Steadright Engages Axiom Exploration Group

Huntsville, ON – April 2st, 2026 – Steadright Critical Minerals Inc. (**CSE: SCM**) (“**Steadright**” or the “**Company**”) is pleased to announce that as of April 1, 2026 they have engaged **Axiom Exploration Group Ltd.** (“**Axiom**”), a global leader in integrated geoscience solutions, to support the rapid advancement of its diversified portfolio of high-potential critical mineral projects in Morocco.

Axiom Group will work closely with Steadright’s technical advisors and in-country team to provide tailored expertise across exploration program design and management, advanced geophysical surveys (airborne and ground), multispectral satellite analysis, geological field services, data integration, predictive analytics, and technical reporting. These services will deliver high-resolution datasets, refined target generation, structural interpretation, and de-risked decision-making to fast-track Steadright’s path toward resource development.

Steadright’s portfolio includes several strategic assets with strong near-term potential:

- The fully permitted **historic Goundafa polymetallic mine** (copper-lead-zinc-silver-gold) in Morocco, offering immediate opportunities for stockpile processing and cash flow.
- The **Copper Valley** copper-lead-silver project in a proven mining district.
- The **TitanBeach** titanium heavy mineral sands project along Morocco’s Atlantic coast.
- Additional Moroccan assets through the licensed SilverLine Mining Sarl LOI (and the **RAM** Ni-Cu-Co-PGE project in Quebec’s Côte-Nord region, Canada).

“Axiom Group’s capabilities align perfectly with our strategy of progressing our properties in the shortest possible timeframe,” said Matt Lewis, CEO of Steadright Critical Minerals. “By leveraging Axiom’s professionalism and skills - and network of partners - we will enhance our understanding of mineralization controls, optimize exploration programs, and accelerate development across our growing portfolio of assets."

The engagement underscores Steadright's commitment to applying advanced geoscience methods to deliver measurable value, reduce exploration timelines, and position the Company for near-term success in the critical minerals sector.

About Steadright Critical Minerals Inc.

Steadright Critical Minerals is a mineral exploration company established in 2019. Steadright has been focused since late spring 2025 on finding exploration and historical mining projects that can be brought into production within the Moroccan critical mineral space. Steadright currently has exposure through a Moroccan entity known as NSM Capital Sarl, with over 192 sq KMs of mineral exploration claims called the TitanBeach Titanium Project, and found in the Southern Provinces of Morocco. Steadright also has signed a Binding MOU for the historic Goundafa Mine within the Kingdom of Morocco, has acquired the Copper Valley historic copper-lead-silver project and has an LOI with SilverLine Mining Sarl.

About Axiom Group

Axiom Group is a global provider of integrated geoscience that enable faster, more confident decisions for critical and industrial mineral resource development. Through leading technical expertise, advanced analytics, and innovative workflows, Axiom leads the way in delivering groundbreaking solutions that foster sustainable development across the globe.
