding-up its affairs, the holders of Common Shares are entitled to receive the remaining property and assets of the Corporation.

Class A Preference Shares, Series 1

On January 25, 2011, the Corporation completed an offering of 4,000,000 Series 1 Preference Shares for gross proceeds of \$100,000,000.

The 4,000,000 Series 1 Preference Shares are entitled to receive fixed cumulative preferential cash dividends, as and when declared by the Board, payable quarterly on the last day of March, June, September and December, at an annual rate of \$1.1625 per share for each year up to and including March 31, 2016.

For each five-year period after March 31, 2016, the holders of Series 1 Preference Shares are entitled to receive reset fixed cumulative preferential cash dividends as and when declared by the Board, payable quarterly on the last day of March, June, September and December. The reset annual dividends per share will be determined by multiplying \$25.00 per share by the annual fixed dividend rate, which is the sum of the five-year Government of Canada Bond Yield on the applicable reset date plus 2.07%.

On each Series 1 Conversion Date, being March 31, 2016, and March 31 every five years thereafter, the Corporation has the option to redeem for cash all or any part of the outstanding Series 1 Preference Shares, at

First National Financial Corporation

a price of \$25.00 per share plus all accrued and unpaid dividends up to but excluding the date fixed for redemption. On each Series 1 Conversion Date, the holders of Series 1 Preference Shares, have the option to convert any or all of their Series 1 Preference Shares into an equal number of cumulative redeemable floating rate Series 2 Preference Shares.

On February 19, 2026, the Corporation announced its intention to redeem for cash all of its outstanding Class A Preference Shares, Series 1 on March 31, 2026.

Class A Preference Shares, Series 2

The holders of Series 2 Preference Shares will be entitled to receive floating rate cumulative preferential cash dividends, as and when declared by the Board, payable quarterly, in the amount per share determined by multiplying the applicable floating quarterly dividend rate by \$25.00. The floating quarterly dividend rate will be equal to the sum of the average yield expressed as a percentage per annum on three-month Government of Canada Treasury Bills plus 2.07%.

Holders of Series 1 Preference Shares will not be entitled to convert their Series 1 Preference Shares into Series 2 Preference Shares if the Corporation determines that there would remain outstanding on a Series 1 Conversion Date less than 1,000,000 Series 2 Preference Shares, after having taken into account all Series 1 Preference Shares tendered for conversion into Series 2 Preference Shares and all Series 2 Preference Shares tendered for conversion into Series 1 Preference Shares.

On each Series 2 Conversion Date, being March 31, 2021, and March 31 every five years thereafter, the Corporation has the option to redeem for cash all or any part of the outstanding Series 2 Preference Shares at a price of \$25.00 per share plus all accrued and unpaid dividends up to but excluding the date fixed for redemption. On any date after March 31, 2016, that is not a Series 2 Conversion Date, the Corporation has the option to redeem for cash all or any part of the outstanding Series 2 Preference Shares at a price of \$25.50 per share plus all accrued and unpaid dividends up to but excluding the date fixed for redemption. On each Series 2 Conversion Date, the holders of Series 2 Preference Shares, have the option to convert any or all of their Series 2 Preference Shares into an equal number of Series 1 Preference Shares.

Holders of Series 2 Preference Shares will not be entitled to convert their shares into Series 1 Preference Shares if the Corporation determines that there would remain outstanding on a Series 2 Conversion Date less than 1,000,000 Series 1 Preference Shares, after having taken into account all Series 2 Preference Shares tendered for conversion into Series 1 Preference Shares and all Series 1 Preference Shares tendered for conversion into Series 2 Preference Shares.

On February 24, 2016, the Corporation announced that it would not exercise its right to redeem the currently outstanding 4,000,000 cumulative 5-year Series 1 Preference Shares. On March 2, 2016, the Corporation announced that the applicable dividend rates for its cumulative Series 1 Preference Shares for the five-year period commencing on April 1, 2016, and ending March 31, 2021 would be 2.79%, being equal to the 5-Year Government of Canada bond yield determined as at March 1, 2016 plus 2.07%, as determined in accordance with the terms of the Series 1 Preference Shares. Any holders of Series 1 Preference Shares that remain outstanding after March 31, 2016, commencing as of such date, will be entitled to receive cumulative preferential cash dividends on a quarterly basis, as and when declared by the Board.

On March 23, 2016, the Corporation announced that 1,112,853 of its 4,000,000 issued and outstanding Series 1 Preference Shares were tendered for conversion, on a one-to-one basis, into Series 2 Preference Shares. Accordingly, effective April 1, 2016, the Corporation had 2,887,147 Series 1 Preference Shares and 1,112,853 Series 2 Preference Shares issued and outstanding.

On February 22, 2021, the Corporation announced that it would not be exercising its right to redeem the 2,887,147 issued and outstanding Series 1 Preference Shares or the 1,112,853 issued and outstanding Series 2 Preference Shares. On March 2, 2021, the Corporation announced that the applicable dividend rates

for its cumulative Series 1 Preference Shares for the five-year period commencing on April 1, 2021, and ending March 31, 2026 would be 2.895%, being equal to the 5-Year Government of Canada bond yield determined as at March 2, 2021 plus 2.07%, as determined in accordance with the terms of the Series 1 Preference Shares. Any holders of Series 1 Preference Shares that remain outstanding on March 31, 2021, commencing as of such date, will be entitled to receive cumulative preferential cash dividends on a quarterly basis, as and when declared by the Board. The Corporation also announced that the applicable dividend rates for its cumulative Series 2 Preference Shares for the five-year period commencing on April 1, 2021, and ending March 31, 2026 would be 2.192%, being equal to the 90-day Canadian Treasury Bill plus 2.07% on an actual/365 day count basis, as determined in accordance with the terms of the Series 2 Preference Shares. Any holders of Series 2 Preference Shares that remaining outstanding on March 31, 2021 will be entitled to receive floating rate cumulative preferential cash dividends on a quarterly basis, as and when declared by the Board.

