### **1. INCORPORATION AND NATURE OF BUSINESS**

Kalma Capital Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on March 9, 2021 and as of the Listing Date (as defined below) is classified as a Capital Pool Company (“CPC”) as defined in the TSX Venture Exchange (“TSX-V”) Policy 2.4.

On June 23, 2023 (the “Listing Date”), the Company listed on the TSX-V under the symbol “KALM.P”.

On the Listing Date, the Company completed its initial public offering (“IPO”) of 3,000,000 common shares at \$0.10 per share for gross proceeds of \$300,000 and was listed on the TSX Venture Exchange as a CPC. Haywood Securities Inc. (the “Agent”) acted as agent for the IPO (Note 3).

The head office and the registered head office of the Company is located at Suite 480, 1500 West Georgia Street Vancouver, B.C. V6G 2Z6. On November 29, 2024, the Board of Directors approved the unaudited condensed interim financial statements for the nine months ended September 30, 2024.

The principal business of the Company is the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction (“QT”). The Company has not commenced commercial operations and has no non-current assets. Given the nature of the activities, no separate segmented information is reported. The Company’s continuing operations, as intended, are dependent on its ability to secure equity financing with which it intends to identify and evaluate potential acquisitions of businesses, and once identified and evaluated, to negotiate an acquisition thereof or participation therein subject to receipt of regulatory and, if required, shareholders’ approval.

These unaudited condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to raise adequate financing to acquire and develop its business interests, and to commence profitable operations in the future. At September 30, 2024, the Company has not generated any revenues, had working capital of \$138,671 and expects to incur further losses in the development of its business, all of which casts significant doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

Each Finder’s Warrant entitles the Agent to purchase one common share at an exercise price of \$0.10 per share for a period of five years.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

**6. FINANCIAL INSTRUMENTS (CONTINUED)****Financial risk management****Credit risk**

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company manages its credit risk through its counterparty ratings and credit limits.

The Company's cash are primarily held through large Canadian financial institutions.

The total cash and amounts receivable represent the maximum credit exposure. The Company limits its credit risk exposure by holding cash with reputable financial institutions with high credit ratings. The Company's amounts receivable balance is not significant and does not represent significant credit exposure as it is principally due from the Government of Canada.

**Liquidity risk**

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash. The Company is not exposed to significant interest rate risk relating to its cash.

**Foreign Currency risk**

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. All transactions incurred during the nine months ended September 30, 2024 and balances of the monetary assets and liabilities as of September 30, 2024 are denominated in Canadian dollars; as a result, management believes that the Company is not subject to any significant foreign exchange risk.
