The Directors have made an assessment of the Company's ability to continue as a going concern and are satisfied that the Company has adequate resources to continue in operational existence for 12 months from the date when these financial statements were approved.

In making this assessment, the Directors have considered a wide variety of emerging and current risks to the Company, as well as mitigation strategies that are in place. The Directors are not aware of any material uncertainties that may cast significant doubt on the Company's ability to continue

as a going concern, having taken into account the liquidity of the Company's investment portfolio and the Company's financial position in respect of its cash flows and borrowing facilities. Therefore, the financial statements have been prepared on a going concern basis.

## 3. Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's financial statements requires the Directors to make judgements, estimates and assumptions that affect the reported amounts recognised in the financial statements and disclosure of contingent liabilities. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods. The area requiring the most significant judgment is recognition and classification of unusual or special dividends received as either revenue or capital in nature. The estimates and underlying assumptions are reviewed on an ongoing basis.

## 4. Segmental Reporting

IFRS 13 requires an entity to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following classifications:

**Level 1** – valued using quoted prices in active markets for identical investments.

**Level 2** – valued using other significant observable inputs (including quoted prices for similar investments, interest rates, prepayments, credit risk, etc). There are no level 2 financial assets.

**Level 3** – valued using significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments). There are no level 3 financial assets.

All of the Company's investments are in quoted securities actively traded on recognised stock exchanges, with their fair value being determined by reference to their quoted bid prices at the reporting date and have therefore been determined as Level 1.

There were no transfers between levels in the period and as such no reconciliation between levels has been presented.