On March 19, 2021, the Corporation announced that 399,700 of the issued and outstanding Series 1 Preference Shares were tendered for conversion, on a one-to-one basis, into Series 2 Preference Shares. The Corporation also announced that 497,388 of the issued and outstanding Series 2 Preference Shares were tendered for conversion, on a one-to-one basis, into Series 1 Preference Shares. Accordingly, effective April 1, 2021, the Corporation had 2,984,835 Series 1 Preference Shares and 1,015,165 Series 2 Preference Shares issued and outstanding.

On February 19, 2026, the Corporation announced its intention to redeem for cash all of its outstanding Class A Preference Shares, Series 2 on March 31, 2026.

Notes

On October 23, 2025, the Company issued a total of \$800,000,000 senior unsecured notes as follows: \$250,000,000 aggregate principal amount of 4.288% Series 2025-1 Senior Unsecured Notes (the “**Series 2025-1 Notes**”) due October 23, 2028, \$300,000,000 aggregate principal amount of 4.891% Series 2025-2 Senior Unsecured Notes (the “**Series 2025-2 Notes**”) due October 23, 2030, and \$250,000,000 aggregate principal amount of 5.443% Series 2025-3 Senior Unsecured Notes (the “**Series 2025-3 Notes**”) due October 25, 2032.

Ratings

The Series 1 Preference Shares are rated “Pfd-3 (Stable)” by Morningstar DBRS. Morningstar DBRS has six categories of preferred shares for which it will assign a rating. The “Pfd-3” rating is the third highest category available from Morningstar DBRS for preferred shares and is considered to be of adequate credit quality. According to Morningstar DBRS, preferred shares rated “Pfd-3” are of adequate credit quality and while protection of dividends and principal is still considered acceptable, the issuing entity is more susceptible to adverse changes in financial and economic conditions, and there may be other adverse conditions present which detract from debt protection. A rating trend that is “Stable” acts as a signal indicating that the rating is secure and that the trend is stable according to active surveillance and performance updates.

Each of the Series 2025-1 Notes, Series 2025-2 Notes and Series 2025-3 are rated “BBB (low) with a Stable trend” by Morningstar DBRS. Morningstar DBRS has eight categories of long-term debt obligations for which it will assign a rating. The “BBB (low)” rating is the fourth highest category available from Morningstar DBRS for long-term debt and is considered to be of adequate credit quality. According to Morningstar DBRS, protection of interest and principal is considered acceptable, but the entity is fairly susceptible to adverse changes in financial and economic conditions or there may be other adverse conditions present which reduce the strength of the entity and its rated securities. A rating trend that is “Stable” acts as a signal indicating that the rating is secure and that the trend is stable according to active surveillance and performance updates.

Credit ratings are intended to provide purchasers with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of particular securities for any particular purchaser. The Morningstar DBRS rating represents an evaluation that is based solely on credit related factors and not market risk factors. The credit ratings may not reflect the potential impact of all risks on the value of

the rated securities and such ratings are not a recommendation to buy, sell or hold the rated securities. Credit ratings may be subject to revision or withdrawal at any time. Prospective purchasers should consult the relevant rating organization with respect to the interpretation and implications of the rating.

Voting Securities and Principal Holders Thereof

Regal Holdings LP beneficially holds 37,136,026 Common Shares, representing 100% of the issued and outstanding Common Shares (on a fully diluted basis). Stephen Smith, Chairman Emeritus of the Corporation, and Moray Tawse, Executive Chairman and Senior Executive Vice President of the Corporation, each hold an approximate 19% interest in Regal Holdings LP. Birch Hill Equity Partners Management Inc. and Brookfield Asset Management together hold the remaining approximate 62% interest in Regal Holdings LP.

DIVIDENDS

Dividends

The Corporation and Future Dividend Payments

Prior to the completion of the Arrangement, the Corporation's dividend policy was to declare monthly cash dividends to Shareholders of record on the last business day of each month, and the dividends paid on or about the 15th day following each month end.

In 2025, the Corporation declared monthly dividends of \$0.20833 per share for the first 9 months of the year. Subsequent to the September 2025 declared dividend, the Corporation was purchased and ceased to make dividend payments to common shareholders. These dividends represented a total dividend rate of \$1.875 per share for the year.

In 2025, for the Series 1 Preference Shares, the Corporation declared quarterly dividends at a rate of \$0.180938 per share. For the Series 2 Preference Shares, the dividend per share rates were \$0.342185 for the first quarter, \$0.305910 for the second quarter, \$0.297047 for the third quarter and \$0.298118 for the fourth quarter.

First National Financial LP

First National has adopted a policy of making monthly cash distributions or advances to the Corporation to fund the Corporation dividends, unsecured note interest and tax payment obligations among other items. First National's distributable cash represents, in general, all of First National's cash, after: (i) satisfaction of its debt service obligations (principal and interest) under credit facilities or other agreements with third parties, including amounts payable under the Credit Facility; (ii) satisfaction of its other liabilities and expense obligations, including capital expenditures and expenses relating to incentive or compensation plans to management and other personnel; (iii) deduction of amounts that the General Partner may reasonably consider to be necessary to provide for the payment of any costs or expenses that have been or are reasonably expected to be incurred in the activities and operations of First National (to the extent that such costs or expenses have not otherwise been taken into account); and (iv) deduction of amounts that the General Partner may reasonably consider to be necessary to provide for reasonable reserves, including working capital reserves for contingencies, maintenance capital expenditure reserves, other capital expenditure reserves and other reserves, including reserves established by the General Partner for the purpose of stabilizing dividends to the Shareholders.

