Statement on Tinkoff Bank's RAS Financial Highlights for January - April 2018

Moscow, Russia - 29 May 2018. TCS Group Holding PLC (TCS LI) (the "Group"), Russia's leading provider of online retail financial services via its Tinkoff.ru financial supermarket, today announces Tinkoff Bank's unaudited RAS financial highlights for January - April 2018.

For the four months of 2018, net income stood at RUB 6bn, which is attributed to the growth of net interest income, lower cost of funding, improved quality of the loan portfolio and growth of revenue from new business lines.

It should be noted that the RAS net income figure is not a reliable indicator of IFRS net income for the same period. There is a very low correlation between financial results under the two reporting standards as a result of significant accounting differences. Therefore, RAS figures should not be used as the basis for conclusions on forthcoming IFRS results.

The gross loan portfolio amounted to RUB 182bn representing an increase of 39% y-o-y. The net loan portfolio amounted to RUB 153bn having increased by 41% y-o-y and constituted 53% of total assets (51% at year-end 2017).

Retail customer accounts stood at RUB 165bn. Tinkoff Bank continued to retain substantial liquidity: the CBR N2 ratio stood at 45% (minimum requirement: 15%), and the CBR N3 ratio was 145% (minimum requirement: 50%). Retail customer accounts constituted 68% of total liabilities.

Total assets increased by 56% y-o-y to RUB 289bn.

As of 1 May 2018, total capital including retained profits (based on Form 123) amounted to RUB 63.9bn. The CBR N1 capital adequacy ratio was 16.26%. Core Capital Adequacy Ratio (N1.1) was 10.15% and Main Capital Adequacy Ratio (N1.2) was 14.71%.

Note on RAS results

Please note that the figures in this press release are calculated in accordance with Tinkoff Bank's internal methodology which is available at:

<http://static.tinkoff.ru/documents/eng/investor-relations/ras-methodology.pdf>

RAS results are not a reliable indicator of IFRS results due to significant accounting differences that make a direct read-across from RAS to IFRS results impossible. The main differences between RAS and IFRS are:

- * Consolidated results under IFRS include a number of additional items and results of its subsidiaries
- * Accrual of expenses under IFRS
- * Timing differences in accounting for restructured loans ('instalments') and loans going through courts
- * The effect from the revaluation of currency derivative instruments
- * The effect of deferred income tax.
