Admission to the official list is in ASX’s absolute discretion and ASX may refuse admission without giving any reasons (see Listing Rule 1.19).

A reference in this Checklist and in any Annexures to the “Offer Document” means the listing prospectus, product disclosure statement or information memorandum lodged by the applicant with ASX pursuant to Listing Rule 1.1 Condition 3.

A reference in this Annexure to JORC means the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Resources - 2012 Edition, a copy of which is included in Annexure 5A of the Listing Rules. Terms used in this Annexure which are defined in JORC (including, without limitation, 'exploration target', 'exploration results', 'mineral resource', 'ore reserve' and 'competent person') have the same meaning as in JORC.

See the 'Important Information' section of the Prospectus.
3. Please enter "Confirmed" in the column to the right to indicate that the Offer Document discloses any potential conflict of interest any of the named competent persons may have and, if it does, indicate where in the Offer Document that disclosure has been made (JORC clause 9)?	Confirmed.
4. Is there an Independent Geologist's Report included in the Offer Document? If so, where does it state that any exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be): - are based on, and fairly represent, information and supporting documentation prepared by a named competent person or persons; - the name of the professional organisation of which the competent person is a member; and - that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the report (Listing Rule 5.22 for material mining projects and JORC clause 9 for other projects)? Nº	Item	Location/Confirmation
5.	Does the Offer Document include a “metal equivalents” calculation? If so, where does the Offer Document include the following information required under JORC clause 50: - individual grades for all metals included in the metal equivalent calculation; - except where the information is commercially sensitive, the assumed commodity prices for all metals;³ - assumed metallurgical recoveries for all metals and a discussion of the basis on which the assumed recoveries are derived (metallurgical test work, detailed mineralogy, similar deposits, etc);⁴ - a clear statement that it is the entity’s opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold; and - the calculation formula used?	No.
6.	Please enter “Confirmed” in the column to the right to indicate that the Offer Document does not include any reference to “in situ” or “in ground” values (JORC clause 51).	No.

Exploration targets

Complete this section if the Offer Document includes any reference to an exploration target.

7.	Where in the Offer Document does it disclose a detailed explanation of the basis for the exploration target, including whether the target is based on actual exploration results or on proposed exploration programmes and a specific description of the level of exploration activity already completed (JORC clause 17)?	N/A
8.	Where in the Offer Document does it state the proposed exploration activities designed to test the validity of the exploration target and the timeframe within which those activities are expected to be completed (JORC clause 17)?	
9.	Where in the Offer Document does it include the required statement by a named competent person taking responsibility for the form and context in which the exploration target appears (JORC clause 17)?	
10.	Where in the Offer Document does it include the required clarification statement that the potential quantity and grade is conceptual in nature, that there has been insufficient exploration to estimate a mineral resource and that it is uncertain if further exploration will result in the estimation of a mineral resource (JORC clause 17)? ⁵	

³ Actual assumed prices should be disclosed. It is not sufficient to refer to a “spot price”, without disclosing the actual price in question. Where the actual assumed prices used are said to be commercially sensitive, the entity must disclose sufficient information, perhaps in narrative rather than numerical form, for investors to understand the methodology it has used to determine these prices.

⁴ Estimates of metallurgical recoveries for each metal must be used to calculate meaningful metal equivalents. Reporting on the basis of metal equivalents is not appropriate if metallurgical recovery information is not available or able to be estimated with reasonable confidence.

⁵ Note that the clarification statement must be within the same paragraph as the first reference to the exploration target in the Offer Document.

N°	Item	Location/Confirmation
11.	Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied: - information relating to the exploration target has been expressed so that it cannot be misrepresented or misconstrued as an estimate of a mineral resource or ore reserve and the terms "resource" and "reserve" have not been used in this context (JORC clause 17); - the exploration target is expressed as a tonnage and grade range and as an approximation only (JORC clause 17); - the Offer Document includes a description of the process used to determine the grade and tonnage ranges used to describe the exploration target (JORC clause 17); - there are no "headline statements" in the Offer Document referring to the exploration target (JORC clause 17); and - the exploration target does not include a "metal equivalent" estimate or calculation (JORC clause 50).	

Exploration results

Complete this section if the Offer Document includes any reference to exploration results

12.	Where in the Offer Document is the separate report in relation to each of the criteria in sections 1 and 2 of JORC Table 1 (Listing Rule 5.7.1)? ⁶	<u>Yellowknife</u> See Appendix I to the Yellowknife Report. <u>Adina-Galinée</u> See Appendix 1 to the Adina-Galinée Report.
13.	Where in the Offer Document is the separate table setting out the following information for material drill-holes (unless the entity determines that the information is not material):⁷ - easting and northing of the drill-hole collar; - elevation or RL of the drill-hole collar; - dip and azimuth of the hole; - down hole width and depth; and - end of hole (Listing Rule 5.7.2)?	<u>Yellowknife</u> See Appendix II to the Yellowknife Report. <u>Adina-Galinée</u> See Appendix 2 to the Adina-Galinée Report.

⁶ If an entity that determines that any of the criteria is not material to understanding the exploration results, the entity must identify the criteria and explain why it has determined that it is not material to that understanding.

⁷ An entity that determines that a drill-hole table setting out the information described above is not material, is not required to attach the table to the Offer Document but must explain why it has determined that the table is not material to understanding the exploration results.

N°	Item	Location/Confirmation
14.	Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied: • if the exploration results relate to mineralisation not classified as a mineral resource or ore reserve, then estimates of tonnages and average grade have not been assigned to the mineralisation except as an exploration target in accordance with JORC clause 17 (JORC clause 18); • if true widths of mineralisation are not reported, an appropriate qualification has been included in the Offer Document (JORC clause 19); • clear diagrams and maps designed to represent the geological context have been included in the Offer Document which include a plan view of drill hole collar locations and appropriate sectional views (JORC clause 19); • there has been no selected disclosure of information such as isolated assays, isolated drill holes, assays of panned concentrates or supergene enriched soils or surface samples, without placing them in perspective (JORC clause 19); • if the Offer Document includes exploration results based on rock chip or grab sampling, the location (represented as a table, diagram or map), total number and assay results for the sampling have been included for each sample so as to ensure samples are representative and not selectively reported (JORC clause 19 and JORC Table 1); and • if the Offer Document reports visual results in the absence of assays, it does not include any reference to the grade or economic potential of the mineralisation (Example D in Annexure A of Guidance Note 8).	<u>Yellowknife</u> Confirmed. <u>Adina-Galinée</u> Confirmed.

Mineral resources

Complete this section if the Offer Document includes any reference to an estimate of mineral resources.
