The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. NATURE OF BUSINESS AND CONTINUING OPERATIONS

ECC Ventures 6 Corp. (the "Company") was incorporated on August 11, 2021 under the laws of British Columbia and is classified as a Capital Pool Company ("CPC") as defined in the TSX Venture Exchange ("TSX-V" or the "Exchange") Policy 2.4. The head office of the Company is located at 1600 – 609 Granville Street, Vancouver, British Columbia, V7Y 1C3, and the records and registered office is located at 2200 HSBC Building 885 West Georgia Street, British Columbia, V6C 3E8.

Since incorporation on August 11, 2021, the Company has had no active business operations. As a CPC, the Company's business objective is to identify and evaluate assets or businesses with a view to potential acquisition or participation by completing a Qualifying Transaction ("QT"), as defined in Exchange Policy 2.4 subject, in certain cases, to shareholder approval and acceptance by the TSX-V.

As a CPC, the proceeds raised from the issuance of share capital may only be used to identify and evaluate assets or businesses for future investment, with the exception that up to $3,000 per month may be used for reasonable general and administrative expenses of the Company. These restrictions will apply until completion of a QT by the Company as defined under the policies of the Exchange.

The Company has an accumulated deficit of $345,268 as at March 31, 2024. The Company's ability to continue its operations is dependent upon obtaining additional financing sufficient to cover its operating costs. All the preceding indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

2. BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY DISCLOSURE INFORMATION

Statement of compliance
These condensed interim consolidated financial statements ("Financial Statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting. Accordingly, these Financial Statements do not include all of the information required for full annual financial statements and should be read in conjunction with the most recent audited consolidated annual financial statements of the Company as at and for the year ended December 31, 2023. The Board of Directors authorized these Financial Statements for issue on May 7, 2024.

Basis of preparation
These Financial Statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit

2. BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY DISCLOSURE INFORMATION (continued)

or loss, which are stated at their fair value. These Financial Statements are presented in Canadian dollars, which is also the Company's functional currency. In addition, these Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

Principles of consolidation
These Financial Statements include accounts of the Company and the 100% owned inactive subsidiary 1428703 BC Ltd, which was incorporated on July 19, 2023 in connection with the proposed acquisition (Note 9).

New and amended IFRS standards that are effective for the current year:
In the previous year, the Company applied the below amendment to IFRS Standards and Interpretations issued by the IASB that was effective for annual periods that begin on or after January 1, 2023. Its adoption has not had any material impact on the disclosures or on the amounts reported in these Financial Statements.

Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgments—Disclosure of Accounting Policies

The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term "significant accounting policies" with "material accounting policy information." Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. The International Accounting Standards Board ("IASB") has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2.

The amendment was applied effective January 1, 2023 and did not have a material impact on the Company's Financial Statements.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these Financial Statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported expenses incurred during the period. Actual results could differ from these estimates. The preparation of these Financial Statements requires management to make judgements regarding the going concern of the Company, as discussed in Note 1. Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

<u>Deferred tax assets and liabilities</u>

The measurement of deferred income tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful operations of the Company. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

<u>Stock options</u>

Determining the fair value of stock options requires estimates related to the choice of a pricing model, the estimation of stock price volatility, the expected forfeiture rate, and the expected term of the underlying instruments. Any changes in the estimates or inputs utilized to determine fair value could have a significant impact on the Company's future operating results or on other components of shareholders' equity.

4. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

4. RELATED PARTY TRANSACTIONS (continued)

Key management personnel include persons having the authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. The Company has identified its directors and certain senior officers as its key management personnel and the compensation costs for key management personnel and companies related to them are recorded at their exchange amounts as agreed upon by transacting parties.

During the three months ended March 31, 2024 there was no key management compensation. There were no related party transactions during the period. (December 31, 2023 – $nil). As of March 31, 2024, $nil (December 31, 2023 - $nil) was due to related parties.

5. SHARE CAPITAL

a) Authorized

Unlimited number of common and preferred shares without par value.

b) Issued and outstanding

As at March 31, 2024, December 31, 2023 and 2022, the issued share capital was comprised of 5,650,000 common shares.

c) Escrowed shares

As at March 31, 2024, the 2,000,000 common shares issued at $0.05 per share are being held in escrow pursuant to the requirements of the Exchange. Twenty five percent of the escrowed common shares will be released from escrow on the issuance of the Final Exchange Bulletin (as defined in the policies of the Exchange) (the "Initial Release") and an additional twenty five percent will be released on each of the dates which are six, twelve and eighteen months following the Initial Release.

