Independent Auditors' Report

To the Board of Directors of JUNG SHING WIRE CO., LTD.:

Opinion

We have audited the financial statements of JUNG SHING WIRE CO., LTD. ("the Company"), which comprise the balance sheet as of December 31, 2023 and 2022, the statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters that should be disclosed in this report are as follows:

Please refer to notes 4(g) "Inventories", Note 5 "Significant accounting assumptions and judgments, and major sources of estimation uncertainty", and Note 6(e) "Inventories" of the notes to financial statements for the accounting policy on measuring inventory, assumptions used and uncertainties considered in determining the net realizable value and the evaluation of inventory.

Description of key audit matter:

The inventory amount of the Company is stated at the lower of cost or net realizable value, since the sales price of the Company's products, enameled copper wire is affected by fluctuations in the price of its principal raw materials, copper; which may result in the risk of inventories cost being higher than the net realizable value. Therefore, the net realizable value assessment of inventories valuation has been identified as one of the key audit matters.

How the matter was addressed in our audit:

Our principal audit procedures included the following:

- Understanding the variation of sale prices used by the management and changes in market price of inventory in a period after the reporting date, to ensure the appropriateness of the net realizable value, and engage in sampling procedure to confirm the accuracy of the statement on net realizable values of inventory.
- View inventory pool aging reports to analyze inventory pool aging changes for each period. Then engage in sampling procedure to confirm the accuracy of inventory pool aging report.
- Review the accuracy of the Company's past provision for inventories to assess the appropriateness of the current valuation method and assumptions.
- Assess whether the Company's disclosure of information relating to inventory provisions is appropriate.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on this financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Su, Yen-Ta and Yang, Po-Jen.

JUNG SHING WIRE CO., LTD.

Notes to the Financial Statements

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

JUNG SHING WIRE CO., LTD. (the “Company”) was incorporated in accordance with the Company Act of the Republic of China on July 17, 1971 and its foreign investment portion was approved under the Statute For Investment By Foreign Nationals in 1979. The Company’s authorized share capital of foreign investors and its earnings allocated from the approved business scope are applied for settlement in the original currency. The registration address is at No.231, Sec. 3, Chung-cheng Rd., Jen-teh District, Tainan City, Taiwan, R.O.C. The Company primarily is involved in the manufacture, process and sale of enameled copper wires.

(2) Approval date and procedures of the financial statements:

These financial statements were authorized for issue by the Board of Directors on March 14, 2024..

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2023:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

The Company has initially adopted the following new amendment, which do not have a significant impact on its financial statements, from May 23, 2023:

- Amendments to IAS 12 “International Tax Reform—Pillar Two Model Rules”

- (b) The impact of IFRS Accounting Standards endorsed issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its financial statements:

- Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- Amendments to IAS 7 and IFRS 7 “Supplier Finance Arrangements”
- Amendments to IFRS 16 “Lease Liability in a Sale and Leaseback”

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

- (c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The Company does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IAS21 “Lack of Exchangeability”

(4) Summary of material accounting policies:

The material accounting policies presented in the financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the financial statements.

- (a) Statement of compliance

These financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards.

- (b) Basis of preparation

- (i) Basis of measurement

The financial statements have been prepared on the historical cost basis, except for the following material items in the statement of financial position:

- (1) Financial instruments at fair value through profit or loss are measured at fair value;
- (2) Net defined benefit asset and liability measured at present value of defined benefit obligation less the fair value of plan assets.

- (ii) Functional and presentation currency

The functional currency of the Company is determined based on the primary economic environment in which the Company operates. The parent company only financial statements are presented in New Taiwan Dollar (NTD), which is the Company’s functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

- (c) Foreign currencies

- (i) Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for the following differences which are recognized in other comprehensive income arising on the retranslation:

- (1) an investment in equity securities designated as at fair value through other comprehensive income;
- (2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- (3) qualifying cash flow hedges to the extent that the hedges are effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, joint control, or significant influence is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When The Company disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(d) Classification of current and non-current assets and liabilities

An asset is classified as current when one of following criteria is met; all other assets are classified as non-current assets.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost and FVTPL. The Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(2) Financial assets measured at fair value through profit or loss

All financial assets not classified as amortized cost or FVOCI described as above (e.g. financial assets held for trading and those that are managed and whose performance is evaluated on a fair value basis) are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(3) Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated — e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Company's continuing recognition of the assets.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(4) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial assets on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company’s claim to cash flows from specified assets (e.g. non-recourse features)

(5) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and trade receivables, other receivables and guarantee deposit paid, etc.).

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

A financial instrument is considered to be of low credit risk if its default risk is low, the debtor's ability to fulfill contractual cash flow obligations in the near future is strong and adverse changes in economic and operating conditions may (and are not necessarily) reduce the debtor's ability to fulfill contractual cash flow obligations in the longer term.

