PARENT COMPANY ONLY FINANCIAL STATEMENTS

WITH REPORT OF INDEPENDENT AUDITORS

FOR THE YEARS ENDED

DECEMBER 31, 2023 AND 2022

Address: No. 6, Xinggong Rd., Tianzhong Township, Changhua County, Taiwan (R.O.C.)

Telephone: 886-4-8742211

Notice to readers:

The reader is advised that these parent company only financial statements have been prepared originally in Chinese. In the event of a conflict between these financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language financial statements shall prevail.

Independent Auditor's Report Translated from Chinese

To Taisun Enterprise Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Taisun Enterprise Co., Ltd. (the "Company") as of December 31, 2023, and the related parent company only statements of comprehensive income, changes in equity and cash flows for the year ended December 31, 2023, and notes to the parent company only financial statements, including the summary of material accounting policies (together "the parent company only financial statements").

In our opinion, based on our audits and the reports of the other auditors (please refer to the *Other Matter – Making Reference to the Audits of Other Auditors* section of our report), the parent company only financial statements referred to above present fairly, in all material respects, the financial position of Taisun Enterprise Co., Ltd. as of December 31, 2023, and the financial performance and the cash flows for the year ended December 31, 2023, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

For the parent company only financial statements of the Company for the year ended December 31, 2023, we conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits and the reports of the other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2023 parent company only financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Correctness of timing of revenue recognition

The operating revenue of the Company is mainly generated from the manufacturing and sales of oil, food, beverage, feed and other products. Due to different transaction conditions (such as consignment and outright sales, etc.), we believe that the correctness of the point at which the controlling right of goods has been transferred to the customer and performance obligations have been met is material to the parent company only financial statements and is therefore determined to be a key audit matter. Our audit procedures include, but are not limited to, evaluating and testing the effectiveness of the design and implementation of internal controls related to the sales cycle, selecting samples to perform transaction tests of details, reviewing their transaction records and checking material terms and conditions in orders or contracts to confirm when the performance obligations are met, performing cutoff tests for a period before and after the balance sheet date, selecting samples to review transaction conditions and checking relevant transaction vouchers to confirm that performance obligations have been indeed met. We also considered the appropriateness in disclosures of operating revenues in Note 6 to the parent company only financial statements.

Inventory valuation

As of December 31, 2023, the amount of inventories of the Company was NT\$1,240,969 thousand, which is considered material to the parent company only financial statements. As the main raw materials for products such as oils and feeds are imported from abroad and are affected by international market fluctuations, and the market for food and beverages is highly competitive and subject to expiry, the Company management must assess possible losses for market price decline and obsolete and slow-moving inventories. As the assessment involves judgment from management, we therefore considered this a key audit matter. Our audit procedures include (but are not limited to) understanding the policies and management's evaluation procedures for the allowance for inventories valuation losses, testing the effectiveness of relevant internal control implementation, selecting samples to test the ranges of inventory aging and recalculating the correctness of the amount accrued. In addition, we select inventory samples to check transaction vouchers to verify the correctness of the net realizable value used by management, analyze and evaluate the inventory provision policies to confirm the reasonableness of inventory valuation. We also considered the appropriateness of disclosures of inventory accounting policies in Notes 4, 5 and 6 to the parent company only financial statements.

Emphasis of Matter – Contingency

As explained in Note 9 to the financial statements, on January 11, 2023, the Company received a civil complaint from Everwin Investment Co., Ltd. and Long Bon International Co., Ltd. requesting to invalidate the board resolution of the Company in 2022 regarding the disposal of shares in Taiwan FamilyMart Co., Ltd. The case is currently under trial in the Intellectual Property and Commercial Court. We have not revised the review conclusion as a result of this matter.

Emphasis of Matter – Non-current Prepayments for Investments

As explained in Note 6 (9), the Company paid a transaction price of NT\$3.6 billion (including the withholding and unpaid securities transaction tax in the amount of NT\$4.2 million) for the equity investment in JKO FinTech Co., Ltd in May 2023. However, the Intellectual Property and Commercial Court ruled on this case and granted the shareholders of the Company preliminary injunction maintaining a temporary status quo, prohibiting the Company from executing this equity investment until the final ruling of the litigation. Subsequently, the Company filed a lawsuit against JKO FinTech Co., Ltd and Dorian Innovation Limited in the Taipei District Court of Taiwan in August 2023 for the return of investment funds. The case is currently under trial in the Taipei District Court of Taiwan. We have not revised the audit opinion as a result of this matter.

Other Matters

The financial statements of some of the investee companies included in the parent company only financial statements as of December 31, 2023 were not audited by us, the independent accountant, but by other accountants. Therefore, our opinions expressed herein regarding the amounts recorded in the financial statements of certain investee companies are based solely on the reports of the other auditors. The investment accounted for using the equity method in these investee companies as of December 31, 2023 amounted to NT\$314,127 thousand, accounting for 2% of the total assets. For the year ended 31 December 2023, the shares of profit and loss of subsidiaries, affiliates and joint ventures recognized by the equity method amounted to NT\$53,548 thousand, accounting for 48% of the net income before tax. For the year ended 31 December 2023, the shares of other comprehensive income of subsidiaries, affiliates and joint ventures recognized by the equity method amounted to NT\$252 thousand, accounting for (0.2)% of the other comprehensive income.

The parent company only financial statements of the Company for the year ended December 31, 2022 were audited by other auditors, and an audit report with unqualified opinions including other matters was issued on March 31, 2023.

Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the accompanying notes, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2023 parent company only financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
For the years ended December 31, 2023 and 2022
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

1. History and organization

Taisun Enterprise Co., Ltd. (“the Company”) was incorporated on October 21, 1960, with the approval from the Ministry of Economic Affairs and the Company’s common shares were publicly listed on the Taiwan Stock Exchange (TWSE) on November 11, 1989. The main activities of the Company include manufacturing and sale of cooking oil, food, beverages and fodder. The Company’s registered office is located at No.6, Xinggong Rd., Tianzhong Township, Changhua County, Taiwan (R.O.C.).

