Anglo American is a leading global mining company focused on the responsible production of copper, premium iron ore and crop nutrients – future-enabling products that are essential for decarbonising the global economy, improving living standards, and food security. Our portfolio of world-class operations and outstanding mineral endowments offers value-accretive growth potential across all three businesses, positioning us to deliver into structurally attractive major demand growth trends.

Our integrated approach to sustainability and innovation drives our decision-making across the value chain, from how we discover new resources to how we mine, process, move and market our products to our customers – safely, efficiently and responsibly. Our Sustainability Strategy commits us to a series of stretching goals over different time horizons to ensure we build trust as a corporate leader, contribute to a healthy environment and help create thriving communities. We work together with our business partners and diverse stakeholders to unlock enduring value from precious natural resources for our shareholders, for the benefit of the communities and countries in which we operate, and for society as a whole. Anglo American is re-imagining mining to improve people's lives.

Anglo American is currently implementing a number of major structural changes to unlock the inherent value in its portfolio and thereby accelerate delivery of its strategic priorities of Operational excellence, Portfolio optimisation, and Growth. The sale of our steelmaking coal and nickel businesses and the separation of our iconic diamond business (De Beers) continue to progress and once completed, will focus Anglo American on its world-class resource asset base in copper, premium iron ore and crop nutrients.