The time deposits held by the Company was determined as low credit risk since the trading and performing parties are the financial institutions above the investment grade.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Company considers a financial asset to be in default when the financial asset is more than 365 days past due or the debtor is unlikely to pay its credit obligations to the Company in full.

ECLs are probability-weighted estimate of credit losses over the expected life of financial assets. Credit losses are measured as the present value of all cash shortfalls, i.e the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive.

At each reporting date, the Company assesses whether financial assets carried at amortized cost is credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 365 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization;
or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of assets.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due. Based on its experience, there have been no corporate customer recoveries after one year.

(6) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

When the Company enters into transactions whereby it transfers assets but retains either all or substantially all of the risks and rewards of the assets, the transferred assets are not derecognized from statement of balance sheet.

(ii) Financial liabilities and equity instruments

(1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

(3) Compound financial instruments

Compound financial instruments issued by the Company comprise convertible bonds denominated in NTD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

(4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

(5) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

The difference between the carrying amount of a financial liability derecognized and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(g) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(h) Investment in associates

Associates are those entities in which the Company has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Company's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate.

When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

(i) Investment in subsidiaries

The subsidiaries in which the Company holds controlling interest are accounted for under equity method in the parent company only financial statements. Under equity method, the net income, other comprehensive income and equity in the parent company only financial statement are the same as those attributable to the owners of parent in the financial statements.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(j) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is initially recognized at cost and then subsequently measured at cost again. The depreciation expense is appropriated in accordance with the depreciable amount after the initial recognition. The depreciation methods, useful lives, and residual values of investment property are same as the practice of the property, plant, and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(k) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Reclassification to investment property

The property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

(iii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iv) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(1) Buildings and construction	3~60 years
(2) Machinery and equipment	3~17 years
(3) Transportation equipment	4~6 years
(4) Other equipment	2~12 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date and adjusted if appropriate.

(l) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(i) As a lessee

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of employee dormitory and parking space rentals that have a lease term of 12 months or less. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(m) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

For other assets, except for goodwill, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(n) Revenue from contracts with customers

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

(1) Sale of goods

Revenue is recognized when the control over a product has been transferred to the customer. Being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

(2) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the company does not adjust any of the transaction prices for the time value of money.

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are expensed during the year in which employees render services.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are not recognized for the following exceptions:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transaction (i) affects neither accounting nor taxable profits (losses) and (ii) does not give rise to equal taxable and deductible temporary differences;
- (ii) temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

Deferred tax assets are recognized for unused tax losses, tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

(q) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as convertible bonds and employee compensation.

(r) Segment Information

Segment information was disclosed in consolidated financial statements; therefore, it was not disclosed in the parent company only financial statement.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the parent company only financial statements, in conformity with the Regulations and the IFRSs endorsed by the FSC, requires management to make judgments estimates and assumptions that affect the application of the accounting policies and reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimations.

Management continues to monitor the accounting estimations and assumptions. Management recognizes any changes in the accounting estimations during the period in which the estimates are revised and in any future periods affected.

The Company is likely to be facing economic uncertainty, such as natural disasters, the Ukraine–Russia conflict and inflation. Those events may have a significant impact in the next financial year on the following accounting estimates, which depend on the future forecasts.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows.

As inventories are stated at the lower of cost or net realizable value, the Company estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions as to future demand within a specific time horizon. The net realizable value of the inventory is mainly determined based on assumptions of future demand within a specific time horizon. Due to the rapid technological changes, there may be significant changes in the net realizable value of inventories. Refer to note 6(e) for further description of the valuation of inventories.

(Continued)

Notes to the Financial Statements

(c) Notes and trade receivable

	December 31, 2023	December 31, 2022
Notes receivable	25,820	34,762
Trade receivable—measured at amortized cost	208,920	237,566
Trade receivable due from related parties—measured at amortized cost	25,892	41,778
Less: Loss allowance	-	-
	<u>\$ 260,632</u>	<u>314,106</u>

The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information. The loss allowance provisions were determined as follows:

December 31, 2023			
	Gross carrying amount	Weighted average expected credit losses rate	Allowance provision for lifetime expected credit losses
Current	\$ 260,411	-	-
0 to 90 days past due	221	-	-
More than one year past due	-	100%	-
	<u>\$ 260,632</u>		<u>-</u>

December 31, 2022			
	Gross carrying amount	Weighted average expected credit losses rate	Allowance provision for lifetime expected credit losses
Current	\$ 314,106	-	-
0 to 90 days past due	-	-	-
More than one year past due	-	100%	-
	<u>\$ 314,106</u>		<u>-</u>

For the years ended December 31, 2023 and 2022, there were no recognition or reversals of loss allowance for notes and trade receivables.

The financial assets mentioned above were not pledged as collateral.