2. Date and procedures of authorization of financial statements for issue

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 were authorized for issue by the Company’s board of directors (hereinafter “Board of Directors”) on March 12, 2024.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2023. The adoption of these new standards and amendments had no material impact on the Company.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, but not yet adopted by the Company as of the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 1, 2024
B	Lease Liability in a Sale and Leaseback – Amendments to IFRS 16	January 1, 2024
C	Non-current Liabilities with Covenants – Amendments to IAS 1	January 1, 2024
D	Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7	January 1, 2024

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

A. Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

B. Lease Liability in a Sale and Leaseback – Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

C. Non-current Liabilities with Covenants – Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

D. Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7

The amendments introduced additional information of supplier finance arrangements and added disclosure requirements for such arrangements.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2024. The new or amended standards and interpretations have no material impact on the Company.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, but not yet adopted by the Company as of the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
A	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
B	IFRS 17 “Insurance Contracts”	January 1, 2023
C	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

A. IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures* — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

B. IFRS 17 *Insurance Contracts*

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 *Insurance Contracts* – from annual reporting periods beginning on or after January 1, 2023.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

C. Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide. The amendments apply for annual reporting periods beginning on or after January 1, 2025.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Company is still currently determining the potential impact of the standards and interpretations listed under (A), it is not practicable to estimate their impact on the Company at this point in time. The remaining new or amended standards and interpretations have no material impact on the Company.

4. Summary of material accounting policies

(1) Statement of compliance

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations").

(2) Basis of preparation

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations. The profit or loss and other comprehensive income presented in the parent company only financial reports will be the same as the allocations of profit or loss and of other comprehensive income attributable to owners of the parent presented in the financial reports prepared on a consolidated basis, and the owners' equity presented in the parent company only financial reports will be the same as the equity attributable to owners of the parent presented in the financial reports prepared on a consolidated basis. Therefore, the Company accounted for its investments in subsidiaries using the equity method and, accordingly, made necessary adjustments.

The parent company only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The parent company only financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(3) Foreign currency transactions

The Company's parent company only financial statements are presented in NT\$, which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company's functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as of the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 *Financial Instruments* are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(4) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT\$ at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. When the partial disposal involves the loss of control of a subsidiary that includes a foreign operation; and when the retained interest after the partial disposal of an interest in a joint arrangement or a partial disposal of an interest in an associate that includes a foreign operation is a financial asset that includes a foreign operation.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or joint arrangement that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(5) Current and non-current distinction

An asset is classified as current when:

- A. The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
- B. The Company holds the asset primarily for the purpose of trading.
- C. The Company expects to realize the asset within twelve months after the reporting period.
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when:

- A. The Company expects to settle the liability in its normal operating cycle.
- B. The Company holds the liability primarily for the purpose of trading.
- C. The liability is due to be settled within twelve months after the reporting period.
- D. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within 3 months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(7) Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Recognition and Measurement of financial assets

The Company accounts for regular way purchase or sales of financial assets on the trade date.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Company's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables, financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial assets measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

- (i) purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (ii) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business entity to which IFRS 3 applies, the Company made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

Financial assets measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial assets measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measured as follows:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired
- (b) The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 *Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as of fair value through profit or loss.

- (a) financial liability is classified as held for trading if:
- (b) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- (c) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (d) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- (a) it eliminates or significantly reduces a measurement or recognition inconsistency; or
- (b) a group of financial liabilities or financial assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the Company is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(8) Derivative instrument

The Company uses derivative instruments to hedge its foreign currency risks and interest rate risks. A derivative is classified in the balance sheet as financial assets or liabilities at fair value through profit or loss except for derivatives that are designated as and effective hedging instruments which are classified as financial assets or liabilities for hedging.

Derivative instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of hedges, which is recognized in either profit or loss or equity according to types of hedges used.

When the host contracts are either non-financial assets or liabilities, derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not designated at fair value through profit or loss.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials – Purchase cost by weighted average method.

Finished goods and work in progress – Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(11) Biological assets

Biological assets are measured at fair value less selling costs upon initial recognition and at each reporting date. Selling costs refer to the costs directly attributable to the disposal of the asset, excluding financial costs and income taxes.

Gains or losses arising from the initial recognition of biological assets, as well as subsequent gains or losses resulting from changes in fair value less selling costs, are recognized in profit or loss in the period in which they occur.

(12) Investments accounted for using the equity method

The Company's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the Company's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Company's percentage of ownership interests in the associate or joint venture, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a pro-rata basis.

When the associate or joint venture issues new shares, and the Company's interest in an associate or a joint venture is reduced or increased as the Company fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in additional paid-in capital and investments accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro-rata basis when the Company disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Company estimates:

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment.
- B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

Upon loss of significant influence over the associate or joint venture, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

According to Article 21 of the Regulations, the investments in subsidiaries will be disclosed under “investments accounted for using the equity method” and change in value will be adjusted to comply. The profit or loss and other comprehensive income presented in parent company only financial reports will be the same as the allocations of profit or loss and other comprehensive income attributable to owners of the parent presented in the financial reports prepared on a consolidated basis, and the owners’ equity presented in the parent company only financial reports will be the same as the equity attributable to owners of the parent presented in the financial reports prepared on a consolidated basis. The difference of the accounting treatment between the parent company only basis and the consolidated basis are adjusted under “investments accounted for using the equity method,” “share of profit of subsidiaries and associates accounted for using the equity method” and “share of other comprehensive income of subsidiaries and associates accounted for using the equity method.”

