RISK FACTORS

The following are those risk factors which are material to the Company and of which the Directors are aware. Material risk factors relating to the Shares are set out in the Securities Note. If any of the risks described below were to occur, it could have a material effect on the Company's business, financial condition or results of operations. Additional risks and uncertainties not presently known to the Directors or that the Directors currently deem immaterial, may also have an effect on the Company's business financial condition or results of operations.

- Hargreave Hale AIM VCT will invest principally in small companies with gross assets of less than £15 million prior to investment. This may limit the number of investment opportunities available to the Company. Small companies generally have a higher risk profile than larger 'blue chip' companies on account of various factors such as greater reliance on fewer larger customers, less financial resilience, weak or negative cash flow from operations, less management resource, controlling shareholders and volatile share prices. They may not produce the anticipated returns.
- Past performance of the Company and its investments is no indication of future performance. The return received by Investors will be dependent on the performance of the underlying investments of the Company. The value of such investments, interest income and dividends there from, may rise or fall.
- Investments may be made in companies whose shares are not readily marketable and, therefore, may be difficult to realise. The NEX exchange is not regulated by either the UKLA or the London Stock Exchange. The fact that a share is quoted on NEX, or on AIM, does not guarantee its liquidity, and an investment in such shares (in particular on NEX) may be difficult to realise. There may also be constraints imposed on the realisation of investments to maintain the VCT tax status of the Company.
- The Investment Manager's ability to obtain maximum value from the investments (for example, through sale) may be limited by the requirements imposed in order to maintain the VCT qualification status of the Company.
- Whilst it is the intention of the Directors that the Company will be managed so as to continue to qualify as a VCT, there can be no guarantee that the status will be maintained. A failure to maintain the qualifying status could result in the Company losing the tax reliefs previously obtained, resulting in adverse tax consequences for Investors. Possible adverse consequences include: a requirement to repay the 30% income tax relief for those who have not held their shares for five years; loss of income tax relief on dividends paid (or subsequently payable) by the Company; loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Company; a liability to capital gains tax on the disposal of Offer Shares; and the potential cancellation of the shares from the London Stock Exchange's Official List, which would require shareholder approval.
- Changes in legislation concerning VCTs in general, Qualifying Investments and Qualifying Trades in particular, may restrict or adversely affect the ability of the Company to meet its objectives and/or reduce the level of returns which would otherwise have been achievable. The levels and basis of, and relief from, taxation are those available for the 2018/19 tax year and are subject to change. Such changes could be retrospective. Those shown in this document are based upon current legislation, practice and interpretation. The tax reliefs for future tax years are subject to

change and Investors should seek their own tax advice appropriate to their individual circumstances.

- There is a restriction on income tax relief available on a subscription for shares in a VCT on or after 6 April 2014 where, the subscription and sale are within six months of each other (regardless of whichever happens first) or either the subscription or sale of the shares was conditional on the other. The rules also apply where the subscription and sale are of shares in different VCTs but it was known between the subscription and the sale that the VCTs intended to merge. The amount on which income tax relief is available is reduced by the amount of the consideration given for the sale.
- A VCT cannot return share capital to an investor that does not represent profits made on investments. The restriction applies until the third anniversary of the end of the accounting period in which investment funds are raised. If the VCT infringes the restriction, it will have its approved status withdrawn. The restriction does not apply to funds raised on or before 5 April 2014 and does not limit the VCT's ability to pay dividends from realised profits; nor does it apply to funds used to redeem or repurchase shares or to assets distributed in the course of a winding up.
- The conditions determining whether an investment of the Company is a Qualifying Investment under the VCT rules may change and such changes could limit the types of investments available to the Company.
- The maximum amount that can be invested in an individual company is £5 million per year, (£10 million for a 'knowledge intensive' company), and £12 million in total (£20 million for a 'knowledge intensive' company). These investment limits extend beyond VCTs and include all other sources of Risk Finance State Aid. A breach of these limits may lead to HMRC withdrawing the Company's status as a VCT with potentially adverse tax consequences, including the claw back of the 30% income tax relief from those Investors who have not held their shares for five years.
- In April 2013, the FCA published a policy statement on payments to platform service providers and cash rebates from providers to consumers (PS 13/1). These rules came into force on 6 April 2014. The FCA has raised the possibility of applying similar restrictions on payments to non-platform service providers but has not published any firm proposals on this to date. If the FCA were to introduce rules restricting payments to non-platform firms, this could have an impact on the demand for shares in the Company.
- It is possible for Investors themselves to lose their tax reliefs by taking or not taking certain steps, and Investors are advised to take their own independent financial advice on the tax aspects of their investment.
- Recent changes to the VCT legislation introduce a maximum age limit for companies receiving VCT investments (generally 7 years from first commercial sale), and a maximum amount of Risk Finance State Aid which a company can receive over its lifetime (£12m, or £20m for Knowledge Intensive Companies). The investment must be made for the purpose of growth and development, and a company cannot use the funds it receives from the VCT to purchase shares, or an existing business or trade.
- The Finance Act 2018 introduced a new "risk-to-capital" condition for Qualifying Investments, designed to focus investments towards earlier stage, growing businesses, and away from

investments which could be regarded as lower risk. The Company may not make any prohibited non-qualifying investments, including those which breach the "risk-to-capital" condition, and the potential penalty for contravention of these rules can include loss of VCT status with a resultant claw back of VCT tax reliefs from investors. HMRC have stated that VCT status will not be withdrawn where an investment is ultimately found to be non-qualifying if, after taking reasonable steps including seeking advice, a VCT considers that an investment is qualifying. However, HMRC may require rectification of the breach, which may mean that the VCT is forced to dispose of the investment at a loss.

