Investment objectives

The aim of Albion Enterprise VCT (the 'Company') is to provide investors with a regular and predictable source of income, combined with the prospect of longer term capital growth. Once invested, the Company intends to achieve this by investing up to 50 per cent of the net funds raised in an asset-based portfolio of lower risk, ungeared businesses, principally operating in the leisure sector and related areas (the 'Asset-Based Portfolio'). The balance of the net funds raised, other than funds retained for liquidity purposes, will be invested in a growth portfolio of higher growth businesses across a variety of sectors of the UK economy. These will range from lower risk, income producing businesses to higher risk technology companies (the "Growth Portfolio"). Funds awaiting investment in Qualifying Investments or retained for liquidity purposes will be held in gilts, on deposit or invested in floating rate notes or similar instruments in the latter two cases with banks with a Moody's credit rating of A or above.

The Company's investment portfolio will thus be structured to provide a balance between income and capital growth for the longer term. The Asset-Based Portfolio is designed to provide stability and income whilst still maintaining the potential for capital growth. The Growth Portfolio is intended to provide highly diversified exposure through its portfolio of investments in unquoted UK companies.

Interim management report

Introduction

Your Company's results for the six months to 30 September 2010 show a total return of 1.34 pence per share. This is encouraging progress against a continued, subdued economic background, as the investment portfolio continues to be built up, income increased by over 30 per cent against the same period last year while a number of our portfolio companies are beginning to show increasing progress. Net asset value, after the payment of the first dividend for the year of 1.5 pence per share on 7 August 2010 was 88.10 pence per share.

Investment progress and prospects

The investment portfolio continues to be built up in line with the VCT's strategy, of balancing an asset-based with a growth portfolio. During the period, some £4.0 million was committed for investment in three portfolio companies. This included £1.7 million in Radnor House School, a new independent school being developed as a freehold site on the Thames at Twickenham, £1.3 million in TEG Biogas (Perth), which is developing a waste-to-energy power station in Scotland and £980,000 in Masters Pharmaceuticals, a distributor of pharmaceuticals to the developing world in particular Central and South America.

As regards the existing portfolio, strong performance was seen from Dexela, which develops imaging products for the cancer diagnostics market, Mirada Medical, which produces software products, again for the cancer diagnostics market and Point 35 Microstructures, which designs and manufactures capital equipment for the semi-conductor market. In addition, Geronimo Inns, which owns and operates four landmark freehold pubs in central London, showed continued growth. Against this, the rapid market penetration seen to date at Opta Sports Data has shown signs of slowing, resulting in a partial provision against the investment.

Looking forwards, your Company still has sufficient cash resources to take advantage of the many opportunities that are currently arising. The two key areas for investment that we are currently concentrating on are the broader healthcare market (ranging from care services to medical technology) and the environment (concentrating particularly on renewable energy projects). We believe that both these areas will provide a good source of growth in

the future and that opportunities are currently available at attractive values.

The following shows the current split of the investment portfolio by sector and by nature of investment.

Albion VCTs Linked Top Up Offer

On 1 November 2010, the Company announced the launch of the Albion VCTs Linked Top Up Offer. In aggregate, the Albion VCTs will be aiming to raise up to £15 million across all of the seven VCTs managed by Albion Ventures LLP, of which the Company's share will be approximately £2.25 million.

The maximum amount raised by each of the Albion VCTs will be the lower of Euros 2.5 million, and 10 per cent of its issued share capital (over any one 12 month period, and including any shares issued under Dividend Reinvestment Schemes), being the amount that they may issue under the Prospectus Rules without the publication of a full prospectus. The number of new shares available may change depending on the £/euro exchange rate at the date of allotment.

The proceeds of the Offer will be used to provide further resources to the Albion VCTs at a time when

a number of attractive new investment opportunities are being seen

Risks and uncertainties

The outlook for the UK economy continues to be the key risk affecting your Company. Although current indications are that renewed growth in the UK economy has become more firmly established, continuing uncertainty remains as to the impact on the economy of the Coalition Government's impending public spending cuts. Your Company continues however to be cash generative while investment risk is mitigated through our policy of ensuring that the Company has a first charge over portfolio companies' assets. Meanwhile, opportunities within our target sectors continue to arise at attractive valuations including the healthcare sector which continues to be one of our core areas of concentration.

Other risks and uncertainties remain unchanged, and are as detailed on pages 17 and 18 of the Annual Report and Financial Statements for the year ended 31 March 2010.

Related party transactions

Details of material related party transactions for the reporting period can be found in note 12 to this Half-yearly Financial Report.

