CyberCatch Announces Strategic Reseller Partnership and Referral Partnership To Drive Sales of Its Solutions

Vancouver, British Columbia and San Diego, California--(Newsfile Corp. - April 1, 2026) - CyberCatch Holdings, Inc. **(TSXV: CYBE) (OTCQB: CYBHF)** ("**CyberCatch**" or the "**Company**"), a cybersecurity company offering a patented, AI-enabled platform solution for continuous compliance and cyber risk mitigation, is pleased to announce it has joined forces with a strategic reseller partner and a referral partner to drive sales.

For security and confidentiality reasons, the name and details of the reseller partner and the referral partner are not disclosed for now.

The strategic reseller partner serves key U.S. government agencies with national security solutions such as counterintelligence and cyber threat risk mitigation with long term relationships at the highest levels. This partner will resell CyberCatch solutions to select U.S. government agencies.

The referral partner serves critical sectors such as defense, healthcare and financial services serving as a CMMC C3PAO assessment auditor, PCI, HIPAA and SOC2 compliance auditor. This partner will refer its customers to CyberCatch for its solutions.

"CyberCatch is delighted to expand our network of strategic partnerships to drive sales of our patented AI-enabled continuous compliance and cyber risk mitigation solution and together with the partners make a difference in cyber risk mitigation," said Sai Huda, CEO, CyberCatch.

About CyberCatch

CyberCatch Holdings, Inc. (TSXV: CYBE) (OTCQB: CYBHF) provides a proprietary, AI-enabled Software-as-a-Service (SaaS) solution that provides continuous compliance and cyber risk mitigation to organizations in critical segments, so they can be safe from cyber threats. The CyberCatch platform focuses on solving the root cause of why cyberattacks are successful: security holes from control deficiencies. It first helps implement all mandated and necessary controls, then the platform automatically and continuously tests the controls from three dimensions (outside-in, inside-out and social engineering) to find control failures so one can fix them promptly to stay compliant and safe from attackers. Cautionary Note Regarding Forward-Looking Information and Statements

This news release includes certain statements that may be deemed "forward-looking statements". All statements in this newrelease, other than statements of historical facts, that address events or developments that the Company expects to occur, are forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur and specifically include statements regarding: the Company's strategies, expectations, planned operations or future actions; the strategic benefits of the Transaction; and the benefits of the

Transaction to shareholders.. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Investors are cautioned that any such forward-looking statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. A variety of inherent risks, uncertainties and factors, many of which are beyond the Company's control, affect the operations, performance and results of the Company and its business, and could cause actual events or results to differ materially from estimated or anticipated events or results expressed or implied by forward looking statements. Some of these risks, uncertainties and factors include: general business, economic, competitive, political and social uncertainties, delays or changes in plans with respect to projects or capital expenditures; conclusions of economic evaluations; changes in labour costs and other costs and expenses as anticipated, labour disputes and other risks of the cybersecurity industry. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements and reference should also be made to the Company's annual management's discussion and analysis, filed under its SEDAR+ profile at www.sedarplus.ca for a description of additional risk factors.

Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by applicable securities laws, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
