The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

POWR Lithium Corp. (formerly Clear Sky Lithium Corp.) (the "Company") is in the business of the exploration and evaluation of mineral properties. The Company was incorporated under the Business Corporations Act of British Columbia on June 25, 2018 and changed its name from Clear Sky Lithium Corp. to POWR Lithium Corp. on January 30, 2023. The address of the Company's registered and records office is 1021 West Hastings Street, 9th floor, Vancouver, BC, V6E 0C3.

The Company's common shares trade on the Canadian Securities Exchange (the "CSE") under the symbol "POWR", on the OTC Markets Exchange under the symbol "CSKYF", and on the Frankfurt Stock Exchange under the symbol "6JX".

These condensed interim consolidated financial statements for the three and nine months ended May 31, 2025 and 2024 (the "financial statements") have been prepared on a going concern basis, which assumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. During the three and nine months ended May 31, 2025, the Company incurred a net loss and comprehensive loss of $87,818 and $303,224, respectively (2024 - $247,607 and $2,805,563, respectively). As at May 31, 2025, the Company had a working capital deficiency of $366,727, and accumulated deficit of $10,316,146 (August 31, 2024 - $303,879 and $10,012,922, respectively). The Company has no source of operating cash flows, and there is no assurance that sufficient funding (including adequate financing) will be available to conduct the required exploration and development of exploration and evaluation assets. These factors present a material uncertainty that may cast significant doubt over the Company's ability to continue as a going concern.

The application of the going concern assumption is dependent on the Company's ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. These financial statements do not give effect to any adjustments that may be material in nature and may be required should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on July 11, 2025.

These financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS Accounting Standards") as issued by the International Accounting Standards Board applicable to the preparation of interim financial statements including International Accounting Standard 34 *Interim Financial Reporting*. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended August 31, 2024 and 2023 (the "Annual Financial Statements"), which include the information necessary or useful to understanding the Company's business and financial statement presentation.

b) Basis of presentation

These financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

c) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. The functional currency is the currency of the primary economic environment in which an entity operates. References to "US$" are United States dollars.

d) Basis of consolidation

These financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances are eliminated on consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in the financial statements from the date control commences until the date control ceases.

(Unaudited - Expressed in Canadian dollars, except where noted)

2. BASIS OF PRESENTATION (continued)

A summary of the Company's subsidiaries included in these financial statements as at May 31, 2025 is as follows:

Name of subsidiary	Country of incorporation	Percentage ownership	Principal activity
1291455 B.C. LTD	Canada	100%	Holding company and mineral exploration
Clear Sky Lithium Nevada Inc	US	100%	Mineral exploration

3. MATERIAL ACCOUNTING POLICIES

The material accounting policies followed in preparing the financial statements are the same as those followed in preparing the Annual Financial Statements. For a complete summary of significant accounting policies, please refer to the Company's Annual Financial Statements, except as follows:

Classification of liabilities as current or non-current - amendments to IAS 1

The amendments to IAS 1 specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, an entity is required to disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. The amendments have not had an impact on the classification of the Company's liabilities.

4. SIGNIFICANT JUDGMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements under IFRS Accounting Standards requires management to make judgements in applying its accounting policies and estimates that affect the reported amounts of assets and liabilities at the period end date and reported amounts of expenses during the reporting period. Such judgements and estimates are, by their nature, uncertain. Actual outcomes could differ from these estimates.

The impact of such judgements and estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. These judgements and estimates are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and are accounted for prospectively.

In preparing these financial statements, the Company applied the same significant judgements in applying its accounting policies and is exposed to the same sources of estimation uncertainty as disclosed its Annual Financial Statements.