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(13) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings and facilities	1 to 56 years
Machinery and equipment	1 to 16 years
Transportation equipment	2 to 7 years
Other assets	1 to 16 years

Components of building that have different useful lives are main building structure, mechanical and electrical equipment and other equipment, which are depreciated over the useful lives of 26 to 56 years, 15 to 26 years and 3 to 13 years, respectively.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(14) Investment property

The Company's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, investment properties are measured using the cost model in accordance with the requirements of IAS 16 *Property, plant and equipment* for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	10 to 50 years
-----------	----------------

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Company transfers properties to or from investment properties according to the actual use of the properties.

The Company transfers to or from investment properties when there is a change in use for these assets. Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(15) Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether the contract, throughout the period of use, has both of the following:

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

The Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

After the commencement date, the Company measures the lease liability on an amortised cost basis, which is increasing the carrying amount to reflect interest on the lease liability by using an effective interest method; and reducing the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 *Impairment of Assets* to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of low-value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statement of comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(16) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

A summary of the policies information applied to the Company's intangible assets is as follows:

Types	Computer software
Useful lives	5 years
Amortization method used	Amortized on a straight-line basis over the estimated useful life
Internally generated or acquired	Acquired

(17) Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(18) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

(19) Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. Any difference between the carrying amount and the consideration is recognized in equity.

(20) Revenue recognition

(1) Sales of goods

The Company manufactures edible oils, food, and beverages, which are then sold to distributors and channel partners. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. Control transfer of the product occurs when the product is delivered to the customer, the customer has the ability to determine the sales channel and price for the product, and there are no remaining unfulfilled obligations that could affect the customer's acceptance of the product. Delivery occurs when the product is transported to a specified location, at which point the risks of obsolescence, deterioration, and loss have transferred to the customer. Additionally, the customer has accepted the product in accordance with the sales contract, and acceptance terms have either lapsed or there is objective evidence that all acceptance criteria have been met.

The Company recognizes revenue measured at the fair value of the consideration received or receivable and offers quantity discounts to customers based on achieving certain cumulative sales volumes. The Company recognizes revenue based on the net amount of estimated quantity discounts subtracted from the contract price. The quantity discount amount is estimated using past cumulative experience and is recognized only to the extent that it is highly probable that a significant reversal will not occur. As of the reporting date, the anticipated amounts to be paid to customers due to quantity discounts are recognized as provisions. The credit period of the Company's sale of goods aligns with industry practices and no financing component is deemed present.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company sells oils and food products, and according to the contracts, is required to pay listing fees, shipping fees, and product display fees to customers based on the sales volume. As the payment of such consideration does not result in the transfer of distinct goods or services to the customer, it is treated as a reduction of the transaction price and revenue.

The Company recognizes trade receivables upon delivery of goods, as the Company's right to consideration is unconditional except for the passage of time.

(2) Customer Loyalty Programs

The Company's customer loyalty program involves granting customers loyalty award credits that entitle customers to discounted goods. The fair value of consideration received or receivable from original sales is allocated between the award credits and the other components of the sale transaction. The allocation to award credits is based on the estimated fair value of the right to purchase goods at a discounted price. This fair value estimate is based on the discounted amount and adjusted for the expected probability of redemption. The amounts allocated are initially deferred and recognized as revenue when the award credits are actually redeemed, and discounted goods are provided to fulfill the obligation. In this scenario, the revenue recognition amount is calculated based on the actual quantity redeemed relative to the total expected quantity to be redeemed. Additionally, when it is no longer expected that the award credits will likely be redeemed, the deferred revenue is recognized as revenue.

(3) Financing component

The Company expects the length of time between when the Company transfers the promised goods or services to the customer and when the customer pays for those goods or services to be no more than one year. Therefore, the Company does not adjust the transaction price for the time value of money.

(21) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(22) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Company's parent company only financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment, and
- B. the date that the Company recognizes restructuring-related costs or termination benefits costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(23) Income tax

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss at the time of the transaction.
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss at the time of the transaction.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12), information about deferred tax assets and liabilities related to Pillar Two income tax will neither be recognized nor be disclosed.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Company's parent company only financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

1. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(1) Loss allowance for trade receivables (current and non-current)

The loss allowance for trade receivables is primarily estimated based on assumptions related to default risk and expected credit loss rate. On each reporting date, the Company considers historical experience, current market conditions, and forward-looking estimates to determine the assumptions and inputs for the calculation of impairment. Please refer to Note 6 for details on the assumptions and inputs. The Company assesses the repayment status of the receivables, financial condition, operational performance, industry context, existence and value of collateral, etc., on each reporting date to determine the assumptions and judgment for the calculation of impairment.

(2) Inventory valuation

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

(3) Post-employment benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and changes of the future salary etc. Please refer to Note 6 for more details.

(4) Revenue recognition – sales returns and allowance

The Company estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Please refer to Note 6 for more details.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(5) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

(4) Investments in associates — Taiwan FamilyMart Co., Ltd. ("FamilyMart")

The Company originally held 22.46% of the shares in FamilyMart, and recognized and measured it as an "investment accounted for using the equity method." However, after the Company lost significant influence over FamilyMart after disposing of part of its ownership on December 5, 2022. The remaining shareholdings were reclassified as "financial assets measured at fair value through other comprehensive income, non-current". Therefore, on the day of the above-mentioned disposal, the Company's "investments accounted for using the equity method" included no balance of FamilyMart. The details of the aforementioned disposal transaction is as follows:

On December 2, 2022, the Board of Directors resolved to dispose of part of the shares in FamilyMart. The Company sold 43,300 thousand shares on December 5, 2022, with a net disposal proceeds in the amount of NT\$7,986,979 thousand. After deducting the carrying amount of NT\$2,648,969 thousand on the date of disposal and the accumulated exchange differences on translation of foreign financial statements in the amount of NT\$12,521 thousand, the Company recognized gains on disposals of investments in the amount of NT\$5,325,489 thousand. As a result, the Company's shareholding in FamilyMart decreased from 22.46% to 3.06%. As the Company lost significant influence over FamilyMart, it remeasured the remaining 3.06% shareholding at the time of the disposal. The fair value as of December 5, 2022 in the amount of NT\$1,305,756 thousand was then reclassified to financial assets measured at fair value through other comprehensive income, non-current. After the amount was carried forward and deducting the ending carrying amount of the remaining unsold shares in the amount of NT\$418,387 thousand and the accumulated exchange differences on translation of foreign financial statements in the amount of NT\$1,978 thousand, the transferred gains on disposals of investments in the amount of NT\$885,391 thousand were recognized. The total gains on disposals of investments for the year ended December 31, 2022 amounted to NT\$6,210,880 thousand. In addition, as a result of the disposal transaction, the Company also reclassified the accumulated unrealized losses on financial assets measured at fair value through other comprehensive income of FamilyMart that were previously recognized using the equity method in the amount of NT\$13,287 thousand to undistributed earnings for the year ended December 31, 2022.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Because the Company recognized and measured the accounts from FamilyMart as "investments accounted for using the equity method" from January 1, 2022 to December 5, 2022, the change in its amounts during the year was reflected below.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company's investment properties include several commercial properties leased out to third parties. The renewal periods of each lease agreement are negotiated with the tenants, and no contingent rental income has been collected.

Investment properties held by the Company are not measured at fair value but for which the fair value is disclosed. The fair value measurements of the investment properties are categorized within Level 3. The fair value of investment properties was NT\$1,351,690 thousand and NT\$958,341 thousand, as of December 31, 2023 and 2022, respectively. The fair values as of the respective financial reporting date were determined using the comparative approach, referencing information from the website of Department of Land Administration, Ministry of Interior, and estate agency's website.

(9) Prepayments for investments

	As of	
	December 31, 2023	December 31, 2022
Prepayment for investments	\$3,600,000	\$-

The 22nd Board of Directors held the 12th meeting on May 5, 2023 which had been rescheduled from April 20, 2023 to discuss the equity investment in JKO FinTech Co., Ltd. The proposal included a subscription to approximately NT\$2.2 billion of common stocks of JKO FinTech Co., Ltd. through a capital injection at around NT\$24.63 per share (referred to as the "NT\$2.2 Billion Cash Injection"). Additionally, the proposal involved acquiring shares of JKO FinTech Co., Ltd., amounting to approximately NT\$1.4 billion, held by Dorian Innovation Limited (Dorian) at around NT\$24.63 per share. The total shares involved in the transaction amounted to 146,166 thousand shares, with a total transaction amount of NT\$3.6 billion. The proposal was approved by four directors, while three directors declined to participate in the meeting held on May 5, 2023. Following this, on May 6, 2023, the Company entered into an agreement with JKO FinTech Co., Ltd. and Dorian Innovation Limited (Dorian), and on May 8, 2023, the Company paid the full transaction amount of NT\$3.6 billion to JKO FinTech Co., Ltd. (including the amount due to Dorian as per the agreement).

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

On May 15, 2023, the Company received a preliminary injunction filed by Everwin Investment Co., Ltd. to the Intellectual Property and Commercial Court, which prohibited the Company from executing the aforementioned equity investment and investment in a bottled water plant. Subsequently, on May 22, 2023, the Company received a ruling from the Intellectual Property and Commercial Court granting the preliminary injunction filed by Everwin Investment Co., Ltd., prohibiting the Company from executing the equity investment in JKO FinTech Co., Ltd. and the investment in the bottled water plant that were approved by the Board of Directors on May 5, 2023, until the final ruling of the litigation. Everwin Investment Co., Ltd., in order to sustain the efficacy of the previously established interim disposition, has initiated legal proceedings within the statutory period to challenge the validity of the board resolution pertaining to the equity investment in JKO FinTech Co., Ltd. The case is currently under examination in the Commercial Court."

Due to the legal action brought up by shareholders contesting the validity of the NT\$3.6 billion equity investment case in JKO Fintech Co., Ltd., and they claimed the person representing the Company in signing the agreement acted without gaining the legal and valid authority to do so. Therefore, no parties shall perform the invalid agreement and they shall be obligated to restore the original state. In July 2023, the Company sent a letter to JKO Fintech Co., Ltd. requiring the return of the transaction price in the amount of NT\$3.6 billion, but did not receive a response. On August 30, 2023, the Company filed an action with the Taiwan Taipei District Court against JKO Fintech Co., Ltd. to request payment return. The case is pending at the Taiwan Taipei District Court.