Results and dividends

As at 30 September 2010, the net asset value of the Company was 88.10 pence per share or £26.7 million, compared to 88.25 pence on 31 March 2010, or £26.8 million. The return on ordinary activities before taxation was £290,000 compared to £184,000 for the six months to 30 September 2009. The Directors declare a second dividend for the year of 1.5 pence per share payable on 28 February 2011 to shareholders on the register on 28 January 2011.

The total column of this Summary income statement represents the profit and loss account of the Company. The supplementary revenue and capital columns have been prepared in accordance with the Association of Investment Companies' Statement of Recommended Practice.

All revenue and capital items in the above statement derive from continuing operations.

There are no recognised gains or losses other than the results for the periods disclosed above. Accordingly, a Statement of total recognised gains and losses is not required.

The difference between the reported loss on ordinary activities before tax and the historical profit is due to the fair value movements on investments. As a result a note on historical cost profit and losses has not been prepared.

Notes to the unaudited summarised financial statements for the six months ended 30 September 2010

1 Accounting convention

The Financial Statements have been prepared in accordance with the historical cost convention modified to include the revaluation of investments, in accordance with applicable United Kingdom law and accounting standards and with the Statement of Recommended Practice "Financial Statements of Investment Trust Companies and Venture Capital Trusts" (SORP) issued by the Association of Investment Companies (AIC) in January 2009. Accounting policies have been applied consistently in current and prior periods.

2 Accounting policies

Investments

Unquoted equity investments

In accordance with FRS 26 'Financial Instruments Recognition and Measurement' unquoted equity investments are designated as fair value through profit or loss ('FVTPL'). Unquoted investments' fair value is determined by the Directors in accordance with the International Private Equity and Venture Capital Valuation Guidelines (IPEVCV guidelines).

Fair value movements on equity investments and gains and losses arising on the disposal of investments are reflected in the capital column of the Income statement in accordance with the AIC SORP. Realised gains or losses on the sale of investments will be reflected in the realised capital reserve and unrealised gains or losses arising from the revaluation of investments will be reflected in the unrealised capital reserve.

Unquoted loan stock

Unquoted loan stock is classified as loans and receivables in accordance with FRS 26 and carried at amortised cost using the Effective Interest Rate method less impairment. Movements in the amortised cost relating to interest income are reflected in the revenue column of the Income statement, and hence are reflected in the revenue reserve, and movements in respect of capital provisions are reflected in the capital column of the Income statement and are reflected in the realised capital reserve following sale or in the unrealised capital reserve on revaluation.

For all unquoted loan stock whether fully performing, re-negotiated, past due or impaired the Board considers that the fair value is equal to or greater than the security value of these assets. For unquoted loan stock, the amount of the impairment is the difference between the asset's cost and the present value of estimated future cash flows discounted at the effective interest rate.

Floating rate notes

In accordance with FRS 26, floating rate notes are designated as FVTPL. Floating rate notes are valued at market bid price at the balance sheet date. Floating rate notes are classified as current asset investments as they are investments held for the short term.

Investments are recognised as financial assets on legal completion of the investment contract and are de recognised on legal completion of the sale of an investment.

Loan stock accrued interest is recognised in the Balance sheet as part of the carrying value of the loans and receivables at the end of each reporting period.

It is not the Company's policy to exercise control or significant influence over portfolio companies. Therefore in accordance with the exemptions under FRS 9 Associates and joint ventures those undertakings in which the Company holds more than 20 per cent of the equity are not regarded as associated undertakings.

Investment income

Unquoted equity income

Dividend income is included in revenue when the investment is quoted ex-dividend.

Unquoted loan stock and other preferred income

Fixed returns on non equity shares and debt securities are recognised on a time apportionment basis using the effective interest rate over the life of the financial instrument. Income which is not capable of being received within a reasonable period of time is reflected in the capital value of the investment.

Bank interest income

Interest income is recognised on an accruals basis using the rate of interest agreed with the bank.

Floating rate note income

Floating rate note income is recognised on an accruals basis using the interest rate applicable to the floating rate note at that time.

Investment management fees and other expenses

All expenses have been accounted for on an accruals basis. Expenses are charged through the revenue account except the following which are charged through the realised capital reserve:

- 75 per cent of management fees are allocated to the capital account to the extent that these relate to an enhancement in the value of the investments. This is in line with the Board's expectation that over the long term 75 per cent of the Company's investment returns will be in the form of capital gains and
- expenses which are incidental to the purchase or disposal of an investment are charged through the realised capital reserve.

