Murdock Mountain Environmental Assessment Public Comment Period Now Closed

Vancouver, British Columbia, August 12, 2024. Nevada Organic Phosphate Inc. ("NOP" or the "Company) (CSE: NOP), a B.C. based exploration company focussed on Nevada's organic, sedimentary raw rock phosphate, is pleased to report that it has been advised by US Bureau of Land Management that the period for public comment on its final Murdock Mountain EA is now closed. Any public comments received are being respected and addressed. ***This is the last step before the BLM can elect to issue to NOP its Exploration Permit which will allow planning the drill programme.***

Robin Dow, CEO, states: ***"NOP, and its predecessors, have had the Murdock Mountain property since 2011. It is really exciting that NOP has finally reached this important milestone!***

Nevada Organic Phosphate Inc.

NOP is a junior exploration company with a sedimentary rock phosphate property (the "Murdock Property") hosting a nearly flat lying sedimentary bed of known phosphate mineralization in NE Nevada.

The increasing interest in organic and sustainable agriculture practices has contributed to the demand for organic fertilizers, including those derived from rock phosphate. Organic rock phosphate is often marketed as a fertilizer that not only provides phosphorus but also contributes to overall soil health.

The Issuer aims to be one of the only certified organic rock phosphate producers with large scale potential in North America. The Murdock Property is situated adjacent to a main highway and the rail head to California.