MARKET FOR SECURITIES

Trading Prices and Volume

The monthly trading price range and volume of the Common Shares for the period ended December 31, 2025, are set out in the table below. The shares stopped trading on October 22, 2025, pursuant to the Arrangement.

Month	High	Low	Volume (Total)
January, 2025	41.84	38.64	631,665
February, 2025	41.36	35.75	593,739
March, 2025	41.10	38.40	753,910
April, 2025	40.80	35.50	931,754
May, 2025	39.35	36.90	749,763
June, 2025	41.75	37.85	578,673

Notes:

- (1) Member of the Audit Committee
- (2) Chair of the Audit Committee
- (3) Member of the Governance Committee
- (4) Chair of the Governance Committee
- (5) Chair of the Compensation Committee
- (6) Member of the Compensation Committee

Mr. Ellis has advised the Corporation that he will be retiring at the end of 2026. The Board of Directors has initiated a comprehensive search process to identify the Corporation's next Chief Executive Officer. Mr. Ellis will continue to serve in his current role while the Board conducts the search and has also agreed to support the incoming CEO in an advisory capacity, as needed, following his retirement, to help ensure a smooth and orderly leadership transition.

Mr. Tawse indirectly owns limited partnership interests in Regal Holdings LP, representing an approximate 19% indirect interest in the Corporation.

CORPORATE GOVERNANCE DISCLOSURE

The disclosure required under National Instrument 58-101 – Disclosure of Corporate Governance Practices ("NI 58-101") is set out in Appendix "C" to this AIF.

INDEBTEDNESS ORDERS, BANKRUPTCIES, PENALTIES OR SANCTIONS

To the knowledge of the Corporation, no director, executive officer or employee, and no former trustee, director, executive officer or employee of the Corporation or any of its subsidiaries is currently or was at any time during the financial period ended December 31, 2025, indebted to the Corporation or to any of its subsidiaries and no indebtedness of such persons has been the subject of a guarantee, support agreement, letter of credit or other similar agreement provided by the Corporation or any of its subsidiaries or affiliates.

CEASE TRADE ORDERS, BANKRUPTCIES, PENALTIES OR SANCTIONS

No director or executive officer of the Corporation is, as at the date of this Annual Information Form, or was within the 10 years prior to the date of this Annual Information Form, a director, chief executive officer or chief financial officer of any company that: (a) was subject to an order that was issued while the director or executive officer was acting in the capacity as director, chief executive officer or chief financial officer; or (b) was subject to an order that was issued after the director or executive officer ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer (an “order” means: (i) a cease trade order; (ii) an order similar to a cease trade order; or (iii) an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days).

No director or executive officer of the Corporation, or shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation: (a) is, as at the date of this Annual Information Form, or has been within the 10 years prior to the date of this Annual Information Form, a director or executive officer of any company that while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets; or (b) has, within the 10 years before the date of this Annual Information Form, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the director, executive officer or shareholder.

CONFLICTS OF INTEREST

THERE ARE NO EXISTING OR POTENTIAL MATERIAL CONFLICTS OF INTEREST BETWEEN THE CORPORATION AND ANY DIRECTOR OR OFFICER OF THE CORPORATION OR ITS SUBSIDIARIES.

LEGAL PROCEEDINGS

Legal Proceedings

Management of the Corporation is not aware of any litigation outstanding, threatened or pending as of the date hereof by or against the Corporation, the Limited Partner or the General Partner which would be material to the Corporation’s financial condition or results of operations.

INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

No director or executive officer of the Corporation, or person or company that beneficially owns, or controls or directs, directly or indirectly, more than 10 percent of any class or series of the Corporation’s outstanding securities, or any associate or affiliate of the foregoing persons, had any material interest, direct or indirect, in any transaction within the three most recently completed fiscal years, or during the current financial year that has materially affected or is reasonably expected to materially affect the Corporation or its subsidiaries.

TRANSFER AGENT AND REGISTRAR

Transfer Agent and Registrar

The transfer agent and registrar for the Preferred Shares is Computershare Trust Company of Canada, at its principal offices located at 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1.

MATERIAL CONTRACTS

Material Contracts

The following are the only material contracts of the Corporation, First National and the General Partner, other than contracts entered into in the ordinary course of business:

- the Credit Facility; and
- the Second Amended and Restated Limited Partnership Agreement of First National Financial LP dated January 1, 2011.

AUDITORS

Names of Auditors

The current auditors of First National and the Corporation are Ernst & Young LLP, Ernst & Young Tower, located at 100 Adelaide Street West, P.O. Box 1, Toronto, ON, M5H 0B3. Ernst & Young has audited the 2025 comparative consolidated financial statements of the Corporation and has issued an auditor's report to the shareholders with respect to such financial statements.

The Corporation has been advised that Ernst & Young LLP is independent with respect to the Corporation in the context of the CPA Code of Professional Conduct of the Chartered Professional Accountants of Ontario.

ADDITIONAL INFORMATION

Additional Information

Additional information relating to the Corporation may be found on SEDAR+ at www.sedarplus.ca.

Additional financial information is provided in the Corporation's financial statements and management's discussion & analysis for the financial period ended December 31, 2025.

