INLAND ZDP PLC

STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2015

The company

Inland ZDP plc was incorporated on 22 November 2012 and has a capital structure comprising unlisted ordinary shares and zero dividend preference shares ('ZDP shares') listed on the Official List and traded on the London Stock Exchange. The company's ordinary share capital is wholly owned by Inland Homes 2013 Limited which is a wholly owned subsidiary of Inland Homes plc ('Inland'), which has a principal activity of acquiring residential and mixed use sites and seeking planning consent for development. Inland develops a number of the plots for private sale and sells consented plots to housebuilders.

On 14 December 2012, the company placed 8,500,000 ZDP shares at 100p per share and this placing raised a total of £8.08m of net proceeds. A further placing of 849,900 ZDP shares at 103p per share took place on 23 January 2013, raising £0.85m of net proceeds. On 14 March 2014, the company placed 934,900 ZDP shares at 118.5p per share, raising £1.06m of net proceeds. Pursuant to a loan agreement between the company and Inland, the company has lent Inland the gross proceeds of its placings and all issue costs were borne by Inland. This loan is on terms requiring its repayment by Inland to the company on the ZDP shares repayment date of 10 April 2019.

Investment objective and investment policy

The objective of the company is to provide the final capital entitlement of the company's ZDP shares to the holders of the ZDP shares at the repayment date of 10 April 2019.

Principal risks and uncertainty and risk management

The board believes that the principal risk faced by the company is the credit risk associated with the loan made to its ultimate parent company, Inland Homes plc. The specific risks faced by Inland Homes plc are included within its financial statements and comprise: the inability to source, acquire, promote and dispose of land; the increased complexity in the planning process and the adoption of the Community Infrastructure Levy; a severe fall in the housing market in the regions in which the group operates; inability to source high calibre and experienced staff; significant upward changes in interest rates; unexpected contamination being found on a site; changes in legislation; cost overruns, material shortages and construction delays; and the availability of bank funding. The directors of the company are also directors of the ultimate parent company and are therefore in a position to assess the recoverability of amounts due by Inland Homes plc.

The company is also exposed to risks in relation to its financial instruments. Further details of these risks and the way in which they are managed are contained in note 9 to the financial statements.

Key performance indicators

The key performance indicators used by the board to measure the company's success are the cover ratio (which is described in detail in the chairman's statement), the accrued capital entitlement and the price of the ZDP shares.

	2015	2014
	£000	£000
Accrued capital entitlement per ZDP share	120.29p	111.34p
ZDP share price	132.75p	124.00p

INLAND ZDP PLC

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2015

Key performance indicators (continued)

The accrued capital entitlement will continue to increase as the repayment date approaches.

It is anticipated that the ZDP share price will be higher than the accrued entitlement as it will reflect the fixed nature of the return. As interest rates remain low, there will be a premium on the ZDP shares as the return is higher than is generally available elsewhere. It is unlikely that the share price will exceed the ultimate repayment price of 155.9p per share.

CHAIRMAN'S STATEMENT

FOR THE YEAR ENDED 30 JUNE 2015

I am pleased to present the company's annual report and financial statements for the year ended 30 June 2015.

The results for the period are shown in the financial statements on pages 12 to 20. As at 30 June 2015 the ZDP share price was 132.75p (2014: 124.00p), representing a premium of 10.36% (2014: 11.4%) over the net asset value per ZDP share of 120.29p (2014: 111.34p).

The loan and contribution agreements between the company and Inland contain certain protections for the company which are intended to benefit its ZDP shareholders. These include first charges over pledged assets (property) and pledged cash in a charged bank account. The pledged assets must have a book value of at least 120% of the accrued value of the ZDP shares net of the pledged cash. As at 30 June 2015, the accrued amount due to ZDP shareholders was £12,371,867 (2014: £11,451,154), the pledged cash was £21,000,000 (2014: £10,471,000) and the pledged assets had a book value of £18,769,671 (2014: £20,746,770), thereby satisfying this requirement.

