CHAIRMAN

Mr. Leung Chun Wah, Chairman of the Board, took the chair and welcomed all shareholders of the Company who had joined the Meeting by electronic means as a Live Webcast, for the first time in the Company's history. He informed Shareholders that there was quorum present and called the Meeting to order.

The notice convening the Meeting (the "Notice") was taken as read.

Prior to proceeding with the business of the Meeting, the Chairman introduced the board members to the Shareholders and thereafter shared the process of how the Meeting would be conducted.

The Chairman informed the members that in line with the requirements of the listing rules, all resolutions at the meeting will be put to vote by way of a poll undertaken in real time via electronic means. The Chairman further informed the members that Boardroom Corporate & Advisory Services Pte. Ltd. is appointed as the polling agent and Messrs Ardent Business Advisory Pte Ltd is appointed as the scrutineer. In order to expedite the proceedings of the meeting, the online electronic polling system was opened for all members to cast their votes and remained opened until all proposed resolutions at the AGM were properly moved.

The Chairman informed the members that all questions submitted in advance to the Company prior to the AGM would be addressed by the Board before addressing any questions received via the online chat box as mentioned in the circular dated 26 June 2020 under “Special Arrangement for the 2020 AGM” where shareholders may have submitted questions during the pre-registration stage or via online chat box during the AGM. The online chat box was opened for 15 minutes for submission of questions on the webcast and the Board would only answer the questions if they were substantial and relevant questions which have not been addressed.

The Chairman then handed over the meeting to Mr. Leung Hon Shing (“Raymond Leung”), who took meeting through the questions raised and the response as follows:

1. Refer to Note 26 page 155 of annual report 2019/20, “As at March 31, 2020, included in the Group’s net trade receivables balance are debtors with aggregate carrying amount of HK\$183,572,000 (2019: HK\$187,650,000) which are past due as at the reporting date. Out of the past due balances, nil (2019: HK\$22,942,000) has been past due 90 days or more and is not considered as in default as the balances were related to customers with sound repayment history and no recent history of default. The Group does not hold any collateral over the balance.”

(i) Could management help shareholders to understand the profile of the major debtors with long-outstanding receivables?

Company’s response: The major debtors with long-outstanding receivables mainly belong to the Automotive and Telecommunications segments. For completeness, the net trade receivables amount of HK\$183,572,000 which was past due as at March 31, 2020 has since been fully settled.

(ii) What improvements have the Group made to its credit control?

Company’s response: The Group conducts its customers’ credit checks regularly and monitors their repayment track record as well as other relevant information such as financial information and external credit report. In order to reduce credit risk, the Group have increased the credit review frequency and tightened the credit limit whenever appropriate. Furthermore, to secure adequate credit insurance coverage, the Group actively sought new potential credit insurance companies to provide coverage for the Group’s customers.

- (iii) Is there a sign that credit quality has deteriorated significantly due to the pandemic?

Company's response: The global spread of the coronavirus disease 2019 ("COVID-19") has impacted commercial and manufacturing activities in many economies, pushing the world's economy towards a recession. As the Group was not directly involved in the sectors most severely affected by COVID-19, the debtors turnover days remained at 2.5 months as at March 31, 2020, which was the same as March 31, 2019. Nevertheless, the pandemic has caused severe supply chain and business disruptions, which has affected the customers' earnings and in turn their financial strength. In addition, some customers have requested for extensions on the payment period, hence the Group has been expecting a longer payment cycle. Overall, while the credit quality of the Group's customers has been affected due to the pandemic, it has not deteriorated significantly.

- (iv) Out of the HK\$183 million receivables past due, how much of the receivables has been collected?

Company's response: The net trade receivables amount of HK\$183,572,000 which was past due as at March 31, 2020 has since been fully settled.

2. Refer to Note 20, Investment property, "During the year, a residential apartment has been classified and accounted for as investment property since date of change in use, and are measured using the fair value model. The fair value of the property at the date of transfer amounted to HK\$8,522,000."

- (i) May the board elaborate why there was a change in use of this property? What was the property previously used?

Company's response: This property in Shanghai was previously used as staff quarters. Since the usage rate was low, the Board decided to lease out the apartment to earn rental income so as to increase the value generated by the property to the Group.

- (ii) Has the property been leased out? If it is, what is the expected annual rental income?

Company's response: The property was leased out in July 2019 with a yearly rental income of RMB240,000.

- (iii) What is the plan for this investment property? Hold permanently for leased or for sale?

Company's response: The Group intended to hold such property for leasing in the medium-term.

3. Refer to chairman statement on page 9 “Meanwhile, in response to the downside risks and overall bearish macro-environment, we have taken several measures, including further tightening our costs and expenses.” May the chairman elaborate on what are cost and expenses tightening measures due to the uncertain macro-environment?