Investment properties comprise a number of commercial properties that are leased to third parties. Each of the leases are negotiated with the lessee for subsequent renewals annually, and no contingent rents are charged. Please refer to note 6(k) for further information.

The fair values of investment property for the years ended December 31, 2023 and 2022 were assessed by the valuation team of the Company based on valuation report by independent evaluators and considering actual transaction price of properties in the vicinity. Under the valuation techniques for financial instruments measured at fair value, the inputs are categorized at level 3. Fair value is assessed by the cost method.

The Company did not provide any of the aforementioned investment property as collateral.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

The Company issued the third domestic unsecured convertible corporate debt on March 2, 2022 and traded at Taipei Exchange, whose principal terms and conditions of issue are as follows:

- (1) Total issuance amount: \$200,000 thousand.
- (2) Issue price: 111.80% of the nominal value of the share, with a par value of \$100 thousand per share.
- (3) Coupon rate: 0%
- (4) Repayment method: Except for the bondholder of this convertible bond to convert into ordinary shares of the Company in accordance with Article 10 of this policy or to exercise put option in accordance with Article 19, and the Company engaged in early redemption pursuant to Article 18 or purchase the bonds back for cancellation from the premises of a securities trader, in addition of interest compensation based on the par value of the bond (100.6266% of the par value of the bond at maturity) in one time payment of cash.
- (5) Duration: five years (March 2, 2022 to March 2, 2027)
- (6) Conversion period:

The debtors may opt to have its bonds converted into the Company's common share, from the day following the expiration of three months (June 3, 2022) after the issue of the convertible corporate debt, up to the expiry date (March 2, 2027), except for the following: A. the period during which the transfer of shares of the Company is suspended in accordance with the law; B. the period commencing from the date on which the transfer of bonus share issued ceases, the date on which the transfer of cash dividends ceases or 15 business days before the date on which the transfer of shares of cash capital increase ceases, until the date of record for the distribution of the rights/benefits; C. The period starts from the date of record of the capital decrease and ends on the date prior to the trading of the reissuance shares after the capital decrease; D. from the conversion cease date of changing par value of shares until the day before trading of reissuance shares with new shares.

- (7) Conversion price and its adjustment:

The conversion price on issuance date was \$18.5 per share. However, after the issue of this convertible bond, the conversion price shall be adjusted in accordance with the formula stipulated in the terms of issue if any of the following conditions is met:

- A. In the event of an increase in the number of ordinary shares of the Company issued or through private placement, other than in the case of an exchange of ordinary shares for various securities issued or through private placement by the Company with options for conversion of ordinary shares or with share option ;or new shares issued for remuneration to employees.
- B. When the Company issue cash dividends of ordinary shares
- C. In the event that the Company reissues or engaged in private placement of securities of various securities which have the right to convert to ordinary shares or with share options at a conversion price or subscription price below the current price per share.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

D. In the event of a reduction in the ordinary shares of the Company other than as a result of retirement of treasury share.

For the years ended December 31, 2023 and 2022, the conversion price amounted to \$17 and \$17.3, respectively.

(8) Put options:

The date on which the convertible bond has been issued for three years (March 2, 2025) is the base day on which the convertible bond holder will sell back the convertible bond in advance. The bondholders may require the Company to redeem the bonds in cash at 100.3755% of the principal amount of the bonds.

(9) Redemption right:

From the three months after the share issuance date (June 3, 2022) to the 40 day before the maturity date to the forty days prior to the expiry of the issue period (January 21, 2027), the conversion bond shall be recovered in principal amount subject to the terms of the Issue and Conversion Policy provided that the Company meets one of the following conditions, the principal amount between:

A. When the closing price of the Company's common shares on the TSE for a period of 30 consecutive trading days before redemption has exceeded 30% of the exchange price.

B. When the outstanding balance of the convertible bond is less than \$20,000 thousand (10% of the total amount issued).

(10) In accordance of issuance and conversion policy, all convertible bonds recovered by the Company (including those purchased from the securities dealer's premises), repaid or converted will be write down and will not be sold or issued. Its accompanying conversion option will be eliminated.

(11) In accordance of issuance and conversion policy, the ordinary shares transferred from this convertible bond are traded on the Taiwan Stock Exchange from the delivery date and the new shares converted are subject to the same rights and obligations as the ordinary shares originally issued.

(k) Operating lease- lessor

The Company leases out its investment property. The Company has classified these leases as operating leases, because it does not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Please refer to note 6(h) sets out information about the operating leases of investment property. The contract does not set out for future minimum lease payable during the non-cancellable lease period.

For the years ended December 31, 2023 and 2022, the rental income from investment properties, maintenance and repair expenses were amounted to \$1,147, \$1,147, \$403 and \$1,077, respectively.