- Where the European Commission believe that Risk Finance State Aid has been provided which is not in accordance with the Risk Finance Guidelines, they may require that the UK government recovers that Risk Finance State Aid. There is currently no mechanism in place for this, but recovery may be from the investee company, the VCT or the VCT's investors.
- On 23 June 2016, the UK held a referendum in which voters approved an exit from the EU, commonly referred to as "Brexit". The British government is currently negotiating the terms of the UK's future relationship with the EU. It is unknown at this time what terms will emerge, whether changed regulatory control affecting VCT's will increase or decrease or how the eventual terms will affect positively or negatively the business model, business operations and financial results or impact sales demand, material and labour costs, availability and cost of finance for the Company or an underlying investee company.
- Investment in unquoted companies, by its nature, involves a higher degree of risk than investment in companies listed on the Official List. In particular, small companies often have limited product lines, markets or financial resources and may be dependent for their management on a small number of key individuals and may be more susceptible to political, exchange rate, taxation and other regulatory changes. In addition, the market for securities in smaller companies is usually less liquid than that for securities in larger companies, bringing with it potential difficulties in acquiring, valuing and disposing of such securities. Investment returns will, therefore, be uncertain and involve a higher degree of risk than investment in a company listed on the Official List.
- While the Investment Manager constantly monitors the markets and the portfolio companies and reports to the Board at each meeting, there is a risk that the value of a security or portfolio of securities could decline in the future, which is mitigated by holding a diversified portfolio, across a broad range of sectors. However, events such as economic recession and movement in interest rates could affect smaller companies' valuations.
- The Company may be at risk of fraud, inflicted by a third party. To mitigate this internal controls are documented and periodically reviewed on a quarterly basis by senior management of the Investment Manager and the investment management and administration functions of the Investment Manager are segregated by department and location.
- A failure of the Investment Manager's systems or disruption to their business could result in the inability to provide accurate reporting to the Company. To mitigate this the Board regularly reviews the system of internal controls, both financial and non-financial, operated by the Company and the Investment Manager, which has in place its own internal policies and procedures including a documented business continuity plan and a regularly tested disaster recovery plan to mitigate risk.
- Inadequate or failed controls might result in breaches of regulations or loss of shareholder trust.

PART I

A. THE DIRECTORS

The Board comprises four Directors, three of whom are independent of the Investment Manager. The Directors operate in a non-executive capacity and are responsible for overseeing the investment strategy of the Company and ensuring high levels of corporate governance. The Board has a wide range of investment experience and is actively engaged in the management of VCTs. Whilst the Investment Manager operates under a discretionary fund management mandate, the Investment Manager will not commit to an investment into a private company with no firm intention to float without the prior approval of the Board.

Sir Aubrey Brocklebank Bt.

Following a career in corporate finance and venture capital, Aubrey assumed his first role within the VCT industry in 1997. Since then he has gone on to become one of the most experienced directors within the industry. Aubrey maintains a wide range of business interests and has been a director of six AIM listed companies. He is the senior independent director of Downing Four VCT plc.

David Brock

An experienced company chairman in both private and public companies, and a former main board director of MFI Furniture Group plc, David joined the Board in September 2010. David is chairman of Episys Group Ltd and Elderstreet VCT plc and a non-executive director of Puma VCT 12 plc.

Oliver Bedford

Oliver Bedford graduated from Durham University with a degree in Chemistry. He served in the British Army for 9 years before joining Hargreave Hale in 2004. Oliver co-manages the Company with Giles Hargreave and supports the other unit trusts through the fund management team.

Ashton Bradbury

Ashton Bradbury was appointed a director on 14 May 2018. He is a non-executive director of Standard Life UK Smaller Companies Trust plc and has previously held roles at Charterhouse Tilney, Hill Samuel Investment Management and HSBC Asset Management Europe. He was until 2014 a fund manager with Old Mutual Global Investors where he established its UK small and mid cap equities team.

B. THE COMPANY'S INVESTMENT MANAGER: HARGREAVE HALE LIMITED

The Company's investment manager is Hargreave Hale Limited who have been managing investments in UK Small and Micro Cap companies for 20 years and VCTs for 14 years. Hargreave Hale has a long-established reputation as a substantial investor in and a supporter of small British companies through the main market of the London Stock Exchange and AIM. As well as the Venture Capital Trust, the investment team manages 6 unit trusts including the Marlborough Special Situations Fund, the Marlborough UK Micro-Cap Growth Fund and the Marlborough Multi-Cap Income Fund. The investments of the Company are co-managed by Giles Hargreave and Oliver Bedford with support from the rest of the firm's investment team. The breadth of the investment team, the scale of investment into small companies and the Investment Manager's track record help attract deal flow. In accordance with its investment policy, the Company has made investments in the Marlborough Special Situations Fund, which has returned 3,205% (to 31 August 2018) since Giles Hargreave took responsibility for it in July 1998.

Management Agreement

Hargreave Hale Limited provides discretionary investment management and advisory services to the Company in respect of its portfolio of Qualifying Investments and Non-Qualifying Investments.

The Investment Manager receives an investment management fee equal to 1.5% per annum of the Net Asset Value of the Company (which increases to 1.7% with effect from 1 April 2019) and a Performance Incentive Fee. The appointment may be terminated on 12 months' notice by either party.

In line with normal VCT practice, a performance related incentive fee will be payable subject to certain criteria. This will be payable at the rate of 20% of any dividends paid to Ordinary Shareholders in excess of 6p per Ordinary Share per annum, provided that the Net Asset Value per Ordinary Share is at least 95p, with any cumulative shortfalls below 6p per Ordinary Share having to be made up in subsequent years.

Charging Expenses to Capital

A maximum of 75% of the Investment Manager's annual fee (plus irrecoverable VAT, but excluding any incentive fee) will be chargeable against capital reserves, with the remainder of the Investment Manager's annual fee being chargeable against revenue.