5. PREPAID EXPENSES

A summary of the Company's prepaid expenses is as follows:

	May 31, 2025	August 31, 2024
	$	$
Legal and professional fees	**-**	2,477
Marketing	**4,131**	1,275
Transfer agent and regulatory fees	**8,769**	3,393
	12,900	7,145

(Unaudited - Expressed in Canadian dollars, except where noted)

6. RECLAMATION BOND

During the year ended August 31, 2024, the Company paid for a reclamation bond for a drilling permit at the Halo Project (Note 8(b)). As at May 31, 2025, the value of the reclamation bond was $22,845 (US$16,605) (August 31, 2024 - $22,956).

7. DECOMMISSIONING LIABILITY

The Company has an obligation to undertake restoration and environmental work when environmental disturbance is caused by exploration activities.

A provision for decommissioning liabilities is estimated based on current regulatory requirements and is recognized at the present value of such costs. The expected timing of cash flows in respect of the provision is based on the estimated life of the Company's exploration activities.

As at May 31, 2025, management determined that the future costs associated with remediation activities to restore the exploration site for the Halo Project are $8,255 (US$6,000) (August 31, 2024 - $8,214) (Note 8(b)). The Company is in discussion with Halo Lithium LLC, in which Halo Lithium LLC will assume the decommissioning liability. The Company expects to incur the costs of the reclamation activities in the current year if this transfer is not completed.

8. EXPLORATION AND EVALUATION ASSETS

A summary of the Company's exploration and evaluation assets activity is as follows:

	ELi Property	**Halo Project**	**Laroque Lake Project**	**Total**
	$	$	$	$
Balance, August 31,2023	127,500	2,274,306	-	2,401,806

Balance, May 31, 2025	**1**	**-**	**14,000**	**14,001**

a) ELi Property

On December 23, 2021, the Company acquired a 100% interest in 26 unpatented mining claims situated in Eureka County and Nye County, Nevada, (the "ELi Property") with a fair value of $127,500 as a result of acquiring its subsidiary 1291455BC. The fair value on acquisition was determined based on the price that was paid by 1291455BC on November 16, 2021, in an arm's length transaction prior to it being acquired by the Company.

On November 16, 2021, 1291455BC purchased a 100% interest in the ELi Property for purchase consideration comprising US$50,000 cash and 100,000 common shares of 1291455BC with a contractual value of US$50,000 (the "share contractual value") or US$0.50 per share. On June 13, 2022, the Company completed the initial public offering process and was listed on CSE with a share price of $0.25, which was lower than the share contractual value of US$0.50. Pursuant to the agreement, an obligation to issue shares of $38,951 was recognized in connection with this requirement. In addition, the Company agreed to provide the seller with a gross-returns mineral production royalty of 2% from the production of minerals from the ELi Property and any unpatented mining claims that the Company locates in an identified area of interest.

At present, substantive exploration work is neither budgeted nor planned. As a result, on August 31, 2024, the Company impaired the property and recognized impairment loss on this asset of $127,499 with a nominal $1 value remaining to represent the Company's future rights to pursue the project, at their discretion.

8. EXPLORATION AND EVALUATION ASSETS (continued)

b) Halo Project

On August 4, 2022, the Company entered into an option agreement with Halo Lithium LLC (the "Optionor") to acquire a 100% interest in 98 mineral claims located in Esmeralda and Nye Counties, Nevada, (the "Halo Project"). The option agreement required a series of cash payments, reimbursement of expenses and share consideration as follows:

- $319,914 (US$250,000) cash, $97,917 (US$76,518) reimbursement of expenses, and 1,865,269 common shares of the Company payable on or before August 9, 2022 (fully paid and issued). The fair value of this first tranche of shares was measured as $1,212,425 based on a $0.65 per share market price on the date of issuance.
- $264,400 (US$200,000) cash and 1,250,000 common shares of the Company payable on or before August 4, 2023 (fully paid and issued). The fair value of this second tranche of shares was measured as $268,750 based on a $0.22 per share market price on the date of issuance.
- US$200,000 cash and 500,000 common shares of the Company payable on or before August 4, 2024.