APPENDIX “A”

AUDIT COMMITTEE INFORMATION

Audit Committee Charter

See Appendix “B” of this Annual Information Form.

Composition of the Audit Committee

The Audit Committee of First National Financial Corporation is currently comprised of Steven Ranson (Chair), Nicholas Bigelow and Justin Brenner. Each member of the Audit Committee is financially literate and independent within the meaning of National Instrument 52-110 - Audit Committees (“NI 52-110”).

Relevant Education and Experience

Steven Ranson FCPA, FCA retired as President and CEO of HomeEquity Bank on June 30, 2024. He joined the bank’s predecessor, Canadian Home Income Plan, in 1997 and founded the bank in 2009. Over his career, he grew annual reverse mortgage originations from \$36 million to over \$1 billion and total assets from \$100 million to \$8 billion. He was elected to the Canadian Mortgage Professionals Hall of Fame in 2024 and in 2025 he was recognized with a Lifetime Achievement Award at the Canadian Mortgage Awards. He has served as a director of public and private companies and is on the board of the YMCA of Greater Toronto, the largest YMCA in the world. Mr. Ranson has a Bachelor of Commerce degree from the University of Toronto and an MBA from York University. He was selected as a Fellow of CPA Ontario in 2021 for outstanding service to his community and the accounting profession.

Nicholas Bigelow joined Birch Hill in 2017. He is on the board of Park Lawn Corporation. He has played a key role in Birch Hill’s investments in HomeEquity Bank, Campus Energy Partners, GDI, Tidewater Midstream and Infrastructure Ltd, and Uni-Select. Prior to joining Birch Hill, Mr. Bigelow was an Analyst in the Energy Group at CIBC Capital Markets in Calgary, where he worked on mergers and acquisitions, equity and debt financings, and strategy with large public and private oil and gas corporations. He received his BCom Honours in Investment Management (first class honours) from McGill University.

Justin Brenner is Senior Vice President and Managing Director at Smith Financial Corporation and serves as a director of Canada Guaranty Mortgage Insurance Company. Prior to joining Smith Financial in 2024, Mr. Brenner led private equity investments in financial services across North America and Europe at Canada Pension Plan Investment Board (CPPIB). Mr. Brenner has held prior roles at Blackstone, J.P. Morgan, and Bank of America. He earned an MBA from the University of Virginia (Darden), a B.S. in Electrical Engineering and Computer Science from UC Berkeley and is a CFA charterholder.

External Auditor Service Fees

Fees incurred by the Corporation for work performed by Ernst & Young LLP, the Corporation's external auditors, during each of the last two fiscal years for audit and audit related services were as follows:

External Auditor Service Fees <i>(\$ thousands)</i>		
Ernst & Young LLP	2024	2025
Audit Fees	954	1,229
Audit-Related Fees ⁽¹⁾	745	713
Tax Related Fees	20	20
Total	1,719	1,962

⁽¹⁾ These fees consist primarily of fees related to the audit of the report on the description of the system and on the suitability of the design and operating effectiveness of the controls for the mortgage servicing business, as well as specified procedures in connection with CMHC, regulatory and various third-party reporting.

The Corporation's external auditor did not provide professional services related to tax advice or tax planning.

Non-Audit Fees

At this time, the Audit Committee has not adopted specific policies and procedures for the engagement of non-audit services.

APPENDIX “B”

CHARTER OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS OF FIRST NATIONAL FINANCIAL CORPORATION

1. PURPOSE

The Audit Committee (the “**Committee**”) is a committee of independent directors of First National Financial Corporation (the “**Directors**”). The Committee and the chair of the Committee (the “**Chair**”) are appointed by the Directors for the purpose of assisting the Directors in fulfilling their oversight responsibilities. The Committee will primarily fulfill this role by carrying out the activities enumerated in this Charter. The Committee is, however, independent of the Directors and the Corporation, and in carrying out its role of assisting the Directors in fulfilling their oversight responsibilities, the Committee shall have the ability to determine its own agenda and any additional activities that the Committee shall carry out.

2. COMPOSITION

The Committee is comprised of not less than three directors of First National Financial Corporation, each of whom is and must at all times be independent and financially literate within the meaning of applicable Canadian securities laws. The members of the Committee, and its Chair, shall be appointed by the Directors to serve until their successors are duly appointed. A majority of the members of the Committee must be resident Canadians.

3. LIMITATIONS ON COMMITTEE’S DUTIES

In contributing to the Committee’s discharge of its duties under this Charter, each member of the Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this Charter is intended or may be construed as imposing on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which the Directors are subject.

It is not the duty of the Committee to prepare financial statements or ensure their accuracy or absence of errors and omissions, to plan or conduct audits, to determine that the financial statements are complete and accurate and in accordance with Canadian generally accepted accounting principles, to conduct investigations, or to assure compliance with laws and regulations or the Corporation’s internal policies, procedures and controls, as these are the responsibility of management and in certain cases the external auditor.

Members of the Committee are entitled to rely, absent actual knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, (iii) representations made by management as to the non-audit services provided to the Corporation by the external auditor, (iv) financial statements of the Corporation represented to them by a member of management or in a written report of the external auditors to present fairly the financial position of the Corporation in accordance with generally accepted accounting principles, and (v) any report of a lawyer, accountant, engineer, appraiser or other person whose profession lends credibility to a statement made by any such person.

4. **MEETINGS**

The Committee shall meet not less than four times annually. The Committee shall meet within 45 days following the end of the first three financial quarters of the Corporation and shall meet within 90 days following the end of the fiscal year of the Corporation. A quorum for the transaction of business at any meeting of the Committee shall be a majority of the number of members of the Committee or such greater number as the Committee shall by resolution determine, provided that at least two-thirds of the members then present are resident Canadians.