In addition to the foregoing, there are concerns regarding the legality and efficacy of the 12th meeting of the 22nd Board of Directors of the Company, aside from doubts about its enforceability. Pursuant to the agreement between the parties, each counterparty is obligated to deliver shares to the Company as a presentation of the acquisition of equity. However, as of the reporting date, neither JKO FinTech Co., Ltd. nor Dorian Company has fulfilled their obligation to deliver shares to the Company in accordance with said agreement. Furthermore, On October 27, 2023, the Industrial Development Administration of Ministry of Economic Affairs rejected the application of new share issue for cash injection and articles of incorporation amendment to change the registered capital by JKO FinTech Co., Ltd. (NT\$2.2 billion cash injection). Therefore, the Company booked NT\$3.6 billion that was remitted outward previously as prepayment for investment.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company intends to recover the future economic benefits related to this prepayment for investment of NT\$3.5958 billion (the balance of NT\$3.6 billion after deducting the unpaid securities transaction tax in the amount of NT\$4.2 million withheld by the Company) from JKO Fintech Co., Ltd. and Dorian Innovation Limited through filing a legal action. However, the obligatory rights need to be determined by a court judgment. Therefore, upon obtaining a court judgment confirming the receivables in the future, the Company will reclassify the relevant accounting items (such as prepaid investment) as other receivables. Additionally, according to IFRS 9 *Financial instruments*, the credit risk assessment and measurement of the receivables that have not been collected as of the balance sheet date will be performed based on the lifetime expected credit risk. On the contrary, if the aforementioned action contesting the validity of the Board's resolution of investing in JKO Fintech Co., Ltd. is unsuccessful, or if the Company's claim against JKO Fintech Co., Ltd. for the return of the investment funds is unsuccessful and when the Company acquires the shares of the underlying transaction, the payments made by the Company will no longer be deemed prepayments. Instead, they will be recognized and measured as appropriate at the time when the investors acquire the equity of the investee according to the relevant Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards (such as determining whether it constitutes a business combination, associates, or be treated in accordance with IFRS 9 *Financial Instruments*). However, the selection and adoption of the abovementioned standards will depend on the Company's then shareholding ratio in JKO Fintech Co., Ltd. and the accompanying economic circumstances and legal conditions.

Total	\$-	

- (a) The Company's unused long-term lines of credits amounted to NT\$0 thousand and NT\$1,030,000 thousand, as of December 31, 2023 and 2022, respectively.
- (b) Please refer to Note 8 for more details on pledge for long-term borrowings as of the reporting date.

(13) Post-employment benefits

Defined contribution plan

The Company adopted a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company would make monthly contributions to the employees' individual pension accounts at the amounts not less than 6% of the employees' monthly wages. The Company have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Pension expenses under the defined contribution plan for the years ended December 31, 2023 and 2022 were NT\$18,320 thousand and NT\$16,066 thousand, respectively.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Defined benefits plan

The Company adopts a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries for the six months before retirement. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company contribute an amount equivalent to 5% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company assess the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under a mandat, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Company expects to contribute NT\$4,328 thousand to its defined benefit plan during the 12 months beginning after December 31, 2023.

The weighted average duration of the defined benefits plan obligation as of December 31, 2023 and 2022 were 10.18 years and 9.18 years, respectively.

Pension costs recognized in profit or loss are as follows:

	For the years ended December 31,

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

D. Retained earnings and dividend policies

- A. The Company's current industry development is mature, with stable profitability. However, considering significant capacity expansion and vertical development plans in the coming years, the appropriation of earnings shall be conducted at the end of each quarter. In the case of dividend distribution in cash, the Board of Directors shall decide, in accordance with Article 228-1 and Paragraph 5, Article 240 of the Company Act, and report to the shareholders' meeting, without submission to the shareholders' meeting for approval. At each quarter end, if there are profits, they shall estimate and retain the taxes and dues to be paid, the losses to be covered and the legal reserve to be set aside. Where such legal reserve amounts to the total paid-in capital, this provision shall not apply. It may be allocated or reversed based on the company's operational needs and legal provisions, and after any special reserve allocation or reversal. If there are profits, they shall be added to the accumulated undistributed earnings at the beginning period, and the distribution shall be proposed and resolved by the Board of Directors. The proportion of cash dividends distributed shall not be less than 30% of the total dividend distribution amount.

In the case where the dividend per share is below NT\$0.1, the Board of Directors may retain the profit without distributing dividend.

- B. According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal reserve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.
- C. According to existing regulations, when the Company distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to "other net deductions from shareholders' equity for the current fiscal year, provided that if the company has already set aside special reserve in the first-time adoption of the IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

- D. On March 31, 2021, the FSC issued Order No. Jin-Guan-Zheng-Fa-Zi-1090150022, which sets out the following provisions for compliance: On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the Company set aside special reserve in the amount of NT\$240,776 thousand. For any subsequent use, disposal or reclassification of related assets, the special reserve in the amount equal to the reversal may be released for earnings distribution.
- E. Details of the 2023 and 2022 earnings distribution and dividends per share as proposed and resolved by the board of directors' meeting and shareholders' meeting on March 12, 2024 and June 30, 2023, respectively, are as follows:

Amortization	-	412	412	-	1,211	1,211

Note: Other employee benefits expenses include employee benefit, and meal allowances.

Additional information on number of employees and employee benefits expense for the years ended December 31, 2023 and 2022 is as follows:

	For the years ended December 31,	
	2023	2022
Number of employees	571	558
Number of directors who are not employees	9	9
Average employee benefits expense	779	1,387
Average salaries	620	1,241
Adjustments for average salaries (Note)	-50%	-
Remuneration to supervisors	\$-	\$-

Note: The Company's average salaries for the year ended December 31, 2023 decreased compared with that for the year ended December 31, 2022. This was mainly due to the decline in overall profits for the current year and the decrease in employee compensation and bonuses. As a result, the average salaries for the year ended December 31, 2023 decreased compared with that for the year ended December 31, 2022.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The information of the Company's remuneration policy (including directors, managers and employees) is as follows:

- (1) The Company's remuneration to directors is determined in accordance with Article 19 of the Articles of Incorporation of the Company. The remuneration to chairmen and directors when they perform their duties is authorized to the Board of Directors to be determined with reference to the recommendations of the remuneration committee of the Company and based on the extent of individual participation and contribution to the Company's operations, the value of their contributions and the general level in the industry. In addition, if the Company makes a profit for the current year, no higher than 5% of the profit of the current year is distributable as the remuneration to directors in accordance with the Articles of Incorporation of the Company. The actual contribution rate is reviewed by the remuneration committee based on the operating performance and make recommendations before sending them to the Board of Directors for resolution. As for independent directors, the Board of Directors will determine their monthly fixed remuneration. Independent directors receive attendance fees for each board meeting and are not entitled to the distribution of remuneration when the Company makes profits.
- (2) The remuneration to general manager, deputy general manager and managers with equivalent positions includes salary and bonus. The salary references the general salary level in the industry and factors such as professional titles, ranks, academic (experience), professional abilities and responsibilities. The bonus is approved to allocate based on manager performance evaluation, which includes financial indicators (such as the sales revenue, the achievement rates of net profit before and after tax) and non-financial indicators (such as major finding in compliance and operational risk matters of the departments under its charge), and the contribution to the Company's overall operations will be assessed and proposed to the remuneration committee for review.
- (3) The employee compensation policy is determined based on the individual's ability, contribution to the company, performance, the market value of the position held, and the Company's future operating risks. It is positively related to operating performance and no distinction is made based on age, gender, race, religion, political affiliation, marital status, or union affiliation. If the Company makes profits for the current year, no less than 2% of profit is distributable as employee compensation in accordance with the Company's Articles of Incorporation. Employees who have served for two years can apply to join the employee stock ownership trust. The overall salary package for employees mainly consists of three parts: basic fixed salary, bonuses and benefits. As for the standard of payment, the basic fixed salary is determined based on the market level of the position held by the employees, while bonuses are determined according to the achievement of each employee and department goals and the Company's operating performance, and annual accomplishment award is given to outstanding teams or individuals with excellent performance. The benefits are designed for employees in accordance with relevant laws and regulations so that they can enjoy such benefits while taking into account the needs of employees.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

According to the Articles of Incorporation, 2% of profit of the current year is distributable as employees' compensation and no higher than 5% of profit of the current year is distributable as remuneration to directors. However, the Company's accumulated losses shall have been covered first. The Company may have the profit distributable as employees' compensation to employees of parents or subsidiaries of the company meeting certain specific requirements.

The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. If the Board of Directors resolved to distribute employees' compensation in the form of stocks, then the number of stocks distributed as employees' compensation was calculated based on the closing price one day earlier than the date of resolution. Differences between the estimated amount and the actual distribution of the employees' compensation and remuneration to directors and supervisors are recognized in profit or loss of the subsequent year. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors can be obtained from the "Market Observation Post System" on the website of the Taiwan Security Exchange.

Based on the profit for the year ended December 31, 2023, the Company estimated the employees' compensation and remuneration to directors for the year ended December 31, 2023 to be NT\$2,305 thousand and NT\$0 thousand, respectively, and recognized as salaries.

A resolution was passed at a Board of Directors meeting held on May 5, 2023 to distribute NT\$267,000 thousand and NT\$200,000 thousand as employees' compensation and remuneration to directors of 2022, respectively. No material differences existed between the estimated amount and the actual distribution of the employee compensation and remuneration to directors for the year ended December 31, 2022.

No material differences existed between the estimated amount and the actual distribution of the employee compensation and remuneration to directors and supervisors for the year ended December 31, 2021.

(3) Unrecognized deferred tax assets

As of December 31, 2023 and 2022, deferred tax assets temporary differences not recognised as amounted to NT\$209,116 thousand, and NT\$97,960 thousand, respectively.

(4) The assessment of income tax return

As of December 31, 2023, the income tax returns of the Company have been assessed and approved up to 2021.

(22) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	<u>For the years ended December 31,</u>

2. Significant transactions with the related parties

A. Sales

	<u>For the years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
Central Union Oil Corp.	\$2,921,364	\$2,904,790
Pin-Tai Distribution Enterprise Co., Ltd.	2,301,399	2,093,274
Others	37,686	34,227
Total	<u>\$5,260,449</u>	<u>\$5,032,291</u>

The sales channels for beverages and oil products are mainly through the welfare headquarters, various welfare stations and related parties. Sales to the welfare headquarters and welfare stations require payment of commissions for respective distributors; therefore, the sales price is higher than that of related parties. The collection term of the sales to Pin-Tai Distribution Enterprise Co., Ltd. is payment by monthly settlement with a 60-day remittance. The collection term of related parties is 30 to 90 days end of the month.

The sales of soybean powder to Central Union Oil Corp. by the Company are priced based on market rates less relevant sales expenses, resulting in the net sales price. This pricing approach exhibits no significant deviations when compared to transactions with third parties. The collection terms for related parties range from 45 to 60 days. Collection terms for sales to third parties range from 30 to 45 days from month-end.

The unrealized gross profit on sales between the Company and the aforementioned related parties has been eliminated based on the equity ownership proportion.

B. Purchases and processing expense

	<u>For the years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
Associates - Central Union Oil Corp.	<u>\$223,594</u>	<u>\$317,106</u>

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Payment terms for purchases from the aforementioned related parties are within 30 days from the date of arrival, which align with conditions similar to those for other related parties. The processing fees from the soybean oil refining carried out by the related party on behalf of the Company, where credit terms involve an advance payment based on estimated processing quantities, followed by settlement of the remaining payment balance within 15 days from month-end reconciliation. The Company does not engage in comparable transactions involving outsourcing to unrelated parties for processing.

C. Trade receivables - related parties

	As of	
	December 31, 2023	December 31, 2022
Pin-Tai Distribution Enterprise Co., Ltd.	\$516,613	\$506,762

Other financial assets, current	\$90,000	\$4,606	Forward exchange agreement and Foreign Exchange Option
Other financial assets, current	1,500	900	Guarantee deposits for provisional execution
Financial assets at fair value through other comprehensive income, non-current	378,000	1,401,465	Short-term/long-term borrowings
Total	\$469,500	\$1,406,971	

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

9. Significant contingencies and unrecognized contractual commitments

The list of significant contingencies and unrecognized contractual commitments of the Company as of December 31, 2023 is as follows:

(1) Amounts available under unused letters of credit:

	As of	
	December 31, 2023	December 31, 2022
Amounts available under unused letters of credit	\$-	\$656,664

(2) The amounts of contract signed and consideration paid for the acquisition of fixed assets and advertising endorsement are as follows:

	As of	
	December 31, 2023	December 31, 2022
Signed Contract	\$83,181	\$76,339
Price paid	\$36,221	\$59,181

(3) The Company has issued promissory notes as guarantees for bank financing performance both in the amount of NT\$250,000 thousand as of December 31, 2023 and 2022.

