**Chairman's statement**

I am pleased to present the unaudited condensed interim financial results for the Company for the six months ended 30 September 2022.

The principal activity of the Company is to acquire businesses in the primary and secondary segments of the education technology sectors.

To enable the Company to pursue its principal activities, the Company initiated an Initial Public Offering ("IPO") of its securities onto the London Stock Exchange through a Standard Listing to raise the necessary funds required for the execution of the business strategy. The IPO was successfully completed and the Company's shares were admitted for trading on 25 March 2022. This listing enables the Company to raise funds for acquisitions which may be in the form of a merger, capital stock exchange, asset acquisition, stock purchase, scheme of the arrangement, reorganisation or similar business combination of an interest in an operating entity or investment.

As at the reporting period end, the Company did not have any current operations, no products were sold, and no services were performed by the Company. It did not operate or compete in any specific market, and the Company had no subsidiaries. The Company continues to seek acquisitions of UK and overseas businesses or assets with operations in the sectors that can contribute greater benefits to shareholders.

**Strategy**

The Company retains a flexible merge and acquisition strategy which will enable it to deploy capital in target companies by way of minority or majority investments, or full acquisitions where it is in the interests of shareholders to do so.

The Company's strategic aim is to drive shareholder value through the acquisition of target companies in certain sectors where the Board believes there to be sustainable growth opportunities both organically, and through acquisition.