The Committee shall keep minutes of each meeting of the Committee. A copy of the minutes shall be provided to each member of the Committee and to each Director.

Meetings of the Committee shall be held from time to time and at such place within Canada as any member of the Committee shall determine upon 7 days prior notice to each of the other Committee members. The members of the Committee may waive the requirement for notice. In addition, each of the Chair, the President and the Chief Financial Officer of the Corporation, and the external auditor shall be entitled to request that the Chair call a meeting.

The Committee may ask members of the Corporation's management, employees or others (including the external auditor) to attend meetings and provide such information as the Committee requests. Members of the Committee shall have full access to all information of the Corporation (including, for greater certainty, its affiliates, subsidiaries and their respective operations) and shall be permitted to discuss such information and any other matters relating to the results of operations and financial position of the Corporation with management, employees, the external auditor and others as they consider appropriate.

The Committee or its Chair will meet at least once per year with management and the external auditor in separate sessions to discuss any matters that the Committee or each of these groups desires to discuss privately. In addition, the Committee or its Chair will meet with the Corporation's management quarterly in connection with the Corporation's interim financial statements.

5. **COMMITTEE ACTIVITIES**

As part of its function in assisting the Directors in fulfilling their oversight responsibilities (and without limiting the generality of the Committee's role), the Committee will:

A. Financial Disclosure

- (1) Review and recommend to the Directors for approval the Corporation's annual financial statements and interim financial reports, including any certification, report, opinion or review rendered by the external auditor and the related Management's Discussion & Analysis, as well as such other financial information of the Corporation, including press releases provided to noteholders of the Corporation, the public or any governmental body as the Committee or the Directors require.
- (2) Satisfy itself that adequate procedures are in place for the review of the Corporation's public disclosure of financial information extracted or derived from the Corporation's financial statements and related Management's Discussion & Analysis, and periodically assess the adequacy of those procedures.

B. Relationship with the External Auditor

- (1) Recommend to the Directors the selection of the external auditor and the fees and other compensation to be paid to the external auditor.
- (2) Have the authority to communicate directly with the external auditor.
- (3) Advise the external auditor that it is required to report to the Committee, and not to management of the Corporation.
- (4) Monitor the relationship between management and the external auditor, including reviewing any management letters or other reports of the external auditor, discussing any material differences of opinion between management and the external auditor and resolving disagreements between the external auditor and management.
- (5) Review and discuss on an annual basis with the external auditor all significant relationships they have with the Corporation, its management or employees that might interfere with the independence of the external auditor.
- (6) Pre-approve all audit, audit-related and non-audit services (or delegate such pre-approval, as the Committee may determine and as permitted by applicable Canadian securities laws) to be provided by the external auditor.
- (7) Annually review the performance of the external auditor in connection with an appointment recommendation to the Directors and periodically perform a comprehensive review of the external auditor when the Committee determines that circumstances warrant but at a minimum at least once every 5 years.
- (8) Periodically consult with the external auditor out of the presence of management about:
 - (a) any significant risks or exposures facing the Corporation;
 - (b) internal controls and other steps that management has taken to control such risks; and
 - (c) the fullness and accuracy of the financial statements of the Corporation, including the adequacy of internal controls to expose any payments, transactions or procedures that might be deemed illegal or otherwise improper
- (9) Review and approve any proposed hiring of current or former partners or employees of the current (and any former) external auditor of the Corporation.

C. Audit Process

- (1) Review the scope, plan and results of the external auditor's audit and reviews, including the auditor's engagement letter, the post-audit management letter, if any, and the form of the audit report. The Committee may authorize the external auditor to perform supplemental reviews, audits or other work as deemed desirable.
- (2) Following completion of the annual audit and quarterly reviews if any, review separately with each of management and the external auditor any significant changes to planned procedures, any difficulties encountered during the course of the audit

First National Financial Corporation

and, if applicable, reviews, including any restrictions on the scope of work or access to required information and the cooperation that the external auditor received during the course of the audit and, if applicable, reviews.

- (3) Review any significant disagreements among management and the external auditor in connection with the preparation of the financial statements.
- (4) Where there are significant unsettled issues between management and the external auditor that do not affect the audited financial statements, the Committee shall seek to ensure that there is an agreed course of action leading to the resolution of such matters.
- (5) Review with the external auditor and management significant findings and the extent to which changes or improvements in financial or accounting practices, as approved by the Committee, have been implemented.
- (6) Review the system in place to seek to ensure that the financial statements, Management's Discussion & Analysis and other financial information disseminated to the noteholders of the Corporation, governmental organizations and the public satisfy applicable requirements.

D. Financial Reporting Processes

- (1) Review the integrity of the Corporation's financial reporting processes, both internal and external, in consultation with the external auditor.
- (2) Review all material financial statement issues, material contingent obligations and material related party transactions.
- (3) Review with management and the external auditor the Corporation's accounting policies and any changes that are proposed to be made thereto, including all critical accounting policies and practices used, any alternative treatments of financial information that have been discussed with management, the ramification of their use and the external auditor's preferred treatment and any other material communications with management with respect thereto. Review the disclosure and impact of contingencies and the reasonableness of the provisions, reserves and estimates that may have a material impact on financing reporting.

E. Internal Audit Function

- (1) Review the activities of the internal audit department through quarterly reporting by the Senior Vice President, Risk Management and Internal Audit.
- (2) Review annually the internal audit department's plan for the upcoming fiscal year.
- (3) Approve any reliance by the external auditors on the internal audit department.
- (4) Discuss any unresolved matters reported by the internal audit department with the Corporation's management.
- (5) Discuss the findings of the internal audit department out of the presence of management.