Pursuant to the Halo Project option agreement, the Company incurred finder's fees requiring the issuance of common shares ("Finder's fee shares") in separate tranches as follows:

- 118,406 common shares due within five days of August 4, 2022 (issued).
- 75,000 common shares and common shares equal to US$12,000 due on August 4, 2023 (issued).
- 30,000 common shares and common shares equal to US$12,000 due on August 4, 2024.

The fair value of the first tranche of the Finder's fee shares was measured as $76,964 based on the $0.65 per share market price on August 9, 2022, the date of issuance. The fair value of the second tranche of the Finder's fee shares was measured at $33,936 based on the $0.22 per share market price on August 4, 2023, the date of issuance.

The Company did not fulfill their cash and share consideration scheduled for August 4, 2024. As a result, on August 31, 2024, the option agreement has been terminated and the Company recognized impairment loss on this asset of $2,274,306.

c) Laroque Lake Project

On October 10, 2024, the Company entered into a property option agreement to acquire a 100% interest in mineral claims located in Laroque Lake, Saskatchewan, Canada (the "Laroque Lake Project"). On July 1, 2025, the Company amended the agreement for the timing of exploration expenditures and paid cash of $5,000 upon execution. In connection with the amendment effective July 1, 2025, the option agreement requires a series of cash payments, expenditures, and share consideration as follows:

- $10,000 cash and 50,000 common shares of the Company payable on or before October 17, 2024 (fully paid and issued).
- $17,500 cash and 75,000 common shares of the Company payable on or before October 10, 2025.
- $25,000 cash and expenditures of $100,000 payable on or before October 10, 2026.
- $57,500 cash and expenditures of $100,000 payable on or before October 10, 2027.

The claims are subject to a 1% net smelter royalty ("NSR"), subject to a buyback right whereby the Company is entitled to purchase the NSR for a cash payment of $1,000,000 any time prior to the commencement of commercial production.

(Unaudited - Expressed in Canadian dollars, except where noted)

9. EXPLORATION AND EVALUATION EXPENDITURES

During the three months ended May 31, 2025 and 2024, the Company's exploration and evaluation expenditures were $nil and $nil, respectively.

A summary of the Company's exploration and evaluation expenditures for the nine months ended May 31, 2025 is as follows:

	ELi Property	Halo Project	Laroque Lake Project	Total
	$	$	$	$

	$	$
Accounts payable	**451,771**	314,273
Accrued liabilities	**4,500**	9,000
Accounts payable and accrued liabilities	**456,271**	323,273

11. SHARE CAPITAL

a) Authorized share capital

The Company is authorized to issue an unlimited number of common shares without par value.

b) Issued share capital

As at May 31, 2025, 56,365,052 common shares were issued and outstanding (August 31, 2024 - 52,225,052).

(Unaudited - Expressed in Canadian dollars, except where noted)

11. SHARE CAPITAL (continued)

During the nine months ended May 31, 2025, the Company had the following share capital transactions:

- On October 22, 2024, the Company issued 50,000 common shares as consideration pursuant to the Laroque Lake project mineral property option agreement (Note 8(c)). The fair value of the shares was measured as $4,000 based on a $0.08 price per share on the date of issuance.
- On April 4, 2025, the Company issued 4,090,000 units at $0.05 per unit for gross proceeds of $204,500. Each unit comprises one common share and one warrant. Each whole warrant entitles the holder to purchase one common share of the Company at an exercise price of $0.05 until April 5, 2030. The gross proceeds from the units were allocated using the relative fair value method. As a result, $112,457 was allocated to share capital and $92,043 was allocated to warrant reserve. The Company paid cash share issuance of cash finders' fees of $1,650 and issued 33,000 finders' warrants with an aggregate fair value of $1,486. Therefore, $3,136 of share issuance costs were recorded as a reduction to share capital in connection with this unit issuance.

