Independent Auditors' Review Report

To the Board of Directors
Qisda Corporation:

Introduction

We have reviewed the accompanying consolidated balance sheets of Qisda Corporation and its subsidiaries as of June 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the consolidated statements of changes in equity and cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the Basis for Qualified Conclusion section, we conducted our reviews in accordance with Statement of Auditing Standard 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As described in Note 4(b) to the consolidated financial statements, the accompanying consolidated financial statements included the financial statements of certain non-significant subsidiaries, which were not reviewed by independent auditors. These financial statements reflect the total assets amounting to \$24,069,813 thousand and \$21,445,719 thousand, constituting 11.77% and 11.72% of the consolidated total assets; and the total liabilities amounting to \$8,382,452 thousand and \$8,515,151 thousand, constituting 5.79% and 7.01% of the consolidated total liabilities as of June 30, 2022 and 2021, respectively; and the total comprehensive income (loss) amounting to \$(716,654) thousand, \$114,245 thousand, \$(376,582) thousand and \$426,397 thousand, constituting 77.43%, 4.21%, 65.03% and 6.30% of the absolute value of consolidated total comprehensive income for the three months and six months then ended, respectively.

Furthermore, as described in Note 6(h) to the consolidated financial statements, the investments accounted for using the equity method amounted to \$2,001,642 thousand and \$1,010,313 thousand as of June 30, 2022 and 2021, respectively, and the share of profits (losses) of associates and joint ventures amounted to \$43,693 thousand, \$3,190 thousand, \$77,522 thousand and \$12,622 thousand for the three months and six months then ended, respectively. These amounts were based on the unreviewed financial statements of the investee companies.

Qualified Conclusion

Based on our reviews and the review reports of other auditors (please refer to Other Matter section), except for the adjustment, if any, as might have been determined to be necessary had the financial statements of certain non-significant consolidated subsidiaries and equity-method investments described in the Basis for Qualified Conclusion section been reviewed by independent auditors, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of Qisda Corporation and its subsidiaries as of June 30, 2022 and 2021, and their consolidated financial performance for the three months and six months then ended, as well as their consolidated cash flows for the six months then ended, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Other Matter

We did not review the financial statements of certain subsidiaries of Qisda Corporation and its subsidiaries. Those financial statements were reviewed by other auditors, whose review reports have been furnished to us, and our conclusion expressed herein, insofar as it relates to the amounts included in the consolidated financial statements relative to these subsidiaries, is based solely on the reports of other auditors. The financial statements of these subsidiaries reflect the total assets amounting to \$9,810,850 thousand and \$7,697,827 thousand, constituting 4.80% and 4.21% of the consolidated total assets as of June 30, 2022 and 2021, respectively, and the total operating revenue amounting to \$4,111,537 thousand, \$3,115,167 thousand, \$5,641,969 thousand and \$3,820,230 thousand, constituting 6.55%, 5.56%, 4.56% and 3.57% of the consolidated operating revenue for the three months and six months then ended, respectively.

The engagement partners on the reviews resulting in this independent auditors’ review report are Huei-Chen Chang and Wei-Ming Shih.

3. Application of new and revised accounting standards and interpretations

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. (“FSC”) which have already been adopted.

Notes to the Consolidated Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	The amendments aim to promote consistency in applying the standards by helping companies determine whether, in balance sheet, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.	January 1, 2023

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture”

(c) Employee benefits

The defined benefit pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year, adjusted for significant market fluctuations since that time, as well as significant curtailments, settlements, or other significant one-time events.

(d) Income taxes

The income tax expenses in the interim financial statements have been measured and disclosed in accordance with paragraph B12 of IAS 34 "Interim Financial Reporting".

Income tax expenses for an interim period are best estimated by multiplying pre-tax income for the interim reporting period by the effective annual tax rate as forecasted by the management. It is recognized fully as current tax expense for the current period.

When income tax expenses are recognized directly in equity or other comprehensive income in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases, the related amounts shall be measured based on the tax rates that have been enacted or substantively enacted at the time of the asset or liability is recovered or settled.

5. Critical accounting judgments and key sources of estimation uncertainty

The preparation of the consolidated financial statements in conformity with the Regulations and IAS 34 "Interim Financial Reporting" endorsed and issued into effect by FSC requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The equity-method was used to account for the Group's investments in AU, in which the Group holds less than 20% of the voting rights but has significant influence over AU as the chairman of the Company was elected as director and participates in the decision-making on the Board of AU before May 11, 2021. In the second quarter of 2022, the Company and its consolidated subsidiary, APV, invested the amount of \$734,676 in TCI Gene Inc. and acquired 23.43% ownership of TCI Gene Inc. The equity-method was used to account for the investments as the Group has significant influence over it.

1) Consideration transferred

On December 27, 2021, the Board of Directors of BMTC resolved to participate in the private offering of Concord Medical Co., Ltd. ("Concord") and acquired 25% of Concord's ownership. In addition, on January 20, 2022, BMTC acquired 15% of Concord's ownership through public tender offer. Accordingly, BMTC obtained 40% interests in Concord for \$190,000 and became the single largest shareholder. Although BMTC owned less than half of the voting rights of Concord, the remaining ownership was not concentrated within specific shareholders and there was no indication that all other shareholders exercised their votes collectively. As such, the Group can obtain more than half of the voting rights at Concord's shareholders' meeting and has control over Concord. Thereafter, Concord has been included in the Group's consolidated entities.

Concord is engaged in the trading of medical products, medical equipment leasing, and management consulting. The acquisition of Concord enables the Group to expand the business in medical management and sales channels for medical consumables and equipment, optimize the existing service in terms of medical care, and enhance the diversification of medical services.

QISDA CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The financial instruments at fair value through profit and loss and financial assets at fair value through other comprehensive income are measured at fair value on a recurring basis. The lease liabilities are not required to disclose the fair value. The table below analyzes financial instruments that are measured at fair value subsequent to initial recognition, grouped into Levels 1 to 3 based on the degree to which the fair value is observable. The different levels have been defined as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- c) Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

2) Valuation techniques and assumptions used in fair value measurement

a) Non-derivative financial instruments

The fair value of financial instruments traded in active liquid markets is determined with reference to quoted market prices.

For listed stock and open-end mutual funds with standard terms and conditions and traded in active markets. The fair value is based on quoted market prices.

Except for the abovementioned financial instruments traded in an active market, the fair value of other financial instruments are based on the valuation techniques or the quotation from counterparty. The fair value using valuation techniques refers to the current fair value of other financial instruments with similar conditions and characteristics, or using a discounted cash flow method, or other valuation techniques which include model calculating with observable market data at the reporting date.

(Continued)

QISDA CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

For the Group's financial instruments that are not traded in active markets, the fair values are determined as follows:

- The fair value of the Group's domestic emerging stock is determined based on the average stock price on the emerging market at the reporting date.
- Discounted cash flow model is used to estimate the fair value of contingent consideration arising from business combination. The contingent consideration is estimated based on the possibility of occurrence of amount to be paid and discounted to the present value.
- The fair value of privately held stock is estimated by using the market approach and is determined by reference to valuations of similar companies, net worth and recent operating activities. The significant unobservable inputs is primarily the liquidity discounts. No quantitative information is disclosed due to that the possible changes in liquidity discounts would not cause significant potential financial impact.

b) Derivative financial instruments

The fair value of derivative financial instruments is determined using the valuation techniques generally accepted by market participants. The fair value of foreign currency forward contracts and foreign exchange swaps contracts is usually determined by the forward exchange rate. Call and put options are measured based on appropriate option pricing model.

3) Transfers between levels of the fair value hierarchy
