COMPEQ Competitive Advantages

Quality

Compliant worldwide recognized quality standard and certifications.
Quality management system prioritized to fulfill customer specifications.

Technology

Leading 20/20 μ m line and spacing substrate-like Anylayer with mSAP,
Wide range high end hybrid multilayers, unique flex and rigid flex boards.

ESG

Long term commitment to community, employee, suppliers, customers and investors.
Focus on labor rights, business ethic, energy saving, and environment protection.

Service

One-Stop Service, from design-for-manufacturing solution to field application support, worldwide service network to full product line include HDI, RPCB, RFPC, FPC to SMT.

Long term Partnership

Steady growth under the sustainable business philosophy.

Operation Revenue

PCB Market Trend

New applications for AI technologies, EV and ADAS drive demand growth quickly. Prismark announced the 2024 PCB market increase 5.8%, and 2025 will increase 6.1%.

The long-range forecast out to 2028 naturally comes with yet more uncertainty. Based on our expectations for electronics systems growth, the total PCB market should grow by 5.6% CAAGR