Custody Arrangements

Hargreave Hale Limited (a company incorporated with limited liability in England under the Act with registered number 03146580 having its registered office at Talisman House, Boardmans Way, Blackpool, FY4 5FY and telephone number +44 (0)1253 754755) acts as custodian to the Company and, in that capacity, is responsible for ensuring safe custody and dealing with settlement arrangements in respect of the Company's equity and fixed income assets, and certain cash deposits. All other assets, including cash, are held by the Company directly. Hargreave Hale Limited is authorised and regulated by the FCA.

C. INVESTMENT POLICY OF THE COMPANY

The investment policy of the Company is as follows:

Investment Objectives

The Company's investment objectives are:

- to invest in a diversified portfolio of small UK based Qualifying Companies on a high risk, medium term capital growth basis, primarily being companies which are traded on AIM and which have the opportunity for significant value appreciation;
- to invest in smaller companies which may not be readily accessible to private individuals and which also tend to be more risky;
- to maximise distributions to shareholders from capital gains and income generated from the Company's funds;
- targeted investment in equities which are Non-Qualifying Investments on an opportunistic basis; and
- to maintain the Company's exposure to small companies through an initial investment of new capital into the Marlborough Special Situations Fund pending investment into Qualifying Companies.

Asset Allocation

The Company will have a range of investments in four distinct asset classes:

- Equity investments in Qualifying Companies, referred to as "Qualifying Investments". Qualifying Investment will:
 - comprise qualifying holdings for a VCT as defined in Chapter 4 Part 6 of the Income Tax Act 2007;
 - primarily be made in AIM companies, but the Investment Manager will also consider NEX-quoted (formerly ISDX) companies and private companies that meet the investment criteria summarised in the investment strategy; and
 - vary in size typically from £250,000 to £3 million.
- Fixed income securities.
- Bank deposits that are readily realisable; and
- Non-Qualifying Investments in the form of direct equity exposure to UK and international equities through targeted investments made on an opportunistic basis or through an investment into the Marlborough Special Situations Fund.

Investment Strategy

Qualifying Investments

The Investment Manager will maintain a diversified and fully invested portfolio of Qualifying Investments. The primary purpose of the investment strategy is to ensure the Company maintains its status as a VCT. To achieve this, the Company must have 70% (80% for accounting periods beginning on or after 6 April 2019) of all funds raised from the issue of shares invested in Qualifying

Investments throughout accounting periods of the VCT beginning no later than three years after the date on which those shares are issued.

Although VCTs are required to invest and maintain a minimum of 70% (80% for accounting periods beginning on or after 6 April 2019) of their funds invested in Qualifying Investments as measured by the VCT rules, it is likely that the Investment Manager will target a higher threshold of approximately 80% (85% for accounting periods beginning on or after 6 April 2019) in order to provide some element of protection against an inadvertent breach of the VCT rules. The Company's maximum exposure to a single Qualifying Investment or Non-Qualifying Investment is limited to 15% of net assets.

The key selection criteria used by the Investment Manager in deciding which Qualifying Investments to make include, inter alia:

- the strength and credibility of the management team;
- the business plan;
- the risk/reward profile of the investment opportunity;
- the quality of the finance function and budgetary process;
- the strength of the balance sheet relative to anticipated cash flow from operations; and
- the existing balance of investments within the portfolio of Qualifying Investments.

The Investment Manager will follow a stock specific, rather than sector specific, investment approach and is more likely to provide growth and development capital than seed capital.

The Investment Manager will primarily focus on investments in companies with a quotation on AIM. The Investment Manager will also invest in private companies or those planning to trade on AIM. The Investment Manager prefers to participate in secondary issues of companies with an established track record that can be more readily assessed and have greater disclosure of financial performance. Secondary issues are often priced at an attractive discount to the market price.

Non-Qualifying Investments

The Company will have non-qualifying direct equity exposure to UK and international equities through targeted investments made on an opportunistic basis. This will vary in accordance with the Investment Manager's view of the equity markets and may fluctuate between nil and 30% of the net assets of the Company. The Investment Manager will also invest in fixed income securities and cash. The Investment Manager will invest up to 75% of the net proceeds of any issue of new shares into the Marlborough Special Situations Fund (which is a unit trust and not a company) subject to a maximum of 20% of the gross assets of the Company. This will enable the Company to maintain their exposure to small companies indirectly, whilst the Investment Manager identifies opportunities to invest directly into small UK companies through a suitable number of Qualifying Investments.

The allocation between asset classes in the non-qualifying portfolio will vary depending upon opportunities that arise with a maximum exposure of 100% of the non-qualifying portfolio to any individual asset class.

To the extent that any future changes to the Company's investment policy are considered to be material, Shareholder consent to such changes will be sought.

Borrowings

It is not the Company's intention to have any borrowings. The Company does, however, have the

ability to borrow a maximum amount up to 15% of the "Adjusted Capital and Reserves" amount (as such term is defined in the Articles of Association of the Company), which is effectively the aggregate of the nominal capital of the Company's shares, issued and paid up and the amount standing to the credit of the consolidated reserves of the Company, less specified adjustments, exclusions and deductions. There are no plans to utilise this ability at the current time.

D. MANAGEMENT OF THE INVESTMENT POLICY

Deal Flow

The breadth of the investment team, the scale of investment in small companies and the Investment Manager's track record and many years of investing in AIM and NEX-quoted (formerly ISDX) companies and, more recently, private companies, help attract deal flow.

The investment team has regular meetings, typically 30 per week, with small companies, a number of which are suitable for investment by the Company. These relationships, along with the ability to co-invest alongside the other funds managed by the Investment Manager, should increase the quality and quantity of the investment pipeline.

In the 12 months prior to the date of this document, the Company made 22 Qualifying Investments totalling £13.9 million of which £9.5 million was in AIM quoted companies and £4.4 was in private unquoted companies.

