VOLUNTARY ANNOUNCEMENT
INCREASE IN SHAREHOLDING OF H SHARES OF THE COMPANY BY SENIOR MANAGEMENT

This announcement is made by Minieye Technology Co., Ltd (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis.

The board of directors of the Company (the "**Board**") has recently been informed that the senior management members of the Company (the "**Relevant Senior Management**"), namely (i) Wen Qi; (ii) Zheng Wei; (iii) Cheng Zhui; (iv) Yang Yihong; and (v) Luo Xiwen, have purchased a total of 167,000 H shares of the Company ("**Increase in Shareholding**") on the open market with their own funds as of January 21, 2026.

Each of the Relevant Senior Management has informed the Board that the decision on their Increase in Shareholding was made based on their high recognition of the Group's recent phased achievements in the OEM market (covering core segments such as mid-and high-level assisted driving and intelligent cabin) and the L4 driverless vehicle business. It also commends a full endorsement of the Group's full-stack in-house platform technology, software-hardware-integrated research and development capabilities and leading mass production capacity. Concurrently, the Relevant Senior Management expressed their optimism regarding the long-term development prospects of the Group's L4 driverless logistics vehicle business. Based on their strong confidence in the Group's future development prospects, the Relevant Senior Management believes that the current H shares price of the Company does not fully reflect the Group's long-term investment value. Therefore, taking into account the above factors, the Relevant Senior Management proceeded with the Increase in Shareholding.

Shareholders and prospective investors of the Company are advised to exercise caution when dealing in the shares of the Company.