All common shares acquired on exercise of stock options granted to directors and officers of the Company prior to completion of the QT, must also be deposited in escrow until the Final Exchange Bulletin is issued.

All common shares acquired in the secondary market prior to completion of a QT by a Control Person (as defined in the policies of the Exchange), are required to be deposited in escrow. Subject to certain permitted exemptions, all securities of the Company held by principals of the resulting issuer will also be subject to escrow.

(Expressed in Canadian dollars)

5. SHARE CAPITAL (continued)

d) Stock options

On August 25, 2021, the Company adopted a stock option plan (the "Stock Option Plan") whereby it can grant incentive stock options to directors, officers, employees, and technical consultants of the Company. The maximum numbers of shares that may be reserved for issuance under the Stock Option Plan is limited to 10% of the issued common shares of the Company at any time. The vesting period for all options is at the discretion of the Board of Directors. The exercise price will be set by the Board of Directors at the time of grant and cannot be less than the discounted market price of the Company's common shares.

The Stock Option Plan provides that the number of common shares that may be reserved for the issuance to any one individual upon exercise of all stock options held by such an individual may not exceed 5% of the issued common shares, if the individual is a director or officer, or 2% of the issued common shares, if the individual is a consultant or engaged in providing investor relations services, on a yearly basis. All options granted under the Stock Option Plan will expire not later than the date that is ten years from the date that such options are granted. Options terminate earlier as follows: (i) immediately in the event of dismissal with cause; (ii) 90 days from date of termination other than for cause; or (iii) one year from the date of death or disability. Options granted under the Stock Option Plan are not transferable or assignable other than by will or other testamentary instrument or pursuant to the laws of succession. All common shares acquired on exercise of stock options granted to directors and officers prior to the completion of a QT must be deposited in escrow until the final exchange bulletin relating to a QT is issued.

A summary of the Company's stock option activity is as follows:

	Number of Options	Weighted Average Exercise Price
Balance, March 31, 2024, December 31, 2023, and 2022	**565,000**	**$0.10**

As at March 31, 2024, outstanding options were as follows:

Grant Date	Number of Options Outstanding and Exercisable	Exercise Price	Expiry Date	Remaining Contractual Life (Years)
December 17, 2021	565,000	$0.10	December 17, 2031	7.72
Fully vested and exercisable, March 31, 2024	**565,000**	**$0.10**		

(Expressed in Canadian dollars)

5. SHARE CAPITAL (continued)

d) Agent options

A summary of the Company's agent option activity is as follows:

	Number of Agent Options	Weighted Average Exercise Price
Balance, March 31, 2024, December 31, 2023, and 2022	**200,000**	**$0.10**

As at March 31, 2024, outstanding agent options were as follows:

Grant Date	Number of Agent Options Outstanding and Exercisable	Exercise Price	Expiry Date	Remaining Contractual Life (Years)
December 17, 2021	200,000	$0.10	December 17, 2026	2.72
Fully vested and exercisable, March 31, 2024	**200,000**	**$0.10**		

6. BASIC AND DILUTED LOSS PER SHARE

The calculation of basic and diluted loss per share for the three months ended March 31, 2024 was based on the loss attributable to common shareholders of $52,562 (March 31, 2023 - $19,647) and the weighted average number of common shares outstanding of 3,650,000 (March 31, 2023 – 3,650,000).

Escrow shares are considered contingently returnable until the Company completes a QT. Accordingly, subsequent to the Company's listing on the TSX-V on December 17, 2021, the 2,000,000 shares held in escrow will not be considered to be outstanding for the purposes of the loss per share calculations.

7. MANAGEMENT OF CAPITAL

Capital is comprised of the Company's shareholders' equity and any debt that it may issue. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its ongoing liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels.

7. MANAGEMENT OF CAPITAL (continued)

There were no changes to management's approach to capital management during the year.

The proceeds raised from the issuance of share capital may only be used to identify and evaluate assets or businesses for future investment, with the exception that up to $3,000 per month may be used for reasonable general and administrative expenses of the Company. These restrictions apply until completion of a QT by the Company as defined under the policies of the Exchange.

8. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Market Risk

Market risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate because of changes in market prices or prevailing conditions. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk and are disclosed as follows:

(i) Currency risk
Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company holds no financial instruments that are denominated in a currency other than Canadian dollars. As at March 31, 2024, the Company is not exposed to currency risk.

(ii) Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in interest rates. The Company's sensitivity to interest rates relative to its cash balances is currently immaterial. The Company also has no long-term debt with variable interest rates, so it has no negative exposure to changes in the market interest rate.

(iii) Price rate risk
The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock markets to determine the appropriate course of action to be taken by the Company.

8. FINANCIAL INSTRUMENTS (continued)

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits the exposure to credit risk by only investing its cash with high-credit quality financial institutions. The Company's maximum exposure to credit risk is equal to the carrying amount of cash and GST receivable. Management believes that the credit risk related to its cash is negligible.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At March 31, 2024, the Company has a cash balance of $95,898 to settle current liabilities of $9,366.

The Company likely has insufficient funds from which to finance any identified business acquisition and as such will require additional financing to accomplish the Company's long-term strategic objectives. Future funding may be obtained by means of issuing share capital and/or debt financing. There can be no certainty of the Company's ability to raise additional financing through these means. If the Company is unable to continue to finance itself through these means, it is possible that the Company will be unable to continue as a going concern. Consequently, the Company is exposed to liquidity risk as at March 31, 2024.

Fair Value Measurements

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and
- Level 3 – Inputs that are not based on observable market data.

As of March 31, 2024 the Company's financial instruments consist of cash, GST receivable, and accounts payable and accrued liabilities. These financial instruments are classified as amortized cost. The fair values of these financial instruments approximate their carrying values because of their short-term nature.

9. PROPOSED TRANSACTION

The Company entered a definitive amalgamation agreement (the "Amalgamation Agreement") dated effective November 30, 2023, with respect to a proposed acquisition (the "Acquisition") by the Company, through its subsidiary, 1428703 B.C. Ltd. ("Acquireco"), of all the issued and outstanding share capital of LCM Energy Solution Inc. ("LCM"). The Acquisition will constitute a reverse take-over and the Company's qualifying transaction under the policies of the Exchange.

LCM is a private holding company incorporated October 13, 2022 pursuant to the laws of British Columbia. LCM's principal asset is its wholly owned subsidiary, LCM Energy Solution (Korea) Inc. ("LCMESK"). LCMESK is a private company incorporated March 9, 2021 pursuant to the laws of South Korea.

LCMESK's principal activities focus on two green energy technologies; (1) LCMESK has developed lithium battery solutions for various industries; and (2) LCMESK has developed and is manufacturing and marketing bidirectional vertical small wind power generation systems.

Under the terms of the Acquisition, the Company will complete a consolidation of its share capital on a 1.1834409 for 1 basis (the "Consolidation"), all 565,000 stock options currently outstanding in the Company will be cancelled, and holders of LCM shares will be issued an aggregate of 73,400,000 post Consolidation common shares of the Company (the "Consideration Shares"), at a deemed price of $1.00 per Consideration Share, in exchange for all LCM shares. Certain of the Consideration Shares will be subject to escrow and resale restrictions pursuant to the policies of the Exchange. The Company will also issue 2,205,000 post Consolidation common shares of the Company at a deemed price of $1.00 per share, to an arm's length party, as a finder's fee in connection with the Acquisition.

As a condition to completing the Acquisition, the parties intend to complete a non-brokered private placement financing (the "QT Financing") of subscription receipts (the "Subscription Receipts"), to raise a minimum of $10,000,000, through the issuance of a minimum of 10,000,000 Subscription Receipts at a price of $1.00 per Subscription Receipt.

The proceeds of the QT Financing will be held in escrow, pending the Company receiving all applicable regulatory approvals, and completing all matters and conditions relating to the Acquisition, including the Consolidation. Immediately prior to the completion of the Acquisition, on satisfaction of the escrow conditions, each Subscription Receipt will automatically be exchanged, for no further consideration and with no further action on the part of the holder thereof, for economically equivalent securities of the issuer resulting from the Acquisition in connection with the Acquisition. The Company may pay a commission in connection with the QT Financing, in accordance with the policies of the Exchange.

Completion of the Acquisition is subject to several conditions, including Exchange acceptance. There can be no assurance that the Acquisition will be completed as proposed or at all.