Post-Investment Management

The Investment Manager monitors each investment closely and usually expects to meet with the management of investee companies twice a year.

As the values of underlying investments increase, the Investment Manager will monitor opportunities for the Company to realise a proportion of the capital gain, and to make tax-free distributions to Shareholders.

Co-Investment Policy

The Investment Manager manages other funds that can invest in the same companies as the Company, including the Marlborough Special Situations Fund and the Marlborough UK Micro Cap Growth Fund. Therefore, in appropriate circumstances, the Company will invest alongside other funds managed by the Investment Manager. When contemplating a co-investment, the Investment Manager will first consider factors such as the risk profiles and investment strategies of the participating funds, the size of the fund raising and anticipated allocations when deciding on how much each fund will subscribe for. Any scaling back of applications made by the Investment Manager for shares in investee companies, on behalf of the different funds it manages, will be pro rata to the amount originally applied for by each fund.

Where the Company intends to invest in the same companies as other funds managed by the Investment Manager, any such investment must first be approved by at least one Director of the Board who is independent of the Investment Manager, unless the investment is made either at the same time and on the same terms, or there is insufficient time to gain prior approval, or the investment is made in accordance with a pre-existing agreement between the Company and the Investment Manager.

When the investee company has listed as a shareholder a unit trust or another fund also managed by the Investment Manager, and the Investment Manager does not intend to make a further investment into the investee company through that unit trust or other fund, the Investment Manager is to inform a Director of the Company who is independent of the Investment Manager of the proposed investment and the potential conflict of interest prior to making the investment. Where possible, this will be the Chairman. The Investment Manager will notify the Chairman of their obligations as someone who is in possession of inside information and pass their name to the Investment Manager's compliance department to be entered into the register of insiders under MAR. The Chairman will not pass on details of the proposed investment to other members of the Board.

The Chairman will notify the Investment Manager of his decision. If, in his opinion, the proposed investment requires further discussion with other members of the Board and there is sufficient time, the Chairman will ask the Investment Manager to convene a Board meeting to discuss the proposed

investment. The Investment Manager will circulate the details of the Board Meeting and will notify the remaining Directors of the proposed investment, along with their obligations as persons who are in possession of inside information. The Investment Manager will notify its compliance department of those additional Directors who are to be entered into the register of insiders under MAR.

It is the responsibility of the Investment Manager to notify the Board, depending on the circumstances, and seek prior approval for the co-investment.

It is the responsibility of the Board to monitor compliance with this co-investment policy on a quarterly basis.

E. DIVIDEND HISTORY AND POLICY

The Company has a well established track record of paying out tax free dividends to its Shareholders. The table below shows the cumulative dividend distributions paid to date to holders of Ordinary Shares. The yields listed are calculated with reference to the closing Net Asset Value per Share in the financial year to which the dividends relate.

<i>Financial Year</i>	<i>Dividends Paid</i>	<i>Year End NAV Yield</i>	<i>Cumulative Total</i>	<i>Comments</i>
2005/6	5p	4.7%	5p	First full financial year
2006/7	5p	4.8%	10p	
2007/8	5p	7.6%	15p	
2008/9	2p	3.1%	17p	No final dividend was paid in January 2010 in respect of the financial year ended 30 September 2009
2009/10	4p	6.4%	21p	
2010/11	4p	6.5%	25p	
2011/12	3.25p	5.3%	28.25p	
2012/13	3.75p	5.2%	32p	
2013/14	4.25p	5.3%	36.25p	
2014/15	4p	5.4%	40.25p	
2015/16	4p	5.3%	44.25p	
2016/17	4p	4.9%	48.25p	
2017/18	1.75p	-	50.00p	Interim dividend paid 31 July 2018. A final dividend will be considered at the year end.

The intention is to continue the existing policy of targeting a 5% distribution yield (referenced to the year end Net Asset Value), although the ability to pay dividends will clearly be influenced by the underlying investment performance of the Ordinary Shares and the available reserves, cash resources, the Act and the Listing Rules. In good years, the Directors may consider a higher dividend payment; in poor years, the Directors may reduce or even pay no dividend. Past performance and payment of dividends is not a reliable indicator of future results and may not be repeated.

Valuation Policy

Investments in AIM and NEX-quoted (formerly ISDX) shares will be valued at the prevailing bid price.

All other investments will be valued in accordance with EVCA guidelines.

F. RISK MANAGEMENT

The structure of the Company's investment portfolio and its investment strategy, has been developed to mitigate risk where possible.

- The Company has a **broad portfolio of investments** to reduce stock specific risk.
- **Flexible allocations** to non-qualifying equities, the Marlborough Special Situations Funds, fixed interest securities and bank deposits allow the Investment Manager to **adjust portfolio risk without compromising liquidity**.
- Regular company meetings aid the **close monitoring of investments** to identify potential risks and allow corrective action where possible.
- Regular board meetings and dialogue with the Directors, along with policies to control conflicts of interests and co-investment with the Marlborough fund mandates, support **strong governance**.

Category of Potential Investors

A typical investor for whom the Offer is designed is an individual who is a UK income tax payer over 18 years of age with an investment range of between £5,000 and £200,000 per tax year who considers the investment policy as detailed in Paragraph C of Part I of this document to be attractive and can accept the high level of risk associated with an investment into a VCT. Investment in a VCT will not be suitable for every type of investor and should be considered as a medium to long term investment with a minimum holding period of five years.

XV: 1.4

Before deciding whether to subscribe for Offer Shares, Investors are strongly encouraged to consult an independent adviser authorised under FSMA and to carefully consider the suitability of an investment into the Company in light of their personal circumstances.

