Hi-VIEW COMPLETES COMPREHENSIVE WILDLIFE MANAGEMENT PLAN FOR TOODOGGONE PROPERTIES

VANCOUVER, BRITISH COLUMBIA, MAY 12, 2026 – HI-VIEW RESOURCES INC. ("**Hi-View**" or the "**Company**") **(CSE: GXLD; OTCQB: GXLDF; FSE: B630)** announces the completion of a Wildlife Management Plan (WMP) for its Toodoggone portfolio, located in the Northern Omineca Mountains of British Columbia. The plan, developed in collaboration with environmental consultants EcoLogic Consultants Ltd. and Chu Cho Environmental., establishes a rigorous framework for protecting wildlife and sensitive ecosystems throughout the company's 2026 exploration activities.

Hi-View Resources recently amended its exploration permit issued by the BC Ministry of Energy, Mines, and Low Carbon Innovation, to expand its Toodoggone Properties claims package, incorporate newly acquired ground, and launch a comprehensive exploration program. The amendment also corrects previously inaccurate disturbance estimates to better reflect the actual scope of planned activities, reflecting the Company's commitment to responsible resource development in one of British Columbia's most ecologically significant landscapes.

The Company's Wildlife Management Program outlines environmental best practises with respect to sensitive habitats and wildlife. Wildlife interactions, mitigation measures, and incidents will be documented and reported throughout the exploration program.

The program is designed with a minimal environmental footprint, utilizing previously disturbed areas, small-footprint drill pads, responsible water management, and progressive reclamation. The project benefits from proximity to AMARC Resources' AuRORA porphyry discovery to the north, which provides geological context and validates the district's potential for large-tonnage copper-gold mineralization at depth.

Hi-View continues to advance its 2026 exploration program across the Toodoggone portfolio, and the Wildlife Management Plan serves as a cornerstone of the company's broader environmental stewardship strategy. The company looks forward to continued collaboration with EcoLogic Consultants Ltd., and local stakeholders.

About EcoLogic Consultants Ltd.

EcoLogic Consultants Ltd. is a North Vancouver-based ecological consulting firm providing science-based solutions for wildlife and habitat management across Western Canada.

About Chu Cho Environmental

Chu Cho Environmental is a Prince George-based environmental consulting firm specializing in resource development projects across northern British Columbia, with deep expertise in environmental assessment, monitoring, and Indigenous engagement.

About Hi-View Resources Inc.

Hi-View Resources Inc., a publicly listed mineral exploration company on the Canadian Securities Exchange, is advancing a portfolio of gold, silver, and copper assets in the Toodoggone region of northern British Columbia. The Company's 100% owned and optioned projects cover more than 27,910 hectares and include the flagship Golden Stranger Project, the Lawyers claims, and the Borealis Project — all designated as high-priority targets. Additional properties under option include Saunders, Northern Claims, Nub, and Harmon Peak. The company also has an additional 1,300 hectares currently under mineral claim application. For more information, please visit Hi-View's website or review the Company's filings on SEDAR+ (www.sedarplus.ca).

On Behalf of the Board of Directors,