The loan agreement also contained two covenants relating to asset cover and gearing, both of which are shown below as at 30 June 2015. The definitions of Assets and Financial Indebtedness are set out in the prospectus published in connection with the issue of the ZDP shares which is available at www.inlandhomes.co.uk/inland-zdp-plc.

Asset cover:

Assets/Financial Indebtedness plus ZDP Final Redemption Liability = 3.8 times cover

The Cover Ratio should be in excess of 1.8 times, so this test was satisfied as at 30 June 2015

Gearing:

Financial Indebtedness plus ZDP accrued liability / Assets 21.5%.

The gearing ratio should not exceed 40% so this covenant was also satisfied at 30 June 2015.

The board believes that the use of book values is generally conservative, because a substantial proportion of the group's assets are properties for which planning consents are sought. The planning process takes time and any progress towards reaching the stage when building can commence is not reflected in an increase in the book values beyond the costs attributable to the relevant sites, whereas any diminution in value is reflected by way of impairment provisions, such that planning gains are not generally recognised in Inland's financial statements until sales are contracted. If the covenant ratios were to be calculated by reference to the market values of the assets, the cover would be higher and the gearing lower.

INLAND ZDP PLC

CHAIRMAN'S STATEMENT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2015

The Board was disappointed by Morningstar's decision to cease their regular publication of financial statistics relating to the ZDP Shares. The Company publishes the accrued value, Asset Cover and gearing ratio statistics for the ZDP Shares as at the end of March, June, September and December in each year. At 30 June 2015, the Inland Group's Assets (as defined for the Asset Cover ratio) were £147.64m (2014 £97.40m) and its Financial Indebtedness was £38.57 m (2014 £33.29m) resulting in an Asset Cover ratio of 3.8 times (2014 2.9 times). Details of how the Asset Cover ratio is determined are set out in the Prospectus for the ZDP Shares dated 14 December 2012, which is available at www.inlandhomes.co.uk.

INLAND ZDP PLC

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2015

The directors submit the annual report and financial statements of the company for the year ended 30 June 2015.

The financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRS') as adopted by the EU. There was no profit available for dividends for the period.

Principal activity and status

The company is a wholly owned subsidiary of Inland Homes 2013 Limited which is a wholly owned subsidiary of Inland Homes plc, incorporated in England & Wales, which has a principal activity of acquiring residential and mixed use sites and seeking planning consent for development. Inland develops a number of the plots for private sale and sells consented plots to housebuilders. Inland owns the entire issued ordinary share capital of the company.

The company's registration number is 8303612.

Share capital

Ordinary shares

The issued ordinary share capital of the company at 30 June 2015 amounted to 50,000 ordinary shares of £1 each (2014: 50,000).

On a winding up of the company, after satisfying all liabilities, including obligations to the holders of ZDP shares, ordinary shareholders are entitled to receive the surplus assets of the company available for distribution. Ordinary shareholders have the right to receive notice of, and attend and vote at any general meetings of the company.

Zero dividend preference shares

At 30 June 2015 there were a total of 10,284,800 ZDP shares of 10p each in issue (2014: 10,284,800).

In accordance with the company's Articles of Association, the ZDP shares carry no entitlement to any dividends or other distributions or to participate in the revenue or any other profits of the company. The ZDP shareholders have no right to receive notice of, or to attend or vote at, any general meeting of the company except in those circumstances set out in the company's Articles of Association, which would be likely to affect their rights or general interests. The final capital entitlement for the ZDP shares is not guaranteed should Inland's net assets be insufficient on the repayment date. The security provided to the company, from which ZDP shareholders benefit, and the covenants that Inland must adhere to are detailed in the chairman's statement.

Board of directors

The board of directors is responsible for the overall stewardship of the company including investment and dividend policies, corporate strategy, corporate governance and risk management. Biographical details of all the directors, all of whom are non-executive, can be found on page 5. All directors are also directors of the company's parent company, Inland Homes plc.

None of the directors has had any interest in the ordinary shares or the ZDP shares of the company at any time during the period. The directors' interests in the shares of Inland, the company's ultimate parent company, are shown in Inland's annual report and financial statements for the year ended 30 June 2015.