G. INVESTMENTS

H. LIFE OF THE COMPANY AND ANNUAL ACCOUNTS

The annual report and accounts of the Company are made up to 30 September in each year and are normally sent to Shareholders in December of each year. It is the current intention of the Directors that the first annual report to be sent to Investors after the close of the Offer will be the audited annual accounts for the year ending 30 September 2019.

It is intended that the Company should have an unlimited life, but the Directors consider that it is desirable for Shareholders to have the opportunity to review the future of the Company at appropriate intervals. The Company's Articles of Association require the Directors to put a proposal to Shareholders concerning the continuation of the Company at its annual general meeting in 2025 and, if passed, at every fifth anniversary thereafter.

I. VCT STATUS AND MONITORING

The Company has appointed Philip Hare & Associates LLP to advise on tax matters generally and, in particular, on the maintenance of VCT status. HMRC has confirmed that the Company qualifies as a VCT. Philip Hare & Associates LLP will assist the Investment Manager in establishing the status of investments as Qualifying Investments and monitoring these investments and will report directly to the Board. In order to continue to comply with VCT requirements, the Company must have 70% of all net funds raised from the issue of shares invested in Qualifying Investments (80% for accounting periods beginning on or after 6 April 2019) throughout accounting periods beginning no later than three years after the date on which those shares are issued. For funds raised in accounting periods beginning on or after 6 April 2018, at least 30% of the gross funds raised must be invested in Qualifying Investments by the anniversary of the end of the accounting period in which the funds were raised.

As at 31 August 2018 the Company was 94.8% invested in Qualifying Investments (as defined in the ITA 2007).

PART III

TAXATION

The following paragraphs, which are intended as a general guide only and are based on current legislation and HMRC practice, summarise advice received by the Directors as to the position of the Shareholders who hold shares other than for trading purposes. Any person who is in any doubt as to their taxation position or is subject to taxation in any jurisdiction other than the United Kingdom should consult their professional advisers.

- (a) Taxation of dividends - under current law, no tax will be withheld by a company when it pays a dividend.
- (b) Stamp duty and stamp duty reserve tax - the Directors have been advised that no stamp duty or stamp duty reserve tax will be payable on the issue of new Shares. The Directors have also been advised that the transfer of shares in the Company will, subject to any applicable exemptions, be liable to ad valorem stamp duty at the rate of 0.5% of the consideration paid. An unconditional agreement to transfer such shares if not completed by a duly stamped stock transfer will be subject to stamp duty reserve tax generally at the rate of 50p per £100 (or part thereof) of the consideration paid.
- (c) Close company - the Directors of the Company believe the Company is not, and expect that following the Offer will not be, a close company within the meaning of ITA 2007. If the Company was a close company in any accounting period, approval as a VCT would be withdrawn.

CONDITIONS TO BE MET BY VENTURE CAPITAL TRUSTS

The Company has to satisfy a number of tests to qualify as a VCT. A summary of these tests is set out below.

Qualification as a VCT

To qualify as a VCT, a company must be approved as such by HMRC. To obtain such approval it must:

- (a) not be a close company;
- (b) have each class of its ordinary share capital quoted on any regulated market in the EU or European Economic Area;
- (c) derive its income wholly or mainly from shares or securities;
- (d) have at least 70% by value of its investments in shares or securities in Qualifying Investments (for accounting periods commencing after 5 April 2019 this is increased to 80%);
- (e) for funds raised after 5 April 2011, and for investments made after 5 April 2018, have at least 70% by value of Qualifying Investments in 'eligible shares', which are ordinary shares which carry no preferential rights to assets on a winding up and no rights to be redeemed, although they may have certain preferential rights to dividends;
- (f) have at least 10% by value of each Qualifying Investment in any single company or group in 'eligible shares';

- (g) invest at least 30% of any funds raised in accounting periods beginning after 5 April 2018 in Qualifying Investments by the first anniversary of the accounting period in which the funds are raised;
- (h) not have more than 15% by value of its investments in a single company or group (other than a VCT or a company which would, if its shares were listed, qualify as a VCT);
- (i) not retain more than 15% of its income derived from shares and securities in any accounting period;
- (j) not make an investment in any company which causes that company to receive more than £5 million from State Aid investment sources in the 12 month period ending on the date of the investment (from 6 April 2018 this is £10 million for a Knowledge Intensive Company);
- (k) not return capital to shareholders before the third anniversary of the end of the accounting period during which the subscription for shares occurs;
- (l) not make an investment in a company that causes that company, to receive more than £12 million (£20 million if the company is deemed to be a Knowledge Intensive Company) of State Aid investment (including from VCTs) over the company's lifetime;
- (m) not make an investment in a company whose first commercial sale was more than 7 years (10 years for a company deemed to be a Knowledge Intensive Company) prior to date of investment, except where previous Risk Finance State Aid was received by the company within 7 (or 10) years or where a turnover test is satisfied; and
- (n) not invest in a company where funds received can be used to acquire another existing business or trade, or shares in another company.

Conditions (j), (l), (m) and (n) do not apply to investments in certain money market securities, or shares and securities listed on a recognised stock exchange.

Qualifying Investments

A Qualifying Investment consists of shares or securities first issued to the VCT (and held by it ever since) by a company satisfying certain conditions. The conditions are detailed but include that the company must be a Qualifying Company, have gross assets not exceeding £15 million immediately before and £16 million immediately after the investment, apply the money raised for the purposes of a qualifying trade within a certain time period and not be controlled by another company. In any twelve month period the company can receive no more than £5 million from VCT funds and Enterprise Investment Schemes, and any other European State-aided risk finance source (from 6 April 2018 this limit is increased to £10 million for a "knowledge intensive company"). A company may not receive a total of more than £12 million of State-aided risk finance (£20 million for a "knowledge intensive company"). The company must have fewer than 250 full time (or equivalent) employees at the time of making the investment (or less than 500 employees in the case of certain knowledge-intensive businesses). VCT funds cannot be used by a Qualifying Company to fund the purchase of a trade or business, or of shares in another company.

