QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 30 JUNE 2020

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

BUSINESS REVIEW

The management of the group has continued to utilize our professional and committed workforce and financial resources to achieve maximum return for our shareholders.

To combat the COVID-19 epidemic, the Innovation and Technology Commission (“ITC”) launched a special call under the Public Sector Trial Scheme for projects to support product development and application of technologies for the prevention and control of the disease. On April 9, we submitted a project proposal titled “An Integrated Solution for the Detection/ Diagnosis/ Surveillance of Hygiene Conditions and Deep Cleansing of Public Toilets and Facilities”. The advance solution is being developed for the reduction of the risk of infection and spread, and to bring about benefits for the community in fighting the epidemic in the near future. We aim to adopt and integrate various information and communication technologies, sensors and wireless technologies, informatics software development and big data analytics, together with our R&D outcome product, mobilized high capacity lithium battery system, which can provide zero local emission clean power for steam cleansing and dry ice blasting for public facilities so as to enhance the public health mechanism. We have been receiving feedback from ITC and undergoing technical discussion.

The directors are not optimistic towards the outlook. While maintaining our commitments and efforts, we shall take very prudent measures in operating and protecting our businesses.