DIRECTORS' REPORT (CONTINUED)
FOR THE YEAR ENDED 30 JUNE 2015

Board of directors (continued)

Directors will retire where they have been a director at each of the two preceding annual general meetings (AGM) but have not been appointed or re-elected in any of those two AGMs. As Mr Stephen Wicks, Mr Nishith Malde and Mr Paul Brett all retired and were re-elected at the AGM at which the 2013 accounts were presented, no directors will be retiring this year.

The board has carefully considered the independence of each director and, notwithstanding the cross-directorships detailed above, has concluded that each director is wholly independent as none of the directors hold a beneficial interest in the company and none are ZDP shareholders. The directors believe that the board has an appropriate balance of skills and experience, independence and knowledge of the company to enable it to provide effective strategic leadership and proper governance of the company.

Given the nature of the company's business and the number of directors, the directors have not established separate committees of the board but deal with all business themselves.

The board confirms that the performance of each of the directors continues to be effective, which is illustrated by the compliance with the covenants at each quarter end, and demonstrates commitment to the role. The board therefore believes that it is in the interest of shareholders that these directors remain in office.

Directors' indemnities

As at the date of this report, indemnities are in force between Inland and each of its directors under which the company has agreed to indemnify each director, to the extent permitted by law, in respect of certain liabilities incurred as a result of carrying out his or her role as a director of Inland and the company. The directors are also indemnified against the costs of defending any criminal or civil proceedings or any claim by Inland or the company or a regulator as they are incurred provided that where the defence is unsuccessful, the director must repay those defence costs to the company. The indemnities are qualifying third party indemnity provisions for the purposes of the Companies Act 2006. A copy of each deed of indemnity is available for inspection at the company's registered office during normal business hours.

Conflicts of interest

Under the Companies Act 2006 a director must avoid a situation where he or she has, or can have, a direct or indirect interest that conflicts, or possibly may conflict with the company's interests. The requirement is very broad and could apply, for example, if a director becomes a director of another company or a trustee of another organisation. The Companies Act 2006 allows directors of public companies to authorise conflicts and potential conflicts, where appropriate, where the Articles of Association contain a provision to approve such situations.

The company maintains a register of directors' conflicts of interest which have been disclosed and approved by the other directors. This register is kept up to date and the directors are required to disclose to the board of directors any changes to conflicts or any potential new conflicts.

Compliance with corporate governance

The company is committed to high standards of corporate governance and the board is accordingly accountable to the company's shareholders for good governance. However, as the company has only ZDP shares listed, it is not required to comply with the UK Corporate Governance Code but is committed to appropriately high standards of corporate governance.

Compliance with corporate governance (continued)

Further detailed disclosures relating to the corporate governance procedures of the group can be found in the annual report of the ultimate parent company, Inland Homes plc, which is available on Inland's website (www.inlandhomes.co.uk).

Community, employee and environmental issues

In carrying out its activities and in its relationships with the community, the company aims to conduct itself responsibly, ethically and fairly. The company has no employees and the board is comprised entirely of non-executive directors.

Going concern

The directors believe that the company has the ability to meet its financial obligations as they fall due for a period of at least twelve months from the date of approval of the financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Financial instruments

The company's financial instruments comprise debtors and creditors that arise directly from its operations. The financial risk management objectives and policies arising from its financial instruments and the exposure of the company to risk are disclosed in note 9 to the financial statements.

Significant agreements

These funds are to be managed in accordance with the investment policy of Inland Homes plc.

Disclosure of information to auditors

The directors confirm that, so far as each of them are aware, there is no relevant audit information of which the company's auditors are unaware and the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Auditor

A resolution to reappoint Grant Thornton UK LLP as auditor for the ensuing year will be proposed at the AGM in accordance with Section 489 of the Companies Act 2006.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Responsibility statements under the disclosure and transparency rules

Each of the directors confirms that to the best of his knowledge:

- the financial statements, prepared in accordance with IFRS as adopted by the European Union, give a true and fair view of the assets, liabilities, financial position and profit or loss of the company; and

The principal accounting policies adopted in the preparation of the financial statements are set out below.