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(l) Employee benefits

(i) Defined benefit plans

The reconciliation between the present value of defined benefit obligations and the net defined benefit liabilities and assets for defined benefit plans was as follows:

	December 31, 2023	December 31, 2022
Present value of the defined benefit obligations	\$ 7,919	9,221
Fair value of plan assets	(12,444)	(13,326)
Net defined benefit assets	<u><u>\$ (4,525)</u></u>	<u><u>(4,105)</u></u>

The Company makes defined benefit plan contributions to the pension fund account at Bank of Taiwan that provides pensions for employees upon retirement. Under the Labor Standards Act, each employee's retirement payment is calculated based on years of service and the average salary for the six months prior to retirement.

(1) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

As of December 31, 2023 and 2022, the Company's labor pension fund account balance at Bank of Taiwan amounted to \$12,444 and \$13,326, respectively. For information on the utilization of the labor pension fund assets including the asset allocation and yield rate of the fund, please refer to the website of the Bureau of Labor Funds.

(2) Movements in present value of defined benefit obligations

The movement in present value of the defined benefit obligations of the Company were as follows:

	2023	2022
Defined benefit obligations at January 1	\$ 9,221	29,403
Benefits paid	(1,561)	(18,309)
Current service cost and interest cost	194	265
Settlement gain	67	(1,129)
Remeasurement on the net defined benefit liabilities	(2)	(1,009)
Defined benefit obligations at December 31	<u><u>\$ 7,919</u></u>	<u><u>9,221</u></u>

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(3) Movements in fair value of defined benefit plan assets

The movements of the fair value of defined benefit plan assets of the Company were as follows:

	2023	2022
Fair value of plan assets at January 1	\$ 13,326	22,966
Interest income	236	214
Contributions paid by the employer	321	6,999
Benefits paid	(1,561)	(18,309)
Remeasurements of the net defined benefit asset	122	1,456
Fair value of plan assets at December 31	<u><u>\$ 12,444</u></u>	<u><u>13,326</u></u>

(4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Company were as follows:

	2023	2022
Current service cost	\$ 34	45
Net interest of net defined benefit liabilities (assets)	(76)	6
Settlement loss (gain)	67	(1,129)
	<u><u>\$ 25</u></u>	<u><u>(1,078)</u></u>
Operating cost	\$ 13	(506)
Selling expenses	12	(254)
Administrative expenses	-	(320)
Research and development expense	-	2
	<u><u>\$ 25</u></u>	<u><u>(1,078)</u></u>

(5) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	December 31, 2023	December 31, 2022
Discount Rate	1.750%	0.750%
Future salary increases	2.500%	3.500%

The expected allocation payment to be made by the Company to the defined benefit plans for the one-year period after the reporting date is \$288. The weighted average lifetime of the defined benefits plans is 12.82 years.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(6) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	Impact on the defined benefit obligations	
	Increase %	Decrease %
December 31, 2023		
Discount Rate (Changes 0.25%)	(2.63)%	2.73 %
Future salary increase rate (Changes 0.25%)	2.66 %	(2.59)%
	Impact on the defined benefit obligations	
	Increase %	Decrease %
December 31, 2022		
Discount Rate (Changes 0.25%)	(2.82)%	2.97 %
Future salary increase rate (Changes 0.25%)	2.90 %	(2.77)%

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. In practical, the relevant actuarial assumptions are correlated to each other. The method used in the sensitivity analysis is consistent with the calculation on the net defined benefit liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of the sensitivity analysis for 2023 and 2022.

(ii) Defined contribution plans

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Company contributes a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligations.

The cost of the pension contributions to the Bureau of Labor Insurance for the years ended December 31, 2023 and 2022 amounted to \$7,345 and \$7,268, respectively.

(iii) Short-term Compensated absences liability

The Company's employee benefit liabilities were as follows:

	December 31, 2023	December 31, 2022
Compensated absences liability (recognized as other payables) \$	6,419	6,248

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(m) Income taxes

(i) The components of income tax in the years 2023 and 2022 were as follows:

	<u>2023</u>	<u>2022</u>
Current tax expense		
Current period	\$ 6,123	5,569
Adjustment of current income tax for prior years	(2,663)	1,569
	<u>3,460</u>	<u>7,138</u>
Deferred tax expense (income)		
Origination and reversal of temporary differences	(1,468)	3,531
Income tax expense	<u>\$ 1,992</u>	<u>10,669</u>

(ii) The gains on income tax recognized in other comprehensive income for the years 2023 and 2022 was as follows:

	<u>2023</u>	<u>2022</u>
Components of other comprehensive income that will not be reclassified to profit or loss:		
Remeasurement of defined benefit plans	\$ <u>25</u>	<u>493</u>

(iii) Income tax expense amounted to \$0 was recognized directly in equity for 2023 and 2022.

