GOLDEN RAPTURE MINING CORPORATION

Notes to Condensed Interim Financial Statements

For the six month period ended October 31, 2025 (Unaudited)

(Expressed in Canadian dollars)

1. Nature and continuance of operations

Golden Rapture Mining Corporation (the "Company") is a company incorporated in Canada pursuant to *The Canada Business Corporations Act* on August 29, 2022 and commenced operations in September of 2022. The address of the Company's head office is: 804 Barnes Link SW; Edmonton, Alberta; T6W 1E7.

The Company is a mineral resource company in the development stage that is engaged in the acquisition of interests in, and in the exploration of, mineral resource properties. During the year ended April 30, 2024, on March 8, 2024, the shares of the Company were listed on the Canadian Securities Exchange and began trading on March 12, 2024 under the symbol "GLDR".

Basis of presentation and continuance of operations

These condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of operations. There is significant doubt about the appropriateness of the use of the going concern assumption because the Company has experienced significant losses from operations during the current and prior periods since incorporation.

The Company has not yet determined whether its exploration and evaluation assets contain reserves that are economically recoverable, and accordingly, the success of any further exploration or development prospects cannot be assured. If the Company's exploration and development efforts are successful, additional funds may be required and the Company may not have sufficient funds to conduct the exploration required. The primary source of future funds available to the Company is through the issuance of additional share capital, which may dilute the interests of the existing shareholders.

These condensed interim financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate. If the going concern assumption was not appropriate, adjustments may be necessary to the carrying value of the assets and liabilities and the reported amounts of any revenue and expenses included in these condensed interim financial statements.

2. Basis of preparation

(a) Statement of compliance

These condensed interim financial statements are unaudited and have been prepared by management in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, using the same accounting policies and methods of computation as the most recent annual financial statements. There have been no changes to the Company's material accounting policies during the six month period ended October 31, 2025. These condensed interim financial statements should be read in conjunction with the Company's most recent annual financial statements for the year ended April 30, 2025, which were prepared in accordance with IFRS Accounting Standards (IFRS).

These condensed interim financial statements for the six month period ended October 31, 2025 were reviewed by the Audit Committee and approved and authorized for issue by the Company's Board of Directors on December 10, 2025. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending April 30, 2026 could result in restatement of amounts included in these unaudited condensed interim financial statements.

(b) Basis of measurement

These condensed interim financial statements have been prepared on a historical cost basis except for any financial instruments classified as financial instruments at fair value through profit or loss, which are stated at fair value.

2. Basis of preparation (continued)

(c) Use of estimates and judgments

The preparation of condensed interim financial statements in accordance with IFRS requires management to make estimates and assumptions and exercise judgment in applying the Company's accounting policies. These estimates, assumptions and judgments may affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed interim financial statements and the reported amounts of revenues and expenses during the interim period. Actual results may differ from these estimates.

Estimates and judgments made by management in the ongoing application of IFRS that have a significant effect on the condensed interim financial statements are disclosed below:

Valuation of exploration and evaluation assets

The value of exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves which in turn is dependent on future precious metals and mineral prices, future capital expenditures and environmental and regulatory restrictions. The decision to transfer assets from exploration and evaluation assets to property and equipment is based on estimated proven and probable reserves which are in part used to determine a project's technical feasibility and commercial viability.

Deferred tax assets

The valuation of deferred income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or less deferred tax assets, and future income tax provisions or recoveries could be affected. These estimates and judgments are reviewed and updated annually at each year end date.

Going concern and continuance of operations

These condensed interim financial statements have been prepared on the assumption that the Company is able to continue operations as a going concern. See Note 1 for additional information and disclosures relating to the going concern assumption.

5. Exploration and evaluation assets (continued)

(b) Fulford Township Gold Property option agreement

On February 10, 2023, the Company entered into an agreement to acquire a 100% interest in 40 claims identified as Fulford Township. Upon signing of the agreement, the Company paid \$10,000 and issued 125,000 common shares valued at \$12,500. On March 15, 2023, the agreement was amended and under the amended terms of the agreement the Company acquired an additional 20 claims resulting in a total of 60 claims. Upon signing of the amended agreement the Company paid \$1,500 and issued 100,000 common shares valued at \$10,000. On August 10, 2023, the Company paid \$10,000 and issued 150,000 common shares valued at \$15,000 under the terms of this agreement. On February 10, 2024, the Company paid \$20,000 and issued 175,000 common shares valued at \$17,500 under the terms of this agreement.

Prior to September 2, 2024, the vendor has retained a 1.5% Net Smelter Return ("NSR") in the property of which the Company had the right to purchase 0.5% of the NSR for \$500,000 at any time with the remaining 1.0% NSR being negotiable.

On September 2, 2024, the Company abandoned its interest in the Fulford Township Gold Property and recognized an exploration and evaluation asset impairment in the amount of \$96,900. The Company has no further commitments relating to this option agreement.

On May 15, 2025, the Company entered into a new agreement to acquire a 100% interest in 48 claims located in the Fulford Township. Upon signing of the agreement, the Company paid \$1,000 and issued 125,000 common shares valued at \$12,500. In addition, the Company has agreed to issue 125,000 common shares on or before May 15, 2026 (see also Note 14).

Pursuant to this new agreement, the vendor has retained a 2% NSR in the property of which the Company has the right to purchase 1.0% of the NSR for \$500,000 at any time with the remaining 1.0% NSR being negotiable.