There is also a 'no disqualifying arrangements' requirement under which an investment will not be a Qualifying Investment if the investee company has been set up for the purpose of accessing tax reliefs or is in substance a financing business, although the Boards believe that these measures are unlikely to affect the Company.

The question of whether a company's activities or investments can be considered as lower risk so as to enable the company to qualify for VCT tax reliefs will be considered using a 'principles based approach' known as the 'risk-to-capital' condition. This condition has two parts, namely:

- whether the company has an objective to grow and develop over the long term; and
- whether there is a significant risk that there could be a loss of capital to the investor of an amount exceeding the net return.

Qualifying Companies

A Qualifying Company must be unquoted (for VCT purposes this includes companies whose shares are traded on certain NEX markets and AIM) and must carry on a qualifying trade. For this purpose certain activities are excluded (such as dealing in land or shares or providing financial services). The qualifying trade must either be carried on by, or be intended to be carried on by, the Qualifying Company or by a relevant qualifying subsidiary (see below) at the time of the issue of shares or securities to the VCT (and at all times thereafter). The company's first commercial sale must be no more than 7 years before the VCT's investment (10 years for a "Knowledge Intensive Company") prior to the date of investment, except where previous Risk Finance State Aid was received by the company within 7 years or where a turnover test is satisfied. A Qualifying Company must have a permanent establishment in the UK. A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter.

A Qualifying Company may have no subsidiaries other than qualifying subsidiaries, which must be more than 50% owned.

A relevant qualifying subsidiary must be a 90% directly held subsidiary of the company invested in, its wholly owned subsidiary, or a wholly owned subsidiary of a 90% directly held subsidiary.

Approval as a VCT

A VCT must be approved at all times by HMRC. Approval has effect from the time specified in the approval.

A VCT cannot be approved unless the tests detailed above are met throughout the most recent complete accounting period of the VCT and HMRC is satisfied that they will be met in relation to the accounting period of the VCT which is current when the application is made. However, in order to facilitate the launch of a VCT, HMRC may approve a VCT notwithstanding that certain of the tests are not met at the time of application, provided HMRC is satisfied that the tests will be met within certain time limits. In particular, in the case of the tests described at (d) and (e) under the heading "Qualification as a VCT" above, approval may be given if HMRC is satisfied that these will be met throughout an accounting period of the VCT beginning no more than three years after the date on which approval takes effect.

The Directors intend to conduct the affairs of the Company so that they satisfy the conditions for approval as a VCT and that such approval will be maintained. HMRC has granted the Company approval under section 274 ITA as a VCT. The Company intends to comply with section 274 ITA and has retained Philip Hare & Associates LLP to advise them on VCT taxation matters.

Withdrawal of Approval

Approval of a VCT may be withdrawn by HMRC if the various tests set out above are not satisfied. Withdrawal of approval generally has effect from the time when notice is given to the VCT but, in relation to capital gains of the VCT only, can be backdated to not earlier than the first day of the

accounting period commencing immediately after the last accounting period of the VCT in which all of the tests were satisfied.

The above is only a summary of the conditions to be satisfied for a company to be treated as a VCT.

4. Articles of Association

4.1 The memorandum of association of the Company, which by virtue of Section 28 of the Act is now treated as being part of the Articles of Association of the Company ("the Articles"), provides that the Company's principal object is to carry on the business of a VCT.

4.2 The Articles of Association of the Company contain, inter alia, the following provisions.

4.3 Voting Rights

Subject to any special terms as to voting on which any Shares may be issued, on a show of hands every member present in person (or being a corporation, present by authorised representative) shall have one vote and, on a poll, every member who is present in person or by proxy shall have one vote for every Share of which he is the holder. The Shares shall rank pari passu as to rights to attend and vote at any general meeting of the Company.

4.4 Transfer of Shares

The Shares are in registered form and will be freely transferable. All transfers of Shares must be effected by a transfer in writing in any usual form or any other form approved by the Directors. The instrument of transfer of a Share shall be executed by or on behalf of the transferor and, in the case of a partly paid share by or on behalf of the transferee. The Directors may refuse to register any transfer of a partly paid Share, provided that such refusal does not prevent dealings taking place on an open and proper basis and may also refuse to register any instrument of transfer unless: it is in respect of a fully paid share; it is in respect of shares on which the company does not have a lien; it is in respect of only one class of share; and the transferees do not exceed four in number.

4.5 Dividends

The Company may in general meeting declare dividends in accordance with the respective rights of the members, provided that no dividend shall be payable in excess of the amount recommended by the Directors. The Directors may pay such interim dividends as appear to them to be justified. No dividend or other monies payable in respect of a Share shall bear interest as against the Company. There are no fixed dates on which entitlement to a dividend arises.

All dividends unclaimed for a period of twelve years after being declared or becoming due for payment shall be forfeited and shall revert to the relevant Company.

4.6 Disclosure of Interest in Shares

If any member or other person appearing to be interested in shares of the Company is in default in supplying within 42 days (or 28 days where the shares represent at least 0.25% of its the share capital) after the date of service of a notice requiring such member or other person to supply to the Company in writing all or any such information as is referred to in section 793 of the Act, the Directors may, for such period as the default shall continue, impose restrictions upon the relevant shares.

The restrictions available are the suspension of voting or other rights conferred by membership in relation to meetings of the Company in respect of the relevant shares and additionally in the case of a shareholder representing at least 0.25% by nominal value of

any class of shares of the Company then in issue, the withholding of payment of any dividends on, and the restriction of transfer of, the relevant shares.