F. Risk Identification and Oversight

- (1) Review of the principal risks of the Corporation's business and operations, and any other circumstances and events that could have a significant impact on the Corporation's assets and stakeholders. Discussing with management potential risks to the Corporation's business and operations, their likelihood and magnitude and the interrelationships and potential compounding effects of such risks. Assessing the steps management has taken to manage such risks in the light of the Corporation's risk tolerance.
- (2) Assess the Corporation's risk tolerance, the overall process for identifying the Corporation's principal business and operational risks and the implementation of appropriate measures to manage and disclose such risks.
- (3) Review disclosure respecting the oversight of management of the Corporation's principal business and operational risks.

G. General

- (1) The Committee may at its discretion retain independent counsel, accountants and other professionals to assist it in the conduct of its activities and to set and pay (as an expense of the Corporation) the compensation for any such advisors.
- (2) Respond to requests by the Directors with respect to the functions and activities that the Directors may request the Committee to perform.
- (3) Periodically review this Charter and, if the Committee deems appropriate, recommend to the Directors changes to this Charter.
- (4) Review the public disclosure regarding the Committee required from time to time by applicable Canadian securities laws, including:
 - (i) the Charter of the Committee;
 - (ii) the composition of the Committee;
 - (iii) the relevant education and experience of each member of the Committee;
 - (iv) the external auditor services and fees; and
 - (v) such other matters as the Corporation is required to disclose concerning the Committee.
- (5) Review in advance, and approve, the hiring and appointment of the Corporation's senior financial executives.
- (6) Review any complaints received by the Corporation regarding accounting, internal accounting controls, or auditing matters and any submissions from employees regarding questionable accounting or auditing matters.
- (7) Perform any other activities as the Committee or the Directors deems necessary or appropriate.

APPENDIX “C”

CORPORATE GOVERNANCE DISCLOSURE

Board of Directors	
<i>Disclose the identity of directors who are independent.</i>	The Board considers each of the following ten (10) directors to be independent within the meaning of NI-52-110: Nicholas Bigelow, Justin Brenner, Benjamin Farrow, Matthew Kunica, Paul Lepage, Robert Mitchell, Erson Olivan, Steven Ranson, Brendan Smith and William Stone.
<i>Disclose the identity of directors who are not independent and describe the basis for that determination.</i>	Moray Tawse is not independent within the meaning of NI 52-110 as he currently serves as the Executive Chairman and Senior Executive Vice President of the Corporation.
<i>Disclose whether a majority of directors are independent.</i>	A majority of the directors (10 of 11) are independent.
<i>If a director is presently a director of any other issuer that is a reporting issuer (or the equivalent) in a jurisdiction or foreign jurisdiction, identify both the director and the other issuer.</i>	Erson Olivan, Chairman of the Board, Sagen MI Canada Inc.
<i>Disclose whether the independent directors hold regularly scheduled meetings at which non-independent directors and members of management are not in attendance. If the independent directors hold such meetings, disclose the number of meetings held since the beginning of the issuer's most recently completed financial year. If the independent directors do not hold such meetings, describe what the board does to facilitate open and candid discussion among its independent directors.</i>	Prior to closing of the Arrangement, the independent directors held meetings, without management or the non-independent directors present, during each of the regularly scheduled Board and Committee meetings. During 2025, prior to closing of the Arrangement, the independent directors of First National met at each of the Board meetings for a specified period of time without non-independent directors and management present. Following closing of the Arrangement, the independent directors meet without management or the non-independent director as determined necessary.
<i>Disclose whether the chair of the Board is an independent director. If the Board has a chair or lead director who is an independent director, disclose the identity of the independent chair or lead director, and describe his or her role and responsibilities. If the board has neither a chair that is independent nor a lead director that is independent, describe what the board does to provide leadership for its independent directors.</i>	The Executive Chairman of the Board is Moray Tawse and is not an independent director, and the Corporation does not have a lead independent director. Since 10 of the 11 directors are independent, the Board is comfortable that there is sufficient independent leadership representation on the Board.
Board Mandate	
<i>Disclose the text of the Board's written mandate. If the Board does not have a written mandate, describe how the Board delineates its role and responsibilities.</i>	The Board's Charter provides that the Board's general responsibilities shall include, among other things: • Review and approve strategic plans, corporate

First National Financial Corporation

	objectives and business plans including significant capital allocations and expenditures. • Review and approve material transactions not in the ordinary course of business. • Review and approve related party transactions. • Monitor corporate performance against strategic plan and corporate objectives, including receiving periodic reports from senior management and overseeing operating results on a regular basis to evaluate whether the business is meeting its objectives. Ensure the Corporation has implemented procedures to identify the principal risks of the Corporation's business and operations and receive regular reports from senior management to confirm processes, procedures and practices are in place to manage identified risks. • Ensure the Corporation has implemented policies and procedures to comply with privacy legislation and anti-money laundering and terrorist financing legislation and receive periodic reports from senior management to confirm that these programs are operating effectively. • Review the Corporation's privacy, data security and cybersecurity risk exposures and measures taken to protect the security and integrity of its management information systems and company data. • Review and approve the Corporation's annual and interim financial statements and related management's discussion and analysis, annual information form, management proxy circular, provided the Board may delegate to the Audit Committee the responsibility to review such financial statements and information and make its recommendations to the Board. • Monitor, advise and evaluate the Chief Executive Officer and other members of senior management. • Approve Executive Chair of the Board annually. • Monitor management succession planning. • Oversee the Corporation's development and maintenance of a culture of ethical behaviour and compliance with laws and regulations, auditing and accounting principles, and the Corporation's own governing documents. • Oversee the Corporation's environmental, social and
--	--

