NatBridge Resources Completes Title Transfer for Cahuilla Gold Project Parcels 45 and 46

BURNABY, BC – July 8, 2026 – NatBridge Resources Ltd. ("NatBridge" or the "Company") (CSE: NATB | OTCID: NATBF | FSE: GI80) is pleased to announce that it has transferred its Mineral Rights Deed and title to the subsurface mineral interests in Land Parcels 45 and 46 of the Cahuilla Gold Project in Imperial County, California (the "**Cahuilla Interests**") to NatGold Integrity Vault LLC, the designated custodian within the NatGold Digital ecosystem ("**NatGold**"), pursuant to the previously announced NatGold Resource Certification & Tokenization Agreement dated November 10, 2025.

NatGold confirmed the minting of 57,200 NATG tokens in connection with the Cahuilla Interests. Under the NatGold Resource Certification & Tokenization Agreement, NatBridge is entitled to receive 73% of the gross proceeds generated from the sale of such tokens, less a 15% market liquidity fee and applicable network and custody charges.

NatBridge will not hold, own, issue, market, distribute or otherwise control any NATG tokens. Any proceeds to the Company will be payable in the United States dollar equivalent following the sale of applicable NATG tokens by NatGold. The initial and subsequent market prices of NATG tokens, the timing and volume of any token sales, and any resulting proceeds payable to NatBridge will be determined by NatGold in accordance with its established protocols, market conditions and other factors beyond the Company's control.

The Cahuilla Interests were the first mineral interests submitted to NatGold for evaluation under NatGold's certification and tokenization framework pursuant to the Collaborative Development Agreement entered into between the parties in January 2025. Completion of the title transfer represents a milestone in the implementation of that framework and provides the Company with an additional pathway through which it may seek to realize value from certain qualifying mineral property interests.

"*The completion of this first title transfer represents an important achievement in our efforts to identify innovative opportunities to unlock value for our shareholders*," said Stephen Moses, Chief Executive Officer of NatBridge. "*We continue to focus on assessing and advancing mineral property opportunities while evaluating a range of potential commercialization pathways.*"

The NATG tokens are issued by NatGold and not by the Company. This news release does not constitute an offer to sell or a solicitation of an offer to buy any securities, digital assets or tokens.

About NatBridge Resources Ltd.

NatBridge Resources Ltd. (CSE: NATB) (OTCID: NATBF) (FSE: GI80) is a publicly traded Canadian company focused on the identification, acquisition, evaluation and advancement of gold-prospective mineral properties. The Company's business strategy is centred on creating shareholder value through exploration, technical evaluation and the advancement of mineral assets. Subject to market conditions and its strategic objectives, the Company may pursue a variety of potential commercialization and monetization pathways with respect to its mineral property interests, including exploration and development activities, property dispositions, joint ventures and other commercial arrangements. The Company may also evaluate opportunities to participate in the NatGold Digital ecosystem where management determines that such opportunities are in the best interests of the Company and its shareholders. NatBridge's objective is to build and advance a portfolio of mineral properties while maintaining flexibility to evaluate multiple pathways for realizing value from those assets.

Forward-Looking Statements

This news release contains certain "forward-looking information" and "forward-looking statements" within the meaning of applicable Canadian securities legislation (collectively, "forward-looking statements"). Forward-looking statements are often identified by words such as "plans", "expects", "intends", "anticipates", "believes", "estimates", "may", "will", "could", "would", "might", "potential" and similar expressions. Forward-looking statements in this news release include, without limitation, statements regarding: the Company's potential receipt of proceeds from the sale of NATG tokens by third parties; the timing, volume and pricing of any such token sales; the Company's ability to realize value from its mineral property interests; future exploration, evaluation and advancement activities; potential future commercial arrangements; the Company's participation in the NatGold Digital ecosystem; its business strategy and objectives; and regulatory matters.

Forward-looking statements are based on assumptions that management believes are reasonable, including assumptions regarding market conditions, availability of financing, the Company's ability to maintain its mineral property interests, the performance of counterparties, completion of contemplated commercial arrangements, receipt of necessary approvals, and the continued operation of third-party *platforms and ecosystems. Further, forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those expressed or implied by such statements, including risks relating to mineral exploration and development, financing, commodity prices, regulatory changes, approval requirements, operational and technical matters, third-party commercialization arrangements, digital asset and tokenization markets, third-party tokenization platforms, and general economic, market and business conditions, as well as the risk factors disclosed in the Company's public filings on SEDAR+. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on them. Actual results may differ materially from those anticipated in such statements. The forward-looking statements contained herein are made as of the date of this news release and, except as required by applicable securities laws, the Company undertakes no obligation to update or revise them. This news release should not be interpreted as an endorsement, sponsorship or representation regarding any digital asset, token or third-party platform.*