4.7 Distribution of Assets on Liquidation

On a winding-up any surplus assets of the Company will be divided amongst the holders of its Shares according to the respective numbers of Shares held by them in the Company and in accordance with the provisions of the Act, subject to the rights of any shares which may be issued with special rights or privileges. The Articles of Association provide that the liquidator may, with the sanction of a resolution and any other sanction required by the Act, divide amongst the members in specie the whole or any part of the assets of the Company in such manner as he may determine.

4.8 Changes in Share Capital

4.8.1 Without prejudice to any rights attaching to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine or in the absence of such determination, as the Directors may determine.

4.8.2 The Company may by ordinary resolution consolidate its share capital into shares of larger amount and cancel or reduce the nominal value of any shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount so cancelled or the amount of the reduction. The Company by special resolution may sub-divide its shares or any of them into shares of smaller amounts.

4.8.3 Subject to the Act, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, and may also, subject to the Act (and by resolution of the holders of the shares repurchased where such shares are convertible shares), purchase its own shares.

4.9 Variation of Rights

Whenever the capital of the Company is divided into different classes of shares, the rights attached to any class may (unless otherwise provided by the terms of issue of that class) be varied or abrogated either with the consent in writing of the holders of not less than 75% of the nominal amount of the issued shares of the class or with the sanction of a special resolution passed at a separate meeting of such holders.

4.10 Directors

Unless and until otherwise determined by the Company in General Meeting the number of Directors shall not be less than two nor more than ten. The continuing Directors may act notwithstanding any vacancy in their body, provided that if the number of the Directors be less than the prescribed minimum the remaining Director or Directors shall forthwith appoint an additional Director or additional Directors to make up such minimum or shall convene a General Meeting of the Company for the purpose of making such appointment.

Any Director may in writing under their hand appoint (a) any other Director, or (b) any other person who is approved by the Board of Directors as hereinafter provided to be their alternate. A Director may at any time revoke the appointment of an alternate appointed by them. Every person acting as an alternate Director shall be an officer of the Company, and

shall alone be responsible to the Company for their own acts and defaults, and they shall not be deemed to be the agent of or for the Director appointing them.

Subject to the provisions of the Act, the Directors may from time to time appoint one or more of their body to be Managing Director or Joint Managing Directors of the Company or to hold such other executive office in relation to the management of the business of the Company as they may decide.

A Director of the Company may continue or become a Director or other officer, servant or member or any company promoted by the Company or in which it may be interested as a vendor shareholder, or otherwise, and no such Director shall be accountable for any remuneration or other benefits derived as director or other officer, servant or member of such company.

The Directors may from time to time appoint a President of the Company (who need not be a Director of the Company) and may determine their duties and remuneration and the period for which he is to hold office.

The Directors may from time to time provide for the management and transaction of the affairs of the Company in any specified locality, whether at home or abroad, in such manner as they think fit.

4.11 Directors' Interests

4.11.1 A Director who is in any way, directly or indirectly, interested in a transaction or arrangement with the Company shall, at a meeting of the Directors, declare, in accordance with the Act, the nature of their interest.

4.11.2 Provided the Director has declared their interest, a Director may be a party to or otherwise interested in any transaction or arrangement with the Company or in which the Company is otherwise interested and may be a director or other officer or otherwise interested in any body corporate promoted by the Company or in which the Company is otherwise interested. No Director so interested shall be accountable to the Company, by reason of being a Director, for any benefit that they derive from such office or interest or any such transaction or arrangement.

4.11.3 A Director shall not vote nor be counted in the quorum at a meeting of the Directors in respect of a matter in which they have any material interest otherwise than by virtue of their interest in shares, debentures or other securities of, or otherwise in or through the Company, unless their interest arises only because the case falls within one or more of the following paragraphs:

4.11.3.1 the giving to the Director of any security or indemnity in respect of money lent or an obligation incurred by them at the request of or for the benefit of the Company or any of its subsidiary undertakings;

4.11.3.2 the giving to a third party of any security or indemnity in respect of a debt or an obligation of the Company or any of its subsidiary undertakings for which they have assumed

- responsibility in whole or in part under a guarantee or indemnity or by the giving of security;
- 4.11.3.3 any proposal concerning the subscription of shares, debentures or other securities of the Company or any of its subsidiary undertakings or by virtue of their participation in the underwriting or sub-underwriting of an offer of such shares, debentures or other securities;
 - 4.11.3.4 any proposal relating to an arrangement for the benefit of the employees of the Company or any subsidiary undertaking which does not award to any Director as such any privilege or advantage not generally awarded to the employees to whom such arrangement relates; and
 - 4.11.3.5 any arrangement for purchasing or maintaining for any officer or auditor of the Company or any of its subsidiaries insurance against any liability which by virtue of any rule of law would otherwise attach to them in respect of any negligence, breach of duty or breach of trust for which they may be guilty in relation to the Company or any of its subsidiaries of which they are a director, officer or auditor.
- 4.11.4 When proposals are under consideration concerning the appointment of two or more Directors to offices or employment with the Company or any company in which the Company is interested the proposals may be divided and considered in relation to each Director separately and (if not otherwise precluded from voting) each of the Directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning their own appointment.
- 4.12 Remuneration of Directors
- 4.12.1 The ordinary remuneration of the Directors shall be such amount as the Directors shall from time to time determine (provided that unless otherwise approved by the Company in general meeting the aggregate ordinary remuneration of such Directors, shall not exceed £200,000 per year) to be divided among them in such proportion and manner as the Directors may determine. The Directors shall also be paid by the Company all reasonable travelling, hotel and other expenses they may incur in attending meetings of the Directors or general meetings or otherwise in connection with the discharge of their duties.
 - 4.12.2 Any Director who, by request of the Directors, performs special services for any purposes of the Company may be paid such reasonable extra remuneration as the Directors may determine.
 - 4.12.3 The emoluments and benefits of any executive director for their services as such shall be determined by the Directors and may be of any description, including membership of any pension or life assurance scheme for employees or their dependants or, apart from membership of any such scheme, the payment of a pension or other benefits to themselves or their dependants on or after retirement or death.

