WESTERN STAR RESOURCES INC. 1020 – 800 West Pender Street Vancouver, B.C. V6C 2V6

Western Star Resources Signs MOU with The Real American Corp to Advance U.S. Expansion Strategy

Vancouver, British Columbia - September 16, 2025 - Western Star Resources Inc. (CSE: WSR; OTCQB:WSRIF) (the "Company" or "Western Star") is pleased to announce its presence in the United States, announcing today the signing of a Memorandum of Understanding (MOU) with The Real American Corp (http://realamericancorp.com), a Nevada-based company with a diversified portfolio of mining properties with a focus on Tungsten.

This partnership marks a significant milestone in Western Star's long-term growth strategy, leveraging its role as a property aggregator in its efforts to build an extensive land bank of strategic mineral assets to establish sustainable operations and capitalize on key opportunities in the U.S. market.

Real American holds a portfolio that includes assets containing strategic minerals, which U.S. government agencies recognize as critical to national security and the stability of domestic supply chains. These minerals are essential in defense, clean energy, and high technology sectors, highlighted by recent federal initiatives such as the establishment of the U.S. Strategic Minerals Reserve in Nevada. This collaboration aligns Western Star with these national priorities, positioning the company to contribute meaningfully to securing critical mineral supplies within the United States.

Through this MOU, Western Star leverages The Real American's local expertise and forward-thinking approach as an innovative growth partner. The partnership advances Western Star's commitment to deepening its footprint in the U.S., forging strong regional alliances, and driving operational growth that creates long-term value for shareholders and stakeholders.

To further align with this announcement and strengthen its Nevada-based relationships, Western Star will be submitting an application to become a member of the Nevada Mining Association (NVMA). Membership in NVMA will provide important access to the state's mining supply chain, advocacy resources, and industry networks, supporting Western Star's ambition to be an active participant in Nevada's mining community and contributing to the future of responsible mineral development.

Western Star will have more news regarding (NVMA) and its 100% owned fully Drill permitted Western Star Property and the US critical Metals Expansion soon.

About Western Star Resources

Western Star Resources is a mineral exploration and development company. The company's objective is to increase shareholder value through the development of exploration properties using cost-effective exploration practices, acquiring further exploration properties and seeking partnerships by either joint venture or sale with industry leaders. The company currently owns nine non-surveyed contiguous mineral claims totaling 4,797 hectares, which are located within the Revelstoke mining division of British Columbia. The Western Star property group is located approximately 50 kilometers southeast of Revelstoke, B.C., and roughly 10 kilometers north of the abandoned community of Camborne.
