Terminal Customers

The main supplier

嘉森塑胶

Competitive edge

- High extent of vertical integration of the group, with industrial chain spanning twisted copper and wiring materials, conducive to high quality and punctual delivery
- High visibility of the company's brand on the market, owning world-class customers
- Quality supply chain, securing grip on fluctuation in copper prices and suppliers
- Good and stable relationship with banks, which facilitates banking loans at low interest

Future Outlook

- Transferring into the car wire and medical wire and other safety and security industry market
- Strengthen risk management, to accommodate change of environment.
- Permanent business development