4.13 Retirement of Director

A Director shall also retire from office at or before the third annual general meeting following the annual general meeting at which he last retired and was re-elected. A retiring Director shall be eligible for re-election. A Director shall be capable of being appointed or re-appointed as a Director despite having attained any particular age.

4.14 Borrowing powers

Subject as provided below, the Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking, property and uncalled capital.

The Directors shall restrict the borrowings of the Company and exercise all voting and other rights or powers of control over its subsidiary undertakings (if any) so as to secure that the aggregate amount at any time outstanding in respect of money borrowed by the group, being the Company and its subsidiary undertakings for the time being (excluding intra-group borrowings), shall not without the previous sanction of an ordinary resolution of the Company exceed a sum equal to 15% of the aggregate total amount received from time to time on the subscription of shares of the Company.

4.15 Distribution of Realised Capital Profits

At any time when the Company has given notice in the prescribed form (which has not been revoked) to the Registrar of Companies of its intention to carry on business as an investment company ("a Relevant Period") the distribution of the Company's capital profits (within the meaning of section 833 of the Act) shall be prohibited. The Board shall establish a reserve to be called the capital reserve. During a Relevant Period, all surpluses arising from the realisation or revaluation of investments and all other monies realised on or derived from the realisation, payment or other dealing with any capital asset in excess of the book value thereof and all other monies which are considered by the Board to be in the nature of accretion to capital shall be credited to the capital reserve. Subject to the Act, the Board may determine whether any amount received by the relevant Company is to be dealt with as income or capital or partly one way and partly the other. During a Relevant Period, any loss realised on the realisation or payment or other dealing with investments, or other capital losses, and, subject to the Act, any expenses, loss or liability (subscription therefore) which the Board considers to relate to a capital item or which the Board otherwise considers appropriate to be debited to the capital reserve shall be carried to the debit of the capital reserve. During a Relevant Period, all sums carried and standing to the credit of the capital reserve may be applied for any of the purposes for which sums standing to any revenue reserve are applicable except and provided that during a Relevant Period no part of the capital reserve or any other money in the nature of accretion to capital shall be transferred to the revenue reserves of the Company or be regarded or treated as profits of the Company available for distribution (as defined in section 829 of the Act) or be applied in paying dividends on any shares in the Company. In periods other than a Relevant Period, any amount standing to the credit of the capital reserve may be transferred to the revenue reserves of the Company or be regarded or treated as profits of the Company available for distribution (as defined by section 829 of the Act) or applied in paying dividends on any shares in the Company.

4.16 General Meetings

Annual general meetings shall be held at such time and place as may be determined by the Directors and within a period of six months beginning on the day following the Company's accounting reference date.

The Directors may, whenever they think fit, convene a general meeting of the Company, and general meetings shall also be convened on such requisition or in default may be convened by such requisitionists as are provided by the Act. Any meeting convened under this Article by requisitionists shall be convened in the same manner as near to as possible as that in which meetings are to be convened by the Directors.

An annual general meeting shall be called by not less than twenty-one days' notice in writing, and all other general meetings of the Company shall be called by not less than fourteen days' notice in writing. The notice shall be exclusive of the day on which it is given and of the day of the meeting and shall specify the place, the day and hour of meeting, and in case of special business the general nature of such business. The notice shall be given to the members, other than those who, under the provisions of the articles or the terms of issue of the shares they hold, are not entitled to receive notice from the Company, to the Directors and to the Auditors. A notice calling an annual general meeting shall specify the meeting as such and the notice convening a meeting to pass a special resolution or an ordinary resolution as the case may be shall specify the intention to propose the resolution as such.

In every notice calling a meeting of the Company or any class of the members of the Company there shall appear with reasonable prominence a statement that a member entitled to attend and vote is entitled to appoint one or more proxies to attend and, on a poll, vote instead of them, and that a proxy need not also be a member.

If within half an hour from the time appointed for the meeting a quorum is not present, the meeting, if convened by or upon the requisition of members, shall be dissolved. In any other case it shall stand adjourned to such time and at such place as the Chairman shall appoint. At any such adjourned meeting the member or members present in person or by proxy and entitled to vote shall have power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place. The Company shall give not less than seven clear days' notice of any meeting adjourned for the want of a quorum and the notice shall state that the member or members present as aforesaid shall form a quorum.

The Chairman may, with the consent of the meeting (and shall, if so directed by the meeting) adjourn any meeting from time to time and from place to place. No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

4.17 Duration of the Company

The Directors shall put an ordinary resolution to the annual general meeting of the Company in 2025 and, if passed, to every fifth subsequent annual general meeting, proposing that the Company should continue as a Venture Capital Trust for a further five year period. If any such resolution is not passed, the Directors shall draw up proposals for the reorganisation, reconstruction or voluntary winding up of the Company for submission

to the members of the Company at an extraordinary general meeting to be convened by the Directors on a date not more than 9 months after such annual general meeting. The Directors shall use all reasonable endeavours to ensure that the proposals for the reorganisation, reconstruction or voluntary winding up of the Company as are approved by special resolution are implemented as soon as is reasonably practicable after passing of such a resolution.

For the purposes of this, an ordinary resolution will not have been carried only if those members in person or by proxy who vote against such resolution hold in aggregate not less than 25% of the issued share capital of the Company at such time entitled to attend and vote at such a meeting.

4.18 Distribution on winding up

The capital and assets of the Company attributable to the Ordinary Shares shall on a winding up or on a return of capital be distributed amongst the Ordinary Shareholders, pro rata according to the nominal capital paid up on their holdings of Ordinary Shares.