Company’s response: In view of the uncertain macro-environment, the Group have reduced the headcount and implemented measures to control daily administrative expenses including (i) review and negotiate with existing service providers/suppliers/vendors to reduce expenses as much as possible; and (ii) monitor all expenses to prevent unnecessary expenditure.

4. Page 4, Financial highlights, “Profit (loss) attributable to shareholders”, out of the 5 financial years from FY2016 to FY2020, the company has suffered 3 profit losses (FY2016, FY2019-FY2020) and 2 (FY2017-FY2018) profit gains. Has the board and management thought of the measures to counter such volatility in business performance and grow shareholders’ funds?

Company’s response: In view of the current situation, the Group would continue to focus its efforts and resources on China as we seen high potential and long-term yields in its domestic consumer market. The Group has developed its network and technical capabilities in three major segments – Automotive, Home Appliance and Industrial – that were supported by China’s strong domestic demand. The Group believes the long-term prospects of these three segments were positive and would generate stable returns. At the same time, the Group would continue to be prudent in managing its resources and expenses to ensure that its operations remain sustainable to tide over the uncertain business environment.

At this juncture, Mr. Hon Kar Chun (“Mr. Alvin Hon”) took over from Mr Raymond Leung and continued with the response to the questions raised from shareholders as follows:

5. With the uncertain business environment due to pandemic, would the board provide a brief update on the performance and outlook for Q1FY2021 for Willas-Array?

Company’s response: On July 9, 2020, the Group disclosed via SGXNet that based on the Board’s preliminary assessment of the unaudited consolidated management accounts of the Group for the three months ended June 30, 2020 (“1Q FY2021”) (the “Unaudited Management Accounts”), it is expected that the Group is likely to record a consolidated net profit of approximately HK\$6.5 million for 1Q FY2021 as compared to a consolidated net loss of approximately HK\$24.6 million for the three months ended June 30, 2019 (“1Q FY2020”).

The expected consolidated net profit is mainly attributable to the following factors:

- i. no stock provision would need to be made in 1Q FY2021 while a stock provision of approximately HK\$8.3 million for slow-moving inventories was made in 1Q FY2020;
- ii. there was a substantial decrease in staff costs due to lower average headcount as compared to 1Q FY2020;
- iii. there was a decrease of travelling expenses due to the outbreak of the COVID-19 pandemic and the subsequent quarantine measures as well as travel restrictions imposed by the governments of various countries/districts when compared with 1Q FY2020; and
- iv. there was no significant exchange difference in 1Q FY2021 whereas there was an exchange loss of approximately HK\$9.7 million arising from the depreciation of the Renminbi in 1Q FY2020.

As the Company is in the process of preparing and finalising the Group's results for 1Q FY2021, Shareholders are advised to read the Company's announcement of the 1Q FY2021 Results in detail once it is available.

6. How did the COVID-19 restrictions impact your operations in Hong Kong and China? How much of your operations have resumed?

Company's response: The COVID-19 restrictions impacted the mobility of our sales and marketing teams in Hong Kong and China. However, through video and audio conferencing solutions, the teams could continue to conduct meetings and discussions with customers and suppliers. With virtual meetings rapidly becoming the new normal, the Group has also looked at improving the efficiency and effectiveness of such meetings.

In addition, the Group's local China team has gradually resumed business operations and has been actively travelled to visit customers and suppliers. Likewise, the Hong Kong team has ready to resume operations inside local China including physical meetings with customers and suppliers once restrictions were lifted.

7. How has the outlook for the Automotive segment changed, compared to 3 months ago?

Company's response: According to the figures provided by the China Association of Automobile Manufacturers ("CAAM"), in respect of Q2 2020 (Apr-Jun 2020), China car sales was 6.56 million units, which was a 77.9% quarter-on-quarter growth compared to Q1 2020 (Jan-Mar 2020), and a 11.5% growth compared to last year Q2 2019 (Apr-Jun 2019). This was a strong indication of pent-up demand following the COVID-19 lock-down measures. CAAM projected that the momentum would continue under the expectations that the Chinese Government would launch incentive programmes. In view of this, the Group intends to continue to deploy more resources into this segment.

8. How has the outlook for the Telecommunications segment changed, compared to 3 months ago?

Company's response: According to the latest figures by China Internet Watch, China's smartphone shipments in the first 6 months of 2020 declined by 16% year-on-year, and show no signs of near-term recovery. In addition, International Data Corporation recently forecast the total worldwide smartphone shipments in 2020 will drop by 11.9%. This segment has expected to feel the combined impact of weak consumer confidence due to COVID-19 and the delay of the 5G launch. The Group intends to put more resources into the Automotive, Home Appliance and Industrial segments to partially offset the weaker Telecommunications segment.

Mr. Alvin Hon handed over the meeting back to the Chairman after confirming that there were no live questions submitted via the online chat box and ended the Q&A session. The Chairman then moved into the respective agenda items of the Meeting.
