2. Ratings

Ratings: The Notes to be issued are expected to be rated Baa2 by Moody's Investors Service Limited ("**Moody's**").

Obligations rated 'Baa' are judged to be medium grade and subject to moderate credit risk and as such may possess certain speculative characteristics. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

The Notes to be issued are expected to be rated BBB by Fitch Ratings Limited ("**Fitch**").

'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.