(4) In May 2022, the Company has acquired the authorized distribution rights for alcoholic beverages in China region (excluding Taiwan) from Matsu Liquor Factory Industry Co., Ltd. The distribution rights commenced on September 1, 2022, and the agreement is valid for a period of three years. The minimum amount of distribution for this period is set at a minimum of NT\$300,000 thousand.

(5) In March 2023, the Company has entered into a master dealer agreement for alcoholic beverages in Taiwan with Matsu Liquor Factory Industry Co., Ltd. The distribution rights commenced on July 1, 2023, and the agreement is valid for a period of three years. The minimum amount of distribution for this period is set at a minimum of NT\$1,589,000 thousand. Additionally, if the Company does not achieve the minimum distribution amount or perform this contract, Matsu Liquor Factory Industry Co., Ltd. may terminate this contract without a prior notice and forfeit the performance guarantee deposit in the amount of NT\$26.5 million.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

- (6)As explained in Note 6(6), the Company disposed of 43,300 shares in FamilyMart with a net disposal consideration in the amount of NT\$7,986,979 thousand, and the Company has received the entirety of this consideration and recognized a gain on disposal of investments in the amount of NT\$5,325,489 thousand at the same year. The Company's shareholding in FamilyMart has decreased from 22.47% to 3.07%. As the Company lost significant control over FamilyMart, it remeasured the remaining 3.07% shareholding at the time of the disposal. The fair value as of December 5, 2022 was then reclassified to financial assets measured at fair value through other comprehensive income, non-current. As a result, the Company recognized a gain on disposal of investments in the amount of NT\$885,583 thousand and the total gain on disposal of investment for the year ended December 31, 2022 amounted to NT\$6,211,072 thousand. However, on January 11, 2023, the Company received a notice from the Intellectual Property and Commercial Court regarding an action filed against the Company by Everwin Investment Co., Ltd. and Long Bon International Co., Ltd. The action was seeking invalidation of the 8th meeting of the 22nd board resolution of the Company concerning the "disposal of shares held in FamilyMart Co., Ltd." The reasons provided include failure to comply with Subparagraph 2, Paragraph 1, Article 185 of the Company Act by not submitting the aforementioned proposal for a special resolution at the shareholders' meeting, as well as inadequate provision of information to the Board of Directors and violations of the legal procedures for convening the board meeting, rendering the resolution invalid. The parties involved in this lawsuit were Long Bon International Co., Ltd. and the Company, as well as other interveners including Wan Bao Development Co., Ltd., Hon-Chiang Co., Ltd. and Ching-Hsun Investment Industrial Co., Ltd. As of the financial reporting date, the case is still pending at the Intellectual Property and Commercial Court.
- (7)The Company was under investigation by the Fair Trade Commission for the alleged price-fixing with several fish feed companies, which may be liable for punishment. As of the financial reporting date, the case is still pending.
- (8)Please refer to Note 6(9) for relevant information on the 40.49% equity investment in JKO FinTech Co., Ltd.
- (9)In 2023, the Company was sued by Mei Ruei Advertisement Co., Ltd. in the Taipei District Court, claiming that the Company should pay the advertising fees and liquidated damages totaling approximately NT\$40,503 thousand. As of the date of the financial statements, this case was still pending at the court.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(2) Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Company identifies, measures and manages the aforementioned risks based on the Company's policy and risk appetite.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Company complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk and interest rate risk.

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency) and the Company's net investments in foreign subsidiaries.

The Company has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Company also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Company.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit is performed on significant monetary items denominated in foreign currencies as of the end of the reporting period. The Company's foreign currency risk is mainly related to the volatility in the exchange rates for USD. The information of the sensitivity analysis is as follows:

- (1) When NTD strengthens/weakens against USD by 1%, the profit for the years ended December 31, 2023 and 2022 would decrease/increase by NT\$3,719 thousand and NT\$857 thousand, respectively.
- (2) When NTD strengthens/weakens against JPY by 1%, the profit for the years ended December 31, 2023 and 2022 would decrease/increase by NT\$242 thousand and NT\$119 thousand, respectively.
- (3) When NTD strengthens/weakens against CNY by 1%, the profit for the years ended December 31, 2023 and 2022 would decrease/increase by NT\$219 thousand and NT\$225 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's bank borrowings with variable interest rates and investments at variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates. At the reporting date, a change of 0.5 basis points of interest rate in a reporting period could cause the profit for the years ended December 31, 2023 and 2022 to decrease/increase by NT\$0 thousand and NT\$26,661 thousand, respectively.

Equity price risk

The Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment objectives. The Company's listed and unlisted equity securities are classified under financial assets measured at fair value through profit or loss and financial assets measured at fair value through other comprehensive income. The Company manages the equity price risk through placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investments according to level of authority.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

At the reporting date, a change of 5% in the price of the listed equity securities measured at fair value through profit or loss could increase/decrease the Company's profit for the years ended December 31, 2023 and 2022 by NT\$2,439 thousand and NT\$2,452 thousand, respectively.

At the reporting date, a change of 5% in the price of the listed companies stocks classified as equity instruments investments measured at fair value through other comprehensive income could have an increase/decrease in the amount of NT\$69,230 thousand and NT\$74,545 thousand on the equity attributable to the Company for the years ended December 31, 2023 and 2022, respectively.