During the year ended August 31, 2024, the Company had the following share capital transactions:

- On September 29, 2023, the Company issued 10,000,000 units at $0.20 per unit for gross proceeds of $2,000,000. Of the $2,000,000 gross proceeds, $20,000 was received during the year ended August 31, 2023, and is included under obligation to issue shares within current liabilities as at August 31, 2023. Each unit comprises one common share and one-half of one warrant. Each whole warrant entitles the holder to purchase one common share of the Company at an exercise price of $0.40 until September 27, 2025. The gross proceeds from the units were allocated using the relative fair value method. As a result, $1,659,231 was allocated to share capital and $340,769 was allocated to reserves. The Company incurred share issuance costs of legal fees of $20,967, cash finders' fees of $73,003 and issued 427,777 finder's warrants with an aggregated fair value of $38,589. Therefore, $132,559 of share issuance costs were recorded as a reduction to share capital in connection with this unit issuance.
- Concurrent with the September 29, 2023 private placement, the Company settled outstanding payables totaling $142,750 for consideration of 713,750 units. Each unit comprises one common share and one-half of one warrant. Each whole warrant entitles the holder to purchase one common share of the Company at an exercise price of $0.40 until September 27, 2025. The shares were valued at $0.20 per share based on the market price of the Company's shares on the date the debt settlement agreements were entered into. The warrants were valued using a Black-Scholes option pricing model. As a result, the Company recognized $142,750 to common shares, $32,193 to reserves, and loss on debt settlement of $32,193 in connection with this unit issuance. 196,875 of these units were issued to the CEO of the Company to settle $39,375 in accounts payables which was outstanding at August 31, 2023.
- On January 30, 2024, the Company issued 243,334 common shares pursuant to the exercise of outstanding warrants for gross proceeds of $24,333. In connection with the exercised warrants, $1,241 was transferred from reserves to share capital.
- On January 30, 2024, the Company issued 3,275,000 common shares pursuant to the conversion of 3,275,000 restricted share units. In connection with the conversion of restricted share units, $753,250 was transferred from reserves to share capital.
- On January 2, 2024, the Company issued 109,500 common shares pursuant to the exercise of outstanding warrants for gross proceeds of $10,980. In connection with the exercised warrants, $558 was transferred from reserves to share capital.

Risk-free interest rate	**3.14%**	4.83%
Expected life	**2.00 years**	5.00 years
Expected volatility	**199.20%**	114.00%
Expected annual dividend yield	**0.00%**	0.00%

During the three and nine months ended May 31, 2025, the Company recorded share-based compensation expense of $nil and $36,036, respectively (2024 - $nil and $254,853, respectively) related to the vesting of stock options.

During the nine months ended May 31, 2025, the Company had the following stock options transactions:

- On September 28, 2024, 250,000 stock options with exercise price of $0.10 expired.
- On October 11, 2024, the Company granted 710,000 stock options to certain directors, officers, and consultants of the Company. Each stock option entitles the holder to purchase one common share at an exercise price of $0.06. All the stock options vested immediately and were exercisable upon issuance and expire on October 11, 2026. The fair value of the options was estimated to be $36,036 using the Black-Scholes option pricing model with the following inputs: a share price of $0.06, an exercise price of $0.06, a risk-free interest rate of 3.14%, an expected life of two years, an expected volatility of 199%, and an expected annual dividend yield of 0%.
- On October 25, 2024, 50,000 stock options with exercise prices of $0.55 expired.
- On January 10, 2025, 1,240,000 stock options with exercise price of $0.44 expired.

- On September 29, 2023, the Company granted 1,350,000 stock options to consultants of the Company. Each stock option entitles the holder to purchase one common share at an exercise price of $0.23. The stock options vested and were exercisable upon issuance and expire on September 29, 2028. The fair value of the options was estimated to be $254,853 using the Black-Scholes option pricing model with the following inputs: a share price of $0.23, an exercise price of $0.23, a risk-free interest rate of 4.83%, an expected life of five years, an expected volatility of 114%, and an expected annual dividend yield of 0%.

