LIMASSOL, CYPRUS - 11 March 2020. TCS Group Holding PLC (LI: TCS, MOEX: TCSG) ("Tinkoff", "We", the "Group", the "Company"), Russia's leading provider of online financial and lifestyle services via its Tinkoff ecosystem, today announces its IFRS financial results fourth quarter and twelve months ended 31 December 2019.

Oliver Hughes, CEO, commented:

"I'm happy to report that 2019 was another year of record-high profit, underpinned by the strength of both our credit and non-credit business lines. We saw 4.3 million new credit accounts opened in 2019 with net loans rising 66%, even as we retained our conservative approach to lending. Current accounts grew by 57% to 7.1 million, underpinned by the popularity of our lifestyle and financial ecosystem.

Tinkoff Investments made new strides, bringing more than 800 thousand new retail investors to Moscow Exchange in 2019, more than any other brokerage, as customers responded well to the straightforward, seamless approach to investing our tech solutions allow.

As the popularity of our investment offering continued to grow, we added more options for traders to interact with one another within the app. We've also decided to launch Russia's first commission-free exchange-traded fund (ETF) through Tinkoff Capital, the management company within our ecosystem.

We continued to innovate on the tech front, taking the next step in our ecosystem approach by launching Russia's first SuperApp. Now, customers can take care of nearly all of their lifestyle and financial needs, ranging from booking medical appointments to reserving restaurant tables and making bank transfers with just a few easy clicks without leaving the Tinkoff app.

While continuing to innovate, we remain one of the most profitable banks in the world, with ROE at 55.9% for 2019 and continue to focus on our bottom line as we expand our lifestyle and financial offering.

This year we're also undertaking one of our greatest marketing efforts, signing a title partnership agreement with the Russian Football Premier League. We hope this will help us further build customer loyalty, attract new customers and provide expanded possibilities for purchasing football tickets within the Tinkoff SuperApp."

Meanwhile, our risk-adjusted net interest margin decreased to 13.5% in 4Q'19 (4Q'18: 18.7%) due to the continued product diversification of our loan portfolio.

Our non-credit business lines continue to deliver robust performance thanks to customer base growth, and now represent over 36% of the Group's revenue.
