BUSINESS UPDATE — SUCCESSFUL BID FOR SHENZHEN SPORTS LOTTERY ADMINISTRATION CENTRE PROMOTIONAL GIFTS PROCUREMENT SERVICES PROJECT

This announcement is made by Ficus Technology Holdings Limited (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis to provide shareholders and potential investors of the Company with an update on the latest business development of the Group.

The Group is pleased to announce that on 24 June 2026, it has successfully won the tender for the "Shenzhen Sports Lottery Administration Centre Promotional Gifts Procurement Services Project" (Project No.: SZCG2026000610) (the "**Project**"). This successful bid demonstrates the Group's supply chain management expertise in the procurement of diversified products, supplier coordination, quality assurance and logistics within a government procurement framework.

The Project has a budget cap of RMB3.5 million and covers full-chain supply chain services for a wide range of promotional gifts, including apparel, membership cards, rural revitalisation products, and various lifestyle and utility goods. The Project includes a dedicated rural revitalisation products procurement quota of RMB1.5 million, which will be used to provide redemption codes that enable the redemption of agricultural products on the 832 Platform (the "**832 Platform**", website: www.fupin832.com). The 832 Platform operates under the joint guidance of the Ministry of Finance, the Ministry of Agriculture and Rural Affairs, and the All-China Federation of Supply and Marketing Cooperatives, and serves as a key national platform facilitating the distribution of agricultural products from 832 formerly impoverished counties, supporting the implementation of targeted poverty alleviation and rural revitalisation policies.

This successful bid marks the Group's first in 832 Platform-related government procurement, representing a meaningful milestone in the application of its supply chain services to policy-driven procurement with strong ESG and social impact dimensions. The Board believes the Project underscores the Group's competitive edge in providing integrated supply chain services for government procurement, particularly in supplying products and services related to the 832 Platform that directly support poverty alleviation and rural revitalisation. The

Project also aligns with its ESG framework by promoting inclusive supply chain development, supporting small and medium-sized agricultural enterprises in less-developed regions, and supporting the Shenzhen Sports Lottery Administration Centre's public welfare mission, thereby further amplifying the Project's social value.

The Group will proceed with execution with the Shenzhen Sports Lottery Administration Centre, and will diligently fulfill all tender requirements, including full-category product supply, redemption of 832 Platform redemption codes, logistics and after-sales quality control. Going forward, the Group will continue to expand opportunities in 832 Platform-related government procurement across China and pursue business opportunities that deliver both economic returns and positive social impact.
