

Hybrid Power Solutions Secures Repeat Order from California Utility for Batt Pack Pro

Toronto, Ontario – May 13, 2025 – Hybrid Power Solutions Inc. (CSE: HPSS) (OTC: HPSIF) (FSE: E092) ("Hybrid" or the "Company") has secured a third order for its Batt Pack Pro from a leading California-based utility. This marks the utility's first order since their January 2025 delivery for critical field operations. This repeat order highlights the utility's trust in the product's reliability, durability, and value, reinforcing Hybrid Power Solutions' role as a trusted partner in energy innovation.

"We're incredibly proud to see one of California's largest utility providers returning for more units just months after their Q1 2025 delivery," said Francois Byrne, CEO of Hybrid Power Solutions. "It speaks volumes about our product's performance and the trust we've built through responsive service and proven reliability in the field."

To date, Hybrid has delivered 175 Batt Pack Pros to the utility with a subsequent order of 12 units placed in Q2 2025.

Key benefits of the Batt Pack Pro deployment based on an in-house case study, comparing against conventional fuel generators:

- \$5.9 million in projected savings over five years
- 78% reduction in installation time from 9 hours to 2 hours
- 13x longer product lifespan
- \$20+ daily fuel cost savings
- Minimal maintenance requirements – reducing costly repairs and fleet downtime
- Zero emissions, no fumes or noise – providing a safer and cleaner environment for crew members

As grid challenges, wildfire risk, and remote service needs increase across California and the western U.S., utility providers are seeking portable energy solutions that are safe, reliable, and emission-free.

Key Features & Advantages of the Batt Pack Pro:

- Silent, Emission-Free Operation – Ideal for tactical environments and noise-sensitive locations
- Rugged & Portable – Compact and durable for field deployment,
- Fast Recharge Capabilities – Can be recharged via wall outlet, alternator, generator, or solar
- No Maintenance Required – 100% battery-powered with zero fumes or fuel costs
- Reliable Output – Up to 10,000W peak power to handle demanding mission equipment

About Hybrid Power Solutions

Hybrid Power Solutions Inc. is a Canadian clean energy innovator listed on the Canadian Securities Exchange under the symbol "HPSS." The Company specializes in developing portable power systems that eliminate the need for fossil fuels in off-grid and remote applications. With a focus on environmental responsibility and technological innovation, Hybrid Power Solutions is committed to leading the clean energy transition.

On behalf of the Company,

Francois Byrne, CEO and Director
