INLAND ZDP PLC

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2016

The company

Inland ZDP plc was incorporated on 22 November 2012 and has a capital structure comprising unlisted ordinary shares and zero dividend preference shares ('ZDP shares') listed on the Official List and traded on the London Stock Exchange. The company's ordinary share capital is wholly owned by Inland Homes 2013 Limited which is a wholly owned subsidiary of Inland Homes plc ('Inland'), which has a principal activity of acquiring residential and mixed use sites and seeking planning consent for development. Inland develops a number of the plots for private sale and sells consented plots to housebuilders.

On 14 December 2012, the company placed 8,500,000 ZDP shares at 100p per share and this placing raised a total of £8.08m of net proceeds. A further placing of 849,900 ZDP shares at 103p per share took place on 23 January 2013, raising £0.85m of net proceeds. On 14 March 2014, the company placed 934,900 ZDP shares at 118.5p per share, raising £1.06m of net proceeds and on 20 August 2015 the company placed 1,028,400 shares at 131p per share, raising £1.35m of net proceeds.

Pursuant to a loan agreement between the company and Inland, the company has lent Inland the gross proceeds of its placings and all issue costs were borne by Inland. This loan is on terms requiring its repayment by Inland to the company on the ZDP shares repayment date of 10 April 2019 on which date the company must be wound up.

A further issue of 1,131,000 new ZDP Shares were placed at 139p per share on 28 September 2016, after the financial year end. As with previous issues, the gross proceeds, amounting to £1,572,090, were lent to Inland, which paid the issue costs.

Investment objective and investment policy

The objective of the company is to provide the final capital entitlement of the company's ZDP shares to the holders of the ZDP shares at the repayment date of 10 April 2019.

Principal risks and uncertainty and risk management

The board believes that the principal risk faced by the company is the credit risk associated with the loan made to its ultimate parent company, Inland Homes plc. The specific risks faced by Inland Homes plc are included within its financial statements and comprise: the inability to source, acquire, promote and dispose of land; the increased complexity in the planning process and the adoption of the Community Infrastructure Levy; a severe fall in the housing market in the regions in which the group operates; inability to retain or source high calibre and experienced staff; significant upward changes in interest rates; unexpected contamination being found on a site; changes in legislation; cost overruns, material shortages and construction delays; and the availability finance for land acquisition. The directors of the company are also directors of the ultimate parent company and are therefore in a position to assess the recoverability of amounts due by Inland Homes plc.

The company is also exposed to risks in relation to its financial instruments. Further details of these risks and the way in which they are managed are contained in note 9 to the financial statements.

INLAND ZDP PLC

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2016

Key performance indicators

The key performance indicators used by the board to measure the company's success are the cover ratio (which is described in detail in the chairman's statement), the accrued capital entitlement and the price of the ZDP shares.

	2016 £000	2015 £000
Accrued capital entitlement per ZDP share	129.12p	120.29p
ZDP share price (30 June)	139.00p	132.75p

The accrued capital entitlement will continue to increase as the repayment date approaches.

It is anticipated that the ZDP share price will be higher than the accrued entitlement as it will reflect the fixed nature of the return. As interest rates remain low, there will be a premium on the ZDP shares as the return is higher than is generally available elsewhere. It is unlikely that the share price will exceed the ultimate repayment price of 155.9p per share.

CHAIRMAN'S STATEMENT FOR THE YEAR ENDED 30 JUNE 2016

I am pleased to present the company's annual report and financial statements for the year ended 30 June 2016.

The company is a wholly owned subsidiary of Inland Homes 2013 Limited which is a wholly owned subsidiary of Inland Homes plc and was established solely for the purpose of issuing and redeeming ZDP shares. 8,500,000 and 849,900 ZDP shares were issued on 14 December 2012 at 100p per share and 23 January 2013 at 103p per share respectively and 934,900 ZDP shares took place on 14 March 2014 at 118.5p per share. A further 1,028,400 shares were issued on 20 August 2015 at 131p per share. They will redeem on 10 April 2019 at a price of 155.9p per ZDP share giving a redemption yield of 7.3% per annum on the first placing, 6.92% per annum on the second, 5.57% per annum on the third and 4.90% on the fourth. The proceeds of the ZDP share issues were lent to Inland Homes plc for use in future investment opportunities

The results for the period are shown in the financial statements on pages 12 to 21. As at 30 June 2016 the ZDP share price was 139p (2015: 132.75p), representing a premium of 7.65% (2015: 10.36%) over the net asset value per ZDP share of 129.12p (2014: 120.29p).

