      Gross Margin: 42.3%

      Net Income: NT$827 M

      EPS: NT$1.64

      EPS for Q1-Q3: NT$4.63, up 32% YoY

   5.2 2013 Q4 Company Guidance

Through new product development and portfolio diversification, Realtek is comparatively immune on the impact of seasonality in the past years. The overall penetration and market shares at PC/NB, tablet, smart phones, consumer, and portable devices are stable and keep gaining shares in the new field. The introduction of the 1st integrated 4k2k TV controller would be a catalyst for new business opportunity looking forward.
