About Thunderbird Minerals Corp.

Thunderbird is a junior grassroots explorer focused on the discovery of new precious metal and copper projects through systematic exploration in metal endowed terranes located in tier one mining jurisdictions in North America. Thunderbird’s focus is to develop its portfolio of projects to the mineral resource stage. Thunderbird’s projects include its material property, the Bullseye property in the Wels District of the Yukon. The Company’s other properties are the Eagle Mountain gold property in the Cassiar Gold District in northern British Columbia and the Argo copper and gold property near Quesnel, British Columbia. Thunderbird continues to look for attractive properties throughout North America to add to its early-stage project pipeline.

ON BEHALF OF THE BOARD