The loan and contribution agreements between the company and Inland contain certain protections for the company which are intended to benefit its ZDP shareholders. These include first charges over pledged assets (property) and pledged cash in a charged bank account. The pledged assets must have a book value of at least 120% of the accrued value of the ZDP shares net of the pledged cash. As at 30 June 2016, the accrued amount due to ZDP shareholders was £14,607,130 (2015: £12,371,867), the pledged cash was £10,800,000 (2015: £21,000,000) and the pledged assets had a book value of £20,785,430 (2015: £18,769,671), thereby satisfying this requirement.

The loan agreement also contained two covenants relating to asset cover and gearing, both of which are shown below as at 30 June 2016. The definitions of Assets and Financial Indebtedness are set out in the prospectus published in connection with the issue of the ZDP shares which is available at www.inlandhomes.co.uk/inland-zdp-plc.

Asset cover:

Assets / Financial Indebtedness plus ZDP Final Redemption Liability = 4.6 times cover (2015: 4.1 times cover).

The asset cover should be at least 1.8 times, so this covenant, which is tested quarterly, was satisfied at 30 June 2016.

Gearing:

Financial Indebtedness plus ZDP accrued liability / Assets 20.1%. (2015: 21.5%)

The gearing ratio should not exceed 40% so this covenant was also satisfied at 30 June 2016.

The board believes that the use of book values is generally conservative, because a substantial proportion of the group's assets are properties for which planning consents are sought. The planning process takes time and any progress towards reaching the stage when building can commence is not reflected in an increase in the book values beyond the costs attributable to the relevant sites, whereas any diminution in value is reflected by way of impairment provisions, such that planning gains are not generally recognised in Inland's financial statements until sales are contracted. If the covenant ratios were to be calculated by reference to the market values of the assets, the cover would be higher and the gearing lower.

INLAND ZDP PLC

CHAIRMAN'S STATEMENT (CONTINUED)
FOR THE YEAR ENDED 30 JUNE 2016

As at 30 June 2016, Inland's gross assets of £238.6m (2015: £147.66m) divided by the final redemption liability of the ZDP shares of £17.64m (2015: £16.03m) results in a cover ratio of 13.5 times (2015: 9.2 times).

INLAND ZDP PLC

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2016

Board of directors (continued)

Mr Stephen Wicks, Mr Nishith Malde and Mr Paul Brett are retiring and have offered themselves up for re-election.

The board has carefully considered the independence of each director and, notwithstanding the cross-directorships detailed above, has concluded that each director is wholly independent as none of the directors hold a beneficial interest in the company and none are ZDP shareholders. The directors believe that the board has an appropriate balance of skills and experience, independence and knowledge of the company to enable it to provide effective strategic leadership and proper governance of the company.

Given the nature of the company's business and the number of directors, the directors have not established separate committees of the board but deal with all business themselves.

The board confirms that the performance of each of the directors continues to be effective, which is illustrated by the compliance with the covenants at each quarter end, and demonstrates commitment to the role. The board therefore believes that it is in the interest of shareholders that these directors remain in office.

Directors' indemnities

As at the date of this report, indemnities are in force between Inland and each of its directors under which the company has agreed to indemnify each director, to the extent permitted by law, in respect of certain liabilities incurred as a result of carrying out his or her role as a director of Inland and the company. The directors are also indemnified against the costs of defending any criminal or civil proceedings or any claim by Inland or the company or a regulator as they are incurred provided that where the defence is unsuccessful, the director must repay those defence costs to the company. The indemnities are qualifying third party indemnity provisions for the purposes of the Companies Act 2006. A copy of each deed of indemnity is available for inspection at the company's registered office during normal business hours.

Conflicts of interest

Under the Companies Act 2006 a director must avoid a situation where he or she has, or can have, a direct or indirect interest that conflicts, or possibly may conflict with the company's interests. The requirement is very broad and could apply, for example, if a director becomes a director of another company or a trustee of another organisation. The Companies Act 2006 allows directors of public companies to authorise conflicts and potential conflicts, where appropriate, where the Articles of Association contain a provision to approve such situations.

The company maintains a register of directors' conflicts of interest which have been disclosed and approved by the other directors. This register is kept up to date and the directors are required to disclose to the board of directors any changes to conflicts or any potential new conflicts.