The expected life in years represents the period of time the options granted are expected to be outstanding. The volatility rate is based on comparable companies with a historical volatility. The risk-free rate is based on Canada government bonds with a remaining term equal to the expected life of the options.

e) Restricted share units

The Company established a restricted share unit ("RSU") program under which certain consultants and Company officers are awarded common shares of the Company. Each RSU comprises one common share of the Company and is subject to vesting periods as approved by the Board of Directors. Upon vesting, RSU's are converted to common shares at the request of the holder.

During the nine months ended May 31, 2025, the Company had no RSU transactions.

(Unaudited - Expressed in Canadian dollars, except where noted)

11. SHARE CAPITAL (continued)

During the year ended August 31, 2024, the Company had the following RSU transactions:

- On September 29, 2023, the Company granted 3,275,000 RSUs to certain consultants and an officer of the Company. These RSUs vested on January 30, 2024. The fair value of the RSUs issued is the market price of a common share at the date of grant of $0.23.

12. RELATED PARTY TRANSACTIONS (continued)

A summary of the Company's balances due to related parties is as follows:

	May 31, 2025	August 31, 2024
	$	$
Accounts payable and accrued liabilities	**65,953**	2,448

Accounts payable and accrued liabilities due to related parties are non-interest bearing and due on demand.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash, reclamation bond, and accounts payables and accrued liabilities. The Company's financial assets and liabilities are classified as and measured at amortized cost. The carrying values of the Company's financial assets and liabilities approximate their respective fair values due to the short-term nature of these instruments.

The Company's risk exposures on financial instruments are summarized below:

a) Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty fails to meet an obligation under contract. Credit risk exposure arises with respect to the Company's cash. The Company's credit risk exposure is not considered significant as it places its cash with financial institutions of high credit worthiness within Canada, and the reclamation bond is held with the Bureau of Land Management.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. As the Company's operations do not generate cash, financial liabilities are discharged using funding through the issuance of common shares or debt as required. The Company is exposed to liquidity risk through its accounts payable and accrued liabilities. As at May 31, 2025, the Company has a working capital deficiency of $366,727 (August 31, 2024 - $303,879). Management mitigates this risk by monitoring its cash position. As the Company does not have sufficient cash to pay its current obligations, it will need to raise additional proceeds in the form of debt or equity financing. There is no assurance that the Company will be able to obtain financing on terms that are acceptable to the Company or at all. Liquidity risk is therefore assessed as high.

c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company is not significantly exposed to market risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is not exposed to interest rate risk as the Company has no financial instruments that are subject to variable interest rates.

Foreign currency risk

Foreign currency risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that it has monetary assets and liabilities denominated in foreign currencies (US$).

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

A summary of the Company's financial liabilities that are denominated in US$ and expressed in Canadian dollars is as follows:

	May 31, 2025	August 31, 2024
	$	$
Accounts payable and accrued liabilities	-	1,084

Given the amounts noted, the Company is not exposed to foreign exchange risk as at May 31, 2025.

14. CAPITAL MANAGEMENT

The Company's capital structure consists of all components of shareholders' equity and subscription liabilities. The Company's objective when managing capital is to maintain its ability to continue as a going concern.

The Company manages its capital structure and adjusts it based on the funding required to continue the Company's mineral property acquisition and exploration programs. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management and consultants to sustain future development of the business.

The Company's properties are in the exploration stage and as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing cash and be required to raise additional funds in the form of debt or equity.

Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the relative size of the Company. There were no changes to the Company's approach to capital management during the nine months ended May 31, 2025.

15. SEGMENTED INFORMATION

The Company operated in two business segments being the exploration and development of resource properties located in Nevada, the United States of America and the exploration and development of resource properties located in Laroque Lake, Saskatchewan, Canada.

16. SUBSEQUENT EVENT

On July 1, 2025, the Company amended the Laroque Lake Project option agreement (see Note 8(c) for more details).