	corporate governance plans and strategies and ensure the Corporation is meeting its stated objectives and commitments for environmental and corporate social responsibility. • Review the climate change strategy, risks and opportunities for the Corporation's business. • Review and assess the adequacy of this Charter from time to time and where necessary, recommend changes for approval. • Perform such other functions as are prescribed by law or are assigned to the Board in the Corporation's governing documents. The Board is also responsible for approving the following: • approve the raising of debt or equity capital and other major financial activities; • approve all major organizational restructurings; • approve material acquisitions and divestitures; • approve the nomination of directors; and • approve major corporate policies, provided the Board may delegate to a Committee the responsibility to review such policies and make its recommendations to the Board. • Approve and declare dividends. • Approve the compensation of the Chief Executive Officer. • Approve the compensation of other members of senior management and review and approve all incentive compensations plans and equity-based compensation plans. The Charter provides that the directors must act honestly and in good faith with a view to the best interests of the Corporation. The full text of the Charter is available on the Corporation's website at www.firstnational.ca.
Position Descriptions	
<i>Disclose whether the Board has developed written position descriptions for the chair and the chair of each Board committee. If the Board has not developed written position descriptions for the chair and/or the chair of each Board committee, briefly describe how the Board delineates the role and responsibilities of each such position.</i>	The Board has developed a written position description for the Executive Chair of the Board. The Board believes that the charters of the Corporation's Audit Committee, Compensation Committee and the Governance Committee adequately delineate the roles of the chairs of such

First National Financial Corporation

	committees. Although written position descriptions for the Chair of each committee have not been adopted, the Chair of each committee is aware that the role and responsibilities of each such position includes: •chairing meetings; •planning and organizing Board/committee activities; •providing leadership to enhance effectiveness; •ensuring responsibilities are well understood by Board/committee members and management, and that the boundaries between Board and management responsibilities are clearly understood and respected; •ensuring that adequate resources are available, including timely and relevant information, to allow the Board/committee to meet its responsibilities; and •reporting to the full Board on decisions or recommendations made by a committee.
<i>Disclose whether the Board and Chief Executive Officer have developed a written position description for the Chief Executive Officer. If the Board and the Chief Executive Officer have not developed such a position description, briefly describe how the Board delineates the role and responsibilities of the Chief Executive Officer.</i>	The Board has developed a written position description for the Chief Executive Officer. The Board annually reviews the Chief Executive Officer's goals, objectives and compensation for the upcoming year.
Orientation and Continuing Education	
<i>Briefly describe what measures the Board takes to orient new directors regarding i) the role of the Board, its committees and its directors, and ii) the nature and operation of the issuer's business.</i>	As may be required, an orientation and education program is made available for new directors of the Board. This program includes an introductory overview of the Corporation, including all relevant corporate information, committee mandates, policies affecting directors, the role, duties and expectations of directors and other background information.
<i>Briefly describe what measures, if any, the Board takes to provide continuing education for its directors. If the Board does not provide continuing education, describe how the Board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.</i>	To foster the directors' familiarity with corporate matters on an on-going basis, senior operating management of First National Financial GP Corporation representing the residential origination, commercial origination, capital markets and mortgage administration divisions attend each quarterly Board meeting to report on their respective business unit activities. In addition, the Corporation provided presentations to the Board in 2025 on topics relevant to the Corporation's business activities.

Ethical Business Conduct	
<i>Disclose whether the Board has adopted a written code for the directors, officers and employees. If the Board has adopted a written code: disclose how a person or company may obtain a copy of the code; describe how the Board monitors compliance with its code, or if the Board does not monitor compliance, explain whether and how the Board satisfies itself regarding compliance with its code; and provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial period that pertains to any conduct of a director or executive officer that constitutes a departure from the code.</i>	The Board has adopted a code of business ethics and conduct (the “Code”) that applies to all directors, officers and senior employees of the Corporation and its subsidiaries. The Code provides a framework of guidelines and principles to encourage ethical and professional behaviour in conducting the business of the Corporation. It is the Corporation's policy to seek to ensure that its best interests are paramount in all of its dealings with customers, suppliers, contractors, competitors, existing and potential business partners and other representatives, and are conducted in a manner that avoids actual or potential conflicts of interest. Additionally, directors and officers of the Corporation are required to disclose any potential material conflicts of interest in writing to the directors for review, on a quarterly basis or sooner, if required by applicable law. Copies of the Code are available upon request by contacting the Corporation's Investor Relations Department, through email at rob.inglis@firstnational.ca, or through the Corporation's website at www.firstnational.ca.
<i>Describe any steps the Board takes to ensure directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest.</i>	Any transactions or agreements in respect of which a director or executive officer has a material interest require approval by the independent directors.
<i>Describe any other steps the Board takes to encourage and promote a culture of ethical business conduct.</i>	The directors believe that the Code promotes a culture of ethical business conduct and honesty.
Nomination of Directors	
<i>Describe the process by which the Board identifies new candidates for Board nomination;</i> <i>Disclose whether the Board has a nominating committee composed entirely of independent directors. If the Board does not have a nominating committee composed entirely of independent directors, describe what steps the Board takes to encourage an objective nomination process; and</i> <i>If the Board has a nominating committee, describe the responsibilities, powers and operation of the nominating committee.</i>	The Governance Committee is comprised entirely of independent directors and is responsible for advising on filling director vacancies if requested and advising on governance matters. If requested, it will also review the composition and effectiveness of the directors and the contribution of individual directors and Board members. For additional information, see below.
Compensation	
<i>Describe the process by which the Board determines the</i>	The Compensation Committee is responsible for,

