Wisr AI Among Canada's Top 100 AI Companies, Exhibiting at ALL IN 2025 and Team BC Pavilion

Vancouver, British Columbia--(Newsfile Corp. - September 22, 2025) - Wisr AI Systems Inc. (CSE: WISR) ("**Wisr AI**" or the "**Company**"), a pioneer in predictive AI-driven cyber risk intelligence, announced today its participation at **ALL IN 2025**, Canada's largest and most influential AI summit. The event will be held in **Montreal on September 24-25**, convening **6,000+ attendees from nearly 40 countries**, making it the premier national gathering of Canada's AI ecosystem.

As part of the Summit, Wisr AI will be **exhibiting in the ALL IN Startup Alley on September 24 from 1:00-5:00 PM**. In addition, the company is proud to be part of the **Team BC Delegation to ALL IN**, joining other leading innovators from British Columbia in the **BC Pavilion Booth**.

Earlier this summer, Wisr AI was recognized as one of **Canada's Top 100 AI Companies** by the ALL IN Summit. This prestigious designation highlights the strength of Canada's AI ecosystem and underscores Wisr AI's leadership in applying **Agentic AI to global risk prediction**. The Top 100 list, organized by **Scale AI** (Canada's AI innovation supercluster) and **Mila** (Montreal's world-leading AI research institute), celebrates the most innovative and impactful AI companies shaping the future of the Canadian economy.

Wisr AI secured its place on this distinguished list through the development of scalable agentic AI platforms that enable enterprises to anticipate, prioritize, and reduce cyber and third-party vendor risks in real time. Backed by Scale AI's national mandate and over $600 million in public and private investment, this milestone highlights Wisr AI's role in redefining global risk intelligence.

"This recognition as a Top 100 AI company validates the groundbreaking work our team is doing with agentic AI to transform cybersecurity and risk intelligence," said Rob Goehring, CEO of Wisr AI. "Canada's AI ecosystem is thriving, and events like ALL IN showcase how collaboration between startups, researchers, and industry can accelerate innovation and global impact."

The **ALL IN Summit**, organized by Scale AI and Mila, is Canada's flagship AI event. It brings together startups, enterprises, researchers, policymakers, and investors to explore cutting-edge innovations and accelerate global collaboration. Forward-Looking Information:

This news release may contain statements that constitute "forward-looking information" within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities and operating performance. Forward-looking information is often identified by the words "may", "would", "could", "should", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" or similar expressions and includes information regarding, among other things, expectations for other economic, business, and/or competitive factors.

Investors are cautioned that forward-looking information is not based on historical facts but instead reflects expectations of the Company's management, estimates or projections concerning future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements of the Company. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; changes in applicable laws; and compliance with extensive government regulation. This forward-looking information may be affected by risks and uncertainties in the business of the Company and market conditions.

Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as required by applicable law.
