MATERIAL FACTS

Other than as disclosed below, there are no material facts about the securities being distributed that have not been disclosed in this Offering Document or in any other document filed by the Issuer in the 12 months preceding the date of this Offering Document.

Acquisition

On November 13, 2025, the Issuer entered into a share purchase agreement (the “**Share Purchase Agreement**”) with American Pacific Mining Corp. (“**American Pacific**”) which holds the Palmer VMS project, located in southeast Alaska (the “**Palmer Project**”), pursuant to which the Issuer proposes to acquire all of the issued and outstanding securities of Constantine Metal Resources Ltd. (“**Subco**”), a wholly-owned subsidiary of American Pacific (the “**Acquisition**”) in consideration form \$15,000,000, which will be settled through the issuance of post-Consolidation Shares (the “**Consideration Shares**”). The Consideration Shares will be issued at the Offering Price.

The Palmer Project is an advanced stage volcanogenic massive sulfide (VMS) project located in the southeast Alaska, 60 kilometers from tidewater. The 33,000 hectare project hosts a mineral resource of 4.77Mt at 3.5% CuEq Indicated¹ (1.69% copper, 5.17% zinc, 0.14% lead, 28.4 g/t silver, 0.29 g/t gold, 20.6% BaSO₄) and 12Mt at 3.1% CuEq Inferred¹ (0.57% copper, 3.92% zinc, 0.47% lead, 66.3 g/t silver, 0.33 g/t gold, 25.5% BaSO₄) established across two main deposits, the Palmer Deposit and the AG Deposit. All claims comprising the Palmer Project are in good standing, with all the necessary permits in place to explore and complete the next phase of engineering and analysis.

Please refer to the Issuer’s news release dated November 13, 2025 for additional information on the Palmer Project.

Pursuant to the Share Purchase Agreement, the Issuer has also agreed to make the following milestone payments to American Pacific (collectively, the “**Milestone Payments**”):

¹ Parsons, B and Kelloff, K, 2025: NI43-101 Technical Report Mineral Resource Estimate Palmer Project, Alaska, USA. Report prepared for Constantine Metal Resources by SRK Consulting (US), Inc. Effective date January 13, 2025

- \$10,000,000 payable upon the commencement of commercial production at the Palmer Project.

Each Milestone Payment will be satisfied, at the election of the Issuer, in cash or by the issuance of common shares of the Issuer (the “**Milestone Shares**”), provided that the Company obtains any approval required under Exchange policies for any issuance of Milestone Shares. Subject to the terms Share Purchase Agreement, the number of any Milestone Shares to be issued will be determined by dividing the dollar amount by the five-day volume weighted average trading price of the Issuer’s common shares on the TSXV, or, if required by the TSXV, by the higher of: (i) dividing the dollar amount by the five-day volume weighted average trading price of the Issuer’s common shares on the TSXV and (ii) \$0.10, representing the Discounted Market Price (as defined under the TSXV policies) as of the date of the Share Purchase Agreement, and representing the minimum deemed price of the Milestone Shares.

WHAT ARE THE BUSINESS OBJECTIVES THAT WE EXPECT TO ACCOMPLISH USING THE AVAILABLE FUNDS?

The Issuer expects to accomplish the following business objectives using the net available funds from the Offering (the “**Available Funds**”):

Exploration work on the Palmer Project including drilling, assays, and geophysical surveys expected to occur in 2026 and 2027 at a cost of approximately \$24,000,000.

USE OF AVAILABLE FUNDS

WHAT WILL OUR AVAILABLE FUNDS BE UPON THE CLOSING OF THE OFFERING?

The following table discloses what the Available Funds will be after the Offering:

		ASSUMING 100% OF THE OFFERING
A	AMOUNT TO BE RAISED BY THE OFFERING	\$25,000,000
B	SELLING COMMISSIONS AND FEES	\$1,920,000
C	ESTIMATED OFFERING COSTS (E.G. LEGAL, ACCOUNTING, AUDIT)	\$125,000
D	NET PROCEEDS OF OFFERING: D = A – (B + C)	\$22,955,000
E	WORKING CAPITAL AS AT MOST RECENT MONTH END (DEFICIENCY)	\$(150,000)
F	ADDITIONAL SOURCES OF FUNDING	\$15,000,000 ⁽¹⁾
G	TOTAL AVAILABLE FUNDS: G = D + E + F	\$37,805,000

Note:

(1) The Issuer will also be offering additional FT Shares and CFT Shares for sale under the Concurrent Private Placement. The Issuer expects the net proceeds of the Concurrent Private Placement to be approximately \$15,000,000. See “Material Facts”.

HOW WILL WE USE THE AVAILABLE FUNDS?

The following table discloses what the Available Funds will be after the Offering:

DESCRIPTION OF INTENDED USE OF AVAILABLE FUNDS LISTED IN ORDER OF PRIORITY	ASSUMING 100% OF THE OFFERING
Exploration and development of the Palmer Project ⁽¹⁾	\$24,000,000
Exploration and development of the Poplar Project ⁽¹⁾	\$7,000,000
Exploration and development of the Issuer's other projects located in British Columbia ⁽¹⁾	\$3,000,000
General and administrative expenses	\$3,000,000
Unallocated working capital	\$805,000
TOTAL: EQUAL TO G IN THE AVAILABLE FUNDS TABLE ABOVE	\$37,805,000

Note:

(1) Including drilling, assays, and geophysics.

The above noted allocation and anticipated timing represent the Issuer's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Issuer. Although the Issuer intends to expend the net proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Issuer's ability to execute on its business plan.

The most recent audited annual financial statements and interim financial report of the Issuer included a going-concern note. The Issuer is still in the exploration stage, and the Issuer has not yet generated positive cash flows from its operating activities, which may cast doubt on the Issuer's ability to continue as a going concern. The Offering is intended to permit the Issuer to continue to explore its properties and conduct additional drilling with the goal of updating mineral resource estimates and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Issuer.

HOW HAVE WE USED THE OTHER FUNDS WE HAVE RAISED IN THE PAST 12 MONTHS?

On May 16, 2025, and May 26, 2025, the Issuer announced that it had closed separate tranches of the Non-Brokered Private Placement for aggregate proceeds of \$5,565,717.45. The net proceeds of the Non-Brokered Private Placement were intended to be used to incur eligible Canadian exploration expenses that will qualify as flow-through mining expenditures, as such terms are defined in the *Income Tax Act* (Canada), related to the Issuer's projects in British Columbia and for working capital and general corporate purposes (the "**Stated Purposes**"). As of the date of this Offering Document, approximately 95% of the net proceeds of the Non-Brokered Private Placement have been used for the Stated Purposes. Not enough time has yet passed to have spent all of the net proceeds from the Non-Brokered Private Placement on the Stated Purposes.

FEES AND COMMISSIONS

WHO ARE THE DEALERS OR FINDERS THAT WE HAVE ENGAGED IN CONNECTION WITH THIS OFFERING, IF ANY, AND WHAT ARE THEIR FEES?

The finder warrants will be priced at \$1.08 Share exercisable for a period of 24 months from the date of issuance.

DO THE AGENTS HAVE A CONFLICT OF INTEREST?

To the knowledge of the Issuer, it is not a "related issuer" or "connected issuer" of or to the Finder, as such terms are defined in National Instrument 33-105 – Underwriting Conflicts.
