We spent 34% more than the comparable quarter in 2024 which continues to move the Company towards Phase I clinical trials. Our investment will continue as we aim for our next milestone of entering Phase I clinical trials in 2026.”

About Sharp Therapeutics Corp.

First-Choice Therapies for Genetic Diseases

Sharp Therapeutics is a pre-clinical stage company developing first-choice small-molecule therapeutics for genetic diseases. The Company’s discovery platform combines novel high throughput screening technologies, with compound libraries computational optimized based on the physics and biology of cellular trafficking defects and allosteric activation of proteins. The platform produces small molecule compounds that restore activity in mutated proteins giving the potential to treat genetic disorders with conventional pill-based medicines.
