2026 ANNUAL GENERAL AND SPECIAL MEETING FOR GOLD OROGEN

Vancouver, BC (April 21st, 2026) - Gold Orogen Resources Corp. (CSE:OROG) (the "Company" or "Gold Orogen"), announces its annual general and special meeting of shareholders (the "Meeting") will be held on June 25, 2026, at 11:00 am PST (Vancouver time). The record date for determining shareholders entitled to receive notice of and to vote at the Meeting has been set as May 11, 2026.

Further details regarding the Meeting, including the time, location, and matters to be considered, will be set out in the Company's management information circular and related meeting materials, which will be filed under the Company's profile on SEDAR+ and mailed to shareholders in accordance with applicable securities laws.

ABOUT GOLD OROGEN

As the Resulting Issuer of the February 2026 reverse-take-over of Great Republic Mining (CSE:GRM) by Gold Orogen Exploration Corp (formerly named 1475039 B.C. Ltd. and a subsidiary of Lode Gold (TSXV:LOD), Gold Orogen is an early-stage exploration pure play with quality assets in the Yukon and New Brunswick, Canada. Optionality exists as assets are diversified on two mineral belts that are known to have prolific gold endowment.

New Brunswick Assets - During late 2024, a joint venture was formed between subsidiary company 1475039 and the Company's 19.9% strategic investor to create one of the largest land packages in New Brunswick, consisting of an area spanning 445 km^2 with a 44 km strike. The McIntyre Brook and Riley Brook properties sit on a highly prospective belt that has seen many exciting discoveries including Dalradian, New Found Gold and Calibre Mining. The Kinross-Puma joint venture project surrounds McIntyre Brook.

Yukon Assets - The Golden Culvert / WIN properties sit on the southern end of the Tombstone Belt which in recent years has seen extensive exploration success. It has Reduced Intrusion-Related Gold Systems (RIRGS) targets and sedimentary hosted orogenic mineralization. Over 4,500 m has been drilled with 50 gram meter intercepts. *Cautionary note: This is not a true width calculation as the true attitude of the mineralized body is unknown at this time.

Cautionary Statement Regarding Forward-Looking Information

Neither the Canadian Securities Exchange (CSE) nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.

This news release includes “forward-looking statements” and “forward-looking information” within the meaning of Canadian securities legislation. All statements included in this news release, other than statements of historical fact, are forward-looking statements including, without limitation, statements with respect to the use of proceeds, advancement and completion of resource calculation, feasibility studies, and exploration plans and targets. Forward-looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as “anticipate”, “believe”, “plan”, “estimate”, “expect”, “potential”, “target”, “budget” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions and includes the negatives thereof.

Forward-looking statements are based on a number of assumptions and estimates that, while considered reasonable by management based on the business and markets in which the Company operates, are inherently subject to significant operational, economic, and competitive uncertainties, risks and contingencies. These include assumptions regarding, among other things: the status of community relations and the security situation on site; general business and economic conditions; the availability of additional exploration and mineral project financing; the supply and demand for, inventories of, and the level and volatility of the prices of metals; relationships with strategic partners; the timing and receipt of governmental permits and approvals; the timing and receipt of community and landowner approvals; changes in regulations; political factors; the accuracy of the Company’s interpretation of drill results; the geology, grade and continuity of the Company’s mineral deposits; the availability of equipment, skilled labour and services needed for the exploration and development of mineral properties; and currency fluctuations.

There can be no assurance that forward-looking statements will prove to be accurate and actual results, and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company’s expectations include a deterioration of security on site or actions by the local community that inhibits access and/or the ability to productively work on site, Previous actual exploration results, interpretation of metallurgical characteristics of the mineralization, changes in project parameters as plans continue to be refined, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, delays or inability to receive required approvals, business disruptions, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators, including those described under the heading “Risks and Uncertainties” in the Company’s most recently filed MD&A. The Company does not undertake to update or revise any forward-looking statements, except in accordance with applicable law.