<i>compensation for the issuer's directors and officers;</i> <i>Disclose whether the Board has a compensation committee composed entirely of independent directors. If the Board does not have a compensation committee composed entirely of independent directors, describe what steps the Board takes to ensure an objective process for determining such compensation; and</i> <i>If the Board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.</i>	among other things, reviewing and making recommendations to the Board concerning the compensation of the President and Chief Executive Officer and certain executive officers.
<i>If a compensation consultant or advisor has, at any time since the beginning of the issuer's most recently completed financial period, been retained to assist in determining compensation for any of the issuer's directors and officers, disclose the identity of the consultant or advisor and briefly summarize the mandate for which they have been retained. If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.</i>	In 2025, the Corporation did not retain any consultants to review director or officer compensation but completed its own market-scan of executive-level compensation from publicly available information.
Other Board Committees	
<i>If the Board has standing committees other than the Audit and Corporate Governance committees, identify the committees and describe their function.</i>	The Corporation does not have any standing committees other than the Audit Committee, the Compensation Committee and the Governance Committee.
Assessments	
<i>Disclose whether the Board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the Board satisfies itself that the Board, its committees, and its individual directors are performing effectively.</i>	The Governance Committee is responsible for assessing the effectiveness and contribution of the Board, its committees and individual directors. The Corporation has established an annual assessment program for this purpose.
Director Term Limits	
<i>Disclose whether or not the issuer has adopted term limits for the directors on its board or other mechanisms of board renewal and, if so, include a description of those director term limits or other mechanisms of board renewal. If the issuer has not adopted director term limits or other mechanisms of board renewal, disclose why it has not done so.</i>	The Board was reconstituted on closing of the Arrangement and includes representatives of all of the current shareholders of the Corporation. The Board has not adopted director term limits or other mechanisms of Board renewal because the Board does not believe that is appropriate in the circumstances and has found that having long standing directors on its Board does not negatively impact Board effectiveness.

Policies Regarding the Representation of Women on the Board	
<i>Disclose whether the issuer has adopted a written policy relating to the identification and nomination of women directors. If the issuer has not adopted such a policy, disclose why it has not done so.</i>	The Board was reconstituted on closing of the Arrangement and includes representatives of all of the current shareholders of the Corporation. The Corporation has not adopted a written policy relating to the identification and nomination of women directors to the Board. The Corporation believes that this approach is appropriate for its circumstances and a formal written policy is not necessary to achieve positive outcomes in Board and senior management gender diversity.
Consideration of the Representation of Women in the Director Identification and Selection Process	
<i>Disclose whether and, if so, how the board or nominating committee considers the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board. If the issuer does not consider the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board, disclose the issuer's reasons for not doing so.</i>	The Board was reconstituted on closing of the Arrangement and includes representatives of all of the current shareholders of the Corporation. Selection of female candidates to the Board in the future will be, in part, dependent upon the nominees proposed by the shareholders and the pool of female candidates with the necessary skills, knowledge and experience.
Consideration of the Representation of Women in Executive Officer Appointments	
<i>Disclose whether and, if so, how the issuer considers the level of representation of women in executive officer positions when making executive officer appointments. If the issuer does not consider the level of representation of women in executive officer positions when making executive officer appointments, disclose the issuer's reasons for not doing so.</i>	In appointing executive officers to the management team, the Corporation considers the level of representation of women in executive officer positions. In considering the level of representation of women in executive officer positions, the Corporation considers the following factors: • the competencies and skills the executive team, as a whole, should possess; and • the competencies, skills and personal and other diverse qualities required for new executive officers in order to add value to the Corporation in light of opportunities and risks facing the Corporation.
Issuer's Targets Regarding the Representation of Women on the Board and in Executive Officer Positions	
<i>Disclose whether the issuer has adopted a target regarding women on the issuer's board. If the issuer has not adopted a target, disclose why it has not done so.</i> <i>Disclose whether the issuer has adopted a target regarding women in executive officer positions of the issuer. If the issuer has not adopted a target, disclose why it has not done so.</i> <i>If the issuer has adopted a target, disclose: (i) the target, and (ii) the annual and cumulative progress of the issuer in</i>	The Board was reconstituted on closing of the Arrangement and includes representatives of all of the current shareholders of the Corporation. The Corporation has not adopted a target regarding women on the Board and does not believe a target is appropriate in its circumstances. The Corporation has not adopted a target regarding women in executive officer positions. The Corporation does not believe that any candidate for an executive officer position should be chosen nor

<i>achieving the target.</i> <i>For purposes of this Item, a "target" means a number or percentage, or a range of numbers or percentages, adopted by the issuer of women on the issuer's board or in executive officer positions of the issuer by a specific date.</i>	excluded solely or largely because of gender. In selecting a candidate, the Corporation considers the skills, expertise and background that would complement the existing management team.
Number of Women on the Board and in Executive Officer Positions	
<i>Disclose the number and proportion (in percentage terms) of directors on the issuer's board who are women.</i> <i>Disclose the number and proportion (in percentage terms) of executive officers of the issuer, including all major subsidiaries of the issuer, who are women.</i>	As of the date of this Annual Information Form there are no women on the Board. As of the date of this Annual Information Form one of the Corporation's executive officers is a woman, representing 12.5% of the Corporation's executive officers.