1.1 Basis of preparation

The financial information has been prepared in accordance with the Companies Act 2006 and International Financial Reporting Standards ('IFRS') as adopted by the European Union. The financial information comprises the Statement of Financial Position as at 30 June 2015 and, for the year ended 30 June 2015, the related Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and related notes hereinafter referred to as 'financial information'. The principal accounting policies adopted by the company are set out below.

The accounting policies that have been applied in the opening Statement of Financial Position have also been applied throughout all periods presented in these financial statements. These accounting policies comply with each IFRS that is mandatory for accounting periods ending on 30 June 2015. IFRS13 Fair Value Measurement became mandatory for the first time for the financial year beginning 1 July 2013 but has had no material impact on the results of the company for the year ended 30 June 2015.

At the date of approval of these financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the company.

Management anticipates that all of the relevant pronouncements will be adopted in the company's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the company's financial statements is provided below.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the company's financial statements.

- IFRS10 Consolidated Financial Statements
- IFRS11 Joint Arrangements
- IFRS12 Disclosure of Interests in Other Entities
- IAS27 (Revised) Separate Financial Statements

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 30 JUNE 2015

1 Accounting policies (continued)

1.2 Revenue

Interest income is recognised in revenue using the effective interest method on an accruals basis.

1.3 Expenses

All expenses are borne by the company's parent company, Inland Homes plc.

1.4 Zero dividend preference shares

Zero dividend preference shares are recognised as liabilities in the Statement of Financial Position in accordance with IAS 32 Financial Instruments: Presentation. After initial recognition, these liabilities are measured at amortised cost, which represents the initial proceeds of the issuance plus the accrued entitlement to 30 June 2015.

1.5 Intercompany receivable

Intercompany receivables are recognised as assets in the Statement of Financial Position in accordance with IAS 32 Financial Instruments: Presentation. After initial recognition they are measured at amortised cost which represents the initial loan plus the accrued interest receivable at the reporting date.

1.6 Finance costs

Finance costs are calculated as the difference between the proceeds on the issue of zero dividend preference shares and the final liability and are charged as finance costs over the term of the life of these shares using the effective interest method.

1.7 Taxation

The charge for taxation is based on the taxable profits for the period. Taxable profit differs from profit before tax as reported in the Statement of Comprehensive Income because it excludes items of income or expenses that are never taxable or deductible. The company's liability for tax is calculated using rates that have been enacted or substantively enacted by the reporting date.

1.8 Deferred taxation

Taxation deferred or accelerated can arise due to temporary differences between treatment of certain items for accounting and taxation purposes. Full provision for deferred taxation is made under the liability method, without discounting, on all temporary differences that have arisen, but not reversed, by the reporting date.

1.9 Equity

An equity instrument is a contract which evidences a residual interest in the assets after deducting all liabilities. Equity comprises the following:

- 'Share capital' represents the nominal value of equity shares.

1.10 Key estimates and assumptions

Estimates and judgements used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed reasonable. The resulting estimates will, by definition, seldom equal the related actual results.

The company has entered into two agreements with its ultimate parent company, an interest free loan note agreement and an asset contribution agreement covering the final repayment of external ZDP liabilities. The directors consider that to correctly reflect the substance of the transactions these should be accounted for as one financial instrument.

Consequently, all information presented in these financial statements relate to that segment.

9 Financial instruments (continued)

The following table presents the fair value of financial liabilities that are carried at amortised cost in the Statement of Financial Position in accordance with the fair value hierarchy. This hierarchy groups financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the liability that are not based on observable market data (unobservable inputs).

The level within which the financial liability is classified is determined based on the lowest level of significant input to the fair value measurement.

If the financial liabilities were measured at fair value in the Group Statement of Financial Position they would be grouped into the fair value hierarchy as follows:

	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Net fair value at 1 July 2014	12,753	—	—	12,753