(iv) Reconciliation of income tax and profit before tax for 2023 and 2022 is as follows:

	<u>2023</u>	<u>2022</u>
Profit before tax	\$ 16,674	61,179
Income tax using the Company's domestic tax rate	3,335	12,235

Notes to the Financial Statements

(v) Deferred tax assets and liabilities

(1) Unrecognized deferred tax assets and liabilities

The entity is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2023 and 2022. Also, management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax assets and liabilities. Details are as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Unrecognized deferred tax liabilities:		
Aggregate amount of temporary differences related to investments in subsidiaries	\$ <u>298,157</u>	<u>274,351</u>
Unrecognized deferred tax assets: :		
Aggregate amount of temporary differences related to investments in subsidiaries	\$ <u>(28,872)</u>	<u>(23,725)</u>

(2) Recognized deferred income tax assets and liabilities

Items of deferred tax assets and liabilities for 2023 and 2022 were as follows:

	<u>Defined benefit plans</u>	<u>Unrealized exchange loss</u>	<u>Inventory valuation loss</u>	<u>Other</u>	<u>Total</u>
Deferred Tax Assets:					
Balance at January 1, 2023	\$ -	-	1,664	4,325	5,989

(vi) The Company's income tax returns for the years through 2021 were assessed by the tax authority.

(n) Capital and other equity

(i) Ordinary shares

As of December 31, 2023 and 2022, the authorized common stock of the Company were both \$3,000,000, comprising 300,000 thousand shares, with a par value of \$10 per share. The aggregate amount of the aforesaid authorized share capital was composed of ordinary shares only, and the issued shares were 1,577,978 and 1,577,332 thousand shares. All issued shares were paid up upon issuance.

For the year ended December 31, 2023, the convertible bonds issued by the Company amounting to \$646, were converted into 64 thousand shares of common stocks, the related registration procedures have been completed.

The Company issued 13,500 thousand shares on November 11, 2021 with a par value of \$10 per share, and reserve 15%, which consist of 2,025 thousand shares in accordance to article of incorporation, and employees of the Company are entitled to subscription. The number of shares gave up for subscription or under subscribed by employees should authorize the Chairman to contact a specific person to subscribe the shares. This capital increase was approved by the Competent Authority on December 24, 2021 and the relevant statutory registration procedures were completed with the base day set as May 31, 2022. The total proceeds from capital increase amounting to \$201,955, after deducting share capital amounting to \$135,000, the difference amounting to \$66,955 is accounted for as capital reserve.

(ii) Capital surplus

The components of capital surplus were as follows:

	December 31, 2023	December 31, 2022
Additional paid in capital	\$ 107,513	106,929
Treasury shares	33,451	33,451
Lapse of share options	8,781	8,781
Profit from donations accepted	656	656
Changes in a parent's ownership interest in a subsidiary	205	205
Share option –equity components recognized for convertible bonds issued	32,051	32,228
	<u>\$ 182,657</u>	<u>182,250</u>

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's articles of incorporation stipulate that 10% of annual net income after deducting an accumulated deficit, if any, must be retained as a legal reserve until such retention equals the amount of paid-in capital. In addition, a special reserve should be set aside in accordance with applicable laws and regulations. The remaining balance of the annual net income, together with unappropriated earnings from previous years, if any, can be distributed as dividends after the earnings distribution plan proposed by the Board of Directors is approved during the stockholders' meeting. The Company has adopted a balanced dividend policy, while taken into account of the capital surplus, retained earnings and future profitability. The cash dividend is distributed in the amount not less than 5% of the total cash and share dividend issued for the year. However, if future earnings and capitals are more abundant, the cash dividend distribution percentage should be increased.

To distribute dividends, bonuses, legal reserve and capital surplus in whole or in part to be paid in cash, the board of directors shall be attended by two-thirds of the total directors, and resolved by a majority notes at the board of directors, and report to the shareholders' meeting.

(1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

(2) Special reserve

In accordance with the guidelines of Financial Supervisory Commission, the difference between current-period earnings recognized under net reductions in shareholders' equity and undistributed prior-period earnings, from the current net income plus the other accounts beside current net income, including undistributed current earnings and the undistributed prior-period earnings should be appropriated to special reserve are recognized as reductions in other shareholders' equity accumulated from prior periods, should be appropriated to special reserve from undistributed prior-period earnings instead of being distributed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

(3) Earnings distribution

On March 9, 2023 the appropriation of the earnings for 2022 was resolved in the board meeting. On June 14, 2022, the appropriation of the earnings for 2021 was resolved in general meeting of shareholders. The relevant dividend distributions to shareholders were as follows:

Balance at January 1, 2022	\$ (140,066)
The Company	36,014
Balance at December 31, 2022	<u>\$ (104,052)</u>

(o) Share-based payment

As of December 31, 2022, share-based payment transactions of the Company are as follows:

	Cash injection reserved for employees
Grant date	111.4.6
Number of options granted (Unit: In thousand shares)	2,025,000
Contract term (days)	51
Recipients	Employee
Vesting conditions	Immediate vesting condition

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(i) Measurable parameter of fair value at grant date

The Company adopted the Black-Scholes model to evaluate the fair value of the share-based payments at the grant date. The assumptions adopted in this valuation model were as follows:

	<u>2022.12.31</u>
	Cash injection reserved for employees
Fair value at the grant date (NT dollars)	3.5567
Exercise price (NT dollars)	15
The expected life of the option (years)	51
Expected dividend	-
The risk-free rate (%)	0.32

(ii) The aforesaid information on the employee stock option was as follow:

	<u>2022.12.31</u>	
	Weighted average price (NT dollars)	Number of share options (units)
Outstanding at January 1	\$ -	-
Number of options granted during the year	15	2,025,000
Implemented during the year	15	(1,159,000)
Expired during the year	15	<u>(866,000)</u>
Outstanding at December 31		<u>-</u>
Exercisable at December 31		<u>-</u>

(iii) Employee expense

For the year ended December 31, 2022, the Company's recognized remuneration expenses amounting to \$7,202 thousand as a result of the cash capital increase for employees subscription, are accounted for as operating costs and operating expenses for the period. For the year ended December 31, 2023, there was no such transaction.

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(p) Earnings per share

The Company's basic and diluted earnings per share were calculated as follows:

	(In thousand of shares)	
	<u>2023</u>	<u>2022</u>
Basic earnings per share		
Profit attributable to ordinary shareholders of the Company	\$ <u>14,682</u>	<u>50,510</u>
Weighted-average number of ordinary shares outstanding	<u>157,755</u>	<u>152,148</u>
Basic earnings per share	\$ <u>0.09</u>	<u>0.33</u>
Diluted earnings per share		
Profit attributable to ordinary shareholders of the Company	14,682	50,510
Net tax on convertible bonds	<u>889</u>	<u>-</u>
Profit attributable to ordinary share holders of the company	\$ <u>157,755</u>	<u>50,510</u>
Weighted-average number of ordinary shares outstanding (basic)	157,755	152,148
Effect of employee remuneration	9	40
Convertible bonds	<u>11,743</u>	<u>-</u>
Weighted average number of ordinary shares outstanding (diluted)	<u>169,507</u>	<u>152,188</u>
Diluted earnings per share	\$ <u>0.09</u>	<u>0.33</u>

For the years 2022, the potential ordinary shares - convertible corporate bonds have an anti-dilutive effect, and hence they are not included in the calculation of the weighted average number of shares (diluted).

Please refer to Note 6(c) for the disclosure of trade receivable and the impairment.

(r) Employee compensation and directors' and supervisors' remuneration

The Company's article of incorporation requires that earnings shall first to be offset against any deficit, then, not fewer than 0.5% will be distributed as remuneration to its employees and no more than 3% to its directors. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

The Company estimated its remuneration to employees amounting to \$86 and \$314 and directors' and supervisors' remuneration amounting to \$342 and \$1,255 for years ended December 31, 2023 and 2022, respectively. The estimated amounts mentioned above are calculated based on the profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of the remuneration to employees and directors, as specified in the Company's article. These remunerations were expensed under operating costs or operating expenses during 2023 and 2022. If the actual amounts differ from the estimated amounts, the differences shall be accounted as changes in accounting estimates and recognized as profit or loss in the following year. If remuneration to employees is resolved to be distributed in stock, the number of shares is determined by dividing the amount of remuneration by the closing price of the shares (considering ex-dividend effect) on the day preceding the Board of Directors' meeting.

There is no difference between the amount of compensation to employee and directors recognized in the financial statements for 2023 and 2022 and the actual distribution. The related information is available on the Market observation Post System website.

	\$ <u>(13,221)</u>	<u>(10,502)</u>

(t) Financial instruments

(i) Credit risk

(1) The maximum exposure to credit risk

The carrying amount of financial assets represent the maximum amount exposed to credit risk.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(2) Concentration of credit risk

As sales are made to customers worldwide, the Company's exposure to credit risk concentration is expected to be low. To reduce credit risk, the Company continuously assesses the financial position of its customers, normally without a request for collateral.

(3) Credit risks of receivables and debt securities

For credit risk exposure of note and trade receivables, please refer to note 6(c).

Other financial assets carried at amortized costs included other receivables. All of these financial assets are considered to be low risk, and thus the impairment provision recognized during the period was limited to 12 months expected losses. (Please refer to Note 4(f) for the Company determines whether credit risk is to be low risk). There was no impairments or reversals for the years ended December 31, 2023 and 2022.

