IKIGAI CAPITAL CORP.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2025

This Management's Discussion and Analysis ("MD&A") of Ikigai Capital Corp. ("Ikigai" or the "Company"), prepared as of October 28, 2025, should be read in conjunction with the audited financial statements and the notes thereto for the year ended June 30, 2025 which were prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). All amounts are expressed in Canadian dollars unless otherwise indicated.

This MD&A contains certain forward-looking statements and information relating to the Company that is based on the beliefs of its management as well as assumptions made by and information currently available to the Company. When used in this document, the words "may", "will", "anticipate", "plan", "intend", "estimate", "project", "continue", "believe", "estimate", "expect" and similar forward-looking terminology, as they relate to the Company or its management, are intended to identify forward-looking statements. This MD&A contains forward-looking statements relating to, among other things, regulatory compliance, the sufficiency of current working capital and the estimated cost and availability of funding for the continued operation of the Company. Such statements reflect the current views of the Company with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements.

Although management believes that the expectations reflected in such forward-looking statements are reasonable, all forward-looking statements address matters that involve known and unknown risks, uncertainties and other factors and should not be read as guarantees of future performance or results. Accordingly, there are or will be a number of significant factors which could cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Factors that could cause actual future results, performance or achievements to differ materially include, but are not limited to, our limited operating history, our reliance on key personnel, future capital needs, dependence on proprietary technology and limited protection thereof and general economic trends and international risk. The Company is subject to significant risks and any past performance is no guarantee of future performance. The Company cannot predict all of the risk factors, nor can it assess the impact, if any, of such risk factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. This MD&A offers a brief overview of some of the risk factors to be considered in relation to the Company's business. This list may not be exhaustive and new risk factors may emerge from time to time. We disclaim any intention or obligation to publicly update or revise any forward-looking statements after distribution of this MD&A, whether as a result of new information, future events or other circumstances, except as may be required pursuant to applicable securities laws.

IKIGAI CAPITAL CORP.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2025

Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued capital.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is subject to externally imposed capital requirements under Policy 2.4 of the Exchange for capital pool companies.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not utilize off-balance sheet arrangements.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

(a) Fair Values

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of financial instruments, which includes cash, due from related party, and accounts payable and accrued liabilities, approximate their carrying values due to the relatively short-term maturity of these instruments.

IKIGAI CAPITAL CORP.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2025

(b) Credit Risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with a high credit quality financial institution. The carrying amount of financial assets represents the maximum credit exposure.

(c) Foreign Exchange Rate Risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. The Company is not exposed to any significant foreign exchange rate risk.

(d) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk as it does not have any liabilities with variable rates.

(e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs.

RECENT ACCOUNTING STANDARDS

A number of new standards, and amendments to standards and interpretations, are not yet effective for the year ended June 30, 2025, and have not been early adopted in preparing these condensed financial statements. These new standards, and amendments to standards and interpretations are either not applicable or are not expected to have a significant impact on the Company's financial statements.