Please refer to Note 12(9) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4)Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Company is exposed to credit risk from operating activities (primarily for trade receivables and notes receivable) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to credit risk management. Credit limits are established for all counterparties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Company's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment.

As of December 31, 2023 and 2022, trade receivables from the top 10 customers, represent 76% and 70% of the trade receivables of the Company, respectively. The credit concentration risk of trade receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Company's treasury in accordance with the Company's policy. The Company only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

The Company adopted IFRS 9 to assess the expected credit losses. Except for trade receivables, the remaining debt instrument investments which are not measured at fair value through profit or loss were acquired with low credit risk as the prerequisite upon acquisition. The Company makes an assessment at each reporting date as to whether the credit risk significantly increases since original recognition, and further determines the method of measuring the loss allowance and the loss rates.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

When the credit risk on debt instrument investment has increased, the Company will dispose that investment in order to minimize the credit losses. When assessing the expected credit losses, the evaluation of the forward-looking information (available without undue cost and effort) is mainly based on the macroeconomic information and the credit loss ratio is further adjusted if there is significant impact from forward-looking information.

(5)Liquidity risk management

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents and bank borrowings. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amounts include the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Company to measure or disclose the fair values of financial assets and financial liabilities:

- a. The carrying amount of cash and cash equivalents, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- c. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Company's financial assets and financial liabilities measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12 (9) for fair value measurement hierarchy for financial instruments of the Company.

(8) Derivative financial instruments

None.

TAISUN ENTERPRISE CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

(9) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows:

As of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Assets measured at fair value:				
Financial assets at fair value through profit or loss				
Listed domestic companies stocks	\$48,781	\$-	\$-	\$48,781
Beneficiary certificate - open end funds	43,958	-	-	43,958
Financial assets at fair value through other comprehensive income				
Listed domestic companies stocks	1,384,594	-	-	1,384,594
Unlisted domestic companies stocks	11,576	-	1,155	12,731

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

As of December 31, 2023:

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
Financial assets measured at fair value through other comprehensive income					
Stocks	Market approach	Discount for lack of marketability	50%	The higher the discount for lack of marketability	1% increase (decrease) in the discount for lack of marketability would result in increase (decrease) in the Company's profit or loss by NT\$12 thousand

TAISUN ENTERPRISE CO., LTD.

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Company's finance department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies at each reporting date.

TAISUN ENTERPRISE CO., LTD.
NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS
(Expressed in Thousands of New Taiwan Dollars unless Specified Otherwise)

Note 1: The Company and its subsidiaries are coded as follows:

1. The Company is coded "0".
2. The subsidiaries are coded consecutively beginning from "1" in the order presented in the table above.

Note 2: Items recorded include trade receivables from associates, receivables from related parties, shareholder transactions, prepayments, advances, and similar items. If these items are of a nature involving financing provided to others, fill in the field.

Note 3: Fill in the maximum balance of funds provided to others (amount approved by the Board of Directors) accumulated for the year ended December 31, 2023.

Note 4: Explanation of the nature of financing: Investee company that has a business relationship with the parent is coded "1"; Short-term financing is coded "2".

Note 5: Fill in the amount of sales to (purchase from) counterparty for financing categorized as business transactions.

Note 6: Where short-term financing is needed, the reasons for and use of such loans shall be enumerated, e.g., repayment for borrowings, acquisition of equipment, working capital for operations, etc.

Note 7: For short-term financing, the limit of financing provided shall not exceed 20% of the lender's net worth. For individual counterparty, the limit shall be lower of 10% of the lender's net worth or 50% of the counterparty's net worth.

Note 8: Where the Company directly or indirectly holds 100% of the voting shares of a foreign corporation, engaging in financing activities, or when the Company directly or indirectly holds 100% of the voting shares of a foreign corporation that is engaging in financing activities with the Company, the limit for such financing amount shall not exceed 100% of the lender's net worth. The period of financing shall not exceed two years.

Note 9: In accordance with Paragraph 1, Article 14 of the "Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies", and loans of funds between the public company and its parent company or subsidiaries, or between its subsidiaries shall be submitted for a resolution by the board of directors, even if the disbursement has not yet occurred, the board-approved amount shall be disclosed as a reported balance to disclose the assumed risk. Subsequently, upon repayment of the funds, the adjusted remaining balance shall be disclosed to reflect risk adjustments. In the case where a public company operates under Paragraph 2, Article 14 of the regulation, authorizing the chairman of the board to disburse funds incrementally within a certain limit and over a one-year period, the announced reported balance shall be based on the board-approved amount. After the fund is repaid, considering the possibility of further disbursements, the reported balance shall continue to reflect the board-approved fund lending limit.

(2) Endorsement/Guarantee provided to others for the year ended December 31, 2023:
None.

Note 1: For public company that has foreign holding subsidiaries and are required to primarily prepare consolidated financial statements in accordance with local regulations, disclosure of information related to foreign investee companies may be limited to relevant details pertaining to those subsidiaries.

Note 2: For circumstances not listed in Note 1, filled in by the following rules:

- (1) "Investee company", "Address", "Main businesses and products", "Initial investment" and "Investment as of December 31, 2023" shall be filled in the Company's investment to the subsidiaries' re-investment in corresponding order, and indicate the relationship in the Notes.
- (2) "Net income (loss) of investee company" shall be filled in net income (loss) of investee for the year ended December 31, 2023.
- (3) "Investment income (loss) recognized", shall be filled in only investment income (loss) under the equity method, and the investor shall confirm that its investment income (loss) includes the subsidiaries' re-investment.

Note 3: This includes the unrealized profit from downstream and upstream sales.

Note 4: The above transaction between the consolidated entities in the Group has been offset during the preparation of the consolidated financial statements.