Compliance with corporate governance

The company is committed to high standards of corporate governance and the board is accordingly accountable to the company's shareholders for good governance. However, as the company has only ZDP shares listed, it is not required to comply with the UK Corporate Governance Code but is committed to appropriately high standards of corporate governance.

INLAND ZDP PLC

Community, employee and environmental issues

In carrying out its activities and in its relationships with the community, the company aims to conduct itself responsibly, ethically and fairly. The company has no employees and the board is comprised entirely of non-executive directors.

Going concern

The directors believe that the company has the ability to meet its financial obligations as they fall due for a period of at least twelve months from the date of approval of the financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Financial instruments

The company's financial instruments comprise debtors and creditors that arise directly from its operations. The financial risk management objectives and policies arising from its financial instruments and the exposure of the company to risk are disclosed in note 9 to the financial statements.

These funds are to be managed in accordance with the investment policy of Inland Homes plc.

Post Balance Sheet Events

Further details of events that happened post balance sheet are disclosed in note 12 to the financial statements.

Disclosure of information to auditors

The directors confirm that, so far as each of them are aware, there is no relevant audit information of which the company's auditors are unaware and the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Auditor

A resolution to appoint BDO LLP as auditor for the ensuing year will be proposed at the AGM in accordance with Section 489 of the Companies Act 2006.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2016**

1 Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below.

1.1 Basis of preparation

The financial information has been prepared in accordance with the Companies Act 2006 and International Financial Reporting Standards ('IFRS') as adopted by the European Union. The financial information comprises the Statement of Financial Position as at 30 June 2016 and, for the year ended 30 June 2016, the related Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and related notes hereinafter referred to as 'financial information'. The principal accounting policies adopted by the company are set out below.

The accounting policies that have been applied in the opening Statement of Financial Position have also been applied throughout all periods presented in these financial statements. These accounting policies comply with each IFRS that is mandatory for accounting periods ending on 30 June 2016.

At the date of approval of these financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the company.

Management anticipates that all of the relevant pronouncements will be adopted in the company's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the company's financial statements is provided below.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the company's financial statements.

Standards in issue but not yet effective

- IFRS 9 Financial Instruments (effective 1 January 2018)
- IFRS 15 Revenue from Contracts with Customers (effective 1 January 2017)
- IFRS 16 Leases (EU effective date 1 January 2019)
- Amendments to IAS 1 Disclosure Initiative (EU effective date 1 January 2016)

None of the standards above are expected to have an impact on the company's financial statements.

1.2 Revenue

Interest income is recognised in revenue using the effective interest method on an accruals basis.

1.3 Expenses

All expenses are borne by the company's parent company, Inland Homes plc.

1.4 Zero dividend preference shares

Zero dividend preference shares are recognised as liabilities in the Statement of Financial Position in accordance with IAS 32 Financial Instruments: Presentation. After initial recognition, these liabilities are measured at amortised cost, which represents the initial proceeds of the issuance plus the accrued entitlement to 30 June 2016.

INLAND ZDP PLC

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1.5 Intercompany receivable

Intercompany receivables are recognised as assets in the Statement of Financial Position in accordance with IAS 32 Financial Instruments: Presentation. After initial recognition they are measured at amortised cost which represents the initial loan plus the accrued interest receivable at the reporting date.

1.6 Finance costs

Finance costs are calculated as the difference between the proceeds on the issue of zero dividend preference shares and the final liability and are charged as finance costs over the term of the life of these shares using the effective interest method.

1.7 Taxation

The charge for taxation is based on the taxable profits for the period. Taxable profit differs from profit before tax as reported in the Statement of Comprehensive Income because it excludes items of income or expenses that are never taxable or deductible. The company's liability for tax is calculated using rates that have been enacted or substantively enacted by the reporting date.

1.8 Deferred taxation

Taxation deferred or accelerated can arise due to temporary differences between treatment of certain items for accounting and taxation purposes. Full provision for deferred taxation is made under the liability method, without discounting, on all temporary differences that have arisen, but not reversed, by the reporting date

1.9 Equity

An equity instrument is a contract which evidences a residual interest in the assets after deducting all liabilities. Equity comprises the following:
'Share capital' represents the nominal value of equity shares.

1.10 Key estimates and assumptions

Estimates and judgements used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed reasonable. The resulting estimates will, by definition, seldom equal the related actual results.

This hierarchy groups financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the liability that are not based on observable market data (unobservable inputs).

The level within which the financial liability is classified is determined based on the lowest level of significant input to the fair value measurement.
