The share repurchase underpins the board's confidence in the company's robust cash generation and long-term growth trajectory.

The Board considered the effect of the repurchase and believes that for a period of twelve months following the date of this announcement:

- the Company and the Group will be able in the ordinary course of business to pay its debts;
- the assets of the Company and the Group will be more than the liabilities of the Company and the Group. For this purpose, the assets and liabilities were recognised and measured in accordance with the accounting policies used in the latest audited annual Group financial statements;
- the share capital and reserves of the Company and the Group will be adequate for ordinary business purposes;
- the working capital of the Company and the Group will be adequate for ordinary business purposes; and
- the Company and the Group have passed the solvency and liquidity test and since the test was performed, there have been no material changes to the financial position of the Group.

The repurchase was made through the order book of the JSE, without any prior understanding or arrangement between the Company and the counter parties. None of the repurchases were effected during a prohibited period. The repurchase was funded from the Group's available cash resources. The impact on other areas of the Company's financial information is immaterial.
