## **Willas-Array debuts on Stock Exchange of Hong Kong, closes at HK\$1.15 per Share on First Trading Day**

**SINGAPORE – 6 December 2013** – Singapore Exchange (“**SGX-ST**”) Mainboard-listed **Willas-Array Electronics (Holdings) Limited** (“**Willas-Array**” or together with its subsidiaries, the “**Group**”), one of the largest Hong Kong-based distributors of electronics components in the Greater China region, today made a successful debut on the Main Board of The Stock Exchange of Hong Kong Limited (“**SEHK**”), closing at HK\$1.15 per share, which represents an increase of approximately 24% above the closing price of S\$0.15 (or HK\$0.929) of its Singapore-listed shares yesterday, the day preceding the dual listing in Hong Kong.

Willas-Array’s shares were actively traded and recorded satisfactory price movements today. Approximately 900,000 shares were traded with a turnover of approximately HK\$1.09 million.

Commenting on the Group’s dual primary listing in both Singapore and Hong Kong, Willas-Array Chairman, Mr Leung Chun Wah, said, “We are delighted to witness the successful dual primary listing of Willas-Array’s shares in Hong Kong today and the positive response from investors. The dual primary listing status in both Hong Kong and Singapore will definitely provide the Group with greater exposure to a more diverse investment community even as we continue to position the company to capture the opportunities in China, which will sustain our growth momentum and enhance the returns to our shareholders.”

The dual primary listing did not involve any offering of new shares or public offering of any other securities and no new proceeds were raised.

In connection with the dual primary listing, Standard Chartered Securities (Hong Kong) Limited has been appointed as a bridging dealer to carry out arbitrage trades in line with market practice in the context of dual listed stocks. These arbitrage trades are envisaged to be carried out where there exists a meaningful price differential between prices of shares quoted on SEHK and SGX-ST. These trades are expected to be carried out during the 30-day bridging period from and including the Listing Date. Such arbitrage activities are expected to contribute to the liquidity of trading in the shares in the Hong Kong market as well as to reduce potential material divergence between Share prices in the Hong Kong and Singapore markets.