(ii) Liquidity risk

The following are the contractual maturities of financial liabilities, including the estimated interest payments and excluding the impact of netting agreements.

	<u>Carrying amounts</u>	<u>Cash flows</u>	<u>within 6months</u>	<u>6-12 months</u>	<u>1-2 years</u>	<u>2-5 years</u>	<u>Over 5 years</u>

	<u><u>\$ 947,089</u></u>	<u><u>961,728</u></u>	<u><u>675,941</u></u>	<u><u>21,650</u></u>	<u><u>42,709</u></u>	<u><u>221,428</u></u>	<u><u>-</u></u>

The Company does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(iii) Currency risk

(1) Exposure of foreign currency risk

The Company's significant exposure to foreign currency risk was as follows:

(Unit: currency in thousands)

	December 31, 2023			December 31, 2022		
	Foreign currency	Exchange rate	TWD	Foreign currency	Exchange rate	TWD
<u>Financial assets</u>						
<u>Monetary items</u>						
USD	\$ 13,091	30.705	401,951	10,520	30.71	323,063
HKD	1,092	3.929	4,287	2,895	3.938	11,402
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD	909	30.705	27,907	981	30.71	30,137

(2) Sensitivity analysis

The foreign currency risk mainly arose from the translation of cash and cash equivalents, trade receivable, financial assets at fair value through gain and loss, trade payable, and other payables. A strengthening (weakening) of 1% of the NTD against the USD and the HKD at December 31, 2023 and 2022, assuming that all other variables remain constant, would have increased or decreased the profit before tax by \$3,783 and \$3,043, respectively. The analysis assumes that all other variables remain constant and was performed on the same basis for both periods.

(3) Foreign exchange gains and losses on monetary items

The exchange rates and amounts of conversion gains and losses (including realized and unrealized) of monetary items of the Company converted into functional currency were as follows:

	2023		2022	
	Exchange gain (loss)	Exchange rate	Exchange gain (loss)	Exchange rate
TWD	\$ <u>6,668</u>	-	<u>51,238</u>	-

(iv) Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Company's financial assets and liabilities.

The following sensitivity analysis is based on the risk exposure to the interest rates risk of derivative and non-derivative financial instruments on the reporting date. Regarding liabilities with variable interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 0.5% when reporting to management

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

internally, which also represents the Company management's assessment of the reasonably possible interest rate change.

If the interest rate increases or decreases by 0.5%, the Company's profit before income tax will decrease /increase by \$3,045 and \$2,855 for the years ended December 31, 2023 and 2022, respectively, assuming all other variable factors remain constant. This is mainly due to the Company's variable rate bank borrowings.

(v) Other price risks

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows, assuming the analysis is based on the same basis for both years and assuming that all other variables considered in the analysis remain the same:

	2023		2022	
Prices of securities at the reporting date	Other comprehensive income after tax	Net income	Other comprehensive income after tax	Net income
3% increase	\$ -	2,669	-	1,434
3% decrease	\$ -	(2,669)	-	(1,434)

(vi) Fair value of financial instruments

(1) Types and fair value of financial instruments

The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, disclosure of fair value information is not required:

	December 31, 2023				
	Carrying Amount	Fair value			Total

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

The Company evaluates its assets and liabilities using the observable market inputs. The different inputs of levels of fair value hierarchy in determination of fair value are as follows:

Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

(2) Fair value valuation technique of financial instruments not measured at fair value

The Company's financial instruments not measured at fair value are financial assets and liabilities measured at amortized cost, except for the carrying amount of financial instruments that approximate their fair value due to their short maturities or future prices close to their carrying amounts; the methods and assumptions adopted for other financial instruments are as follows:

There is quoted price generated by transactions, the recent transaction price and quoted price data are used as the basis for fair value measurement. However, if no quoted prices are available, the discounted cash flows are used to estimate fair values. The fair value is determined by using valuation techniques and calculated as the discounting value of the estimated cash flows.

The liability component of the Company's convertible bond is estimated by valuation method. The fair value is evaluated based on the discounted cash flow.

(3) Valuation techniques for financial instruments measured at fair value

(3.1) Non-derivative instruments

Fair value measurement of financial instruments was based on quoted market prices if these prices were available in an active market. The quoted price of a financial instrument obtained from main exchanges and on-the-run bonds from Taipei Exchange can be used as a base to determine the fair value of the listed companies' equity instrument and debt instrument of the quoted price in an active market.

If a quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have a quoted price in an active market. Otherwise, the market is deemed to be inactive. In general, market with low trading volume or high bid ask spreads is an indication of a non active market.

The Open-end fund held by the Company are measured at fair value according to standard provision and conditions; the fair value is measured using the quoted price in an active market.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(3.2) Derivative financial instruments

Measurement of the fair value of derivative instruments is based on the valuation techniques that are generally accepted by the market participants. For instance, discount method or option pricing models. The right to buy back third convertible corporate debt of the Company was valued under the binomial tree method.