(c) Phillip Township Gold Property option agreement

5. Exploration and evaluation assets (continued)

(c) Phillip Township Gold Property option agreement (continued)

On July 30, 2025, the Company entered into an option agreement whereby the Company granted the optionee the right to acquire a 51% undivided interest in the property for the first option and an additional 24% undivided interest in the property for the second option for a total interest of up to 75%. The optionee may exercise the first option by making a cash payment of \$50,000 on or before September 30, 2025, incurring expenditures of \$500,000 on the property on or before July 30, 2026 and incurring additional expenditures of \$500,000 on the property on or before July 30, 2027. The optionee may exercise the second option by making a cash payment of \$500,000 on or before July 30, 2027, incurring expenditures of \$500,000 on the property on or before July 30, 2028, incurring additional expenditures of \$500,000 on the property on or before July 30, 2029 and incurring additional expenditures of \$500,000 on the property on or before July 30, 2030.

On June 2, 2025, the Company entered into a Partnership Agreement to explore 4 patented mineral claims located directly adjacent to the Company's Phillip Township Property for a 5 year period. Pursuant to this agreement, the Company will become a 50% partner on the 4 patented mineral claims by conducting exploration on the claims, with all costs to be incurred by the Company. As at October 31, 2025, \$Nil costs were incurred by the Company pursuant to this agreement.

6. Equity drawdown facility and deferred financing charges

On March 10, 2023, the Company entered into a non-revolving equity drawdown facility ("the Facility") with Crescita Capital LLC ("Crescita") that allows the Company to utilize funding for an aggregate amount of \$5,000,000. The Company can draw down funds from the Facility from time to time during the three-year term ending March 10, 2026 at the Company's discretion by providing a notice ("Drawdown Notice") to the investor Crescita, and in return for each Drawdown Notice, the Company will allot and issue fully paid shares to Crescita.

In connection with this Facility, the Company paid a 3% commission in shares (1,500,000 common shares valued at \$150,000) and issued share purchase warrants equal to 8% of the outstanding shares of the Company at the time of closing of the Facility (1,395,000 share purchase warrants valued at \$92,236). Each fee warrant entitles the holder to acquire one additional non-flow-through common share of the Company at an exercise price of \$0.15 per warrant with an expiry of 36 months from the date of issuance (see also Note 9). The value of the financing fees is recorded as deferred financing charges on the statement of financial position and is being amortized as share issue costs based on the amount drawn down from the Facility. As at October 31, 2025, the carrying amount of the deferred financing charges is \$33,448 (April 30, 2025 - \$81,158).

7. Share capital

(a) Authorized:

Authorized share capital consists of an unlimited number of common shares.

(b) Details for shares issued during the year ended April 30, 2025 and the six month period ended October 31, 2025 are as follows:

- (i) On June 3, 2024, the Company closed a non-brokered private placement and issued 642,012 non-flow-through units at a purchase price of \$0.18 per unit for total cash proceeds of \$115,562. Each non-flow-through unit consists of one non-flow-through common share of the Company and one non-flow-through common share purchase warrant (Series G warrants). Each Series G warrant entitles the holder to acquire one additional non-flow-through common share of the Company at an exercise price of \$0.25 per warrant with an expiry of 36 months from the date of issuance. The value allocated to the warrants was \$32,100. The amount recorded to share capital of \$83,461 represents gross proceeds of \$115,561 less the value allocated to the warrants of \$32,100. Cash proceeds of \$47,261 for this share issuance were received during the year ended April 30, 2024.

Concurrently, the Company issued 50,000 flow-through units at a purchase price of \$0.25 per unit for total cash proceeds of \$12,500. Each flow-through unit consists of one flow-through common share of the Company and one-half of one non-flow-through common share purchase warrant (Series H warrants). Each Series H warrant entitles the holder to acquire one additional non-flow-through common share of the Company at an exercise price of \$0.35 per warrant with an expiry of 36 months from the date of issuance. The value allocated to the warrants was \$Nil. The cash proceeds of \$12,500 for this share issuance were received during the year ended April 30, 2024.

11. Financial instruments and financial risks

In the normal course of operations, the Company is exposed to various financial risks. Management's close involvement in the operations allows for the identification of risks and variances from expectations. The Company does not meaningfully participate in the use of financial instruments to mitigate these risks. The Company has no designated hedging transactions. The financial risks and management's risk management objectives and policies are as follows:

(i) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company. The Company is exposed to credit risk on certain of its financial assets which are cash and accounts receivable. Cash is held with an established Canadian financial institution and the Company's receivables are primarily from Canadian government entities, from which management believes the risk of loss to be remote. The Company does not have any derivatives or similar instruments that mitigate its maximum exposure to credit risk. As at October 31, 2025 the maximum exposure to credit risk is \$292,902 (April 30, 2025 - \$604,925).

(ii) Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. Management monitors the Company's liquidity by assessing forecast and actual cash flows and by maintaining adequate cash on hand. It is management's opinion that it is unlikely that the Company will encounter difficulty in raising funds to meet commitments associated with its financial instruments. As at October 31, 2025, the Company has a working capital balance in the amount of \$289,378 (April 30, 2025 - \$623,042).

12. Capital management

As the Company is in the exploration stage, its principal source of capital is from the issuance of share capital. The Company's capital management objective is to obtain sufficient capital to maintain its exploration programs for the benefit of its stakeholders. To meet its objectives, management monitors the Company's ongoing capital requirements against unrestricted net working capital and assesses additional capital requirements on specific exploration properties on a case by case basis. The Company is not subject to externally imposed capital requirements or restrictions. Management is of the opinion that the amounts and changes in the Company's capital is readily determinable from information provided in these condensed interim financial statements.

13. Commitment

During the year ended April 30, 2025, the Company entered into a Consultant Executive Agreement with Richard Rivet, an officer of the Company. Pursuant to the terms of the agreement, the Company has committed to make a payment of \$144,000 when there is either a change of control, a takeover, a shareholder vote, or upon the resignation of the officer or termination of the agreement for any reason.
