Wisr AI Named One of Canada's Top 100 AI Companies by All In Summit, Powered by Scale AI and Mila

Vancouver, British Columbia--(Newsfile Corp. - July 14, 2025) - Wisr AI Systems Inc. (CSE: WISR) ("**Wisr AI**" or the "**Company**"), a pioneer in AI-driven cyber and third-party risk intelligence, is proud to announce that it has been recognized as one of Canada's Top 100 AI Companies by the 2025 All In Summit. This prestigious designation highlights the strength of Canada's AI ecosystem and underscores Wisr AI's leadership in applying Agentic AI to global risk prediction.

The All In Summit—organized by Scale AI, Canada's AI innovation supercluster, and Mila, one of the world's leading AI research institutes based in Montreal—is the premier national gathering of Canada's AI ecosystem. As part of the event, the Top 100 list recognizes the most innovative and impactful AI companies driving the future of the Canadian economy. Wisr AI earned its place on this distinguished list for its work in developing scalable, agentic AI platforms that empower enterprises to predict, prioritize, and mitigate cyber and third-party vendor risks in real time.

The recognition is reinforced by the support of Scale AI, Canada's AI-powered national supercluster. Backed by the Government of Canada and anchored in Montreal, Scale AI is a globally respected accelerator of applied AI adoption. With more than $600 million in combined public and private investment, Scale AI connects industry, startups, researchers, and global partners to commercialize AI innovations and transform supply chain intelligence. Its national mandate positions Scale AI as a vital force in strengthening Canada's AI capabilities and scaling made-in-Canada technologies worldwide.

"Being named one of the Top 100 AI companies at All In is a strong validation of the work our team is doing to transform risk intelligence through agentic AI," said Rob Goehring, CEO of Wisr AI. "Canada is a world leader in AI innovation, and the support of initiatives like Scale AI ensures that technologies like ours can scale globally. We're proud to represent Canada on the international stage and look forward to collaborating with fellow Top 100 companies and ecosystem partners."

This recognition comes at a pivotal time for Wisr AI, as the company expands its commercial operations and deepens its commitment to agentic AI and cybersecurity innovation. Through the All In platform, the Company anticipates accelerated exposure to enterprise customers, strategic investors, and global collaborators.

The All In Summit 2025 will take place in Montreal on September 24 and 25 and will feature Canada's top AI companies alongside 6,000 global thought leaders, policymakers, and investors in AI from over 40 countries. The All In website can be found here: https://allinevent.ai/ and the official Top 100 announcement can be found here: https://allinevent.ai/blogs/blog/2025-top-100.

About Wisr AI Systems Inc.

Wisr AI Systems Inc. (CSE: WISR) is a Vancouver-based technology company building agentic AI platforms that predict, prioritize, and monitor cyber and third-party risk. Its solutions help enterprises ingest and interpret real-time global signals to manage complex vendor ecosystems and supply chains more intelligently. Wisr empowers organizations with dynamic risk visibility and actionable intelligence to support stronger cybersecurity governance and operational resilience.

Forward-Looking Information:

This news release may contain statements that constitute "forward-looking information" within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities and operating performance. Forward-looking information is often identified by the words "may", "would", "could", "should", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" or similar expressions and includes information regarding, among other things, expectations for other economic, business, and/or competitive factors.

Investors are cautioned that forward-looking information is not based on historical facts but instead reflects expectations of the Company's management, estimates or projections concerning future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements of the Company. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; changes in applicable laws; and compliance with extensive government regulation. This forward-looking information may be affected by risks and uncertainties in the business of the Company and market conditions.

Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as required by applicable law.