Under the terms of the management agreement, total expenses including management fees and excluding performance fees will not exceed 3.5 per cent of the net asset value per annum.

Performance incentive fee

In the event that a performance incentive fee crystallises, the fee will be allocated between revenue and realised capital reserves based upon the proportion to which the calculation of the fee is attributable to revenue and capital returns.

Taxation

Taxation is applied on a current basis in accordance with FRS 16 Current tax. Taxation associated with capital expenses is applied in accordance with the SORP. In accordance with FRS 19 "Deferred tax" deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax or a right to pay less tax at a future date at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the Financial Statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.

The specific nature of taxation of venture capital trusts means that it is unlikely that any deferred tax will arise. The Directors have considered the requirements of FRS 19 and do not believe that any provision should be made.

Reserves

Unrealised capital reserve

Increases and decreases in the valuation of investments held at the period end against cost are included in this reserve.

Special reserve

The cancellation of the share premium account has created a special reserve that can be used to fund market purchases and subsequent cancellation of own shares to cover gross realised losses and for other distributable purposes.

Reserves

Treasury shares reserve

This reserve accounts for amounts by which the distributable reserves of the Company are diminished through the repurchase of the Company's own shares for treasury.

Realised capital reserve

The following are disclosed in this reserve:

- gains and losses compared to cost on the realisation of investments and
- expenses together with the related taxation effect charged in accordance with the above policies.

Dividends

In accordance with FRS 21 "Events after the balance sheet date" dividends declared by the Company are accounted for in the period in which the dividend has been paid or approved by shareholders in an Annual General Meeting.

There are no convertible instruments, derivatives or contingent share agreements in issue for Albion Enterprise VCT PLC hence there are no dilution effects to the return per share. The basic return per share is therefore the same as the diluted return per share.

The Company's policy is to sell treasury shares at a price greater than the purchase price hence the net asset value per share on a diluted basis would be equal to or greater than the basic net asset value per share depending on the actual price achieved for selling the treasury shares.

11 Post balance sheet events

Since 30 September 2010 the Company has completed the following material transactions

- Investment of £340,000 in Bravo Inns II Limited
- Investment of £222,000 in Mirada Limited

On 1 November 2010 the Company announced the launch of the Albion VCTs Linked Top Up Offer. In aggregate the Albion VCTs will be aiming to raise up to £15 million across all of the seven VCTs managed by Albion Ventures LLP of which the Company's share will be approximately £2.25 million.

The maximum amount raised by each of the Albion VCTs will be the lower of Euros 2.5 million and 10 per cent of its issued share capital (over any one 12 month period and including any shares issued under Dividend Reinvestment Schemes), being the amount that they may issue under the Prospectus Rules without the publication of a full prospectus. The number of new shares available may change depending on the £/euro exchange rate at the date of allotment.

The proceeds of the Offer will be used to provide further resources to the Albion VCTs at a time when a number of attractive new investment opportunities are being seen.

An Investor Guide and Offer Document have been sent to shareholders.

12 Related party transactions

The Manager, Albion Ventures LLP, is considered to be a related party by virtue of the fact that Patrick Reeve, a Director of the Company, is also a Partner of the Manager. The Manager is party to a management agreement from the Company.

13 Going concern

The Board's assessment of liquidity risk remains unchanged since the last Annual Report and Financial Statements for the year ended 31 March 2010 and is detailed on page 45 of those accounts. The Company has significant cash and liquid resources. The portfolio of investments is diversified in terms of sector, and the major cash outflows of the Company (namely investments, buy-backs and dividends) are within the Company's control. Accordingly after making reasonable enquiries the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason the Directors have adopted the going concern basis in preparing this Half-yearly Financial Report and this is in accordance with 'Going Concern and Liquidity Risk: Guidance for Directors of UK Companies 2009' published by the Financial Reporting Council.

14 Other information

The information set out in this Half-yearly Financial Report does not constitute the Company's statutory accounts within the terms of section 434 of the Companies Act 2006 for the periods ended 30 September 2010 and 30 September 2009 and is unaudited. The information for the year ended 31 March 2010 does not constitute statutory accounts within the terms of section 434 of the Companies Act 2006 and is derived from the statutory accounts for the financial year, which have been delivered to the Registrar of Companies. The auditors reported on these accounts: their reports were unqualified and did not contain statements under s498 (2) or (3) of the Companies Act 2006.

15 Publication

This Half-yearly Financial Report is being sent to shareholders and copies will be made available to the public at the registered office of the Company: Companies House, the National Storage Mechanism and also electronically at www.albion-ventures.co.uk under the 'Our Funds' section.