(4) Transfers between Level 1 and Level 3

The Company held an investment in equity of BRIM Biotechnology, Inc. , which is classified as financial assets at fair value through profit or loss. The fair values were \$15,016 thousand and \$43,064 thousand as of December 31, 2023 and 2022, respectively. The fair value of the investment was categorized as level 3 as of December 31, 2021, because the shares were not listed on the exchange market and there were no recent observable arm's length transactions in the shares. Because the equity shares of BRIM Biotechnology, Inc. is now listed on emerging stock board and thus have a published price quotation in an active market, the fair value measurement was transferred from Level 3 to Level 1 of the fair value hierarchy for the year ended December 31, 2022.

(5) Reconciliation of Level 3 fair values

	Financial assets at fair value through profit or loss
	Designation as at fair value through profit or loss (designated at initial recognition)
Balance at January 1, 2022	\$ 30,100
Transfers out of Level 3	(30,100)
Balance at December 31, 2022	<u><u>\$ -</u></u>

There was no transfer between the different levels of fair value hierarchy for the years ended December 31, 2023.

(u) Financial risk management

(i) Overview

The Company has exposures to the following risks from its financial instruments:

- (1) Credit risk
- (2) Liquidity risk
- (3) Market risk

The following likewise discusses the Company's exposure information, objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying financial statements.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(ii) Risk management framework

The Company's finance management department provides business services for the overall internal department. It sets the objectives, policies and processes for managing the risk and the methods used to measure the risk arising from both the domestic and international financial market operations. The Company minimizes the risk exposure through derivative financial instruments. The Board of Directors regulated the use of derivative financial instruments in accordance with the Company's policy about risks arising from financial instruments such as currency risk, interest rate risk, credit risk, the use of derivative and non-derivative financial instruments and the investments of excess liquidity. The Company has no transactions in financial instruments (including derivative financial instruments) for the purpose of speculation.

(iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, bank deposits and investments.

(1) Trade receivable

The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The review by the Company may include external ratings if available and verification from the bank. Purchase limits are established for each customer, and these limits are reviewed periodically. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company only on a prepayment basis.

(2) Bank deposits and investment

The credit risk exposure in the bank deposits and other financial instruments are measured and monitored by The Company's finance department. As the Company deals with the banks and other external parties with good credit standing and financial institutions, corporate organization and government agencies which are graded above investment level, management believes that the Company do not have compliance issues and no significant credit risk.

(3) Guarantees

The Company's policy provides only financial security to subsidiaries of more than 50% shareholding or entities engaged in transaction. As of December 31, 2023 and 2022, the Company's credit line of post-release duty payment provided by the bank were amounted to \$226,058 and \$226,065, respectively.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(iv) Liquidity risk

The Company manages and maintains sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Company's management supervises the banking facilities and ensures in compliance with the terms of the loan agreements.

Bank borrowing is an essential liquidity source for the Company. As of December 31, 2023 and 2022, the Company's unused credit line were amounted to \$762,500 and \$1,062,500, respectively.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Company income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return.

(1) Currency risk

The Company's exposure to the risk of fluctuation in foreign currency exchange rates relates primarily to the Company's sales and purchases that are denominated in a currency different from the functional currencies of the Company. The functional currency of the Company is mainly NTD. The currencies used in these transactions are denominated in NTD, USD, HKD, CNY and JPY. In addition, based on the principle of natural hedge and considering the foreign currency market status, the Company evaluates the requirement for individual foreign currency and the net currency exposure positions. (and the difference between foreign currency assets and liabilities)

Other monetary assets and liabilities denominated in foreign currencies are using the current exchange rates to maintain the net currency risk at the acceptable level.

(2) Interest rate risk

It is the policy of the Company to ensure that the interest rate of the borrowings is subject to fluctuation risk, to be assessed in the light of the international economic situation and market trend of interest rates and to select a floating or fixed interest rate when market interest rates rises. For one-year short-term borrowings, the assessment is adjusted to a fixed interest rate, while medium to long term borrowings are assessed to hedge risk by locking interest rate through interest rates swap.

(3) Other market price risks

Equity and fund price risk is the risk of future price uncertainty arising from equity instruments and funds held by the Company. The Company manages the price risk of equity instruments and funds by diverse investments and regularly understanding the financial position of the equity instruments and fund issuers.

(Continued)

JUNG SHING WIRE CO., LTD.
Notes to the Financial Statements

(v) Capital management

The Board's policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, capital surplus and retained earnings of the Company. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary stockholders.

The Company's debt to equity ratio at the reporting date was as follows:

	December 31, 2023	December 31, 2022
Total liabilities	\$ 1,028,484	1,026,826
Less: Cash and cash equivalents	200,081	233,115
